Introduction

By

Dr. MOHAMMED SHAKEEL SHAMSI

B.A.M.S, M.D, PhD.

These are beautiful medical guidance & teachings from our Nabi   regarding uses of Quranic verses, Dua, natural herbs, food products, medicines, diseases, principles & etc under the heading of Tibb-e-Nabawi   (Medical Guidance of Nabi   ).

For example:

1. Taking medicine at one side of mouth
2. Putting medicine in nose
3. Not doing Hijamah on Wednesday
4. Getting infected with major skin diseases on Wednesday
5. Walking (movement of intestines) (you will get reference of it in lesson Sanna)
6. Principles of eating
7. Principles of drinking
8. Nazar (evil eye)
9. Sehar (Black magic) & much more. The reference you will get in the respected lessons.

For instance:

The doctor should have a proper knowledge of treatment method.

Narrated by Hazrat Amir Bin Shuaib   that Nabi   said “Whoever gives medical treatment with no prior knowledge of medicine will be responsible (for any harm done).

[Ibn Majah: 3595; Book. 31; English vol. 4; chapter. 31; Hadees. 3466]

Allah Ta’ala says in Chapter 2 (Surah) Baqarah verse no. 269 that I (Allah) teaches Hikmat (treatment) to whom, he is made to benefit the people greatly.

Scientific examples:

Eating & doing things with right hand:

Narrated by A’isha رضي الله عنها that Nabi   used to love to start doing things from the right side whenever possible, in performing ablution, putting on
his shoes & combing his hair. (Al-Ash’ath says Nabi ﷺ used to do so in all his affairs).

[Bukhari: 5380; Book. 70; English vol. 7; Book. 65; Hadees. 292]

Let’s see if science helps us in finding any answer to Why Muslims are asked to use their right hand more than the other. What could be the wisdom behind this?

Nabi ﷺ ate using His Right Hand Fingers & licked His Fingers after meals: -

Please read below the facts about it: -

If we start any new work or use new thing with right hand or right leg our approach of brain towards this act is left side of the brain means we initially use the left side of the brain for that act let see the scientific fact of left side & right side of the brain. & judge yourself the miracle of this Sunnah.

A new scientific research has proven that our hands (especially the right hand) have enzymes that are also present in our saliva. In simpler words, the digestive process actually begins with our fingers as they break down the food that we eat. A simple method to see the effects of our hands on digestive process are as follows: -

1. Take 2 bowls filled with plain water, now put right hand in one bowl & left hand in other for sometime & see for any changes in the water, you will see some water changes in both the bowls but more in right hand bowl, these changes are due to digestive enzymes present on our fingers.
2. Now put some vegetables in both the bowls & again dip the right & left hand in each bowl for sometime & see the changes on the vegetables, you will see that the vegetables gets softer more in right hand bowl means that our right hand has more active enzyme than left, so it is Sunnah to eat with right hand.
3. These enzymes help the digestive process & if we eat with spoon (etc) we lose the opportunity of the enzymes present on right fingers.
4. Also it is believed & proved that licking of right fingers after meals are good & beneficial for digestion & remember it is Sunnah & it is a well known proverb (saying) "fingers licking are good"!
**About Brain:**

As we know that science tells us that when we do exercise, it helps in keeping your body healthy. There are different types of exercises for every part of the body & if done over & over again, keeps that part more functional. Same goes with brain exercises, when you do them over & over again they help in developing connections in the brain. As there are two main lobes of the brain (Right & Left).

According to a research "The concept of right brain & left brain, thinking developed" that took place in the late 1960, by an American psycho biologist “Roger W Sperry”. He discovered that the human brain has two very different ways of thinking (functioning).

Please remember that the left lobe of brain acts on the movement of right side of the body & right lobe of brain acts on the movement of left side of the body (This is called as criss-cross system).

**Right side brain:**

*The right brain visualizes & processes information in an intuitive & simultaneous way, looking first at the whole picture & then the details. The right brain is referred to as the analog brain. It controls three-dimensional sense, creativity & artistic senses to allow us to function as humans.*

Means the right side brain is more active in imaginations (means to form a picture in the mind) about things or information in intuitive way (means instant understanding or inspirations without actual thinking) both function takes place at the same time. The right hemisphere is mainly in charge of spatial abilities (means doing work in steps), face recognition & processing music. It performs some maths, but only rough estimations & comparisons. The right brain also helps us to comprehend visual imagery & make sense of what we see. It plays an important role in language, particularly in interpreting context & a person’s tone.

**Left side Brain:**

The left brain verbalizes & processes information in an analytical & sequential way, looking first at the pieces then putting them together to get the whole. Sperry was awarded a Nobel Prize in 1981, although subsequent researches had shown things aren’t quite as polarized as once thought (nor as simple)."
Left brain is also referred to as the digital brain. It controls reading & writing, calculation & logical thinking. Means left brain is more active in expressing things in words & processes information by analyzing & examining work or things in proper order & do the work in regular way. In general, the left hemisphere is dominant in language: processing what you hear & handling most of the duties of speaking. It's also in charge of carrying out logic & exact mathematical computations. When you need to retrieve a fact, your left brain pulls it from your memory.

The brain's right hemisphere controls the muscles on the left side of the body, while the left hemisphere controls the muscles on the right side of the human body. When we blink the right eye, we use the left side of the brain because of the criss-cross wiring & due to this criss-cross wiring damage to one side of the brain affects the opposite side of the body.
So to conclude when we use more the right hand it gives more exercises to left side of the brain making it & its functions stronger & eating & etc is Sunnah with right hand & remember we use both hands equally while offering Salah. This is beauty of Sunnah of our Nabi ﷺ.

And it is Sunnah of Nabi ﷺ to start a good work with right hand by this we activate the left side brain & left side of brain is more active & powerful in analysis, logical thinking, doing work in proper order in regular way & etc. So by starting a good work with right hand or right leg helps us in positive response of brain.

The right handed person use their left side brain more & left handed person use their right side of the brain more, so right handed person are more logical, linear, good at maths, calculation, language learning, good at words, do thing in order in regular way by mostly analyzing the work better, has good hand writing.

The left handed person are more creative, think holistic (means taking in consideration of all aspects), good at arts & work skill, better in visualizing, rhythmic, have mostly bad hand writing & work step by step.

Medical guidance & teachings of Nabi ﷺ was & is neglected by us, we perform many Sunnah of our Nabi ﷺ except Sunnah of treatment, eating & uses of food products as treatment. Sahabah paid a lot of importance to medical Sunnah of Nabi ﷺ, & learnt, taught & performed the respected Sunnah.

Allah Ta’ala had taught principles of treatment to our Nabi ﷺ, for the whole world, but we do not learn them nor perform them. It is not like this, that we do not believe on them but we do not pay importance to them, nor do we know them. Sahabah were very well versed with medical Sunnah of Nabi ﷺ & perform them & got great success in treating themselves & others.

This science is called as Tibb-e-Nabawi ﷺ there are beautiful descriptions & guidance about diseases, to which modern medical science has yet not understood & discovered.
Dear respected READERS! We should make these Sunnah of treatment alive, as they very well deserve to be. These Sunnah are forgotten & neglected ones, to which we need to bring awareness. The reward for this work will be unimaginable.

Sahabah learnt these Sunnah very well & did people coming after Sahabah & so on, but in between we forgot these Sunnah & today our generation is very far from these. Please join the mission of making these Sunnah alive so that WE all will be benefitted, as Sahabah use to get. Nabi ﷺ & Sahabah used these Sunnah of treatment, & the patients use to get well immediately or sooner than what we do in today’s era.

**How to use this book**

1. Read one page daily of this Book as today’s lesson & one page of previous day’s lesson or please read one chapter a week, means read the same chapter again & again daily for a week, so that you can learn the lesson, perform & teach others.

2. Best read the book in company of whole family, fix one time & read daily one page or little more. Teach & explain to your children about it. See that your children understand the lessons properly.

3. It may take some time to understand & learn the language; slowly you will find them easy. The Arabic words & English words, in bracket which are given in the middle of the Hadees English translation, are the words given in the respected Hadees, they are to make you understand & pronounce the words properly & to get the correct idea what is mentioned in the Hadees. The translation work is done in such manner that it does not change the meaning, order & way of the respected Hadees. So for this reason you may find it little difficult & confusing, but daily reading will make it easy. Try to bring the respected Sunnah in your life & habits as well.

4. The book is in three parts, part-1 is regarding use of herbs, food items & etc; part-2 is regarding diseases & part-3 is a work book to which you need to solve the questions from the respected lessons you learn.
The causes for many diseases are mainly due to Nazar (evil eye), Sehar (Black magic), mischief of jinns, destiny, bad habits & etc.

Nabi use to treat diseases of soul, body, mind & etc (all), & paid a lot of importance to Dua (supplications), Ruqyah, uses of herbs, meals, natural products, diet, Salah & etc to be used for treatment. (Ruqyah is spiritual healing using Quranic verses & Dua, please refer lesson no. 60 & above to know about it).

Ruqyah & Dua comes at first place followed by other ways of treatment; today we have lost the importance & guidance about Dua & Ruqyah completely, we think to take medicines & go to a doctor first, we do not realize that, our Nabi taught us to do treatment with Dua, Ruqyah, food, herbs & etc.

There are many diseases to which modern medical system FAILS to treat effectively, the reason is that they try to treat all diseases with medicines only, & do not know about Nazar (evil eye), Sehar (Black magic), mischief of jinns etc, nor they do not know the sign & symptoms. But the respected Nabi & Sahabah knew the sign & symptoms, diagnosis & treatment of the above said.

Our children suddenly fell ill or many times the patient’s all the reports appears to be normal, doctors say the patient has nothing except he is suffering from psychological problems, but actually they suffer from Nazar (evil eye) or Sehar (Black magic) or mischief of jinn or else. Or we back-bite about others, this give raise to digestive system diseases to which no modern methods can diagnose with any tools or methods (Its mentioned in Hadees that anyone who back-bites about others, he eats meat of his own dead brother) (By this we get many digestive diseases).

We can easily get affected with the above, anytime, any age, anywhere, any place & any season. But do not worry the treatment for the same is easy & has Barkat & complete cure in it. (The treatment are given in respected lessons)

Please read my lessons No. 60 to 67 in part-1 first (about Ruqyah (spiritual healing) Nazar & their treatment). There is a complete detail given about Sehar (Black magic), Nazar (evil eye), Ruqyah & their treatment. Also questions & answers are given regarding Ruqyah; also you will find Quranic Ruqyah text in Quranic fonts.
Lastly please participate to distribute this book in the whole world, also teach others & please do read & learn the lessons daily (a small part of it in your homes) in company of all family members especially ladies & children so that our new generation should know this science from childhood.

Also if anyone of you wishes to distribute this book for free can contact me on my email. My address & email etc all are given in later page.

The aim of this book is to spread the medical science of our Nabi ﷺ among Muslims & other religion people so that the new generation will be well versed with it.

In future we can start short courses on Tibb-e-Nabawi ﷺ after S.S.C or H.S.C or after medical graduation courses.

About the Author

After completing my studies, I joined my father’s business soon, because I was the eldest son, I was Al-Hamdu lillah very good at studies. I always wanted to be a doctor & serve people & work on Tibb-e-Nabawi (Prophet ﷺ’s medical science). I use to always study medical science privately, though I was in business.

I quit from my business at the age of 36 years old & got admission in Dr. D.Y. Patil college of Ayurveda & Research Institute, Nerul, (Navi Mumbai), to complete my graduation & to become a doctor.

I got passed in all classes in first attempt, with good ranks, I completed my graduation in 2012, at the age of 41 years old, than I completed my post graduation in 2013, in alternative medicine, from Nature Cure Institute, International Council for Complimentary Medicine, Lucknow, than completed PhD in Alternative Medicine in 2014, from Calcutta University.

I am, Al-Hamdulillah, DOCTOR OF MEDICINE (M.D), & DOCTOR OF PHILOSOPHY (PhD), currently doing my own practice, family physician & surgeon, consultant of chronic diseases, medical counselor, medical lecturer, writer & medical tutor for final year medical students all subjects & most important working on Tibb-e-Nabawi ﷺ to bring awareness.

I started reading Tibb-e-Nabawi ﷺ (medical science of Prophet ﷺ) at the age of 20 years, at that time no Tibb-e-Nabawi ﷺ book (medical science of
Prophet ﷺ was available in English, I read Tibb-e-Nabawi ﷺ which was available only in Urdu, I was from English medium school & college & completed all my studies in English, so because of this I could not understand Tibb-e-Nabawi ﷺ properly, & felt that if, Tibb-e-Nabawi ﷺ would be in English, I could have understood it much better.

So I felt an obligation to learn it & work on it & write a book on it in English language so that all English knowing people can understand it easily & properly.

About Tibb-e-Nabawi ﷺ & the Book

Introduction: -

It is a medical science of the Last Prophet Muhammad ﷺ of Allah Ta’ala in English. Medical knowledge was also provided from Allah Ta’ala to Him ﷺ.

This Book is in three parts, part-1 is regarding uses of herbs, fruits, vegetables, plants, grains, Ruqyah, evil eye, black magic & some habits of Nabi ﷺ & part-2 is about diseases & their treatment which are mentioned in Hadees & part-3 is a work book, you need to answer questions.

I started to write this book part 1 & 2 from 4th October 2013 & completed the Book part 1 & 2 on 15th March 2016.
In the book, in Nabi guidance section, in the Hadees English translation, the Arabic words given in bracket are the words mentioned in respected Hadees. (Please do not get confused).

**Principle:**
Tibb-e-Nabawi is mostly based on recitation of Ruqyah (Islamic spiritual treatment for evil eye, black magic & etc) & uses of herbs, fruits, vegetables, natural food products, eating habits, Salah, Dua, Quranic verses, Allah Ta’ala’s names, drinking habits, ethics & diseases & their treatment.

**Rule:**
1. All diseases are curable.  
   \[Bukhari: 5678; Book. 76\]
2. Belief in Allah Ta’ala.
3. Follow Prophet’s way & guidance.
4. Use herbs, fruits, vegetables, special Dua, Ruqyah, Quranic verses, Names of Allah Ta’ala.

**Knowledge:**
This is based on collection & study of Prophet’s teachings, guidance & Hadees (means saying, teachings, talks & etc of Prophet).

**References:**
**Famous & authentic Books of Hadees like:** Bukhari, Muslim, Tirmizi, Abu Dawud, Abu Nu-aim, Ibn Ma-jah, Musnad Ahmed, Musnad Firdous, Tabraani, Kanz al-Ummal, Baihaqi, Mustadrak Al Hakim, Tibbe Nabawi (Al-Jawzi), Shaobul Imaan, Musannaf Abdur Razzaq, Shamaa’il Muhammadiyah, & etc.

**Other references:**
My work is mostly based on famous books of Hadees as mentioned above & Tibb-e-Nabawi by Imam Ibn Qayyim Al- Jauziyah, Islamic medicine by Yusuf Al-Hajj Ahmad, Tibb-e-Nabawi & Jadid science by Dr. Khalid Ganznawi, Plants of Quran by Dr. M. Iqtedar Farooqi, Book of Sunnah by E.M.H.Salejee & etc.

**Authenticity:**
On 2\textsuperscript{nd} May, 2015 at 12.00 pm I met with \textbf{Mr. Rafiq Dudhwala} founder of \textbf{DEENIYAT}, at \textbf{Idara-e-Deeniyat}, opp. Maharashtra College, Bellasis road, Mumbai Central, Mumbai 400008. (I went to \textbf{Mr. Rafiq Dudhwala} with reference of \textbf{Mr. Altaf bhai} Gulshan Printing Press) regarding my book, he saw the presentation properly & pointed out my mistakes, like I had not mentioned the Hadees numbers, means I had only mentioned names of the books from which the references are taken. He also asked to recheck the Hadees from the original text book of Hadees, The Saheeh Sittah means the 6 authentic books of Hadees & also other books. I realized that it was very important to recheck the Hadees & etc. & further said your work should be checked by the Best Aalims who has done post graduation & PhD & is well versed in Hadees work.

I again started reading, confirming & putting the references of the Hadees on 6-5-2015, from the respected books of Hadees like Bukhari, Muslim, Abu Dawud, An-Nasa’i, Ibn Ma-jah, Tabraani, Musnad Ahmed, Musnad Firdous & etc & we also used software (الكتبةالشاملة) Al-Maktaba Al-Shamilah to find the references & completed the search on 30-09-2015.

\textbf{Maulana Arshad Jamil Nadwi} (An Aalim) & \textbf{Maulana Abdul Matin} (An Aalim) also took the task of searching, checking, putting the reference of the respected Hadees. The designing work was done by \textbf{Maulana Arshad Jamil Nadwi} (An Aalim) well verse in this work (He is like my Son).

\textbf{Points: -}

Tibb-e-Nabawi ☲ was & is presently neglected by all class of people. Since many years no proper compilation work was done in English in India that could give a proper basic knowledge of Prophet ☲’s science, with proper order, with Prophet ☲’s Hadees separately, & experiences & comments of scholars separately. (Means mentioned in separate Columns).

Scholars experience should not be neglected but at the same time should be mentioned under separate heading & should not be mixed with Prophet ☲’s guidance & Hadees, so that the readers do not get puzzled & should get a clear idea what is mentioned by Prophet ☲ & what are scholars experiences.
Tibb-e-Nabawi (Prophet’s medical science) is currently not present in our practical life, means we do not follow it due to ignorance, lack of awareness & lack of knowledge, (since many years for unknown reason).

Today our eating habits do not match with Prophet’s eating habits & nor medical science knows about it; we do not know about the favorite dishes of Prophet, nor do we follow the medical science of Prophet.

The respected Medical science of Prophet is sent by Allah Ta’ala to His Prophet Muhammad for the benefit of whole world, but we neglect & ignore it.

In 2015, I was 44 years old, I use to read Tibb-e-Nabawi (Books on medical science of Nabi) since 20 years of age, I use to get puzzled & did not had a clear idea what was Prophet’s guidance & teachings, & what were scholar’s guidance & teachings.

So this made me to do, a compilation work on Tibb-e-Nabawi (Prophet’s medical science) to bring awareness about it & remove the negligence.

Actually, my work is like a postman’s work, means my job is to deliver the message of Prophet’s medical science to people in easy language & better understanding with clear & authentic references.

My work is only a compilation work, in systematic order & proper manner. May, Allah Ta’ala guide me in the best way in my work & duty, to do it in such a way that it is easy for the whole world & beneficial to all.

**About Hadees Books: -**

All the author of the books like *Bukhari, Muslim, Abu Dawud* & etc had done a beautiful piece of work by setting the Hadees in different chapter, with proper topics, grouping & etc. By their work only our work is possible. How much difficulty they must have suffered, Allah only knows & may Allah reward them all handsomely.

**Thanks to: -**

First of all I would like to thanks Allah Ta’ala for letting me to do this work, may Allah Ta’ala make it a success (Aameen) than thanks to Nabi from the bottom of my heart for His devotion & Hardships & Grants. I would like to thank all Sahabah for their hardship & work for Islam, than all the people after them.
Also thanks to the author of Bukhari, Muslim, Abu Dawud, Ibn Ma-jah, An-Nasa’i, Tirmizi & etc for their work in the field of Hadees, by their work only it makes us easy to work on Hadees.

Also thanks to Mufti Dr. Javed Ali, Mufti Shoaib, Mufti Ajmal, Maulana Saad, Maulana Arshad Jamil, Maulana Abdul Matin, Abdul Aziz, Altaf bhai, Rafiq Dudhwala, Taha, Abdul Matin, my parents, my family & all friends & well wishers & my wife for helping me in my writing work. Without all above it would be impossible to write this book. Also special thanks to Mrs. Shujauddin Qureshi for her help in prove reading & Hadees checking work.

**Details about the Hadees Books**

**Bukhari: -**

There are 7563 Hadees in Sahih Bukhari with repetitions & (Without repetitions however, the total number of Hadees are around 2,600) & it is divided in 97 part (Books). Each part (book) has many chapters. It is compiled by Abu Abdullah Imam Muhammad Al-Bukhari (ra) (d. 256 AH/870 AD) He is known as the Amīr al-Mu'minīn in the field of Hadees. He was born on the day of Jumma (Friday) the 13th of Shawwāl 194 (A.H.). His father passed away in his childhood. At the age of sixteen after having memorized the compiled books of Imām Wakīy & Abdullāh Ibn Mubārak, he performed Hajj with his elder brother & mother. After the completion of Hajj he remained in Makkah for a further two years & upon reaching the age of eighteen headed for Madīnah, for compiling the books "Qadhāyas-Sahābah wa at-Tābi‘īn" & "Tārikh al-Kabīr." Imām al-Bukhārī also travelled to other key centers of Arabia in search of knowledge like Syria, Egypt, Kufa, Basra & Baghdad.

Imām Bukhārī first started listening & learning Hadees in 205 A.H. & after getting benefitted from the Ul-mas (scholars) of his town he started his travels in 210 A.H. His memory was considered to be one of a kind; after listening to a Hadees he would repeat it from memory. It has been known that in his childhood he had memorized 2,000 Hadees. There are many Books compiled by him, it took a period of 16 years to gather the Hadees & to write the Sahih Bukhari, which sets the date back to 217 A.H. in which he started the compilation; Imām Al-Bukhārī (ra) being merely 23 years of age. Before he actually placed a Hadees in his compilation he performed...
ghusl (bath) & prayed two Rak‘ah nafl & did Dua asking Allah for guidance. He finalized each Hadees in the rawdah of Masjid An-Nabawi (between the Prophet’s grave & his mimbar) & wrote the Hadees in the masjid. Only after being completely satisfied with a Hadees he uses to place it in his collection.

Imām Muslim travelled widely to collect Hadees in Arabia, Egypt, Syria & Iraq; he came into contact with Imām Al-Bukhari & was impressed with Imām Al-Bukhārī’s knowledge, & he kept himself attached to him up to the end of his life.

which was a famous centre for Islamic knowledge where many Ulama were situated & studies in Hadees & fiqh was at its peak.  

In Makkah he passed away at the age of 88 on Monday 13th of Safar 303 AH in the holy city near the Ka’ba & he was buried between Safa & Marwa.

**Tirmizi:**

Jāmi` At-Tirmizi is a collection of Hadees compiled by Imām Abu `Isa Muhammad At-Tirmizi (ra). His collection is unanimously considered to be one of the six canonical collections of Hadees (Kutub as-Sittah) of the Sunnah of Nabi ﷺ (It contains nearly 3956 Hadees with repetitions in 49 Books (parts). His name is Abū Īsa Muḥammad Ibn Īsa Ibn Sawrah Ibn Mūsa Ibn Al Ḍaḥḥāk Al-Sulamī Al-Tirmizi (209-279 AH/824–892 AD). Imam At-Tirmizi was born in the year 209 A.H. during the reign of Abbasid Khalifa Ma’munal-Rashid.

Imam Tirmizi dedicated his life totally towards the field of Hadees. He obtained his basic knowledge at home & later travelled far lands in search of knowledge; he studied Hadees under great personalities such as Imam Al-Bukhari, Imam Muslim & Imam Abu Dawud. Once Imam Al-Bukhari said to him **"I got benefited more from you than you got benefitted from me."** In the year 279 A.H. in a village called Bawag at the age of 70 years he passed away.

All the above Imaams worked very hard in the field of Hadees collection & compilation, only Allah Ta’ala can reward them for their work.

Nabi  replied: ‘Seek treatment, O slaves of Allah! For Allah does not create any disease but He also creates with it the cure, except for old age.’ They asked, Oh! **How to talk to an unknown or Qalb diseased person:**

1. **Chapter (Sura) 33 Al-Ahzab, verse (Ayah) No. 32:**

   نِسَّاءَّ النَّبِي َّمَّ كَّأَّحَّد مَِّ النِسَّاءِ اٰتَّقَّيْتُ فَّلَّتَضَعْنَ بِِلْقَّوْلِ فَّيَّطْمَّعَ ذِي قَلْبِهِ مَّرَّضَوَلْتَ قَّوْلًا مَّعْرُوفًا

   **Translation:** O wives of Nabi! You are not like the other women: if you fear Allah, then you should not be complaisant while talking to the men who are not closely related to you, lest the one in whose Qalb (heart) is a disease may thereby be encouraged (desire) & speak using suitable good words.

   *(Because they are having QALB disease their desire may get provoked by very soft speech).*

2. **Chapter 24 (Sura) An-Noor, verse (Ayah) No. 61:**

   لَيْس عَََّّ عَّْْى الْأَّحَّرَجَ وَّلَّ عَََّّ عْرَّجِ الْأَّحَّرَجَ وَّلَّ عَََّّ الْمَّرِيضِ حَّرَّج

   **Translation:** There is no blame on the blind, nor there is blame on the lame, nor there blame on the sick to eat at your table.

3. **Chapter (Sura) 2 Al-Baqara, verse (Ayah) No. 184:**

   فَََّّنْ كََّنَّ مِنْكُْ مَّرِيضًا وَأَّعَّى سَفَّر فَّعِد َّمِْ ي َّم أأَّ خَّرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ أأُ خَرَّ A

   **Translation:** Fast the prescribed number of days; except if any of you is ill or on a journey, let him fast a similar number of days later. For those who cannot endure it for medical reasons, there is a ransom: the feeding of one poor person for each missed day. But if he feeds more of his own free will, it is better for him. However, if you truly understand the rationale of fasting, it is better for you to fast.
Illness during Hajj or Umrah:

4. Chapter (Sura) 2 Al-Baqara, verse no. Ayah 196:

فَََّّنْ كََّنَّ مِنْكُْ مَّرِيضًا أوْ أَيْثًَى مِّنْ رَأسِهِ قَدْيِهِ مِّنْ صِيَامِ أوْ صَدَقَةٌ أوْ نُشُكٌ

**Translation:** Complete the Hajj (obligatory pilgrimage to Makkah) & the Umrah (optional visit to Makkah) for the sake of Allah. If you are prevented from proceeding then send such offering for sacrifice as you can afford & do not shave your head until the offerings have reached their destiny. But if any of you is ill or has an ailment in his scalp which necessitates shaving, he must pay ransom either by fasting or feeding the poor or offering a sacrifice. If in peacetime anyone wants to take the advantage of performing Umrah & Hajj together, he should make an offering which he can afford; but if he lacks the means, let him fast three days during the Hajj & seven days on his return making ten days in all. This order is for the one whose household is not in the precincts of the Sacred Mosque (Masjid). Fear Allah & know that Allah is strict in retribution.

About Tayammum:

5. Chapter (Surah) 4 An-Nisaa, verse (Ayah) 43:

وَّا كُنْتُمْ مَّرْضَّيَ أوْ عَلَى سَقُرُ أوَّ جَاءَ أَحَدُ مِنْكُمْ مِّنْ الْغَائِطِ أوْ لَا كُنْتُمْ الْبَيْسَاءَ فَلَّمَّا تَقَدَّمُوا مَثَلًا فَتَقَيَّمُوا صَيَدًا طَيِّبًا

**Translation:** O believers! Do not offer your Salah when you are drunk until you know what you are saying; nor after seminal emission, except when you are travelling, unless you wash your whole body. If you are sick, or on a journey, or one of you has used the toilet, or has had contact with women (sexual relation with wives) & can find no water, then make Tayammum: take some clean earth & rub your faces & hands with it. Allah is Lenient, Forgiving.

**A research report on uses of Allah’s Names & Quranic verses:**
The scientist **Masaru Emoto** & his team of Japan found out that, the Muslims recite **BISMILLAH** before eating/drinking. He says that after saying (reciting) **BISMILLAH** on regular water, some positive changes occur in the quality of regular water. That makes it the best water.

**Masaru Emoto** said: "My Muslim colleague offered to recite Quranic verses over the water. He brought a tape-recorder & played some Quranic verses & we got the most perfectly-shaped crystals. Then he played the 99 names of Allah Ta’ala. Each name produced a uniquely-shaped crystal.

He also found out that if someone recites the Quran on regular water, it gets the ability for the treatment of different diseases.

*(Please refer lesson no. 37 Zamzam for more details).*

**Question & Answer regarding uses of inhalers in Ramzaan / Fasting:**

**Answers given by General Supervisor: Shaikh Muhammad Saalih Al-Munajjid & Shaikh Muhammad Ibn Saalih Al-'Uthaymeen.**

**Question:** Is it permissible to use a nasal spray that contains a percentage of alcohol? Does it break the fast for one who is fasting? I have an allergy to dust that causes me to sneeze continually (as much as 60 sneezes in succession). The doctor has prescribed for me medicine in a spray that contains 0.25% of alcohol. I only use this medicine in urgent cases, but I do not know whether it is permissible for me to use this medicine or not. & what is the ruling on using it in Ramzaan in particular?

**Answer:** We inform you that there is nothing wrong with using this medicine that contains that percentage of alcohol, which is very low & is dissolved in the medicine & there is no apparent trace of it, so it does not come under the ruling prohibiting alcohol. We have quoted the fatwas of the scholars concerning that. Using sprays for allergies does not invalidate the fast according to the correct opinion, whether they are administered through the nose or through the mouth, as they are in the form of vapour & do not contain any solid matter that enters the stomach.
**Question:** I have an allergy that affects my nose & I use a nasal spray to treat it. If I do not use it, it causes me great difficulty in breathing & I cannot do without the medicine for more than three hours. If I do not use it, it will make breathing very difficult. The problem is that the month of Ramzaan is coming & I use this medicine & am afraid it will affect my fast, but if I stop using it I cannot cope. Please note that on some days in Ramzaan, I did use it but I am very careful to prevent it from reaching my throat. What is the ruling on that? & what is the ruling on using it?

**Answer:** The spray that you are using is like a kind of gas because it is dispersed in the air & does not reach the stomach. As that is the case, we say that there is nothing wrong with using this spray when you are fasting & you are not breaking the fast by doing that because – as we have said – no part of it reaches the stomach because it is something that is dispersed in the air & disappears & no particle of it reaches the stomach such that we could say that it is something that breaks the fast. So it is permissible for you to use it when you are fasting.

[Fataawa Noor ‘ala al-Darb, tape. 44]

Dear members these above are the principles of treatment, we know how many principles we follow. Bring the above principles in your treatment plans during illness & Inshaallah all diseases will be curable.
And We send down of the Quran that which is a healing and a mercy to those who believe… (Quran, Surah Al-Israa, 17:82)

“And if Allah touches you with harm, none can remove it but He, and if He touches you with good, then He is Able to do all things” [Surah Al-AnAam, 6:17]

About Tayammum: -

8. Chapter (Sura) 4 An-Nisaa, verse no. (Ayah) 43: -

If you are sick, or on a journey, or one of you has used the toilet, or has had contact with women (sexual relation with wives) & can find no water, then make Tayammum: take some clean earth & rub your faces & hands with it. Classification of disease

1. Physical diseases
2. Psychological diseases
3. Spiritual diseases (soul diseases)

**Physical diseases:** (Bodily diseases) are diseases of body parts like organs, blood, bones, hair, skin etc. in it both anatomical & physiological diseases are included.

**Psychological diseases:** (Diseases of Qalb) are diseases of mind, (according to Islam) doubt, error in thoughts, lust & desire are the major psychological diseases. (Also excessive liking of money, forgetfulness of Allah Ta'ala are among diseases).

**Spiritual diseases:** (Diseases of soul) are envy, jealously, enemetic feelings (dushmani), ego (takabbur) etc.

**Points**

- We should seek treatment for all the above types of diseases. We are mostly concern only about physical diseases & health, & neglect the psychological & spiritual diseases.
- In Quran & Hadees we get references of diseases & their treatment with herbs, water, honey, Quranic verses, Dua, Ruqyah & etc.
- These are for us; we rely on doctors only, though doctors only know about physical & some psychological diseases & do not know about spiritual diseases.
- Let's not neglect any more, life is too short, we & our new generation is completely ignorant about treatment principles of Nabi ﷺ nor do we try to learn it.
We should have special courses designed, so that we all can learn & teach the principles of Nabi ﷺ & get enlightened with Barkat of Sunnah.

Nabi ﷺ used Ruqyah or Dua to get cure, also taught us to do the same, there are many Hadees about using Ruqyah & Dua as treatment, means they use to get cure by Allah’s will with Ruqyah or Dua only.

Sahabah were well versed with the principles of treatment of Nabi ﷺ & got great success in this field.

We lack for the knowledge of the medical science of our Nabi ﷺ & are suffering a lot.

Scientific benefits of water melon: -
Science & Hadees regarding melons: 

Melons are one of the best recommendations for health Nabi ﷺ has given us. Melons are one of the fruits rich in both vitamin C & Beta-Carotene. In addition, half a melon contains 825 milligrams of potassium (24% of the USRDA). The body uses potassium to help eliminate excessive sodium, which in large amounts can cause blood pressure to rise. In fact, in an international study of more than 10,000 people, researchers found that those with the highest potassium levels had the lowest blood pressures. In addition, potassium helps keep the body’s LDL (dangerous cholesterol) from sticking to the arterial walls.

Melons also provide nutrient called folate, vitamin B complex, which is essential in combating birth defects & heart diseases. “Prevention’s New Foods for Healing guide” mentions a study of almost 4,000 mothers that revealed that those who got enough folate were 60% less likely to have children with brain & spinal cord defects. Additionally, men get benefit from folate too. It controls the levels of a chemical called "homocysteine" in the body, which when allowed existing in excess can contribute to artery clotting & thus heart disease.
**Watermelon & Dates together:**

Match the nutrition of both & judge both are opposite to each other & both in combination make a perfect nutrition. This is miracle of Sunnah of Prophet ﷺ eating both together.

paradise (Jannah) I would say this is it, because the paradisiacal fruits do not
have pit, eat from these fruits for they prevent hemorrhoids (piles) & help gout"
(Arthritis).

Figs are a top source of fiber, as well as potassium & vitamin B6. Fiber results in
bulkier stools, which lessen the incidence of constipation, hemorrhoids & colon
(large intestine) cancer. Fiber also lowers cholesterol & the risk of heart disease.

Just one fig provides 20% of the (USRDA) fiber. A Harvard University study of
43,757 men of 40 to 75 age were found that those who got the most fiber had
about half the risk of getting a heart attack as those who got the
least. Furthermore, men who add 10 grams of fiber a day to their diet
(6 figs) lowered their incidence of heart disease by 30%.

Conclusion of Hadees:

1. Figs are from Jannah & are dry fruits of Jannah. Recite Chapter 94 (Sura) Teen
   In Esha Salah. It cures Piles & Arthritis.  ..........This lesson has 4 Hadees.........

Science & Hadees regarding pomegranate:

Hadees says that pomegranate enlightens the Qalb (heart), this is clinically proven that it is beneficial for heart disease. Pomegranate juice or pomegranates are under research for healing heart disease, risk factors including reduce in LDL.

Including LDL oxidation, macrophage oxidative status & foam cell formation. In a limited study of hypertensive (blood pressure) patients, consumption of pomegranate juice for two weeks was shown to reduce systolic blood pressure by inhibiting serum angiotensin-converting enzyme (ACE inhibitor). It has sugars, Vitamin C & Iron from fruit juice, Tannic acid from rind & alkaloid pelletierine from bark.

As Hadees mentions that it has an element of Jannah, this is only said for pomegranate fruits only, it is yet to research what chemical that might be, but it has miraculous results in treatment. & WE ALL should use them, they are rich in fibers thus cleans the digestive system. It kills bacteria also. Its outer skin & internal coating are very beneficial for health, especially its skin when boiled in water, this water helps in stopping loose motions.

The major class of phytochemical present in pomegranate is the polyphenols & includes flavonoids, condensed tannins & hydrolysable tannins. Hydrolysable tannins are predominant polyphenols found in pomegranate juice & account for 92% of its antioxidant activity. Pomegranate seeds are rich in sugars, polyunsaturated (n-3) fatty acids, vitamins, polysaccharides, polyphenols & minerals & have high antioxidant activity. When crushed & dried, the seeds produce oil with 80% punicic acid, the 18-carbon fatty acid, along with the isoflavone genistein, the phytoestrogen coumestrol & the sex steroid estrone. The seed coat of the fruit contains delphinidin-3-glucoside, delphinidin-3, 5- diglucoside, cyanidin-3-glucoside, cyanidin-3, 5-diglucoside, pelargonidin-3- glucoside & pelargonidin-3,5-diglucoside with delphinidin 3,5-diglucoside being the major anthocyanin in pomegranate juice.

Conclusion of Hadees:

Every pomegranate has one element of Jannah in it. Eat internal coats (parda) of it, which is inside the fruit between lobes. It is beneficial in disease. By eating it shaitaan run way. It enlightens the Qalb (heart).

Grape juice has recently been found to be an important source of Flavonoids that can lower risk for cancer, lowers cholesterol, prevent hardening of the arteries & fight heart disease. In 1996 scientists noticed that although the French ate four times more butter & lard as Americans & had higher cholesterol & blood pressure that they had two & a half times less incidence of heart attacks. (Because French people drink grapes juice more).

The general public was thrilled when the conclusion was finally made that the Flavonoids in red wine were responsible. (Wine is Haram), However, We can now celebrate over the recent finding that grape juice contains the same Flavonoids & nutrients as red wine (in about half the concentration) with none of the undesired side effects of alcohol (grapes wine).

Uses of Raisins in cold & cough: - Grapes are one of the most effective home remedies for the treatment of a cough. Grapes tone up the lungs & act as an expectorant (removes cough), it also relieve cold & cough in a couple of days. A cup of grape juice mixed with a teaspoon of honey is advised for cough relief. Grind up 3 ounces of raisins, adding water to make a paste. Add 3 ounces of white sugar & heat the mixture until it forms a sauce. Allow to cool. When Hazrat Anas ﷺ reach the slave’s place, everybody was eating, Hazrat Anas ﷺ was asked to join the feast & he did. They were served with Sareed (ثريد) made from pumpkin (kara’a), dried meat & jaw (barley) chapatti. Science & Hadees regarding Dates: -

Prophet ☪ said, "Whoever takes seven 'Ajwah dates in the morning will not be effected by magic or poison on that day." Nabi ☪ has also said, "There is a tree among the trees which is similar to a Muslim (in goodness) & that is the date palm tree." As Muslims we are wise to include these foods in our diet. Allah has blessed us with many good foods & in Quran (Surah) A’araaf verse no. 160) it is said "Eat of the good foods We have provided for you."

Prophet ☪ used to break the fast by eating some dates before offering Magrib (sunset) prayer & if ripe dates were not available, he used to substitute them with some dried dates. When they too were not available, he used to have a few sips of water, according to some reports. Modern science has proved that dates are part of a healthy diet. They contain sugar, fat & proteins, as well as important vitamins. Hence the great importance attached to them by the Prophet ☪.

Dates are also rich in natural fibers & natural vitamin & other necessary elements, thus prevent cholesterol & triglycerides from increasing & prevent cardiac diseases. Modern medicine has shown that they are effective in preventing abdominal cancer. They also surpass other fruits in the sheer variety of their constituents. They contain oil, calcium, sulphur, iron, potassium, phosphorous, manganese, copper & magnesium. In other words, one date is the equivalent of a balanced & healthy diet. Arabs usually combine dates with milk & yogurt or bread, butter (A sweet dish called as Hais is Sunnah & beloved to Prophet ☪). This combination indeed makes a balanced & nutritious diet for both mind & body. Dates & date palms have been mentioned in the Holy
Quran nearly 20 times, thus showing their importance. Prophet ﷺ compared good Muslims with the date palm tree, saying: "Among trees, there is a tree like a Muslim. Its leaves do not fall."

**Maryam (Mary) ﷺ, the mother of Isaa ﷺ (Jesus) was advised to eat dates as her food when she felt labour pains, during her confinement. Dates are definitely the "crown of sweets," & an ideal food which is easy to digest & within half an hour of taking it, the tired body regains vigor. The reason for this is that lack of sugar in the blood & it is the main factor that makes people feel hungry. When the body absorbs the nutritional essence of a few dates, the feeling of hunger becomes appeased. Breaking the fast with dates helps one avoid over-eating later.**

Experiments have also shown that dates contain some stimulants that strengthen the muscles of the uterus in the last months of pregnancy. This helps the dilation of the lower part of uterus (lower segment) at the time of delivery & reduces the bleeding after delivery (PPH). Dieticians consider dates as the best food for women in confinement & those who are breast-feeding. This is because dates contain elements that assist in alleviating depression in mothers & enriching the breast-milk with all the elements needed to make the child healthy & resistant to disease. Prophet ﷺ has emphasized the importance of dates & their effectiveness. He ﷺ has also recommended dates for excessive menstruation. Modern dietitians now recommend dates to be given to children suffering from nervous disorders or hyperactivity. Prophet ﷺ has also recommended dates as a medicine for heart troubles, according to some reports. Modern science has also proved the effectiveness of date, in preventing diseases of the respiratory system.

**Science & Tahneek: -**

It is to take a date or something sweet in our mouth & chew it a little, than put the date or the sweet thing into newborn's mouth & rub the date at upper palate of newborn's mouth for a while. Nabi ﷺ use to do it, this is a Sunnah, which we should do it. Now days, newborn suffer from juvilian diabetes & lack of glucose, which causes brain damage of newborn, by this Sunnah we can solve many problems of newborn.

**Cucumber & dates together: -**
Cucumber & dates: cucumber has a cold effect & dates have a hot one. By combining the two it becomes neutralized. From this Hadīs we gather that it is recommended that the effect (hot or cold) of things eaten should be taken into consideration. Cucumber is insipid & tasteless & dates are sweet which results in the cucumber also tasting sweet. Both are opposite to each other & cucumbers are rich in water content.

Please match the nutritional facts of both cucumber & dates & see what a combination, both makes a perfect nutrition & are opposite to each other. This is the miracle of Sunnah of Prophet ﷺ eating both together.

**Science, Quran & Hadees regarding citrus fruits:**

Citrus fruits are favored fruit of the Quran & Hadees. Nabi ﷺ said: "The parable of a believer who reads the Quran regularly is like citrus, it has a good taste & a good fragrance". Similarly, just as the Quran will provide a healthy spiritual life, the citrus fruits can provide a healthy physical life for the believer. In fact, all citrus fruits have many valuable nutrients. Most important of these is vitamin C.

Vitamin C is famous for its powerful antioxidant properties (meaning that it disarms powerful oxygen molecules in the body that contribute to cancer & heart disease). The body also uses vitamin C to manufacture collagen; the substance that glues cells together & is essential for healing. A large lemon contains about 75 percent of the USRDA of vitamin C. In addition, substances dubbed limonene & limonese have been found to block some of the cellular changes that can lead to cancer.

Oranges are perhaps the most universally known sources of vitamin C (117 percent of the USRDA), ranges actually have much more to offer. Hesperidine, found in oranges has been found by Brazilian researchers to stop inflammation without damaging the stomach lining as aspirin (it is an Allopathic medicine) can. Oranges also contain limonene, which according to Michael Gould, PhD. & professor of human oncology at the University of Wisconsin Medical School "cause cancer cells to self-destruct."

**Conclusion of Hadees:**

1. A believer who recites the Qur’an is like an orange (Oranges or citron), it reduces heart diseases & strengthens the heart. It can be eaten with Honey.

And if eaten in excessive quantity (raw) may cause people suffer from allergies. Symptoms can include irritable bowel, diarrhea, mouth &

1. Quran mentions ginger as one of the drinks of Paradise. The modern name, “ginger,” comes from the Arabic root, “zindshebil,” & as centuries have passed, we have discovered the amazing & miraculous healing properties of ginger. Ginger is one of the best known treatments & is the classic medicine for dealing with many digestive disorders. Ginger promotes digestive &
metabolism, which promotes digestive heat burning toxins, removes & lowers cholesterol deposits, as well as boosts the metabolism.

2. Ginger contains special enzymes responsible for catalyzing the proteins in your food, thus aids the digestion process & prevents cramps; this explains why ancient Greeks used to eat ginger after a large meal. Ginger is also particularly helpful when suffering from constipation.

3. Nausea & vomiting can be a problem when travelling (motion or sea-sickness), morning sickness during pregnancy, or while undergoing chemotherapy treatments. Ginger is known to relax & soothe the intestinal tract & alleviates symptoms of gastrointestinal stress.

4. By a study, it is effective as an anti-emetic (to stop vomiting) Ginger was put up against Dramamine, the most commonly used over the counter medication for motion-induced nausea. Ginger was not only more effective than the drug, but also showed no side effects compared to the drug. According to the American Cancer Society, ginger has been promoted as a cancer treatment to keep tumors from developing.

5. The characteristic odour & flavor of ginger is caused by a mixture of zingerone, shogaols & gingerols, volatile oils that compose one to three percent of the weight of fresh ginger. In animals, the gingerols increase the motility of the gastrointestinal tract & also have analgesic, sedative.

6. Also antipyretic & anti-bacterial properties. Gingerols can inhibit growth of ovarian cancer cells in vitro - gingerol \(1-[4'\text{-hydroxy-3'-methoxyphenyl}]-5'-\text{hydroxy-3-decanone}\) is the major pungent principle of ginger.

Food for the brain:
It is a mood enhancer (ginger’s cineole) & may help to relief stress & dried ginger may improve poor memory (using 1 gram & powder in warm milk). Research shows that ginger can reverse the damaging side effects (headaches, migraines, eye damage, fatigue, drowsiness, depression, numbness, muscle spasms, nausea, rashes, rapid heartbeat, chest pain, etc) that Monosodium Glutamate (MSG), a common food additive, vital dopamine, serotonin & other neurotransmitters responsible for proper brain function & ginger helps to maintain these neurotransmitters (chemical of brain).

Conclusion of Hadees:
We are allowed to eat ginger.

Science & Hadees regarding Cucumber: -

1. Cucumbers are scientifically known as *Cucumis sativus* & belong to the same botanical family as melons (including watermelon & cantaloupe) & squashes (including summer squash, winter squash, zucchini & pumpkin). Cucumbers contain lariciresinol, pinoresinol & secoisolariciresinol—three lignans that have a strong history of research in connection with reduced risk of cardiovascular disease as well as several cancer types, including breast, uterine, ovarian & prostate cancers.

2. Fresh extracts from cucumbers have recently been show to have both antioxidant & anti-inflammatory properties. It helps to improve antioxidant status, inhibit the activity of pro-inflammatory enzymes like *cyclo-oxygenase 2 (COX-2)* & prevent overproduction of nitric oxide in situations where it could pose health risks. It’s highly likely that cucumber phytonutrients play a key role in providing these antioxidant & anti-inflammatory benefits, supporting health alongside of the conventional antioxidant nutrients—including vitamin *C, beta-carotene & manganese*—of which cucumbers are an important sources.

Cucumber & dates together: -

3. Cucumber & dates: cucumber has a cold effect & dates have a hot one. By combining the two they get neutralized. From the Hadees we come to know
that it is recommended that the effect (hot or cold) of things eaten should be taken into consideration. Cucumber is insipid & tasteless & dates are sweet which results in the cucumber also tasting sweet. Both are opposite to each other & cucumbers are rich in water contains.

4. Please match the nutritional facts of both cucumber & dates & see what a combination both is, both makes a perfect nutrition & are opposite to each other. This is the miracle of Sunnah of Prophet ﷺ.

Science & Hadees regarding Olive & Qust: -

Olive medicinal uses: -
Nabi ﷺ recommended the use of olive oil in Pleurisy. Keeping this in view olive oil was administered in various diseases of Respiratory tract & it was observed that the regular use of olive oil was affected in common cold & coryzha & pneumonia.

The medicinal & cosmetic uses of olive products are truly astounding. The oil is extremely nutritious & is recommended by dieticians to “improve the balance of fats within the blood” (Adams, 2001) as well as in lowering cholesterol levels. Since the 1950s, the benefits of the Mediterranean diet, rich in olive oil, have been extolled. While it has always been promoted as being beneficial in lowering cholesterol levels, it is now increasingly being linked to lowering blood pressure.
A study by Dr. Ferrara & his colleagues of the Frederico II University of Naples, Italy (Ferrera et al., 2000) compared the effects of two similar low-fat diets on the blood pressure of hypertensive patients. One diet was enriched with extra virgin olive oil, high in monounsaturated fatty acids while the second was enriched with the same amount of sunflower oil with a high content of polyunsaturated fatty acids.

The patients on the former diet, all hypertensive, showed significant reductions in their blood pressure, thereby indicating that a diet, rich in olive oil, is not only associated with lower levels of cholesterol, but with lower blood pressure as well. The DASH (Dietary Approaches to Stop Hypertension) eating plan, which promotes a diet low in sodium & high in unsaturated fats, also recommends olive oil (National Heart, Lung & Blood Institute, 2003).

Another medical benefit of olive oil relates to the maintenance of a healthy digestive system. Oxford University’s Institute of Health found that “olive oil may have a protective effect on the development of colorectal cancer” (Stoneham et al., 2000).

Olive oil has traditionally been used to prevent constipation, assist in ‘cleansing’ of the gallbladder & in treating various ailments related to skin problems such as burns, scratches & sunburn (Cook, 1934). Cook, wrote in the 1930s, that, “Those who recognize its wonderful medicinal properties & uses, will never fail to keep a bottle of pure olive oil in the house.”

Olive oil is also applied to the skin as it brightens the complexion, softens the skin & is used in the treatment of eczema & psoriasis. It is also used on the hair, especially problems relating to “dry hair & flaky scalp” (Adams, 2001). Furthermore, olive oil is used for massage & as carrier oil when blending essential oils.

The leaf of the olive tree is famous for its antiviral properties. It has been traditionally used to cool fevers by boiling the leaves in water & drinking the decoction. Olive leaf was not only used to treat severe cases of fever, but tropical diseases such as malaria as well. Today, olive leaf extract is available from natural health practitioners & taken orally in a tablet form.
Olive oil:

- The studies found that people who regularly consume olive oil are much less likely to develop cardiovascular diseases, including hypertension (high blood pressure), stroke & hyperlipidemia (high blood cholesterol & triglyceride levels).

- Regular olive oil intake helps reduce inflammation, endothelial dysfunction (problems with the inner linings of blood vessels), thrombosis & carbohydrate metabolism.

Olive oil helps to prevent stroke:

Dr. Cécilia Samieri, from the University of Bordeaux & the National Institute of Health & Medical Research (INSERM) of Bordeaux, France & colleagues reported in the journal Neurology that olive oil may prevent strokes in older people & frying with olive oil does not raise heart disease risk. The team found that older people who regularly used olive oil for cooking & salad dressing or with bread had a 41% lower risk of stroke, compared with their counterparts who never consumed it.

Dr. Samieri said, "Stroke is so common in older people & olive oil would be an inexpensive & easy way to help prevent it."

Olive oil may reduce breast cancer risk:

A team of scientists at the University at Autonoma de Barcelona in Spain found a key mechanism by which virgin olive oil protects the body against breast cancer, in contrast to other vegetable oils. It is also very much helpful in reducing cholesterol levels, Alzheimer’s disease, acute pancreatitis, protects the liver, ulcerative colitis.

Olive oil acts healing on acne & other skin conditions. However, one study noted that squalene, which is in olive oil, may contribute to relief of seborrheic dermatitis, acne, psoriasis or atopic dermatitis. One laboratory study reported that a mixture of honey, beeswax & olive oil inhibits the growth of Staphylococcus aureus & Candida albicans, with the same mixture reducing the discomfort of hemorrhoids (piles) & anal fissures (tear in anus) in adults. It is very much beneficial for massaging infants & toddlers.

Olive oil in metabolic syndrome:
The metabolic syndrome is a combination of abdominal obesity, high blood pressure, abnormal cholesterol & high blood sugar. "Metabolic syndrome is connected to the obesity epidemic of our time, a big belly poisons our metabolism & a poisoned metabolism can result in type 2 diabetes, heart attacks, stroke, or sudden death," a leading researcher reported.

Olive oil which is rich in oleic acid, (mono-unsaturated fatty acid) & contains several bioactive compounds such as antioxidants, high in phenolic antioxidants, Saturated Fat: 13.8%, Monounsaturated Fat: 73% (most of 18 carbon long oleic acid), Omega-6: 9.7%, Omega-3: 0.76%, Vitamin E: 72% of the RDA, Vitamin K: 75% of the RDA, oleocanthal, as well as oleuropein (antioxidants & anti-inflammatory). Some people have criticized olive oil for having a high Omega-6 to Omega-3 ratio (over 10:1), but keep in mind that the total amount of polyunsaturated fats is still relatively low, so this shouldn’t be a cause for concern.

**Qust (costus) & Zait (olive oil) use together:**

Qust is an anti-bacterial herb with a very good effect & olive oil increases its medicinal actions & both enhance action of each other.

**A research on Qust (costus) for pleurisy (zatul Jamb) & other lungs disease:**

Anti-bacterial effect of Indian costus (Qust ul Hind) & sea-Qust & their water extracts on some pathogenic bacteria of the human respiratory system. AL-Kattan, Manal Othman Faculty of Science (Girls), Department of Microbiology, King Abdul Aziz University, Jeddah, Saudi Arabia (Accepted on 4 May, 2012).

The pathogenic bacteria of the human respiratory system are characterized by resistance (medicines do not work) to most antibiotics. Staphylococcus aureus & Klebsiella pneumonia are some of the pathogenic bacteria of the human respiratory system which often cause pneumonia, pleurisy & meningitis. Moreover, they are the most prominent strains of bacteria in most hospitals.

Bacterial resistance to antibiotics occurs as a result of excessive usage of antibiotics in the treatment of diseases. For that reason, it is necessary to seek for medical alternatives that are safer for the treatment of these bacteria. Alternative medicine, especially, has revealed many plants &
herbs that are used in the treatment for some diseases including respiratory diseases.

The purpose of this study was to determine the effect of the Indian costus & sea-costus on the pathogenic bacteria; Escherichia-coli, Pseudomonas aeruginosa, Staphylococcus aureus & Klebsiella pneumonia. In addition, the effect of the water extracts of the Indian costus & sea-costus on Staphylococcus aureus & Klebsiella pneumonia was also determined.

Result of the research:

The results showed antibacterial effect of two types of dried Costus roots on all tested bacteria, especially in high concentrations. Also, the cold or hot water extract of Indian Costus was highly effective against tested bacteria at 20 to 25% concentration, while the hot extract of sea-Qust was more effective against tested bacteria than its cold extract in all the concentrations used.

Conclusion of Hadees:

Olive is a blessed tree, has barkat in it, eat its oil & apply on body, it cures leprosy, Basoor, best for pleurisy & shaitaan (evil) run away when we use it, can be used in combination of Warss (Memecylon), Qust (costus) etc, should be taken in one side of mouth or put in nose.

**Science & Hadees regarding Squash (pumpkin):**

Squash is among the vegetables mentioned by Nabi ﷺ. Hadees from Bukhari quotes that Ibn Malik said, "A tailor invited the Prophet ﷺ to a meal that he had prepared & I went along with the Prophet ﷺ. The tailor presented barley bread & soup containing gourd & cured meat. I saw the Prophet ﷺ picking the pieces of gourd from around the dish & since then I have kept on liking gourd.

Dexter L. Morris, MD, PhD, vice chairman & associate professor in the department of emergency medicine at the University Of Northern Carolina School Of Medicine says that “Squash & gourd contain such a rich array of vitamins & minerals & other compounds that scientists have just begun to map its healing power.” However, they have managed to come to at least a few conclusions & one is that squash is one of the richest sources of vitamin C & beta-carotene (25% & 66% respectively). Scientists have found that people who have more vitamin C in the diets over time have fewer lung ailments as the vitamin gets transported to the lining of the lung & serves as an antioxidant. Also read scientific benefits.

**In Hadees it is mentioned it increases the brain function & intelligence:**

For instance, 100 g of pumpkin seeds provide 559 calories, 30 g of protein, 110% RDA of iron, 4987 mg of niacin (31% RDA), selenium (17% of RDA), zinc (71%) etc., but no cholesterol. Further, the seeds are an excellent source of health promoting amino acid tryptophan. Tryptophan is converted to GABA in the brain; tryptophan is needed for melatonin & serotonin production to help promote a restful night’s sleep. It also prevent stroke.

**In Hadees it is mentioned it strengthens the heart, reduces inferior complex:**
It has Magnesium which is good for heart. It helps in ATP (adenosine triphosphate) formation (the energy molecules of our body) & it increases pumping action of our heart, proper bone & tooth formation, relaxes the blood vessels & brings proper bowel function. Magnesium has been shown to benefit your blood pressure & help prevent sudden cardiac arrest, heart attack & stroke. Pumpkin seeds are an excellent source of dietary fiber & mono-unsaturated fatty acids, which are good for heart health.

**Conclusion of Hadees:**

Nabi ﷺ liked pumpkin, it should be added in food, it increases the brain function & intelligence, strengthens the heart, reduces inferior complex, it was eaten by previous Prophets also. We are not allowed to prepare Nabiz in it (Nabiz is when dates or raisins are soaked in water overnight & the syrup is drank) *(Please refer the lesson no. 10 on dates)*.

The chemical composition of Fenugreek seeds (Methi seeds) depicts that it contains proteins & Amino acids in such a ratio comparable to milk. Besides phosphates, it contains an organic form of iron which is easily absorbable through gastro-intestinal tract. It contains several Alkaloids but Trigonelline is an important one. The salts in it relieve the inflammation of urinary tract infections. On the basis of its chemical composition, it can be used as an expectorant. In the cases of Nephritis (kidney infection) when dieuresis (urine output) becomes least, it is a good remedy to increase dieuresis. 5gm of Methi seeds powder if taken with water is highly beneficial in dysentery & diarrhoea. The lukewarm decoction of Methi seeds if taken with honey is beneficial in cough &
increases urination. It is also a good appetizer & might be used in dyspepsia (indigestion) & anorexia (lack of hunger). It also increases milk secretion when it is deficient.

It is a source of iron & B-complex hence can be used in general weakness. It is also reported that continuous use of Methi seeds is also significant in the treatment of hemorrhoids (piles). The recent studies show that it is a good remedy for diabetes mellitus & Fenugreek seeds are also known for their anti-diabetic property.

Several patients who were having raised blood glucose level & were treated with the formulation comprising Methi seeds; Black Caraway (Kalonji) & tukhm-e-kasni (chicory seed) improved significantly & the blood glucose level became normal. Some patients of NIDDM (Non Insulin dependent) were also treated with Methi seeds, Berg-e-Neem & Black Caraway (Kalonji) & showed very good response. Methi seed is also useful in chronic dysentery & peptic ulcer.

They are also considered excellent to treat arthritis & to reduce blood cholesterol. They also increase breast milk production in breastfeeding mothers. Fenugreek contains natural expectorant (expulsion of phlegm) properties & is considered ideal for treating sinus & lung congestion. It also helps in loosening & removing excess mucus & phlegm. The mucilage content of the seeds help to cure external boils, burns & ulcers.

Hazrat Abu Musa Al-Ash'ari  says that Rasoolullah  said "A believer who recites Qur’an is like an orange whose fragrance is sweet & whose taste is sweet, a believer who does not recite Qur’an is like a date which has no fragrance but has a sweet taste & the hypocrite (munafiq & faajir) who recites Qur’an is like Rehaan (Rayhan) basil whose fragrance is sweet, but whose taste is bitter & a hypocrite (munafiq & faajir) who does not recite Qur’an is like the colocynth which has no fragrance & has a bitter taste. 

[Bukhari: 5427; Book. 70; English vol. 7; Book. 65; Hadees. 338.]

(Colocynth is a bitter cucumber & also bitter apple).

5. Nabi  said that Hasan & Husein  both are my Rehaan (Rayhan) (الريَان) (sweet smelling flowers) on earth (الدنيا).

[Mishkat: 6145]

6. Narrated by Abu Hurairah  that Rasoolullah  once explained a long detail about angels (Farishtaas) coming to a good pious person to remove his soul, the Angels refer the good person’s soul as Rehaan (Rayhan) (الريَان) (Along with many praises).

[Mishkwat: 1627]

Caraway seeds (*Kalonji* (black seeds)) etc but use in little quantity, for 21 days or more.

3. Always try to eat or use all parts of it, like leaves, soft stems, flowers etc together, because they all have different benefits & are compatible to each other.

4. Tablets or capsules of it are available

**Content of it:**

- vitamin K, C, A, E, B1, B2, B3, B6, follic acid, potassium, iron, calcium, phosphorus, magnesium, zinc, protein, carbohydrate, fibers, copper, carotene, lutein, cryptoxanthin & etc.

**Scientific benefits of Rehaan (Rayhan)**

1. Reduces cough, lungs infection, diarrhea, stomach infection, cold & cough.
2. Also helpful in skin infections, internal infection.
3. It can be used in all diseases, along with other medications.
4. Reliefs heart problems, sinus & throat infections.

**Important:**

Can be used for skin, wounds, ulcers etc, (apply on skin lesions). Prepare a paste out of Rehaan (Rayhan)’s leaves, flowers etc & apply on the lesion.

In general Rehaan (Rayhan) mean two things:

1. (1) Sweet smelling plants, (2) Sweet smell. In Hadees of Abu Musa it is said that “the hypocrite (munafiq & faajir) who recites the Qur'an is like Rehaan (Rayhan) basil whose fragrance is sweet, but whose taste is bitter” may refer to sweet smelling plants, thought Allah only knows better, the interpretation of this Hadees is very wide & not easy to do, I understand from this Hadees...
is that, All the sweet smelling plants may not be good to use, so they are compared with non-believers (munafiq & faajir).

According to modern science sweet basil has many health benefits but also a side effect, the above-ground parts of basil & basil oil are **POSSIBLY UNSAFE** when taken by mouth as a medicine, long-term. These contain estragole, a chemical that might increase the risk of getting liver cancer.

But in one Hadees it is said, “Hasan & Husein رضي الله عنهما both are my Rehaan (Rayhan) (الريَان) (الدنيا) on earth (الدنيا) again interpretation here is difficult, what I understand here is perfumes, though Allah knows better,

**Research indicates that there several health benefits associated with basil:** -

A study by researchers at Purdue University revealed that basil "contains a wide range of essential oils rich in phenolic compounds & a wide array of other natural products including polyphenols such as flavonoids & anthocyanins."

The herb contains high quantities of (E)-beta-caryophyllene (BCP), which may be useful in treating arthritis & inflammatory bowel diseases, according to research conducted at the Swiss Federal Institute of Technology.

Reduce inflammation & swelling - a study presented at the Royal Pharmaceutical Society's annual event, revealed that "extracts of O. tenuiflorm (Holy basil) were shown to reduce swelling by up to 73%, 24 hours after treatment".

Anti-aging properties - according to research presented at the British Pharmaceutical Conference (BPC) in Manchester, basil has properties that can help prevent the harmful effects of aging. Holy basil extract was effective at killing off harmful molecules & preventing damage caused by some free radicals in the liver, brain & heart.

Rich in antioxidants - results of a study published in the *Journal of Advanced Pharmacy Education & Research* showed that ethanol extract *Ocimum basilicum* had more antioxidant activity than standard antioxidants.

**Conclusion of Hadees: -**

In Jannah there will be Rehaan (Rayhan) plants, do not refuse if you are gifted Rehaan (Rayhan) (perfume or flower or sweet smelling plant) & good souls are referred as Rehaan (Rayhan) by Angels.

Aloes wood is aromatic, resinous heartwood that is found in trees from the aquilaria genus, an evergreen tree, it is thought that aloes wood is created by a reaction from an injury to the tree, starting an infection & thus triggering the oleoresin to grow within the heartwood of the tree. Costus (Qust) & Zait (olive oil) use together:
Costus (Qust) is an anti-bacterial herb with a very good effect & olive oil increases its medicinal actions & both enhance action of each other.

A research on Qust for pleurisy (zatul Janb) & other lungs disease:
Anti-bacterial effect of Indian costus (Qust ul Hind) & sea-Qust & their water extracts on some pathogenic bacteria of the human respiratory system. AL-Kattan, Manal Othman Faculty of Science (Girls), Department
The pathogenic bacteria of the human respiratory system are characterized by resistance to most antibiotics. Staphylococcus aureus & Klebsiella pneumonia are some of the pathogenic bacteria of the human respiratory system which often cause pneumonia, pleurisy & meningitis. Moreover, they are the most prominent strains of bacteria in most hospitals.

Bacterial resistance to antibiotics occurs as a result of excessive usage of antibiotics in the treatment of diseases. For that reason, it is necessary to seek for medical alternatives that are safer for the treatment of these bacteria. Alternative medicine, especially, has revealed many plants & herbs that are used in the treatment for some diseases including respiratory diseases.

The purpose of this study is to determine the effect of the Indian Costus & sea-Qust on the pathogenic bacteria; Escherichia coli, Pseudomonas aeruginosa, S. aureus & K. pneumonia. In addition, the effect of the water extracts of the Indian costus & sea-Qust on S. aureus & K. pneumonia was also determined.

**Result of the research: -**

The results showed antibacterial effect of two types of dried Costus roots on all tested bacteria, especially in high concentrations. Also, the cold or hot water extract of Indian Costus was highly effective against tested bacteria at 20 to 25% concentration, while the hot extract of sea-Qust was more effective against tested bacteria than its cold extract in all the concentrations used.

**Conclusion of Hadees: -**

Quast is the best medicine for pleurisy, throat infection mainly in children, take is at one side of mouth, for children prepare paste out of it & make them lick to the paste, can be used with olive oil, Memecylon (Warss) or etc, can be used to get cleaned during & after mens.

Lesson no. 25 Sanna (Senna) (السنا)

**Names**
1. In Hadīes it is called as Sanna (Senna) (السنا).
2. In Latin it is called as Cassia agustifolia.
3. In Hindi it is called as Sanaya, Hindi Sana.
4. In Sanskrit it is called as svarnapatri.
5. In English it is called as Senna.

**Rasoolullah ﷺ’s guidance about Sanna:**

**Merits of Sanna:**

1. Hazrat Asma Bint Umaiz ṭabarrah ﷺ says that Rasoolullah ﷺ asked her: "What do you use as a laxative (تستمشي)، she replied "Shabram" (الشيرم) (spruce). Rasoolullah ﷺ said it is hot & powerful. She said then I used Sanna (senna) (السنا) as a laxative (تستمشي) & she
said that Rasoolullah ﷺ said "If there would be cure (شفاء) for death (الموت) it would be Sanna (Senna) (السنا).

[Tirmizi: 2225; Book. 28; English vol. 4; Book. 2, Hadees. 2081]

Shabram (spruge) is explained at the end of this column. Laxatives are food products or medicines by which stools get loose & easy defecation is facilitated & prevent or treat constipation.

**Sanna & Sanoot, cure for every diseases: -**

2. Ibrahim Bin Ablah heard Abu Bin Umm Haram رضي الله عنها says that Rasoolullah ﷺ said that "For you Sanna (senna) (السنا) & Sannoot (السنوت) (Dill or else) is present, these have cure (شفاء) for all diseases except Saam (السام) (death), to this, he asked, to Rasoolullah ﷺ what is Saam (السام)? Rasoolullah ﷺ replied Maut (الموت) (death) Amr said: “Ibn Abu Ablah said: the ‘Sannoot is dill.” Others said: “Rather, it is honey that is kept in a skin (i.e., receptacle) used for ghee.”

[Ibn Ma-jah: 3584; Book. 31; English vol. 4; Book. 31, Hadees. 3457]

3. Hazrat Abu Ayyub Ansari  says that Rasoolullah ﷺ said Sanna (senna) (السنا) & Sannoot (السنوت) (dill or else) are medicines (دواء) for all diseases.

[Kanz al-Ummal: 28270 & Baihaqi: 20065]

4. Hazrat Anas Bin Malik  says that Rasoolullah ﷺ said "There is cure (شفاء) in 3 things except Saam (السام) (death), Sanna (Senna) (السنا), Sannoot (السنوت) (dill or else) the third one is not mentioned due to forgetfulness.

[Kanz al-Ummal: 28269]

**4 (Four) best treatments: -**

5. Hazrat Ibn Abbas رضي الله عنهما says that Rasoolullah ﷺ said: "Amongst the treatment you do, the best is to put medicine in nose (السعوط), to
put medicine in one side of mouth (اللدود،) &
Walking (laxatives) (المشي).

[Tirmizi: 2184; Book. 28; English vol. 4; Book. 2, Hadees. 2047]

Walking here is considered as movement of intestines by Imam Qayyim u &
senna increases the movement of intestines. (Movement of intestines is
called as Peristalsis movement is medical terms).

Content of it:

Flavenol, Anстраquinone, isohamnetin, kaempfeol, rhein, emodin,
gluconide (sennoside A & B), menitol, sodium, potassium, tartarte,
salisilic acid, crisophenic acid, volatile oil, resins, calcium, oxalate &
flowers have ctisofenic acid.

Scientific benefits of it:

1. It removes constipation.
2. Increases movement of intestines (peristalsis).
3. It is useful in piles due to laxative action.
4. Its paste can be applied on wounds & ulcers.
5. It also an anti helmentic (anti worms).
6. It reduces obesity.
7. It increases appetite.
8. Useful in hypertension & increased in intra cranial pressure (brain
pressure).
9. Helpful in dysentery, hepatomegaly, spleenomegaly, malaria, jaundice,
gouts, rheumatism, anaemia.
11. Can be used in all season.

Contraindications:

Do not use in pregnancy, menstrual cycle, small children, colon cancer &
etc.
Shabram (*spurge*) is an herb, Its Latin name is Euphoria thymifolia, Its English name is Spurge. In Arabic it is called as Shabram. In Hindi it is called as Chhoti Duddhi (Because it contains milky latex in it, so used as a Laxative).

**Sannoot:**

There are various opinions on what is Sannoot & there is difference in understanding. It may be anyone amongst the following or combination of any following: -

<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>7. Dates &amp; honey both mixed in ghee.</td>
<td>8. Senna mixed in honey than mixed in ghee.</td>
</tr>
<tr>
<td>11. A black substance found on upper layer of stored ghee.</td>
<td></td>
</tr>
</tbody>
</table>

Amongst the above 11 points, Dill is believed to be Sanoot. Dill is sowa. In Hindi it called as soa or sowa or savaaa & Anethum gravelens in Latin. In Marathi it is called as Shepu. In Sanskrit it is called as Shatapusha.

**Science & Hadees regarding Sanna:**

Sana Makki (senna leaves) is a true miracle of Allah's creations & it is one of the valuable herbs of Tibb-e-Nabawi, In Hadees of Ibrahim Ibn Abi Laila narrates that Rasoolullah says necessarily use Sana & Sanoot; because there is a cure in both of them from every disease except the "saam" someone asked Rasoolullah what is saam? He Replied, Death. (*Reference Ibn Ma-jah Hadees: 3457*) see Hadees no. 2 above.

When you take Senna alone, it may create pain in the stomach due to contraction of stomach & intestinal contraction. Prophet directed to take Senna with "SANOOT". About Sanoot there is several opinions (1) honey. (2) Zeera (3) sonf/badiyan. So the best is to take with honey which is mixed with butter. This results in to separation of old toxins & layers of putrefied un-digested food.
It leaves are very effective laxative & purgative & are particularly useful remedy for the occasional bout of constipation & is useful for evacuation relief in cases of fissures, hemorrhoids, after recto anal operations & in preparation of diagnostic intervention in the gastrointestinal tract. It irritates the lining of the large intestine, causing the muscles to contract strongly resulting in bowel movement in about 10 to 12 hours after ingestion & also stops fluid being absorbed from the large bowel helping to keep the stool soft. It is sure & safe even for children (over 12 years of age) & weak & elderly persons. To prevent griping pains in the intestines, it is best when combined with a smaller amount of a warming stimulant & antispasmodic such as ginger or some other suitable herb. Senna leaves are approved by the World Health Organization (WHO) for short-term use in occasional constipation. Senna is also approved in the United States & in European countries as an ingredient in over-the-counter & prescription laxative preparations. The herb is approved by the German government for any condition in which alleviating constipation or softening stools is desirable.

Clinical studies suggest that Senna is effective in managing constipation associated with a number of causes including surgery, childbirth & use of narcotic pain relievers. A study in the medical journal Diseases of the Colon & Rectum showed that Senna was able to prevent or treat postoperative constipation after proctologic surgeries. The South African Medical Journal shows that treatment with senna was successful in 93%-96% of women suffering from postpartum constipation. By comparison, only 51%-59% of women in the placebo group experienced relief. It is considered to be one of the more effective agents for relieving constipation caused by such narcotic pain relievers as morphine. In another study published in the Journal of Pain & Symptom Management, researchers recommended the use of senna in terminal cancer patients with opiate-induced constipation, citing the effectiveness of the herb & it’s relatively low cost. A study published in the medical journal Pharmacology suggests that a combination of senna & bulk laxatives can alleviate chronic constipation in geriatric patients. It is also useful in intestinal worms, rheumatism, sciatica, gout, hip pain & lumbago.

**Conclusion of Hadees:**

1. Senna is a gentle laxative; there is healing in it for all disease except death. Best if used with Sanoot. ..........*This lesson has 5 Hadees..........*

It is particularly known for the beneficial effects on the stomach, especially heartburn with sour eructations. A few small pieces of it can be chewed & the juice swallowed, gives prompt relief. The roots may be chewed several times a day for chronic conditions, until the stomach gets healthy. It also stimulates the appetite & helps to relieve acute & chronic colicky pain, gastritis, fevers, colds, sinus headaches, sinusitis, coughs, hyperacidity, deafness, arthritis, hysteria, neuralgia, epilepsy, shock.

Chewing the root is said to stop pyrosis, the discharge of an acid (burning & bitter) liquid from the stomach into the throat. For smokers, however, chewing the dried root tends to cause mild nausea, a property that makes sweet flag useful for breaking the smoking habit. A decoction of the rootstock makes a good bath additive for insomnia, malaria, cholera, typhus, flu, bronchitis, ague, diarrhea, dysentery, asthma, a general tonic & tense nerves; it has also been used in baths for children with scrofula or rickets.

Conclusion of Hadees:

Use sweet flag (ذريرة (Zarirah) for blisters & also do Dua, can be used as a perfume. ..........This lesson has 3 Hadees.........

**Science & Hadees regarding Barley:**

**In Hadees it is mentioned that it cleans the digestive system, soothes the Qalb (heart) & etc:**

Scientists have found the following items during the chemical synthesis of barley: albuminoids, starch, fat, fiber, ash & water. Chemical composition shows that it contains the fat in the form of Leucosine Gluten Albumen, the compound of nitrogen as palmatic Acid, Salisylic Acid & phosphoric Acid. Besides, it contains Hypoxanthen also. It contains 4 % Proteins, the enzymes for digestion of carbohydrates & vitamins. Some scientists also indicate the presence of Arsenic in the barley grain.

**Mechanism of action according to pharmacology:**

Gastrointestinal effects: Germinated Barley Foodstuff (GBF) is derived from the aleurone & scutellum fractions of germinated barley. GBF appears to induce proliferation of intestinal epithelial cells & facilitate defecation through bacterial production of short chain fatty acids, especially butyrate. GBF is believed to facilitate epithelial repair & suppress epithelial NFkB-DNA binding activity through butyrate (by the micro flora bifid bacterium & eubacterium). GBF has been associated with increased growth of these micro floras in the intestinal tract & varying amounts of total tocopherols & tocotrienols (49.9-67.6mg/kg) & vitamin E content (vitamin E equivalent; 15.7-20.1mg/kg). Barley products composed of different amylose-amylopectin ratios (7-44% amylose) have been reported to lower metabolic responses.

Anti-carcinogenic effects: Lunasin, a novel, cancer-preventive peptide found in barley, internalizes into mammalian cells within minutes of exogenous application & localizes in the nucleus after 18 hours. It inhibits acetylation of core histones in mammalian cells. Lunasin does not affect the growth rate of normal & established cancer cells, but is selective for cells being transformed or newly transformed by binding to deacetylated core histones exposed by the transformation event, disrupting the dynamics of histone acetylation-deacetylation & leading to cell death.

**Barley as an Antihypertensive:**

Barley has predominantly insoluble fiber & soluble fiber in its whole-grain, it is a diet helpful for blood pressure & it lowers cholesterol. Two barley products,
barley oil & brewer's spent grains (BSG), neither of which contains soluble fiber, have been investigated for their potential positive impact on lipid metabolism. Brewer's spent grains (BSG) is a by-product of the brewing industry & typically contains 98% insoluble dietary fiber & is high in protein (20-30%) & lipid (6-10%) & contains three times more tocotrienols than the whole grain. The combined animal & human studies on barley oil & brewer's spent grains suggest that some components, possibly the tocotrienols which are an antioxidant, have the ability to affect lipid controlling enzymes & lower the cholesterol. Plasma lipid-lowering effects of barley have been attributed to rich amounts of beta-glucan, a water-soluble fiber. The beta-glucan component of barley has slow gastric emptying time, prolong the feeling of fullness & stabilize blood sugars. Other contributory factors may be d-alpha-tocotrienol. In chicks, high protein barley flour (HPBF)-based diets increase body weight (18%), suppress HMG-CoA reductase (-36%), impair fatty acid synthetase (-40%) & decrease serum triglyceride (-9%) & cholesterol levels (-23%).

**Glycemic/insulinemic effects:**

Barley contains more fermentable carbohydrate than other cereals such as rice. Fermentation of undigested carbohydrate produces short chain fatty acids, some which may reduce hepatic glucose production & affect postprandial glycemia. Because of viscous properties of beta-glucans, boiled flours appear to produce higher glucose & insulin responses when compared with milled kernels. According to a controlled study in 18 lean, healthy men ingesting barley beta-glucan given with high carbohydrate food & high carbohydrate drinks, beta-glucan significantly decreased glycemic & insulinemic responses on the food (p<0.05) but not on the drink (p>0.05) treatments, compared to controls. In another study comparing crackers & cookies made of whole wheat or barley, the barley crackers & cookies had glycemic indices of 49 & 34, respectively, whereas whole wheat crackers & cookies had 78 & 81, respectively.

**Conclusion:**

Barley bread (chapatti) & its flour was the mostly eaten food of Nabi ﷺ & His Family. Barley broth (daliya), Talbinah, barley flour water (jaw Sattu sharbat), its flour is best for health. It strengthens & soothes the heart, cleans digestive sytem, removes weakness & etc. Prescribe to your patients to eat it again & again even if the patient dislikes it. Everyone can use it; fast can be opened by its Sattu water (barley flour water).

**Digestive System:**

i. Cichorium intybus (Chicory) leaf extract holds hepatoprotective (liver protective) activity against acetaminophen induced liver damage.

ii. The red part of the leaf of Treviso red chicory with a high content of antioxidant anthocyanins could be interesting for development of new food supplements to improve intestinal health.

**Endocrinal System:**

i. Natural chicoric acid extract (NCRAE) presents an anti hyperglycemic effect essentially due to a peripheral effect on muscle glucose uptake.

ii. Chicory appeared to have short-term (about 2 hours, as far as GTT is concerned) & long-term (28 days, in this study) effects on diabetes. Chicory may be useful as a natural dietary supplement for slowing down the pace of diabetes progress & delaying the development of its complications.

iii. The activities possessed by C. intybus are highly desirable for the treatment of NIDDM because it reduces blood glucose levels without inducing adipogenesis in 3T3-L1 adipocytes.

**Cardiovascular System:**

i. The water extract of Cichorium intybus has been observed to exhibit a remarkable anti oxidative effect on LDL & inhibitory effects on the production of thiobarbituric acid reactive substance & the Degradation of fatty acids in LDL.

**Others:**

i. Exhibits antibacterial & antifungal activities.

*In Hadees it is mentioned to fumigate the houses with it:*

Its oil is rich in thymol, caracrol & etc, which are best in fumigation against bean, insects & bacterias. Its plant was burned as a fumigator in sick rooms and hospital wards. It was used as incense for many types of religious ceremonies as well.
Pharmacological aspects: -

Thyme contains a number of anti-inflammatory compounds, including luteolin and rosmarinic acid, which may provide health benefits for people with certain anti-inflammatory conditions such as rheumatoid arthritis, asthma and inflammatory acne. Luteolin has been shown to exert strong inhibitory effects against TBK1, an enzyme that has been linked to inflammatory diseases. The rosmarinic acid in thyme, in turn, is thought to exert anti-inflammatory activity by inhibiting lipoxygenase and cyclooxygenase, two enzymes that have been associated with inflammatory responses. Thyme contains several phytochemicals (such as ursolic acid, rosmarinic acid and luteolin) that have been linked to anti-cancer activity in laboratory studies. It has strong inhibitory activity against Helicobacter pylori.

Conclusion of Hadees: -

Fumigate the houses with Saatar, Loban & Al-Sheeh.

 ..........This lesson has 2 Hadees..........
**Introduction:**

Warss (ورس) in Arabic it is considered as two things: (1) Kamaala, (2) Karkam in India. Warss is a yellow dye from a perennial plant cultivated in Yemen, identified usually as Memecylon tinctorium, Melastomaceae or...
sometimes Flemmingia rhodocarpus BAK, Leguminosae. According to Abū Ḥanifa Al-Dinawari’s chapter on dyestuffs (165-7), it is found only in Yemen and there only, is cultivated. From various sources, he describes the best warss as bādira, from a young plant, the other type called ḥabashi because of some blackness in it; however, the ḥabashi gives pure yellow colour, while bādira can contain some redness in it.

**Prophet’s guidance about Memecylon (ورس):**

**Costus, Olive oil & Memecylon for pleurisy (Zaatul Janb):**

1. Hazrat Zaid Bin Arqam  says that Rasoolullah  advised, as a treatment for pleurisy ( ذات الهنّ (ورس)), Memecylon (ورس), Costus (قسط), & Olive oil (زيت) & take at one side of mouth (يُلَّد ُ).  
   
   [Ibn Ma-jah: 3596; Book 31; English vol. 4; Book 31, Hadees. 3467]

2. Qatadah narrated from Abu Abdullah that Zaid Bin Arqam  said that Nabi  would acclaim Olive oil (َّالز َّيْت) and Memecylon (َّالْوَّرْس) for (the treatment of) pleurisy." Qatadah said: "And it is put in the mouth on the side which he is suffering ".  
   
   [Tirmizi: 2222; Book 28, English vol. 4; Book 2; Hadees. 2078]

**Indian Costus & Memecylon for throat infection (Azrah):**

3. Hazrat Jabir Bin Abdullah  says that Nabi  said Oh! Ladies, Do not burn (Cauterize) throats of your children for Azrah (العذرة (الْوَرْس) & Warss (ورس)) make them to lick (both).  
   
   [Mustadrak Hakim: 8239]

**Memecylon (Warss) for freckles:**

4. Hazrat Umme Salma رضي الله عنها says that at the time of Nabi , women in postnatal bleeding (after childbirth) used to wait for forty days and we used to put Warss on our faces because of freckles." (Except for one who became pure (clean) before that).  
   
   [Ibn Ma-jah: 692 & 693; Book 1; English vol. 1; Book 1, Hadees. 648 & 649]

**Avoid dyeing Ihraam with Memecylon (Warss):**

5. Narrated by Ibn Umar  that Nabi  forbade dyeing the cloth of Ihraam (cloth worn while doing Hajj & Umrah) with Memecylon.  
   
   [An-Nasa‘i: 2666; Book 24; English vol. 3; Book 24, Hadees. 2667]

**Dyeing with Memecylon:**

   [Abu Dawud: 4210; Book. 35; English Book. 34; Hadees. 4198]

**Scientific benefits of Memecylon tinctorium:**

It is beneficial for all skin diseases, vitiligo, spots on skin etc.

**Scientific benefits of Mallotus philippnensis:**

Helpful in cancers, bronchitis, skin diseases, diabetes, lungs diseases, digestive system diseases, jaundice etc.

**Science & Hadees regarding Warss (Memecylon tinctorium):**

⊥ **Antibacterial:** Results showed the ethyl acetate and chloroform extracts of the plant with moderate antibacterial activity. Maximum activity was shown by the chloroform extract against Bacillus subtilis.

⊥ **Radical Scavenging / Anti-Inflammatory / Analgesic:** The ethyl acetate extract showed the highest stimulation for interleukin-10 production; it also caused significant inhibition of the writhing response. The methanol fraction exhibited radical scavenging activity.

⊥ **Antimicrobial:** Study of methanol extracts showed significant activity against gram-positive, gram-negative bacteria and fungus.

⊥ **Apoptogenic / Human Gastric Carcinoma:** Study evaluated the anti-proliferative and apoptogenic activity of an ethyl acetate extract of leaves of Memecylon edule (a small evergreen tree native to India) in various cancer cell lines. Results showed the extract inhibited the gastric cancer cell growth in a dose-dependent manner, inducing apoptosis by mitochondrial dependent pathway.

**Conclusion of Hadees:**

Warss is best for pleurisy, throat infections; it can be used with olive oil & Qust (refer both lesson). It can use to apply on face. It can be applied on bread, or use in dyeing clothes, but do not wear Ihraam dyed with warss.

**Science & Hadees regarding Miswaak:** -

**Scientific Studies on Miswaak:** -

The Wrigley Company conducted a study on the Miswaak which was published in the Journal of Agricultural and Food Chemistry in 2007. Wrigley’s research concluded that mints laced with Miswaak extract were 20 times more effective in killing bacteria than ordinary mints. A small testimony to this fact is that, after half an hour, the mints laced with Miswaak extract killed about 60% of the bacteria where as the ordinary mints managed only 3.6%.

In the August 2008 issue of the Journal of Periodontology, there appeared a study conducted by Swedish researchers on the Miswaak, as well. The study apparently found that suspended Miswaak pieces in a petridish, the medium for culturing bacteria, were able to kill bacteria that cause periodontal disease without being in physical contact with the bacteria. The researchers, however, suggested that the Miswaak pieces may have been sprayed with antibiotic gases, in their attempt to explain the phenomenon.

Yet another study, one comparing the use of the toothbrush and the use of the Miswaak (2003) can be reviewed currently online at the website for the U.S. National Library of Medicine and National Institutes of Health (PubMed).

The study concluded that Miswaak was more effective than tooth brushing in reducing plaque and gingivitis provided it was used correctly. Similar studies found on the same website and elsewhere vouch for the effectiveness of Miswaak over toothbrush. “The miswaak
appeared to be more effective than tooth brushing for removing plaque from the embrasures, thus enhancing interproximal health,” stated the researchers.

There have been plenty of published studies on the Miswaak and in fact, entire books published which study its oral and systemic benefits.

With its strong antibacterial properties and perpendicular bristles, the Miswaak is a natural toothbrush, toothpaste and floss combined.

Conclusion of Hadees:

Miswaak pleases Allah, cleans the mouth, it has lot of importance, so use it daily regularly. Clean the tongue also with it & can be used during Fasting. Use it when you enter your home & getup from sleeps. Use it of medium size. Salah offered after using it, is 70 times better than without doing it.

Use Sabir (Aloe Vera) for face brightness:
2. Hazrat Umme Salma رضی الله عنها says that “When Abu Salma died, I had applied Sabir (Aloe Vera) on my eyes and Rasoolullah ﷺ came & asked her: “What is this, Umme Salma”? Hazrat Umme Salma رضی الله عنها answered, “It is Sabir (صبر), it has no perfume in it, Rasoolullah ﷺ answered that “It makes the face Brighter, but do not use it expect Nights & remove it in day time, & do not apply perfume when combing
your hairs, or Heena, because it is dye, than Umme Salma  asked What should I use while combing my hairs oh! Rasoolullah  replied: “Use Lotus leaves, to cover your head”.

[Abu Dawud: 2305; Book. 13; English Book. 12; Hadees. 2298]

Sabir (Aloe Vera) for eye infection: -

3. Hazrat Nubayh Ibn Wahb  says that Hazrat Umer Ibn Udaidullah Ibn Ma’mar  had an eye infection & he wanted to apply Surma (kohl) in his eye, but Hazrat Abaan Ibn Usman  told him not to do so, & asked to apply Sabir (صرع) (Aloe Vera) in his eye, & said that he heard from Hazrat Usman Ibn Affan  that, Nabi  did the same.

**Science & Hadees regarding Aloe vera:**

**For eyes infection:**

It is a best home remedy for eyes infection of all types, because it has antibacterial activity & properties.

**Antibacterial:**

The activity of Aloe vera inner gel against both Gram-positive and Gram-negative bacteria has been demonstrated by several different methods. Streptococcus pyogenes and Streptococcus faecalis are two microorganisms that have been inhibited by Aloe vera gel. Aloe vera gel reportedly was bactericidal against Pseudomonas aeruginosa while acemannan prevented it from adhering to human lung epithelial cells in a monolayer culture.
Antifungal: -
A processed Aloe vera gel preparation reportedly inhibited the growth of Candida albicans.

Antiviral effects: -
This action may be direct and indirect. Indirect due to stimulation of immune system and direct is due to anthraquinones. The anthraquinones aloin activates various enveloped virus; herpes simplex, varicella zoster (mainly eyes related) and influenza.

Skin hydration actions: -
Mucopolysaccharides help in binding moisture into the skin. It was proposed that the Aloe vera gel containing products improved skin hydration possibly by means of a humectant mechanism.

Anti-aging effect: -
Aloe stimulates fibroblast which produces the collagen and elastin fibres making the skin more elastic and less wrinkled.

Wound-healing effects: -
Different mechanisms have been proposed for the wound-healing effects of aloe gel, which include keeping the wound moist, increase epithelial cell migration, more rapid maturation of collagen and reduction in inflammation.

Glucomannan, a mannose-rich polysaccharide and gibberellin, a growth hormone, interacts with growth factor receptor on the fibroblast, thereby stimulating its activity and proliferation, which in turn increases collagen synthesis after topical and oral application. An increase in synthesis of hyaluronic acid and dermatan sulfate in the granulation tissue of a healing wound is seen following oral and topical treatment.

Aloe vera gel contains a glycoprotein with cell proliferating promoting activity, while in one research it is found that Aloe vera gel improved wound healing by increasing blood supply, which increased oxygenation as a result. Topical application of the Aloe vera derived allantoin gel stimulated fibroblast activity and collagen proliferation.

Anti-inflammatory effects: -
It inhibits the cycloxygenase pathway and reduces prostaglandin E2. Recently, the novel anti-inflammatory compound called C-glycosyl chromone was isolated from gel extracts. Recently, the peptidase bradykinase was isolated from aloe and shown to break down the bradykinin, an inflammatory substance that induces pain.

**Effect on immune system:**

Immunomodulating effects occur via activation of macrophage cells to generate nitric oxide, secrete cytokines (e.g., tumor necrosis factor-α, interleukin-1, interleukin-6 and interferon-γ) and present cell surface markers.

**Antioxidant property:**

Glutathione peroxides activity, superoxide dismutase enzymes and a phenolic antioxidant were found to be present in Aloe vera gel, which may be responsible for these antioxidant effects.

**Antitumor effect:**

The two fractions from aloes that are claimed to have anticancer effects include glycoproteins (lectins) and polysaccharides. Different studies indicated antitumor activity for Aloe vera gel in terms of reduced tumor burden, tumor shrinkage, tumor necrosis and prolonged survival rates. An induction of glutathione S-transferase and an inhibition of the tumor-promoting effect of phorbol myristic acetate has also been reported which suggest aloe gel in cancer chemoprevention. Indirect action on antitumor activity is stimulation of the immune response.

**Laxative effect (Purgative effect):**

Anthraquinones increase intestine water content, stimulate water secretion and increase intestinal peristalsis.

**Antiseptic Properties:**

Aloe vera contain six antiseptic agent; lupeol, salicylic acid, urea nitrogen, cinnamonic acid, phenol and sulfur.

**Use of aloe vera in dentistry:**

**Aphthous ulcer:**
It has been reported that acemannan hydrogel (Acemannan is a D-isomer mucopolysaccharide in aloe vera leaves. This compound has been known to have immunostimulant, antiviral, antineoplastic and gastrointestinal properties) accelerates the healing of Apthous ulcers and reduces the pain associated with them. Researchers evaluated a gel that combined allantoin, Aloe vera and silicon dioxide and its effects on Apthous ulcers of the oral cavity. Each patient used a daily diary to document the number and duration of apthous ulcers, the interval between ulcers, ulcer size and ulcer pain over a period of 3-4 months. The reduced duration of the lesions in one arm of the study and the increased interval between lesions in the other arm of the study both were significant statistically. The gel did not demonstrate any consistent effectiveness on ulcers in the oral cavity.

**Oral (mouth) lichen planus (OLP):**

Lichen planus is a fairly common skin rash that is thought to be triggered by the immune system. Exactly why the immune response occurs is not known. There may be several contributing factors and each case is different. Potential causes include viral infections, an allergen, or even stress or genetics. Sometimes lichen planus occurs along with autoimmune disorders. It can occur at any part of the body even oral cavity (mouth).

A patient of lichen planus with systemic involvement placed on Aloe vera therapy. The patient’s treatment involved drinking 2.0 ounces of stabilized Aloe vera juice daily for 3 months, topical application using Aloe vera lip balm and Aloe cream for itching hands. The oral lesions cleared up within 4 weeks, although the systemic lesions took longer, due in part to the fact that the patient temporarily interrupted the course of Aloe therapy and sought an alternate source of treatment.
The 46 patients with OLP were randomly divided into 2 groups. Each group was treated with Aloe vera mouthwash and triamcinolone acetonide 0.1% (TA). The treatment period for both groups was 4 weeks. Patients were evaluated on days 8, 16 and after completing the course of treatment (visit 1-3). The last follow-up was 2 months after the start of treatment (visit 4). Aloe vera mouthwash is an effective substitute for TA in the treatment of OLP.

A double-blind trial on 54 patients was randomized into two groups to receive Aloe vera gel or placebo for 8 weeks. The most common site of OLP was the lower lip. 81% patients treated with Aloe vera had a good response after 8 weeks of treatment, while 4% placebo-treated patients had a similar response (P < 0.001). Furthermore, 7% patients treated with Aloe vera had a complete clinical remission. Burning pain completely disappeared in 33% patients treated with Aloe vera and in 4% treated with placebo (P = 0.005). Therefore, Aloe vera gel can be considered a safe alternative treatment for patients with OLP.

Another double-blind study of 64 patients with OLP were randomized to either Aloe vera (32 patients) or placebo (32 patients), at a dose of 0.4 ml (70% concentration) three times a day. The patients were evaluated after 6 and 12 weeks. In the Aloe vera group, complete pain remission was achieved in 31.2% of the cases after 6 weeks and in 61% after 12 weeks. In the placebo group, these percentages were 17.2% and 41.6%, respectively. Concluded that Aloe vera improves the total quality of life score in patients with OLP.

**Gingival:**

Aloe vera gel reportedly has been used to treat gingivitis and has been effective against herpes simplex viruses. Acemannan, a prominent glucomannan-stimulate gingival fibroblast proliferation.

**Pulp:**

Acemannan promotes dentin formation by stimulating primary human dental pulp cell proliferation, differentiation, extracellular matrix formation and mineralization. Acemannan also has pulpal biocompatibility and promotes soft tissue organization.

**Bacteria:**
Results showed that Aloe vera tooth gel and the toothpastes were equally effective against C. albicans, Streptococcus mutans, Lactobacillus acidophilus, Enterococcus faecalis, Prevotella intermedia and Peptostreptococcus anaerobius. Aloe vera tooth gel demonstrated enhanced antibacterial effect against S. mitis.

**Extracted socket: -**

Salicept Patch (a freeze-dried pledget that contains Acemannan Hydrogel) significantly (P < 0.0001) reduces the incidence of Alveolar Osteitis (a dry socket after tooth removal which pains & gives lot of problems) compared with clindamycin-soaked Gelfoam.

**Denture adhesive: -**

Because of the sticky and viscous nature of acemannan, a prototype acemannan was formulated into a denture adhesive and evaluated for adhesive strength in both wet and dry conditions; the adhesive was also used to evaluate cytotoxicity to human gingival fibroblasts.

**For eye disease: -**

It is a natural anti-biotic, anti fungal, anti bacterial, anti viral with no side effects as dryness of eyes as causes by modern antibiotic eye drops. It is effective in all eye elements.

**Conclusion: -**

Aloe vera is best for eye infections, it increases complexion but should be applied at night only and wash out in day, can be applied in Ihraam, or anyone dead in family because it has no smell in it.

This is very old well about 2000 B.C. old (Means during Prophet Ebrahim a.s) since then, this well provides a special type of water.

Most of the wells provide water for 100 or 200 years only. This well is amongst the oldest well on earth. It provides water which has no colour, no swell, nor bacteria & has a specific taste & health benefits. It never got dried up since 2000 B.C., though million liters of water is drawn out daily. This well is 9 feet deep & 3×7×8×9 feet in diameter. This water is free of cost.

**Note:** All above are based on clinical researches.

### Science & Hadees regarding Zamzam:

It has been scientifically proven that water gets affected by what is recited over it. Japanese researcher Masaru Emoto has had a unique experience. He said that he had read in a book that each snowflake falling from the sky is unique. He said that his scientific instincts told him that this was not true. The geometric shape of the snowflake is determined by its chemical composition. The composition of water is well known - two hydrogen atoms and one oxygen atom. So how come snowflakes that fall from the sky are different from one another? He said: "I was determined to prove that this theory was false." He built a laboratory, consisting of a deep freezer with a regulator, because no liquid, subjected to sudden freezing, can assume a geometric shape. The freezing must be slow, so the atoms have the chance to crystallize into the shape decreed by Allah. There was a deep freezer with a regulator, a cold room at the temperature of -7°C and several microscopes equipped with cameras, so he could photograph the snowflake before it melted. The scientists working in this room wore warm clothing. He said: "I took samples from two faucets in the laboratory, I froze them and each sample gave me a different snowflake. The samples came from two different wells, two different rivers, from two different lakes. I almost went crazy and thought this was witchcraft." A Saudi student at the University of Tokyo happened to meet him and asked him what was wrong. Masaru told him his problem. The student said to him: "We have blessed water, called Zamzam. I will give you a sample of this water so you can experiment on it. Zamzam water is not affected by witchcraft or Jinns, so using it can prove or disprove the whole theory." Emoto took a sample of Zamzam
water and said: "I couldn't crystallize it, even by diluting the water by 1,000." In other words, he turned one cubic centimeter into one liter.

He said that when he diluted the water by 1,000 and froze it, he got a uniquely-shaped crystal. Two crystals were formed, one on top of the other, but they assumed a unique form. When he asked his Muslim colleague why there were two crystals, he told him it was because "Zamzam" is composed of two words: "Zam" and "Zam."

Masaru Emoto said: "My Muslim colleague offered to recite Quranic verses over the water. He brought a tape-recorder and played some Quranic verses and we got the most perfectly-shaped crystals. Then he played the 99 names of Allah Ta'ala. Each name produced a uniquely-shaped crystal. Then he began cursing the water. We said: Water, you are impure. You are not suited for consumption. The water, in this case, did not freeze, or produced an extremely ugly crystal." When they uttered bad words like "war" or "fighting," the water did not freeze, or else produced an ugly shape. When the man completed these experiments, which lasted 15 years, he published a five-volume book called Messages from Water. He wrote: "I have proven that water, that peculiar liquid, is capable of thinking, fathoming, feeling, getting excited and expressing itself."

He also found out that if someone recites the Quran on regular water, it gets the ability for the treatment of different diseases.

**Following was written by a Japanese Scientist Masaru Emoto:**

The quality / purity of Zamzam water will not be found anywhere else in the water on this earth.

He used the technology named **NANO** and researched a lot on Zamzam water. And found out that if one drop of Zamzam water mix in 1000 drops of regular water, regular water will get the same quality like Zamzam water.

He also found that a mineral in one drop of Zamzam water has its own importance that will not be find any other water on earth.

He also found in some tests that the quality or ingredients of Zamzam water cannot be changed, why science does not know the reason.
Even he re-cycled the Zamzam water, but no changes took place, & it was still pure.

This scientist Masaru Emoto & his team also found out that, the Muslims recites ﷺ before eating/drinking. He says that after saying BISMILLAH on regular water, there are some strange changes happened in the quality of regular water. That make it best water.

Masaru Emoto is a Japanese author known for his claim that if human speech or thoughts are directed at water droplets before they are frozen, images of the resulting water crystals will be beautiful or ugly depending upon whether the words or thoughts were positive or negative. Emoto claims this can be achieved through prayer, music or by attaching written words to a container of water.

Research by Tariq Husain, Riyadh, by Moinuddin Ahmed, Conclusions is:

Never Dried Up: This well has never dried up. On the contrary it has always fulfilled the demand for water.

Same Salt composition: It has always maintained the same salt composition and taste ever since it came into existence.

Portability: Its portability has always been universally recognized as pilgrims from all over the world visit Ka’aba every year for Hajj and Umrah, but has never complained about it. Instead, they have always enjoyed the water that refreshes them.

Universal taste: Water tastes different at different places. Zamzam water’s appeal has always been universal.

No Biological Growth: This water has never been chemically treated or chlorinated as is the case with water pumped into the cities. Biological growth and vegetation usually takes place in most wells. This makes the water unpalatable owing to the growth of algae causing taste and odour problems. But in the case of the Zamzam well, there wasn’t any sign of biological growth.

Conclusion of Hadees: -

Drink Zamzam in plenty, By drinking it with an intention of any desire, Allah will fulfill it, Drink it in standing position, carry it while traveling, also take it to your native places, it is the best water, recite the Dua after drinking it, Drink & pour it on the body during fever, Nabi ﷺ’s heart was washed with zamzam water.

2. In Hadees, Rain Water is called as Ma’aul Matar (ماء المطر).
3. Rain in Arabic is called as GHAITH (غيث).

Rain is mentioned in Quran at many verses. Allah Ta’ala reminds us that "it is Allah who makes rain & rain fall.

When it could get darker:

8. A‘isha رضي الله عنها reported, I never saw Nabi  laughing to such an extent that I could see his uvula-whereas he used to smile only-and when He  saw dark clouds or wind, (the signs of fear) were depicted on his face. I said Rasoolullah , I find people being happy when there were dark clouds in the hope that it would bring rain, but I find that when you see that (the cloud) there is an anxiety on your face. He  said: 'A‘isha, I am afraid that there may be a calamity in it, for a people was afflicted with wind, when the people saw the calamity they said:" It is a cloud which would give us rain" (Qur’an. xlvi. 24).

Safety Against Disaster when rain is imminent:

When clouds laden with rain are seen, recite:

اَّللَّهُمَّ اِنَّنِعَوذُبِكَّ مِّنْ شَِّمَّةٍ أُرِسِّلَّ بِهِ اَّللَّهُمَّ صََّبِيٌّ تَأْفِعًا

When the clouds laden with rain clear up:

When the clouds laden with rain are seen clearing, Al-Hamdulillah الحمدلله should be said and Allah should be thanked as there must surely be some good in the rain not having fallen.

When rains begin to fall:

When the rain begins to fall, recite: اللَّهُمَّ صََّبِيَّتَا تَأْفِعَا

Translation: O’ Allah! Send abundant and beneficial rain.

Or recite: اللَّهُمَّ صََّبِيٌّ تَأْفِعَا
**Translation:** O’ Allah! Send down abundant rain that gives prosperity.

*When there is fear of too much rain causing disaster:* -

When there is fear of excessive rains causing disaster recite:

```
َّ
للَّ هُم
حَّوَّالَّيْنَّا
وَّلَّ
عَّلَّيْنَّا
اللَّ هُمَّ
عَََّّ
الْآَکََّمِ

قَّبْلَّ
ذَّلِكَّ
```

**Translation:** O’ Allah! Do not kill us through Your wrath and do not destroy us through Your punishment and grant us safety before this happens.

[Hisnul Hasin English by: Muhammad Rafiq, Page: 189-190]

**Rain water a blessing:** -

9. Hazrat Ibn Abbas رضي الله عنهما says that Rain started to fall from Heavens; Hazrat Ibn Abbas رضي الله عنهما asked his servant Abu Jawzaa to bring out his mattress & saddle so that the rain may fall on them. Abu Jawzaa asked him why you are doing that may Allah Have mercy on you. Hazrat Ibn Abbas رضي الله عنهما replied “Do you not read the Quran” (it is mentioned in Surah 50, verse 9, “And we have sent down from the heavens water that is blessed” & said therefore I would like the blessing to fall on them.

[Marifatul Sunana Wal Aasaar: 7232]

**Scientific benefits:** -

1. Rainwater is relatively pure stuff. The process of evaporation leaves chemicals behind and what you see falling from the clouds starts out pretty clean. Evaporation is nature’s distillation process.
2. Rain water is the purest water in the nature, there is nothing wrong in drinking the raining water. But we must purify it before drinking. Rain water is having a lot of health benefits; it is having natural minerals & etc.

**Science & Hadees regarding Rain:**

**How do scientists look at rain nowadays?**

All scientists all over the world confirm that rain is a very organized and complicated phenomenon and formation of one drop of rain depend on some exact physical rules.

Satellite photos show a new discovery that it rains continuously in different places on earth.

So if we look at earth from different sides we notice that it is covered by clouds, scientists say that every second there are one hundred lightning flash all over the world, we know that lightning is linked with rain. So it is a real scientific fact that it rains continuously in different places on earth.

The four seasons are alternated on earth, when it is summer in the north half of earth, it is winter in the south half and vice versa so it rains all the time day and night and most of rain goes into seas, this is a scientific fact.

**What does our Nabi  say about the phenomenon of rain?**

Nabi  says that in every hour even in day or night, it rains and Allah distributes these rains wherever He wants) [Narrated by Al-Hakeem]. This Hadees confirms on a scientific fact that it rains all day and night on earth.

**What do explainers of Quran say about this phenomenon?**

Allah says, In Quran surah Furqan 48:50 and it is He Who sends the winds as heralds of glad tidings, going before His Mercy (rain); and We send down pure water from the sky. That we may give life thereby to a dead land and we give to drink thereof many of the cattle and men that we had created. And indeed we have distributed it (rain or water) amongst them in order that they may remember (the Grace of Allah,) but most men refuse to accept the Truth or Faith and accept nothing but disbelief or ingratitude.

According to the interpretation of Al- Baghawee, as Allah’s says, we have distributed it (rain or water) amongst them; it means distribution of rain among different countries. Ibn Abbas رضي الله عنه says that every year, it rains in equal amount but Allah distributes it amongst earth.

Also Ibn Abbas رضي الله عنه, Ibn Goraig and Mokatel tells us that Nabi  said, there is no year that rain is more than the other, but Allah distributes livelihoods in our life as every year it rains in a specific amount and if people commit sins, Allah
would transfer rain to another people and if all people commit sins, Allah will send rain in seas.

[Narrated by Al-Hakim]

Nabi ﷺ was living in desert area with no satellites or meteorological agencies and there was no method to predict with the continuous rain in day and night. so if He ﷺ used to speak from his own (without inspiration of Allah), He would say the same as His people says to get their support, but in fact He ﷺ got nothing from His own so we have to ask, who told Him these, scientific fact which are discovered after hundreds of years, what made Him ﷺ to say that? Don't you see that the reason is to make it as an eloquent reply on people who mocks at the best man humanity ever known? Allah taught Him all.

**Why is it a miracle?**

1. The Prophetic Hadees states unknown scientific fact at that time as a proof that Prophet Muhammed ﷺ is sincere, truth & honest. As in some eloquent words He ﷺ summarized scientific fact as He ﷺ said, in every hour even in day or night, it rains and Allah distributes these rains wherever he wants [Narrated by Al-Hakim]. You have to notice that any scientists or even a Bedouin can understand the meaning of the Hadees.

2. Nabi ﷺ told us about very important issue that distribution of rain is by Allah wherever He wants. It is very strange to know that there are some scientific references about water cycle systems on earth. Scientists confirm that each year there are fixed amount of rain.

3. It is very strange that no one at that time denied the Hadees despite the opposition in His life and after Him ﷺ & those people were living in desert where rain did not fell for years.

4. There is a question to atheists who denies the Prophecy of Muhammed ﷺ, what made Prophet Muhammed ﷺ to know about unknown scientific fact that will not benefit Him anyway! As you the atheists say that Muhammed ﷺ was only asking for famous so He wrote the Quran. But we say why Prophet Muhammed ﷺ told us about these scientific facts and didn't tell us about some of own views if He was looking for power and glory?

**Conclusion of Hadees:**

1. Do Dua if it rains that Allah make it beneficial for us, store the rain water direct in to a clean vessel & use, also store in clean containers for non seasonal uses of it. Do Dua if rain does not fall, in Nabi ﷺ way, also do Dua if it rain excessively. Rain water & honey can be used for treatment.

**Reciting Quranic verses & Names of Allah on water:**

Refer lesson no. 37 Zamzam, science & Hadees regarding Zamzam column.

The scientist Masaru Emoto & his team of Japan found out that, the Muslims recites BISMILLAH before eating / drinking. He says that after saying BISMILLAH on regular water, there are some strange changes happened in the quality of regular water. That make it best water.

Water help the kidneys to function properly, helps the liver in metabolism, aids digestion, maintains pH of the body & blood volume, helps in blood circulation, cleans body, removes waste & toxins, cleans & tones the skin, maintain water volume in the body, reduces lipids, cough, phlegm etc, hence there are numerous benefits of water.

Science & Hadees regarding water: -
Whenever we examine the statements of the Prophet ﷺ, we should always remember one thing: that He ﷺ was extremely eloquent and concise. Though His ﷺ words are few, they contain an abundance of knowledge and wisdom. It is important that we learn to take our time contemplating His ﷺ words, so we can derive as much wisdom from them as possible.

A Brief Explanation:
A man asked about a particular situation that he and other Muslims had found themselves in. Was it permissible to make Wudu (wazoo) from the salty ocean water, while carrying a small amount of water on board? The Prophet ﷺ clearly answered the question and more than the man asked. Let’s take a look at how he answered the question.

First, He ﷺ could have simply said: “Yes” and the man would have gotten his answer and moved on. However, the Prophet ﷺ decided to make a universal statement concerning the purity of saltwater and added details pertaining to the consumption of seafood. Had the Prophet ﷺ only said, “Yes”, then it could have been understood that making Wudu from saltwater is allowed only under certain circumstances, like when lacking
other clean water or if out at sea. This would have left some ambiguity about the absolute purity of saltwater. Rather, he stated a principle that the water of the ocean was absolutely pure, which means it can be used in making Wudu, ghusl (ritual washing) and cleaning one’s self after the restroom. Thus, it became crystal clear that saltwater is always considered pure, regardless of the circumstances.

Secondly, He added that whatever died in the ocean was permissible to eat. So why did He add this information when it was not requested? Prophet may have realized that if people are out at sea and are in need of water, then they would also be in need of food. Hence, He may also have realized that it was in the man’s benefit to know that all seafood is permissible to eat and didn’t need to be slaughtered to be considered permissible. This shows the Prophet’s insight and practicality in imparting knowledge, which although not requested, was valuable to know.

*Exhaling in glass while drinking:*

Science shows that exhaling CO2 into a glass of water causes it to react and form carbonic acid that can disturb our internal environment causing a pH change. This, in worse condition, can lead to 'Acidosis' *(a condition where the blood has too much acid (or a very low base) and often causes decreased blood pH)* & also the bacteria present in mouth will go in the drink or food & from the drink or food the bacteria will directly get in the stomach & cause infection.

*Reciting Quranic verses & Names of Allah on water:*

Refer lesson no. 37 Zamzam, science & Hadees regarding Zamzam column. The scientist of Japan Masaru Emoto & his team says that "My Muslim colleague offered to recite Quranic verses over the water. He brought a tape-recorder and played some Quranic verses and we got the most perfectly-shaped crystals. Then he played the 99 names of Allah (SWT). Each name produced a uniquely-shaped crystal. Then he began cursing the water. We said: Water, you are impure. You are not suited for consumption. The water, in this case, did not freeze, or produced an extremely ugly crystal." When they uttered bad words like "war" or "fighting," the water did not freeze, or else produced an ugly shape. When the man completed these experiments, which lasted 15 years, he
published a five-volume book called Messages from Water. He wrote: "I have proven that water, that peculiar liquid, is capable of thinking, fathoming, feeling, getting excited and expressing itself."

He also found out that if someone recites the Quran on regular water, it gets the ability for the treatment of different diseases.

This scientist Masaru Emoto & his team also found out that, the Muslims recites **BISMILLAH** before eating/drinking. He says that after saying **BISMILLAH** on regular water, there are some strange changes happened in the quality of regular water. That make it best water.

### Conclusion of Hadees:

1. Do not drink water in one large gulp, do not exhale in the drinking vessel, separate the vessel of drinking at each sip, do not drink directly from water skins, do not stand & drink, do not drink from the broken region of the cup.

2. Zamzam can be drank in standing position, drink zamzam in plenty, drink water in 3 breathes, treat fever with water wash or sponge, overnight kept water is beneficial, praise Allah before & after drinking water.

3. If you boil any drinking thing, than reduces the quantity to 1/3 & reduces the 2/3 part by boiling, for kidney problems drink excessively boiled water added with honey.

4. Sea water is pure; one can perform Wazoo from it, do not urinate in still water, nor bath in them after sex.
Names

1. In Quran & Hadees it is called as Laban (المبيض).
2. In English it is called as Milk.
3. In Urdu & Hindi it is called as doodh.

Reference in Quran:

وَإِنَّ لَكُمْ فِي الْأَنْعَامِ لَعِبَارَةٌ ۖ نُشِقِّيْكُمْ نَعَمًا فِي بُطُونِهِ مِنْ بَيْنِ فُوُضٍ لَّوْلَىٰ أَيْنَ ۖ خَالِصًا سَأَبْيَأْ بِالْمُقَارِيبِنَّ

2. Surah 47 Muhammad, verse no.15, It is mentioned by Allah that there will be streams of delicious tasty water & such pure form of milk, which will not lose its taste.

مَثَّلُ الْجَّنِّ تِلْوُّونَ ۖ وَعِيدَ الْمُتَّقِينَ ۚ فِي بُطُونِهِ مَانِعُ فِي مَأَوَىٰ عَيْبَ آمِسِ وَأَنْهَارُ قَبْسٍ لَّنِّي لَّمَّا يَتَّقُرَّ طَعْمُهُ

3. Surah 23 Mu’minoon, verse no. 21. It is mentioned by Allah Ta’ala that there are many things in cattle to think, for you, for example, you get milk from their bellies by which you benefit yourself so much, & also you eat them.

وَإِنَّ لَكُمْ فِي الْأَنْعَامِ لَعِبَارَةٌ ۖ نُشِقِّيْكُمْ فِي بُطُونِهِ وَلَكُمْ فِيبِئَا مَتَافِعٌ كَبِيرَةٌ ۖ وَمِنْهَا تَأْكُلُونَ
Milk beloved to Nabi ﷺ:

1. Hazrat Ibn Abbas رضي الله عنهما says that Milk (اللب) was very much beloved to Nabi ﷺ amongst all drinking substances.
   [Abu Nu-aim; Tibbun Nabawi: 745.]

2. Hazrat Abdullah Bin Abbas رضي الله عنهما says that Milk (اللب) was very much beloved to Rasoolullah ﷺ.

**Translation:** Mothers shall suckle their children for two whole years; (that is) for those who wish to complete the suckling. The duty of feeding and clothing nursing mothers in a seemly manner is upon the father of the child. No one should be charged beyond his capacity. A mother should not be made to suffer because of her child, nor should he to whom the child is born (be made to suffer) because of his child. And on the (father's) heir is incumbent the like of that *(which was incumbent on the father).* If they desire to wean the child by mutual consent and (after) consultation, it is no sin for them; and if ye wish to give your children out to nurse, it is no sin for you, provided that ye pay what is due from you in kindness. Observe your duty to Allah and know that Allah is Seer of what ye do.

_**Article by Dr. Ahlaam on camel’s milk & urine:**_

Camel’s urine is efficacious in the treatment of skin diseases such as ringworm, tinea and abscesses, sores that may appear on the body and hair and dry and wet ulcers. Camel’s urine brings the secondary benefits of making the hair lustrous, thick and removing dandruff from the scalp. Camel’s milk is also beneficial in treating hepatitis, even if it has reached an advanced stage where medicine is unable to treat it.

In the al-Jazeerah al-Sa’oodiyyah newspaper (issue no. 10132, Rabee’ al-Awwal 1421 AH) there is a quotation from the book Al-Ibl Asraar wa i’jaaz (The camel: secrets and wonders) by Darmaan ibn ‘Abd al-Aal Darmaan and Sanad ibn Mutlaq al-Subay’i:

As for camel’s urine, the book suggests that it has numerous uses which are beneficial for man. This is indicated by the Prophetic texts and confirmed by modern science. Scientific experiments have proven that camel’s urine has a lethal effect on the germs that cause many diseases.

Among the uses of camel’s urine, many women use it to wash their hair, to make it longer and to make it lighter and more lustrous. Camel’s urine is also efficacious in the treatment of swelling of the liver and other diseases such as abscesses, sores that appear on the body and toothache and for washing eyes.

_Prof. Dr. ‘Abd al-Fattaah Mahmoud Idrees_ says: With regard to the benefits of camel’s urine in treating disease, Ibn Seena said in his Rules: The most beneficial of urine is the urine of the Bedouin camels known as najeeb. Camel’s urine is beneficial in treating al-hazaaz and it was said that al-hazzaz is a pain in the heart caused by anger and so on. Camel’s urine, especially the urine of a young she-camel – is used as a cleansing substance to wash wounds and sores, to make the hair grow, to strengthen and thicken it and to prevent it falling out and it is used to treat diseases of the scalp and dandruff. In a Master’s thesis by an engineer in applied chemistry, Muhammad Awhaaj Muhammad, that was submitted to the faculty of applied chemistry in the al-Jazeerah university in Sudan and approved by the Dean of science and

postgraduate studies in the university in November 1998 CE, entitled A Study of the Chemical Composition and Some Medical Uses of the Urine of Arabian Camels, Muhammad Awhaaj says:

Laboratory tests indicate that camel’s urine contains high levels of potassium, albuminous proteins and small amounts of uric acid, sodium and creatine.

In this study, he explained that what prompted him to study the medicinal properties of camel’s urine was what he had seen of some tribesmen drinking this urine whenever they suffered digestion problems. He sought the help of some doctors in studying camel’s urine. They brought a number of patients and prescribed this urine for them, for a period of two months. Their bodies recovered from what they had been suffering from, which proves the efficacy of camel’s urine in treating some diseases of the digestive system.

*It also proves that this urine is useful in preventing hair loss. He says:*

Camel’s urine acts as a slow-acting diuretic, but it does not deplete potassium and other salts as other diuretics do, because camel’s urine contains a high level of potassium and proteins. It has also been proven to be effective against some types of bacteria and viruses. It brought about an improvement in the condition of twenty-five patients who used camel’s urine for dropsy, without disrupting their potassium levels. Two of them were cured of liver pain and their liver function was restored to normal levels, as well as the tissue of the liver being improved. One of the medicines used to treat blood clots is a compound called Fibrinolitics which works by changing a substance in the body from its inactive form, Plasminogen, to its active form, Plasmin, in order to dissolve the substance that causes clotting, Fibrin. One of the components of this compound is called Urokinase, which is produced by the kidneys or from the urine, as indicated by the name “uro”.

The dean of the Faculty of Medical Science in the Sudanese al-Jazeerah university, Professor Ahmad ‘Abd-Allah Ahmadani, discovered a practical way of using camel’s urine to treat dropsy and swelling in the liver. Its success has been proven in treating those who are affected by these diseases. He said in a seminar organized by the Al-Jazeerah University:
The experiment began by giving each patient a daily dose of camel’s urine mixed with camel’s milk to make it palatable. Fifteen days after the beginning of the experiment, the patients’ stomachs grew smaller and went back to their normal size.

He said that he examined the patients’ livers with ultrasound before the study began and he found out that the livers of fifteen out of the twenty-five were in a cirrhotic state and some of them had developed cirrhosis of the liver as the result of bilharzia (a chronic disease, endemic in parts of Africa and South America, caused by infestation with blood flukes (schistosomes). All of the patients responded to treatment with camel’s urine and some of them continued, by their own choice, to drink a dose of camel’s urine every day for a further two months. At the end of that time, they were all found to have been cured of cirrhosis of the liver. He said: Camel’s urine contains a large amount of potassium, as well as albumen and magnesium, because the camel only drinks four times during the summer and once during the winter, which makes it retain water in its body so as to preserve the sodium and the sodium causes it not to urinate a great deal, because it keeps the water in its body.

He explained that dropsy (swelling of soft tissue with fluid collection) results from a deficiency of albumen or potassium and the urine of camels in rich in both of these.

He suggested that the best types of camels for using the urine as a remedy are young camels.

**Dr. Ahlaam al-‘Awadi**, a specialist in microbiology in the Kingdom of Saudi Arabia, supervised some scientific papers that dealt with her discoveries in the usage of camel’s urine for medical treatment, such as the papers by ‘Awaatif al-Jadeedi and Manaal al-Qattaan. During her supervision of the paper by Manaal al-Qattaan, she succeeded in confirming the effectiveness of using a preparation made from camel’s urine which was the first antibiotic produced in this manner anywhere in the world. Concerning the features of this new product, Dr. Ahlaam said:

It is not costly and it is easy to manufacture. It can be used to treat skin diseases such as eczema, allergies, sores, burns, acne, nail infections, cancer, hepatitis and dropsy (swelling of soft tissue with fluid collection) with no harmful side effects.
And she said:

Camel’s urine contains a number of healing factors such as antibiotics (bacteria that are present in it, salts and urea). The camel possesses an immune system that is highly equipped to combat funguses, bacteria and viruses, because it contains antibodies. It may also be used to treat blood clots and fibrinolytics may be derived from it and it may be used to treat dropsy (swelling of soft tissue with fluid collection) (which is caused by a deficiency in albumen and potassium, as camel’s urine is rich in both). Camel’s urine may also provide a remedy for abdominal complaints, especially those of the stomach and intestines, as well as asthma and shortness of breath. It caused a noticeable reduction in patients’ sugar levels. It is a remedy for low libido and it aids in bone growth in children and in strengthening the heart muscles. It may be used as a cleansing agent for cleaning wounds and sores, especially the urine of young she-camels. It also helps the hair to grow and become strong and thick and it helps to prevent hair loss and baldness and can be used to treat dandruff. Camel’s urine may also be used to combat disease by using bacteria extracted from it. It was used to treat a girl who was suffering from an infection behind the ear that was accompanied by pus weeping from it and painful cracks and sores. It was also used to treat a girl who was unable to extend the fingers of her hands because of the presence of so many cracks and sores and whose face was almost black with pimples. Dr. Ahlaam said:

Camel’s urine may also be used to treat the digestive system and to treat some cases of cancer. She stated that the research that she had undertaken on camel’s urine proved that it was effective in destroying micro-organisms such as fungus, yeast and bacteria.

Dr. Rahmah al-Ulyaani, who is also from Saudi Arabia, carried out tests on rabbits infected with bacteria in the colon. She treated each group of rabbits with a different kind of medicine, including camel’s urine. There was a noticeable regression in the rabbits that were treated with other medicines, except for camel’s urine, which brought about a clear improvement.

Majallat al-Jundi al-Muslim, issue no. 118, 20 Dhu’l-Qa’dah 1425 AH; 1 January 2005 CE.

Allah calls upon us to ponder the creation of the camel, as He says:

أَفَلاَ يَنْظُرُونَ إِلَىِّ الْإِلَيْلِ ۚ كَيْفَ خَلِقَتُ

Translation: “Do they not look at the camels, how they are created?”
This pondering is not limited to the outward form of the camel, or even to the inner workings of its body, rather it also includes that which we have discussed here, which is the benefits of the urine and milk of the camel. Modern scientific research is still discovering for us many of the wonders of this creature.

**Conclusion:**

1. Nabi ﷺ liked milk, always gargle with water after drink milk, always cover all vessels, drink milk & water mixed, eat paneer & ghee, praise Allah after drinking milk, Nabi ﷺ had a wooden cup to drink., Nabi like Hasis (a sweet dish made for dates, milk, barley, paneer, ghee etc).

2. Milk is among the best charity drink; do not refuse it, do not drink from the broken region of the cup. Do not drink milk of animals nor ride on the animals, which eat dirty stuffs. Cow milk & she camel’s milk are the best for treatment.

**Scientific benefits of taking medicine on empty stomach early morning:**

Some medicines need to be taken before food or on an empty stomach. This is because food can affect the way these medicines work.

For example, taking some medicines after meals may prevent your stomach and intestines absorbing the medicine, making it less effective. Alternatively, some foods can interact with your medicine, either by increasing or decreasing the amount of medicine in your blood to
potentially dangerous levels or levels that are too low to be effective. Some foods can neutralize the effect of certain medicines. Some examples of foods or drinks which can interact with medicines include: grapefruit juice, cranberry juice, foods high in vitamin K such as leafy green vegetables, salt substitutes or food supplements high in potassium such as bananas.

As a general rule, medicines that are supposed to be taken on an empty stomach should be taken about an hour before a meal, or two hours after a meal. Forgetting these instructions on rare occasions is unlikely to do any harm, but taking these medicines with food regularly may mean they don't work.

Scientific benefits of Prophet ﷺ eating habits:

1. The food becomes neutralized when acidic food substances are mix with alkali food substances. Acidic food substances mean hot potency food substances & alkali food substances are cold potency food substances (mostly). The food becomes neutralized means nor hot nor cold. These types of food do not disturb the acid base balance of the body. The food becomes light to digest, easily distributed in the body and reaches the cells of the body, easily metabolized in the body.

2. The simplest food we eat, the more, we will be disease free (as per the Sunnah of Prophet ﷺ). Nowadays there are various diseases like diabetes, thyroidism, cancers, auto immune diseases, asthma, allergies, kidney failures, vitiligo & etc are also caused by faulty habits of eating, means against the Sunnah of Prophet ﷺ.

3. We people eat fried, cooked, boiled, fermented (etc) foods together; this causes free radicals in our body & leads to deadly diseases like cancers, diabetes & etc.

4. We Muslims break our fast (iftaar) with a mixture of food substance like fried, cooked, boiled etc food substances, also mix a lot of varieties of fruits together, What will be the result we all know?

5. All teachings of Prophet ﷺ are beneficial for whole world and when will we realize? Why new diseases are coming in the world? Are they not due to our faulty eating habits?

6. Nabi ﷺ is Prophet of not only Muslims, but Prophet of everybody and we should respect him ﷺ and learn about His teachings and perform...
them. Are we not neglecting the eating habits of Prophet ﷺ? When we’ll learn and teach to our children about eating habits of Prophet ﷺ. We and the world will became diseases free when we will start following the eating habits of Prophet ﷺ.

**Science & Hadiths regarding Eating Sunnah:**

*Nabi ﷺ ate using his fingers and licks his fingers after meals*

**Eating & doing things with right hand:**

Let’s see if science helps us in finding any answer to Why Muslims are asked to use their right hand more than the other. What could be the wisdom behind this?

*Please read below the facts about it:*

If we start any new work or use new thing with right hand or right leg our approach of brain towards this act is left side of the brain means we initially use the left side of the brain for that act let see the scientific fact of left side & right side of the brain. And judge yourself the miracle of this Sunnah.

*Nabi ﷺ ate using his right hand fingers and licked it after meals:

A new scientific research has proven that our hands (especially the right hand) have enzymes that are also present in our saliva. In simpler words, the digestive process actually begins with our fingers as they break down the food that we eat. A simple method to see the effects of our hands on digestive process are as follows:

1. Take 2 bowls filled with plain water, now put right hand in one bowl & left hand in other for sometime & see for any changes in the water, you will see some water changes in both the bowls but more in right hand bowl, these changes are due to digestive enzymes present on our fingers.

2. Now put some vegetables in both the bowls, & again dip the right & left hand in each bowl for sometime & see the changes on the vegetables, you will see that the vegetables gets softer more in right hand bowl means that our right hand has more active enzyme than left, so it is Sunnah to eat with right hand.

3. These enzymes help the digestive process & if we eat with spoon etc we lose the opportunity of the enzymes present on right fingers.
4. Also it is believed & proved that licking of right fingers after meals are good & beneficial for digestion & remember it is Sunnah. And it is a well known proverb (saying) "finger licking is good"!

**Nabi taught us not to blow on our food:**

The carbon dioxide from our breath fuses with water vapour created by the hot meal. This creates carbon dioxide droplets that are heavy enough and will drop and enter into our food & the bacteria present in our mouth gets in our food when we blow in our food & get mixed with our food & gain entry in the stomach.

The scientist Masaru Emoto & his team of Japan found out that, the Muslims recites BISMILLAH before eating/drinking. He says that after saying BISMILLAH on regular water, there are some strange changes happened in the quality of regular water. That make it best water.

**About Brain:**

As we know that science tells us that when we do exercise, it helps in keeping your body healthy. There are different types of exercises for every part of the body and if done over and over again, keeps that part more functional. Same goes with brain exercises, when you do them over and over again they help in developing connections in the brain. As there are two main lobes of the brain. Right and left.

According to a research, "**The concept of right brain and left brain, thinking developed**" that took place in the late 1960, by an American psycho biologist “Roger W Sperry”. He discovered that the human brain has two very different ways of thinking (functioning).

Please remember that the left lobe of brain acts on the movement of right side of the body & right lobe of brain acts on the movement of left side of the body (This is called as criss-cross system).

**Right side brain:**

The right brain visualizes and processes information in an intuitive and simultaneous way, looking first at the whole picture & then the details. The right brain is referred to as the analog brain. It controls three-dimensional sense, creativity and artistic senses to allow us to function as humans.
Means the right side brain is more active in imaginations (means to form a picture in the mind) about things or information in intuitive way (*means instant understanding or inspirations without actual thinking*) both function takes place at the same time. The right hemisphere is mainly in charge of spatial abilities (means doing work in steps), face recognition and processing music. It performs some maths, but only rough estimations and comparisons. The right brain also helps us to comprehend visual imagery and make sense of what we see. It plays an important role in language, particularly in interpreting context and a person's tone.

_left side Brain:_

The left brain verbalizes and processes information in an analytical and sequential way, looking first at the pieces then putting them together to get the whole. Sperry was awarded a Nobel Prize in 1981, although subsequent researches had shown things aren’t quite as polarized as once thought (nor as simple)."

The left brain is also referred to as the digital brain. It controls reading and writing, calculation and logical thinking. Means the left brain is more active in expressing things in words & processes information by analyzing & examining the work or things in proper order & do the work in regular way.

In general, the left hemisphere is dominant in language: processing what you hear and handling most of the duties of speaking. It’s also in charge of carrying out logic and exact mathematical computations. When you need to retrieve a fact, your left brain pulls it from your memory.
The brain's right hemisphere controls the muscles of the left side of the body, while the left hemisphere controls the muscles on the right side of the human body. When we blink the right eye, we use the left side of the brain because of the criss-cross wiring & due to this criss-cross wiring damage to one side of the brain affects the opposite side of the body.

So to conclude when we use more the right hand it gives more exercises to left side of the brain making it & its functions stronger & eating & etc is Sunnah with right hand. And remember we use both hands equally while offering Salah. This is beauty of Sunnah of our Nabi ﷺ.
And it is Sunnah of Nabi ﷺ to start a good work with right hand by this we activate the left side brain & left side of brain is more active & powerful in analysis, logical thinking, doing work in proper order in regular way & etc. So by starting a good work with right hand or right leg helps us in positive response of brain.

The right handed person use their left side brain more & left handed person use their right side of the brain more, so right handed person are more logical, linear, good at maths, calculation, language learning, good at words, do thing in order in regular way by mostly analyzing the work better, has good hand writing.

The left handed person are more creative, think holistic (means taking in consideration of all aspects), good at arts & work skill, better in visualizing, rhythmic, have mostly bad hand writing & work step by step.

Conclusion of Hadees:

1. At least wash hands before & after meal or do wazoo, recite Bismillah before starting the meals, if Bismillah is forgotten than recite Bismillaah Awalo wa-aakhiro, eat from own side, eat with right hand three fingers, sit on the ground & eat, eat together, do not eat with a back support, nor in lying position, do not eat from the middle of the plate.

2. Ask your servant to eat with you, pass the natural need first than sit to eat, eat simple food, avoid eating full stomach, do not eat in gold, silver plates, spread a thin sheet of leather or cloth (dastarkhwaaan), do not get up before your partners, first clear the remaining eatables followed by Dastarkhwaaan than get up or leave the place, do not throw the food, praise Allah before, during & after meals, recite the Dua of before, after meal, than recite the Dua of picking up the dinning sheet (Dastarkhwaaan). Follow the rules f Sunnah properly.

**Science & Sunnah of Tasbeh (zikr):**

The main tenet of acupressure is, every organ (element) in the human body is directly related to specific points of your palm and sole. The relation of these points and organs has not been found yet, but it is known that there is a reciprocal transfer of energy between the points and the elements. Certain points
of your palm and sole represent certain organs in the system. By applying pressure on these points the energy flow can be directed to the related element. Pressure cannot be applied haphazardly. There is a certain way of doing it. With the help of pressure the efficiency of the related element can be increased and that organ can be made disease free. How exactly does this technique work, no one has been able to find out yet; but it sure does work and there is no second thought about it.

Dr. Fitzgerald, the Founding Father of Zone Therapy, says that the ends of arteries in palm and sole get hidden due to some factors blocking free travel of the electro-magnetic waves inside our body. The pressure applied on those points allows the free movement and makes us healthy. Every organ’s respective point is present on both the palm and sole, but still the experts recommend and give more importance to the points located on the sole for the treatment of the disease.

Acupressure stimulates the body to cure itself. Acupressure is defined as an ancient healing art that uses the fingers to gradually press key healing points, Acupressure relieves energy blockages. The energy flow in your body affects everything - how you feel, how you think and how you breathe. While negative thoughts can block your energy flow, positive thoughts can increase your healing energy. These energy blockages occur at the acupressure points.

Acupressure Therapy is renowned for its ideal for self-treatment and preventive health care by boosting the immune system, Release tension, Increase circulation, Reduce pain, Develop spirituality and vibrant health. Acupressure uses gentle to firm finger pressure in the pressure points.
Lesson no 43. Ramzaan (Proper eating habits in Ramzaan): -

Come let’s follow the Eating habits & teachings of Prophet ﷺ this Ramzaan & pick the Barkat & be diseases free. Let this Ramzaan be the best Ramzaan of our life. Come join the mission of leaving wrong eating habits & adopt the respected Eating habits & teachings of Prophet ﷺ in Ramzaan so that the whole year will be peaceful for us Inshaallah. References of all below are in Books of Sunnah.

Note: To confirm the references please refer lesson no. 41 Eating Habits of Prophet ﷺ.

In this lesson you will get topics like: -

1. Some wrong eating habits in Ramzaan, which are against the teachings of Prophet ﷺ.
2. Some tips on, proper eating habits, in light of teachings of Prophet ﷺ & modern science.
3. Scientific benefits of Islamic Fasting (roza).

Some wrong eating habits in Ramzaan: -
1. We eat fruits along with food stuff while breaking the fast; In respected Quran, fruits are mentioned first, that means fruits should be eaten first. (May be may not be).

2. We eat fry items, boil items, snacks, cooked food, milk products etc all together or combination of some above said food items, this is against the eating habits of Prophet ﷺ means Nabi ﷺ never ate many items of food at same time. He ﷺ ate the simplest food.

3. Prophet ﷺ never ate lot of quantity & lot of variety (dishes) together at one time, as we do in Ramzaan while breaking the fast (iftaar).

Hazrat A’isha  says that Nabi ﷺ & His family never ate full stomach (barley bread) for two consecutive days.

[Shamaa’il Muhammadiyah: 143; Book. 25; English Book. 24; Hadees. 135]

Miqdam Bin Madikarib  says that Nabi ﷺ said: “Human fills no worse vessel than his stomach; few mouthful morsels are enough to keep the spine straight, if you want to fill it then fill 1/3 with food, 1/3 with water & keep 1/3 for air”.

[Ibn Ma-jah: 3474; Book. 29; English vol. 4; Book. 29, Hadees. 3349]

It is Sunnah & taught by Nabi ﷺ to fill the 1/3 stomach by eating, 1/3 by water & keep 1/3 for air (means empty) & Nabi ﷺ ate only when felt hungry & never ate full stomach. Nabi ﷺ ate simple & inexpensive food.

[Shamail-e-Kubra; vol. 1; page no. 190 & 200]

4. Prophet ﷺ ate food to maintain the health & to satisfy the hunger & used food to treat diseases, we do not do so.

5. We eat & drink all together while iftaar & fill the stomach. Prophet ﷺ use to drink water after sometime of meals.

6. We eat speedily & do not chew the food properly, & take big morsels (niwala) in hurry to eat & go for magrib salah. Prophet ﷺ use to eat with three fingers (thumb, index & middle) & take small morsels & chew food properly. In hurry & hunger we forget to recite the fast breaking Dua also (Roza kholne ki Dua).

Kaa’b Bin Malik  said that Nabi ﷺ used to eat with three fingers and not wipe his before licking it (the fingers).
After finishing the meal it is Sunnah to lick the fingers.

7. We get involved in eating after aazaan (iftaar) & do not pray (Dua mangna) in haste & greed to eat.

8. Also we do not give answer of aazaan properly while iftaar.

9. We leave the dastarkhwaan (mat) as it is and get up after iftaar or meals, The Sunnah is that we should sit first & than spread the dastarkhwaan (mat) & than keep eatables on it, & after eating first, pick up the remaining eatables then pick the dastarkhwaan (mat) & than get up & leave the place.

Narrated by A’isha  that Nabi  forbade standing up before the food had been cleared away.

10. We gents miss the magrib jamat due to eating.

11. Also we miss Esha & Tarahbih jamat due to lot of eating & wrong eating habits.

12. We get ill, during Ramzaan & suffer from indigestion, stomach pain, acidity, loose motions, food poisoning & etc due to wrong eating habits in Ramzaan.

13. We buy eatables, snacks etc from stalls which fail to keep hygiene & we get ill. Nabi  said eating in market place is immodesty.

14. We eat a lot of spicy, oily & fatty food substances while iftaar.

15. Due to wrong eating habit & lot of eating after roza, we are criticized by other religions.

16. We have a lot of iftaar parties.

17. Ladies spend a lot of time in preparing various eating items which are not good for our health & not according to eating habits of Prophet .
18. We have excessive gas, flatulence & acidity due to wrong eating habits.

19. We go to sleep after iftaar, Prophet ﷺ prohibited sleeping after meals.

Proper eating habits in Ramzaan in light of Sunnah (Teachings of Prophet ﷺ) & Modern Science: -

This part of the lesson is very important, let’s perform & spread these teaching so that this Ramzaan becomes the best Ramzaan of our life (Aameen).

1. Fruits are mentioned before meat in Quranic verses (chapter Al-Waqia 56: 20, 21. & chapter At-Toor 52: 22 in both verses, fruits are mentioned first.

We should eat some fruits of one or two variety only (not much) or maximum 3 varieties & 3 to 5 dates & drink a glass of sharbat of jaw sattu, or mix jaw (barley) sattu (2 teaspoon) in milk sharbat or in milk shake or in any other drinks, but do not drink plain water. Do not drink plain water.

2. Try to break the fast in masjid so that we can give answer of Azaan, pray Dua, offer magrib jamat & salah properly, we will not have to run or rush for the jamat which is against the teaching of Prophet ﷺ. (But remember the eatables should be fruits & Jaw sattu sharbat only).

This will help us to offer magrib salah peacefully than after magrib do other ibaadats or whatever work you have.

☞ Please note not to eat any eatables till 45 minutes to 1 hour, let the fruits get digested.

☞ Fruits are light to digest & give us instant energy, provide us vital vitamins & minerals which are important for our body, please let the body get the vital nutrition from the fruits.

☞ Than after 45 minutes to 1 hour of breaking the fast with fruits, the fruits will get digested than eat your meal, but the meal should be light like sareed. (Refer my Lesson no. 28 Jaw (barley) from part-1
Dear members please try the new method this Ramzaan & feel the difference, Insha Allah this Ramzaan will be our best Ramzaan of our life.

After Isha & Taraweeh Salah, drink 1 glass of water every 45 minutes (total 4 glasses of plain water) Remember this time we are in warm climate & water is essential for the body.

Try not to eat anything after Esha salah because you can eat well in sahri. If you eat after Esha salah also, the sahri is very soon the duration between Esha & sahri is not much.

The food will not get digested till sahri & this may cause gas, indigestion & many other problems.

And if we do not eat after Esha salah than we can eat well in sahri & we will get strength for the whole fasting day.

If we have a strong hunger to eat after Esha salah, than we can eat a light soft diet like custard, pudding or any light homemade thing in little quantity.

Remember Ramzaan is not an eating month. We eat the whole 11 months. If you eat a heavy meal after Esha, that will not digest till sahri & you will not able to eat sahri properly.

In Sahri do not eat biscuits, Bakery products, bread etc because they cause gas & get fermented soon in stomach. Eat sareed or talbinah which I had mentioned in my Lesson no. 28. Jaw (barley) in part-1 Talbinah is Sunnah of Prophet ﷺ, this will be best, because it will give us all the nutrition required by the body & we will not feel thirsty. I have given detail about sareed, talbinah & jaw (barley) sattu further.

Do not try to over eat because the amount we eat is not important, but how much we can digest is important. If the food remains in the stomach for a longer period it gets fermented in the stomach and will cause various problems like indigestion, gas, vomiting, motion, pain in stomach, sour blanching, acidity & etc and we will get irritated the whole day.
Ramzaan is to kill the nafs, & by eating according to our nafs, this does not fulfill the aim of Ramzaan. Please do not feel negative, be positive & expect the truth. Pull yourself together and decide to eat iftaar & sahri according to the teaching of Prophet ﷺ.

Cook thin salan (gravy) soup like, with little spices, little fats (not much). Dip pieces of chapatti in it & eat, by this the food will get in equal condition, it will be light to digest & will keep us free from acidity & other problems; It will keep us free from excessive thirst.

Remember I had explained about talbinah in my previous lesson no 28. Jaw (barley) to known what is talbinah & how it is made please visit my website www.tib-e-nabi-for-you.com & bloggers on www.drshakeeltibenabi.com lesson on Jaw Barley, also I have given in this lesson further.

**Dear gent members please try to break the fast in Masjid because you will be free from following: -**

1. Rushing & running for Magrib Salah,
2. Missing Magrib Salah,
3. Not doing Dua,
4. Not giving answer of Azaan,
5. Eating in haste,
6. Waiting for Wazoo,
7. Not getting place for Magrib Salah,
8. Joking while Iftaar and etc.

Jaw is very good for health and prevents thirst, Please drink any sharbat or juice containing jaw sattu as you get up for sehri & than pray Tahaj'jud salah & do other ibaadats. Than eat sahri. (Sareed it best for sahri), Prophet ﷺ liked sareed very much amongst all dishes, Lets alive his Sunnah this Ramzaan. *(Eat sareed twice a week at least)*.

**Scientific benefits of Islamic fasting (Roza): -**

1. Islamic fasting strengthens the immune system.
2. Protects the body against many diseases.
3. Improves function of lymphatic cells.
4. Increases in number of T lymphocytes.
5. Increases antibodies in blood.
6. Protects us from obesity.
7. Improves metabolism of the body.
8. Increases physical energy.
9. Reduces chances of kidney stones because by fasting, sodium in blood increases & prevents crystallization of calcium in kidneys.
10. Removes accumulated toxins out of the body.
11. Controls sexual desire.
12. Controls cholesterol, testosterone levels.
13. Prevents thrombosis, diabetes, atherosclerosis, blood pressure, heart diseases, peripheral vascular diseases, rheumatoid arthritis, acidity etc.
15. No harm to pregnant & nursing women.
16. Fasting improves digestion & absorption.
17. It gives rest to all systems of the body like digestive system, endocrine system & etc.
18. It gives the body a chance to use out the stock & stores of the body, like vitamin, fats, minerals & etc that were stored for the last 11 months.
19. A fresh storage system gets activated after the stores are empty.
20. Reduces fats of the body.
22. Reduces blood glucose & controls diabetes.
23. Improves fertility in women & men.
24. Improves ability to learn & memorizing.
25. Sick & weak cells are destroyed.
26. Improves muscles function.
27. Improves heart rate.
28. The body gets a retro grade change Retro grade changes means opposite to normal way. Means for the last 11 months we eat in day & fast at nights & in Ramzaan we fast in day & do not fast at nights. This is retro grade changes, & it is very necessary according to modern science for all functions & systems of the body. Example retro grade rotation is found in mars planet & other planets. And earth is going to have a retro grade rotation also, according to Prophet’s sayings. There are many more scientific benefits of Islamic fasting.

3. When the soup is ready put small pieces of barley chapatti or bread in it & cover the vessel with a plate for 5 minutes than serve it.

**Question & Answer regarding uses of inhalers in Ramzaan / Fasting:**

**Question:** Is it permissible to use a nasal spray that contains a percentage of alcohol? Does it break the fast for one who is fasting? I have an allergy to dust that causes me to sneeze continually (as much as 60 sneezes in succession). The doctor has prescribed for me medicine in a spray that contains 0.25% of alcohol. I only use this medicine in urgent cases, but I do not know whether it is permissible for me to use this medicine or not. And what is the ruling on using it in Ramzaan in particular?

**Answer:** We inform you that there is nothing wrong with using this medicine that contains that percentage of alcohol, which is very low and is dissolved in the medicine and there is no apparent trace of it, so it does not come under the ruling prohibiting alcohol. We have quoted the fatwas of the scholars concerning that. Using sprays for allergies does not invalidate the fast according to the correct opinion, whether they are administered through the nose or through the mouth, as they are in the form of vapour and do not contain any solid matter that enters the stomach.

**Question:** I have an allergy that affects my nose and I use a nasal spray to treat it. If I do not use it, it causes me great difficulty in breathing and I cannot do without the medicine for more than three hours. If I do not use it, it will make breathing very difficult. The problem is that the month of Ramzaan is coming and I use this medicine and am afraid it will affect my fast, but if I stop using it I cannot cope. Please note that on some days in Ramzaan, I did use it but I am very careful to prevent it from reaching my throat. What is the ruling on that? And what is the ruling on using it?

**Answer:** The spray that you are using is like a kind of gas because it is dispersed in the air and does not reach the stomach. As that is the case, we say that there is nothing wrong with using this spray when you are fasting and you are not breaking the fast by doing that because – as we have said – no part of it reaches the stomach because it is something that is dispersed in the air and disappears and no particle of it reaches the stomach such that we could say that it is something that breaks the fast. So it is permissible for you to use it when you are fasting.

Lesson no. 44 Wet cupping (Hijamah) (الْجامة):

About Hijamah (Cupping):

Hijamah (wet cupping) (الْجامة) is Sunnah of Prophet ﷺ and all Prophets (a.s). Prophet ﷺ paid a lot of importance to Hijamah (الْجامة) & also underwent this therapy. There is cure for all diseases by it; This Sunnah was neglected by us since many years. Believe me we will be able to cure many diseases through it, but do not keep intentions of earning money. My aim is to spread it to every home (ladies and gents, children). Also do Hijamah according to the principles of Prophet ﷺ’s teachings.

Names

1. In Arabic & Hadees it is called as Hijamah (الْجامة).
2. In English it is called as Cupping.
3. In Urdu it is called as Pachhna.
4. In Sanskrit it is called as Rakta Mokshan.
There are 2 types of Hijamah (الجمعاء).

**Wet:** - In which vacuum on a required site is done, followed by giving cuts on the vacuumed site, followed by vacuum of blood. By it many toxins and waste products of the body and blood comes out and there are many health benefits which will come in the later part of the lesson. This is liked and appreciated by Prophet ﷺ. (Wet cupping (hijamah) is of two types: -

2. Giving cut on vein

1. Prophet ﷺ liked and appreciated wet cupping (Hijamah) (الجمعاء).
2. It is Sunnah of all Prophets (a.s)

5. Can be used to all (expect very weak, very old, small children and pregnant. *(But for pre eclampsia and eclampsia it can be used with full precaution).*
6. It is easy to learn and do.
7. Everybody can do it.
8. In wet cupping (Hijamah) the blood is removed from superficial skin by vacuum method & in other type cut is given on veins & blood is drawn out directly for a while. This is called as Venous-section in medical terms.

**Dry cupping:** - In it the required site is only vacuumed and no cuts are made nor blood in sucked out.

sheep, He ﷺ underwent Hijamah at 3 points on the kahil, (upper part of back) (It is believed that 1st cup was applied on Kahlil (upper back), 2nd behind the heart (at the left of kahil), & the 3rd was either a little bit lower to this point or on the right side of the kahil, Allah knows the best).

❖ Hijamah (الْجامة) (Cupping) &
❖ Walking (المشي).

Questions & Answers About Hijamah

**Question No. 1:** Which are the best days of the week for cupping (hijamah)? Can cupping (hijamah) be performed on 17th, 19th and 21st if they come on Wednesday?

**Answer No. 1:** The best days for cupping (Hijamah) are Monday, Tuesday and Thursday and there is a prohibition (not allowed) for cupping (Hijamah) on Friday, Saturday and Sunday. However, cupping (Hijamah) can be performed, if it is very much needed or due to sickness,
on these days (on Friday, Saturday and Sunday). But on Wednesday, hijamah is not allowed to be performed at all, if the 17th, 19th and 21st comes on Wednesday then one must not perform (cupping) hijamah on this day due to the prohibition. If the 17th, 19th and 21st day comes on Friday, Saturday or Sunday then you can perform hijamah, only if it is necessary due to urgent need. Nabi ﷺ said “Whoever performs (cupping) hijamah on the 17th, 19th or 21st day (of Islamic dates) then it is a cure for every disease”.

[Abu Dawud: 3861; Book. 29; English vol. 28; Hadees. 3852]

**Question No. 2:** What is the rule for performing cupping (hijamah) on Wednesday and Wednesday night (which precedes it)?

**Answer No. 2:** (Wet Cupping) Hijamah is prohibited on Wednesday due to a strong prohibition of (Wet cupping) hijamah on that day and its’ night should not be done at all. *(Refer Hadees no. 38).*

**Question No. 3:** What are the rules to perform Hijamah on Friday, Saturday and Sunday and their nights?

**Answer No. 3:** It is not allowed (prohibited) Hijamah on these days. However, when there is urgent need of Hijamah for a sick person then Hijamah can be performed on these days.

**Question No. 4:** What are the rules for performing Hijamah on the nights of Monday, Tuesday and Thursday?

**Answer No. 4:** It is allowed to perform Hijamah on these days. Thursday is best, than Monday & Tuesday is the last option. However try to avoid Tuesday also as this is day of blood & bleeding may not stop soon.

**Question No. 5:** Are these following places from the Sunnah point:

- a) Al-Kaahil
- b) Al-Akhda’ain
- c) Top of the head Umm Mugheeth

**Answer No. 5:** These are from the main points for hijamah and they are reported in the Sunnah. Hijamah is performed wherever it is required, such as the top and bottom of one's back, the middle of one's shin, or the back of one's heel.

**Question No. 6:** Are there any other Sunnah points for hijamah?
**Answer No. 6:** It is reported that Nabi ﷺ performed hijamah at the back of the heel due to pain being present there. *(see diagram of Sunnah points).*

**Question No. 7:** Is it from the Sunnah to keep repeating the hijamah every month or every year if the person is ill or not ill?

**Answer No. 7:** For a normal person it is good to do Hijamah every three months. As for the sick person then every month because cupping (Hijamah) is considered from the Prophetic medicine.

**Question No. 8:** Is it from the Sunnah to have a bath after Hijamah and after how many hours should one take a bath?

**Answer No. 8:** It is good to take bath after Hijamah as the Hadees mentions. But the person should take care of the cut region and apply antiseptic ointment or olive oil.

**Hadees:** Narrated A'isha  that Nabi ﷺ used to take a bath from four things; after sexual intercourse, on Fridays, after extracting blood from his body and after washing a dead body.

*Bulugh Al-Mu'ram: 112; Book. 1, English Book. 1; Hadees. 120*

**Question No. 9:** Are there any signs that a person is affected with magic, jealousy toward him/her, or evil eye (nazar) after Hijamah?

**Answer No. 9:** In most cases the person who is affected by magic or etc, will vomit after cupping (Hijamah) and sweat much. And may find it very difficult to continue hijamah, but should undergo Hijamah.

**Question No. 10:** What does the following signs in the blood means; bubbles, strands of blood, white strands, blood bubbling over?

**Answer No. 10:** Bubbles: Could be due to air coming out due to hair or a broken cup. Strands of blood: Proof that the blood is not clean or the blood is clotting quickly due to blood clots in the body. White strands. This seems to be due to a particular disease and infected blood.

### Concepts of Ibn Al Qayyim u about Hijamah:

*He was a pioneer of His time as Hakim & etc, he considered concepts of Ibn Sina u*
1. Hijamah purifies the superficial surface of the body & is safe for children, old, weak etc.
2. It is best in hot climate and diseases due to hot climate. (For blood pressure, heart diseases, lungs diseases etc).
3. It is Mustahaab.
4. Select the site according the diseases.
5. It is better to do in morning and on empty stomach.
6. Afternoon will be ok.
7. It is Mustahaab to do on Monday, Tuesday and Thursday.
8. And try to avoid on Wednesday, Friday & Saturday.
9. Do not do Hijamah immediately after bath.
10. It is better in summer & hot countries.

4. Clean the site with anti septic lotion & powders or olive oil before & after Hijamah.
5. Apply a small bandage at the site after Hijamah cuts.
6. Choose the site according to diseases & pain.
7. Upper back, shoulder, below neck & sides of neck are site of choice.
8. Toxins of body get collected at the upper back region, so Hijamah is done mostly on upper back.
9. Sites of acupuncture can be considered.
10. It corrects the lymphatic & blood flow.
11. Do not eat or drink immediately before & after Hijamah.

**Scientific benefits of Hijamah:**

1. Makes the blood pressure normal.
2. Can be used in eclampsia, chronic poisoning, polycythaemia & malfunctioning of right or left heart.

4. Atherosclerosis, obesity, migraine, eye diseases, liver diseases, convulsion, menstrual disorders.

5. Degenerative diseases of brain, psoriasis, uterine bleeding, emaciation, fibroids, elephantiasis, hemiplegia etc.

**Contraindications:**

*Means where Hijamah should not be under gone.*

1. Low blood pressure, weak heart function.
2. Very weak person.
3. Fever, motions, vomiting, afraid.
4. HIV, hepatitis.
5. Immediately after bath, meals & sex.
6. Dialysis, valvular diseases of heart.
8. Anaemia, bleeding disorders, improper clotting time.
10. Patient taking heavy dose of aspirin, clopidrogel or warfarin.
11. Dengue, malaria, typhoid, chickengunya.

**Cut for Hijamah:**

*Incision (cuts of Hijamah):*

It is better to cut the site according to lines of langerhans. Means in the direction & shape of below given lines *(Because the Healing is faster & scars are less after Hijamah).*
Some of the scientific aspects regarding the mode of action of Hijamah (Cupping Therapy) as follows:

Dr. Naseer Saleh has written that: Hijamah (cupping therapy) is the process to extract nitrate toxicosis in humans which occurs through enter hepatic metabolism of nitrates to ammonia, with nitrite being an intermediate (Nitrites oxidize) the iron atoms in hemoglobin from ferrous iron (Fe2+) to ferric iron (Fe3+).

An Egyptian Physician Dr Sahbaa has written that Cupping exerts marked improvement on the clinical condition of patients especially visual analogue, scale of pain, it significantly reduces the laboratory markers of disease activity and it modulates the immune cellular conditions particularly of innate immune response NK (natural killers) cell % and adaptive cellular immune response SIL-2R.
**Dr. Katase from Osaka University maintained**: Hijamah (cupping) influences the composition of blood as it increases red and white blood cells and changes acidic blood into alkaline or neutral blood, resulting in its purification. It also cleanses the body of accumulated irritants that cause inflammation.

In the British Medical Journal Feb. 23, 1924 P; 352, **Dr Robert J. Simons** (French) has concluded that cupping is worthy of a place in modern therapeutics on the basis of following reasons:

After performing cupping, we observe that the colour of the skin changes from clear pink to dark red, due to extravasations of blood from the capillaries into the flesh. This deep tissue blood falls into decay; the red globules break up and set free the antitoxins that impregnate them. Besides that, we observe extensive polynucleosis, which enables the patient to resist infectious pathogens. In surgery, cupping is used in the treatment of deep abscesses, boils and anthrax after the incision. It draws up the matter, almost without pain and allows rapid healing of the wound.

*In the Internet Journal of Alternative Medicine. 2007 Volume 4 Number 1, it is stated*: At a biological level, similar to acupressure and acupuncture, cupping therapy works by stimulating or activating:

1. The immune system;
2. Encephalin secretion;
3. Neurotransmitter release;
4. Vasoconstriction and vasodilatation
5. The gates for pain in the CNS which interpret the pain sensation *(NIH Consensus Development Panel, 1998)*.

Lastly, it is believed that stimulation of cupping points can lead to the pain gates being overwhelmed by the increasing frequency of impulses, ultimately leading to closure of the gates and hence reduction in pain (Oumeish, 1998; Cadwell, 1998).

In the *American Journal of Chinese Medicine*, Vol. 36, No. 1, p 42, it has been written that the mechanism of wet-cupping is dominated by influences in neural, hematological and immune system functioning.
In the Neural System, the main effect is likely regulation of neurotransmitters and hormones such as serotonin (of platelet), dopamine, endorphin, CGRP (Calcitonin-Gene Related Peptide) and acetylcholine. Moreover, it seems that wet-cupping has an effect on the negative charge of neuronal cells.

**In the hematological system, the main effect is likely via two pathways:**

(a) Regulation of coagulation and anti-coagulation systems (*e.g.* decrease in the level of hematological element such as fibrinogen) and
(b) decrease in the HCT (Hematocrit), followed by increase in the flow of blood and in the end organ oxygenation.

**In the immune system, the main effect is likely via three pathways:**

(a) Irritation of the immune system by producing local artificial inflammation, followed by activation of the complementary system and increase in the level of immune products such as interferon and TNF (Tumor Necrotizing Factor);
(b) Effect on the thymus;
(c) Control of traffic of lymph and an increase in the flow of lymph in lymph vessels.

Now let us revive the forgotten Sunnah of Our Beloved Prophet ﷺ and get blessings of Allah in this world and Hereafter.

**Conclusion of Hadees:**

1. Hijamah (cupping) is among the best treatment for various health problems. Please refer Question & answer block.

**Blood Donation & Transfusion:**

Dear brother! You should know that the medical treatment should be done by permissible means of Islam. It is known that using shed blood is forbidden as mentioned in The Qur'an, Allah Says:
Translation: "He has forbidden you only the Maytatah (dead animals) (murdaar), blood and the flesh of swine," (pig).  

[Surah Baqarah: 173]

He also Says:

Translation: Forbidden to you (for food) are: Al-Maytatah (the dead animals - cattle-beast not slaughtered), blood."  

[Surah Maidah: 3]

But if a person is compelled to use the blood of a person and there is no other way for his treatment, then using it is permissible provided that medical authorities confirm that this is the only way for this treatment. Because Allah says after declaring it forbidden:

Translation: But if one is forced by necessity without will disobedience or transgressing due limits, then there is no sin on him.  

[Surah Baqarh: 173]

He also Says:

Translation: while He has explained to you in detail what is forbidden to you, except under compulsion of necessity? And surely may do lead (mankind) astray by their own desires through lack of knowledge. Certainly your Lord knows best the transgressors."

[Surah An’aam: 120]

Therefore, one can donate his blood if this does not cause him any harm. It is permissible also to make this request from a Muslim or someone else for the purpose of saving the lives of compelled people be they Muslims or non-Muslims who are not in a state of war with Muslims.
Therefore, whoever donates his blood to save the lives of people, indeed, he gets a good reward for that if he does so for the sake of Allah. He Says:

```
مَّْ جَّاءَّ سَّنَّةِ بِِلْ فَّلَّهُ عَّشُْ مْثَّالِهَّا وَّمَّْ جَّاءَّ بِِلس َّي ِئَّةِ فَّلَّ يُظْلَّمُونَ
```

**Interpretation of Meaning:** Whoever brings a good deed (Islamic Monotheism and deeds of obedience to Allah and His Messenger ) shall have ten times the like thereof to his credit and whoever brings an evil deed (polytheism, disbelief, hypocrisy and deeds of disobedience to Allah and His Messenger ) shall have only the recompense of the like thereof and they will not be wronged.

[Surah An’aam: 161]

Allah also Says:

```
ورََّّهُ خَّيرًْا ذَّر َّة مِثْقَّال يَّعْمَّلْ فَََّّنْ يَرََّهُ شَّ ًا ذَّر َّة مِثْقَّال يَّعْمَّلْ وَّمَّْ
```

**Translation:** So whomsoever does good equal to the weight of an atom (or a small ant), shall see it. And whomsoever does evil equal to the weight of an atom (or a small ant), shall see it.

[Surah Zilzal: 7,8]

No one knows the amount of reward Allah will grant him for this act.

**Question & Answer on Blood Donation & Blood Transfusion:**

**Answered by Mufti Muhammad Ibn Adam, Darul Iftaa (Leicester, UK).**

**Question:** We are from local newspaper based in Blackburn targeting the Asian communities in Lancashire and Greater Manchester. We have worked with the National Blood Service in promoting the donating of blood and as you will be aware are misconcepts within the Muslim community on blood & organ donation. We would like you to provide us the Islamic view on this issue so we can try to tackle this topic through editorial and informative articles.

**Answer:** In the name of Allah, Most Compassionate, Most Merciful, It is a well known principle of Shariah that all the organs and parts of a human body whether one is a Muslim or a non-Muslim are sacred and must not be tampered with. To take benefit from any part of a human without a need is unlawful (haram). This also includes blood, for it is an integral part of a human. There are
two reasons for the impermissibility of taking benefit from another person's blood. Firstly, it is sacred like all other parts of a human. Allah Most High says: “And verily we have honored the children of Adam”.

[Surah Bani Israeel: 70]

However, Islam is a religion of mercy and caters to all the problems faced by humanity. It acknowledges the needs of people, thus gives concessions and dispensations wherever needed. Allah Most High says: “On no soul does Allah place a burden greater than it can bear”. [Surah Baqarah: 286]. The famous principle of Fiqh states: “Necessity makes prohibition lawful”.

[Abu Nuaim, al-Ashbah wal-Naza’ir, Page: 85]

Hence, it can be said that blood transfusion is lawful as a necessity just as Islamic law has permitted women's milk for infants out of necessity, despite it being part of a human body.

The second reason is the impurity of blood. This has been discussed earlier that impure and unlawful things become permissible in cases of need and necessity.

In light of the foregoing, it would be permitted to donate and transfuse blood under the following conditions: -

a) The donor is mature and sane.

b) The donor willingly donates his blood. If he is compelled to do so, it will not be permissible.

c) There is no apparent risk to the life or health of the donor.

d) There is absolute necessity in donating blood in that there is a definite risk to the life of a patient and in the opinion of the medical expert, there is no other way in saving his/her life.

e) There is a need for it, that is, there is no risk to the life, but in the opinion of the experts, restoration of health may not be possible without it.

f) There is no reasonable alternative.

g) It is not for the sake of beautification or any other additional benefit.

h) Transfusion of blood must not be carried out by way of buying and selling, for trading in human parts is never permissible. However, if one is in need of blood desperately and the only means to obtain the blood is to purchase it, then only will it be permissible to pay for the blood. This is discussed further in the following section.

Question: - Is there anything wrong with donating blood to non-Muslims?
**Answer:** - Donating blood to whoever is in need is permissible as long as the person in need does not display explicit enmity and hatred toward Islam and Muslims. However, it is not necessary to ask about the status of the beneficiary; rather, it is allowed to donate unless proven otherwise.

**Dr. Moin Khalid Al-Qudah:** -

**Question:** - The procedure for donating platelets is this: Blood is removed from the body. The removed blood is put into a machine - a centrifuge - that removes the platelets. Then, the remains are infused into the body of the donor. Is donating in this method permissible?

**Answer:** - Donating blood is permissible according to the resolutions of the fiqh assemblies and boards of grand scholars, etc. and this way of donating platelets is considered by the experts to be a safe way of doing that. Therefore, it is permissible.

The above ruling is but out of recognition for the necessity of these procedures for the preservation of life - a prime Islamic objective; this would not be allowed without a legitimate need.

**Dr. Hatem al-Haj:** -

**Question:** - What is the Islamic ruling on blood donation? Specifically, I am referring to donating blood in America and knowing it will probably go to non-Muslims.

**Answer:** - It is permissible for a Muslim to donate blood to a non-Muslim, except when that non-Muslim is known to be in a position of fighting the Muslims (either by belonging to a state which is in a state of war with Muslims or by supporting aggression towards them). In such a case it is not permissible to donate blood, because this will help them to fight Muslims. If the Muslim has no way of knowing to whom his blood will go, he should act according to what he thinks is most likely to happen. If he thinks that it is most likely to go to a kaafir who is not fighting the Muslims, it is permitted to donate and otherwise it is not.

[Fataawaa Islaamiyyah, Al-Jame’Al-Musnad, 4/415]

**Question:** - Is it permissible for me to donate blood to a sick person who is about to die and is not a Muslim? Praise is to Allah. I do not know of any reason why one cannot do that, because Allah, may He be glorified and exalted, says in His Holy Book.

`لا يَتَهَاكَمْ اللَّهُ عَيْبَ الَّذِينَ لَمْ يُقَالُ لَهُمْ مَكَانُ الْعَذَابِ فِي الْيَمِينِ`  
`وَلَمْ يُجِرْجُوَّكُمْ مِنْ دِيارَكُمْ أَنْ تَبْتَرُوهَا وَتَقْسِطُوا إِلَيْهِمْ إِنَّ اللَّهَ يُصْبِبُ الْمُقْسِطِينَ`

Translation: “Allah does not forbid you to deal justly and kindly with those who fought not against you on account of religion nor drove you out of your homes. Verily, Allah loves those who deal with equity”.

[Al-Mumtahinah: 8]

Answer: - Allah is telling us that with regard to those disbelievers who do not fight us or drive us out of our homes, He does not forbid us to be kind to them, treat them nicely and help the one who is in urgent need of help. The mother of Asma’ Bint Abu Bakr رضي الله عنها came when she was still a disbeliever to her daughter in Madinah, at the time of the truce between the Prophet ﷺ and the people of Makkah, to ask her to uphold ties of kinship. Asma’ consulted the Prophet ﷺ about that and He ﷺ told her to uphold ties of kinship with her and said: “Uphold ties of kinship with your mother” when she was still a disbeliever. So if a Non-Muslim who is living under Muslim rule or a non-Muslim who is on peaceful terms with us, with no war between him and us, is in need of that, there is nothing wrong with giving blood to him as an act of charity and you will be rewarded for that, because there is nothing wrong with giving aid to one who is in need of charity.

[Shaykh ‘Abd Al-‘Azeez Ibn Baaz], [Fataawa Noor ‘ala al-Darb, 1/292, 293]

Question: - The blood bank gives gifts to blood donors, such as prayer-rugs, key-rings or some money. Please tell us what Islam says about these gifts.

Answer: - It is not permissible to sell blood, because read the Hadees

Narrated by Aun Bin Abu Juhaifa that I saw my father buying a slave whose profession was cupping and ordered that his instruments (of cupping) be broken. I asked him the reason for doing so. He replied, Nabi ﷺ prohibited taking money for blood, the price of a dog and the earnings of a slave-girl by prostitution; he cursed her who (do) tattooing and her who gets tattooed, the eater of Riba (usury) and the maker of pictures.”

[Bukhari: 2238; Book. 34; English vol. 3; Book. 34; Hadees. 440]

Al-Haafiz said in Al-Fath: What is meant by the prohibition of blood is the same as the prohibition of dead meat and pork. It is haraam according to scholarly consensus, i.e. selling blood and taking its price. And Allah knows best.

Guggul for weak memory & urinary problems: -

2. Hazrat Abdullah Bin Abbas رضي الله عنهما says that Nabi ﷺ drank Kandar (الكندر) (Guggul) water mixed with sugar (السكر) at morning empty stomach & said that it removes urinary problems & it is best for Nisyaan (النسيان) (weak or lack of memory).

[At-Tibb Al-Nabawi (Al-Jawzi) vol. 1; page 294]

Guggulsterone, magnesium, iron, silica, aluminum, Balsum, tola etc

Scientific benefits: -

It lowers lipids, cholesterol, triglycerides, improves Insulin production & helps in controlling diabetes, helps in arthritis, sciatica, gouts & inflammatory diseases. Reduces hardening of arteries, (atherosclerosis), acne, & skin problems, reduces weight, tumors, ulcers, sores, tones the heart & is also helpful in urinary problems, worms, seizures (convulsion) etc.

Science & Hadees regarding Guggulu: -

Guggulu has anti bacterial activity so helpful in urinary problems & it is mostly lipid soluble & helpful in weak memory.

Modern medical investigations have shown that the gum-oleoresin & guggulu are beneficial in cases of rheumatoid arthritis, asthma & ulcerative colitis with no side effects as & are drugs of choice. They improve blood supply to the joints & restore integrity of vessels weakened by spasm. According to a review of
unpublished studies, preliminary double-blind trials have found loban & guggulu effective in relieving the symptoms of rheumatoid arthritis. Two placebo controlled studies, involving a total of 81 individuals with rheumatoid arthritis, reported significant reductions in swelling & pain over the course of 3 months.

In one study conducted at the Government Medical College in Jammu, India, nearly 60 percent of arthritic patients tested experienced good to excellent results against stiffness & pain. Over three-quarters of the patients in the study were either bedridden or incapacitated from doing normal work. Within two to four weeks after starting on Guggulu extract, they reported a lessening of morning joint stiffness, pain & improved grip strength.

In another study of 26 patients suffering from arthritic, dramatic improvement was experienced within four weeks. A German review published in 2002 documents the effectiveness of boswellic acids (key active ingredient) in treating arthritis, chronic ulcerative colitis, Crohn’s disease, bronchial asthma & reactive swelling around a brain tumour, as shown by clinical trials.

Experimental & clinical usage of loban & guggulu indicates that they have no side effects on blood pressure, heart rate, gastric irritation & ulcers associated with many anti-inflammatory & anti-arthritic drugs. It is now an approved herbal medicine in India for use against osteoarthritis, rheumatoid arthritis, soft tissue rheumatism, low back pain, myositis & fibrositis.

Animal studies have suggested that both reduce cholesterol & triglyceride levels in the blood. In other controlled human studies, it was shown to decrease the duration of bronchial asthma, possibly by blocking formation of the chemicals that cause the blood vessels to contract. Also has shown to be effective in epilepsy.

One rat study showed the Guggulsterone Z, at a dose of 10mg/kg bodyweight, increased iodine uptake & metabolic activity of the thyroid gland. The mechanisms of action of guggulsterone Z in this regard is unlike Thyroid Stimulating Hormone & is not a pituitary mediated. It was shown (again, at 10mg/kg bodyweight) to increase serum T3 & T4 levels. (It should be noted that this dose is much higher than what is customarily used in herbal supplements).

**Conclusion of Hadees:**

1. Use Guggul in urinary problems & weak memory, soak in little water overnight & drink the water in morning empty stomach........**This lesson has 2 Hadees..........**

The main chemical components are a-pinene, camphene, b-pinene, sabinene, phellandrene, limonene, 1, 8-cineole, y-terpinene, p-cymene, terpinolene, furfural, camphor, linalool, bornyl acetate, terpinen-4-ol, caryophyllene, borneol, piperitone, geraniol, safrole, cinnamaldehyde, methyl cinnamate & eugenol.

Scientific benefits of it: -

1. It is anti microbial, suppresses cough.
3. Reduces sprain, pain, swelling, inflammation.
4. It is a tropical vasodilating agent, perspiration & diuretic agent.
5. Can be inhaled for Bronchitis & etc.
6. Relieves pain, itching, fungal infections, cold sores, hemorrhoids (piles) warts & etc.

**Science & Hadees regarding Kaafur: -**

Camphor is also used as an antimicrobial substance. In embalming, camphor oil was one of the ingredients used by ancient Egyptians for mummification. Embalming is the art & science of preserving human body or body parts by treating them with chemicals to forestall decomposition. The intention is to keep them suitable for public display at a funeral, for religious reasons or for medical & scientific purposes such as their use as anatomical specimens. The three goals of embalming are sanitization, presentation & preservation (or restoration). Embalming has a very long & cross-cultural history, with many cultures giving the embalming processes a greater religious meaning.

Lesson no. 49 Mushroom & Truffles (Kamaat) (الكمأأة):

Names of Truffles
1. In Hadees it is called as Kamaat (الكمأأة).
2. In Hindi it is called as Kukuramutta (Means can be eaten).
3. In English it is called as Earthnut & Truffles.
4. In Urdu it is called as Khumbi.

Names of Mushroom
1. In Arabic it is called as Fatar (فطر).
2. In Urdu it is called as Khambi, Kullah bazan, Saap ki Chhatri, Futr.
3. In English it is called as Mushroom.
Introduction:

Kamaat (الكمأأة) mentioned in Hadees, according to many scholars is Truffles. But many scholars believe that Kamaat (الكمأأة) is Mushroom. Both come under the topic of Kamaat (الكمأأة). Truffles seem to be more proper than Kamaat mentioned in Hadees. There are many types of Mushrooms & truffles. Both are products of fungus. It is said in Hadees that they are among MANN means a blessings, may be because it grows by itself & do not needs human efforts.

Truffles:

They are fruit like edible (eatable) thing, but are not fruits, products of Ascomycete Fungus that grows beneath the surface of ground to a depth of 30 cm. & forms colonies, grow near the root of trees, & are of round, fleshy, soft, even, smooth surfaced or speckled surfaced & its colour varies from gray, brown or blackish. They are similar to potatoes. They are common in Arabia, Syria, Egypt, France & Italy. They have a different peculiar smell. They are more found in rainy season. But they are neither plants nor fruits. There are many types of Truffles & all are very expensive.

Mushrooms:

They are fleshy, spore-bearing fruiting body of a fungus, typically produced above ground on soil or on its food source. The standard name "mushroom" is for the cultivated white button mushroom, Agaricus bisporus, They have a stem (stipe), a cap (pileus) & gills (lamellae, sing. lamella) or pores on the underside of the cap. These pores or gills produce microscopic spores that help the fungus spread across the ground or its occupant surface. "Mushroom" describes a variety of gilled fungi, with or without stems & the term is used even more generally, to describe both the fleshy fruiting bodies of some Ascomycota & the woody or leathery fruiting bodies of some Basidiomycota, depending upon the context of the word. Forms deviating from the standard morphology usually have more specific names, such as "puffball", "stinkhorn" & "morel" & gilled.

Prophet ﷺ's guidance about Kamaat (الكمأأة):

Arabic words written in below references are the words mentioned in respected Hadees.
**Kamaat a blessing thing & cure for eye diseases:**

1. Hazrat Saeed Bin Zaid (r) says that Nabi ﷺ said Kamaat (الكمأأة) is among Mann (المن، a blessing thing), water of it is cure for eyes (للعينين).
   
   [Bukhari: 4478; Book. 65; English vol. 6; Book. 60; Hadees. 5]

2. Hazrat Abu Saeed & Jabir (r) says that Nabi ﷺ said that Kamaat (الكمأأة) are a type of Mann & their water is a healing for eye (diseases). & the Ajwah (dates) are from Paradise (Jannah) & they are healing for poisoning (السم).”
   
   [Ibn Ma-jah: 3579; Book. 31; English vol. 4; Book. 31, Hadees. 3453]

3. Amr Bin Huraith heard from Hazrat Saeed Bin Zaid Bin Amr Bin Nufail (r) that Nabi ﷺ said Kamaat (الكمأأة) is among Mann (المن) & which Allah Ta’ala sent for Bani Israel, its water is cure for eyes (للعينين).
   
   [Ibn Ma-jah: 3581; Book 31; English vol. 4; Book 31, Hadees. 3454]

4. Hazrat Suhaib (r) says that Rasoolullah ﷺ said: “For your beneficial, Kamaat (الكمأأة) is present, that are among Mann (المن) & its water is cure (شفاء) for eyes (للعينين).
   
   [Abu Nu-aim: 258]

5. Qatadah says that Abu Hurairah (r) said that he took 3 or 5 or 7 Kamaat (الكمأأة) & drew out water from them & collected the water in a bottle & used the water for a slave’s eye disease & her eyes got cured.
   
   [Tirmizi: 2211; Book no. 28; English vol. 4; Book. 2, Hadees. 2069]

**Kamaat a product from Jannah:**

6. Hazrat Abdulllah Bin Abbas رضي الله عنهما says that Rasoolullah ﷺ came to us & said that, “When Jannah (الجنة) smiled Kamaat (الكمأأة) dropped on earth & when earth smiled Kabr (الكبر) grew”.
   
   [Al-Tibb Al-Nabawi: 666]

*Kabr (الكبر) is a thorny tree.*

**Kamaat a blessing thing & not small pox of earth:**
7. Hazrat Abu Hurairah ﷺ says that some people use to say that Kamaat (الكمأ) are small pox (جدري) of earth, at this Rasoolullah ﷺ said, Kamaat (الكمأ) is among Mann (المن) & its water is cure for eyes & Ajwah (dates) are from Jannah (الجنة) it saves from poisoning.

[Ibn Ma-jah: 3582; Book no. 31; English vol. 4; Book. 31, Hadees. 3455]

**Scientific benefits of Truffles:**

1. They are good sources of protein & have all types of amino acids in them.
2. They contain carbohydrates, glycogen & fungus cellulose.
3. They have no cholesterol.
4. Very helpful in Trachoma (a deadly eye diseases which cause most of the blindness in the whole world).

**Scientific benefits of Mushroom:**

1. Mushrooms decreases tumor growth & development in cells which develop cancers.
2. Mushrooms are the leading source of the essential antioxidant selenium thus protects body cells from getting damaged that might lead to chronic diseases.
3. They help to strengthen the immune system.
4. They have & provide ergothioneine, a naturally occurring antioxidant that helps to protect the body cells.
5. They give few calories thus helpful in obesity.
6. Rich in vitamin D.

**Science & Hadees regarding truffles & mushrooms:**

*Truffles are an important source of protein among the desert plants.*

*The compositions are as follows:*  
It has 77% water & 23% other substances. These substances include 60% hydrocarbons, 7% fats, 4% fibers, 18% proteins & the remaining 11% are in the form of ashes that remain after its burning. Seventeen amino acids have already been recognized in the proteins present in the truffles.
When Prophet ﷺ describes the truffles as manna, this actually implies that they grow by the Will & Grace of Allah as they are not cultivated by man. Moreover, they require neither seeds nor water to grow. The only interference by man in this process is to exert effort in their gathering. As for the other description given by Prophet ﷺ that “Their water is healing to the eye”, Ibn Sina mentioned that Muslims, in response to this Hadees used to boil its water, cool it & then use it as eye drops. Dr. Al-Mu’taz al-Marzuqi, an Egyptian Ophthalmologist, tried to study this Hadees in the light of modern science & reached very important results.

He found that the water of truffles prevents the occurrence of fibrosis in cases of eye trachoma. Truffles stop the formation of the fibrous tissues in the infected area. Experiments have proven that the application of the water of truffles in the treatment of trachoma has led to an enormous drop in the formation of lymphatic cells resulting from inflammation, which may lead to opacity of the cornea. Trachoma is a chronic contagious inflammation from which most inhabitants of the Arab world, the Mediterranean region & others all over the world suffer. The complications resulting from this disease may lead to total blindness.

Trachoma with its various complications is found to be completely responsible for more than 25% of the cases of blindness in areas where the disease is widespread. Very often, trachoma is also accompanied by spring ophthalmia, which increases fibrosis in the infected area. Experiments carried by Dr. Al-Mu’taz Al-Marzuqi have proven that the water of truffles remarkably reduces the occurrence of fibrosis in the eye cornea, through stopping the growth of the cells which form the fibers, equalizing the chemical effect of the trachoma poisons & inhibiting the unnatural growth of the cells of the conjunctiva, because most of the complications of trachoma occur because of fibrosis of the cornea that are cured by the water of truffles (By Dr. Zaghloul El-Naggar).

Conclusion of Hadees: -

1. Truffles are among Mann, means a blessing reward, they are origin from Jannah, & beneficial in eye diseases, also they are not small pox on earth, as believed previously.

Antimony strengthens the optic nerve & is considered the best kohl (surma) when mixed with musk powder for elderly people with poor vision weakened by old age & also helps reduce skin flap growing on the eyelid, mange of the eyelids & it relaxes eyestrain. It helps detoxify eye moisture & eases congestion in tear ducts. It helps in natural cleansing of the eyes & helps to protect the eyes from dust particles floating in the air & brightens one’s sight. When Ismid (surma) is mixed with honey diluted in water & applied on the edge of the eyelid, it can help reduce headaches.

Mange means a skin disease of mammals caused by parasitic mites & occasionally communicable to humans. It is characterized by severe itching, hair loss & the formation of scabs & lesions.

**Conclusion of Hadees:**

2. Enhances taste in food. It increases sweating & urine output. It is an antidote for alkaline poisoning. Also it can be applied on ring worm & alopecia. It is helpful in lice & nits problem, ulcers. Wounds can be washed with it, may be applied on forehead in fever.

3. Should be drink with water in cold & cough, Cider vinegar is helpful in cold & cough, It prevents diarrhea, Increases metabolism, cleans the intestines, kills the bacteria & reduces weight.

Science & Hadees regarding vinegar:

As soon as we take vinegar, it starts to eliminate fatigue substance from the body; you can notice this in only two hours by confirming your urine. If you look at your urine two hours after you take vinegar & you will find it to be clearer. Or, if you are unwilling to look at it closely, examine it with a piece of pH test paper (litmus paper). Before you take vinegar, the pH test paper will show that your urine is acidic, due to fatigue-creating substances in your body. Two hours after you take vinegar, the test paper will show more alkaline. These results mean that the previous fatigue substances were decreased or removed by taking the vinegar.

The liver dissolves the poisonous matters which were made in our body, so we must always keep the liver working well. Meat, fish, eggs, coconut oil, green vegetables & other nourishing foods as well as vinegar act like medicines for the liver. Some Eastern doctors believe that depression is the symptom of a "stagnant" or tired liver. If you believe in this philosophy, then apple cider vinegar would help to fight depression, since it is a great medium to help detoxify & clean the liver.

Over the centuries, oxymel (combination of apple cider vinegar & honey) has been widely used to dissolve painful calcium deposits in the body, for arthritis-like pains & for other health problems such as hay fever. Also "Vinegar performs the role of disinfectant for the intestines".

Conclusion of Hadees:

Vinegar is a best source of liquid food, there is Barkat in it & it was the food of previous Prophets (a.s), the house which has vinegar in it will not be poor.

Researchers around the world are discovering new & exciting medical benefits of honey & other healing items produced in the hive such as propolis, royal jelly & bee pollen.

Honey is ablulent & an aperient. It contains detergent & tonic properties that cleanse the arteries & bowels impurities. It opens obstructions of the liver, kidney & bladder. It is also a general preservative & it helps to
preserve the potency of other natural medicinal remedies. It also helps to break up excess moisture in the bowels, such as in diarrhea.

Honey is superior to sugar in many aspects & it is less sweet but stronger & if taken excessively, it can be harmful to the bile, unless it is mixed with vinegar. Honey is good for the aged; it is a cough suppressant & is used in medicine to treat corrupted phlegm in the stomach & to soften the general constitution of the body.

Honey is also a curative for a depraved appetite & when taken as a drink mixed with hot water & a pomace made from sweet roses, it helps the treatment of rabies & is considered a safeguard from further infections.

When taken as a drink mixed with hot water only, it helps as a remedy for dog bites. As a preservative, honey can be used to preserve meat for up to three months & is used in pickling cucumbers, squash, eggplant & various kinds of fruits for up to six months. Known as "the trustworthy preservative", honey was also used as a principle ingredient in embalming the dead.

The study on pollens & spores in raw honey (melissopalynology) can determine floral sources of honey. Because bees carry an electrostatic charge & can attract other particles from nature.

Modern medicine has only recently discovered the fact that honey is a remedy to many diseases. Traditional uses of honey have included honey mixed with lemon for sore throats. Honey coats the throat & reduces throat irritation. Research has already shown that honey blocks the growth of oral bacteria.

Honey has also been used for stomach pains & problems. Modern research shows that honey is effective when used in the treatment of gastric or peptic (stomach) ulcers. Research has also revealed that honey is effective in the treatment of various wounds & infections because of its antimicrobial (anti-bacterial, antiviral & antifungal) properties.

Researchers are not absolutely sure why honey heals but they are learning new things about honey every day. As mentioned in the beginning, honey contains a variety of sugars & minerals. Honey is also
considered an antioxidant. This means it allows the blood to circulate better & provide more oxygen to areas of the body such as the brain.

Fat-tailed sheep are hardy & adaptable, able to withstand the tough challenges of desert life. When feed is plentiful, fat-tailed sheep can be large in size & growth. The carcass quality of these sheep is quite good, with most of the fat concentrated in the tail area. Fat tailed sheep were bred specifically to produce the fatty tails which were used in soups & other cooking. The fat of the tails is called Allyah, with the tail representing up to 15% of the entire carcass weight.

Nabi’s guidance about Al-Kabsh Al-Arabi:

Cure for Arqunisa (sciatica):

1. Hazrat Anas Bin Malik says that Nabi said: "The cure for Irqun-Nisa (عرق النسا) (lower back pain) is in fat-tail of Bedouin sheep, its fats should be melted & divided into 3 parts & each part (should) be taken each day on empty stomach."
2. Hazrat Anas  says that he prescribed Al-Kabsh Al-Arabi for Irqun-Nisa (lower back pain) to 300 people & Allah Ta’ala healed to all.

[Islamic Medicine page no. 166; book by Yusuf Al-Hajj Ahmad]

**Contents of it:**

Lipids, Omega-3 & 6, Fatty acids, essential & non essential fatty acids & etc.

**Science & Hadees regarding fat-tailed Sheep:**

1. **The role of fats in the treatment of this illness:**

Nabi  mentioned that the treatment of Irqun-Nisa (lower back pain), in some cases, is the Fat-tail of sheep, which is in fact right.

**Modern science says:**

Prostaglandin is a large group of natural enzyme which acts as hormones & whole body is related with them. There are lots of functions which they act in the body.

Lipid metabolism has three branches, each is related to the type of fat consumed in a big quantity leading therefore to the formation of three
different chemical compounds (prostaglandin 1, 2 & 3) that have opposite effects from each other. These compounds, called the prostaglandins, resemble the hormones & have different effects on pains & inflammations in the body.

Prostaglandins type 1 prevent pain & come from the fatty acid called gamma linoleic acid (GLA) that belongs to the omega 6 fat group found on a limited basis in some wild plant. These products help to convert linoleic acid to gamma linoleic acid & then to prostaglandins type 3.

Prostaglandins type 2 on the other hand, augments the pains. These are formed from omega 6 fat group as well & mainly from linoleic acid found in margarines & cakes, as well as vegetable oils.

A prostaglandins type 3 is known for their calming action on the pains & inflammations. Those are formed from Alpha Linoleic Acid (ALA), which is converted to the two compounds EPA & DHA. Alpha Linoleic Acid is found in the oils of natural leaves & herbs & so this is an advantage of the natural vegetal food eaten by humans & animals like the sheep living in a desert (oasis) especially fat-tailed sheeps. Oils that contain alpha linoleic acid are cheap. Those belong to the omega-3 group known for its large benefits & are liquid in room temperature.

**Sciatica pain (Irqun Nisa): -**

Sciatica is large & thick pair (right & left) of nerve descending from lumber & sacral spine.
Sciatica means pain affecting the back, hip & outer side of the leg, caused by compression of a spinal nerve root in the lower back, often owing to degeneration of an intervertebral disc.

Some of the benefits of fats of omega-3:

1. They reduce cholesterol level, protection from heart diseases & brain strokes, protection from arterial hypertension, rheumatoid, eczema & cancers. Also weight loss, formation of the tissues of the brain, the eye, the ear, the reproductive glands & the other glands tissues, formation of the membranes surrounding all the cells of the body & acting to protect the cells, repairing the nervous tissues as in the case of a herniated disk, one of the principal causes of Sciatica, inflammation of nervous tissues, which is the second main cause of Sciatica.

2. The desert sheep live on natural herbs, rich in the omega 3 fats & from it 700 medicines are prepared. The beneficial oils the sheep obtains from these herbs are stored in its tail.

3. Nabi said that the tail should be melted first & so the harmful bacteria & germs are killed by the heat.

4. It should also be taken in three days, not more, to avoid fat oxidation & rancidity.

5. It should be taken on an empty stomach, so that no other lipids compete with the lipids of the tail for absorption in the digestive tract at the vesicles & pancreas level, in addition to the cellular level where the enzymes acting at the membrane convert those lipids of the omega 3 group to the beneficial type 3 prostaglandin that reduce the inflammations & the pain caused by Sciatica.

Conclusion of Hadees:

Its tail-fats are a cure for sciatica but many scholars says that this advice was for a particular people of a particular region.

Hazrat Jabir  was pleased & he sent some meat to Nabi  which Nabi  ate. (Some of the part of Hadees is from different Hadees).

Qualities of Fish: -
The fish which has good taste & smell, is of medium size, thin skinned, meat is not tough or dry, lives in clean fresh water, eats plants & do not eat dirt, is of whitest colour etc are best for use.

### Scientific benefits:

1. Fishes are beneficial in hydrocephalus, T.B, ulcers, kidney problems, pain in back & joints & increases libido. It is also beneficial for metabolism because they have natural sulphurs & are good for skin, hairs, nails, joints, brain, heart, kidney, liver, thyroid gland, bones.

2. They are helpful in heart problem, obesity, (because fish oil has conjugated linolenic acid, DHA, EPA); it also reduces cholesterol, triglycerides & controls blood pressure.

### Contents of it:

Vitamin A, D, C, E, B1, B2, B3, B5, B6, B7, B12, iodine, sodium, potassium, calcium, phosphate, chloride, sulphurs, iron, linolenic acid, D.H.A, E.P.A, unsaturated fatty acids, proteins, omega 3 fatty acids etc.

### Uses:

1. Cooked in gravy, fried or roasted, fish oil like salmon oil, cod liver oil, shark liver oil etc has great health benefits.

### The explanation & conclusion of the Hadees:

The Hadees declares that these things are lawful for Muslims to eat, since it is only Allah who makes things lawful & unlawful. It can be assumed that this Hadees was mentioned after the verse was revealed in which Allah says:

حُرِّمَتْ عَلَيْكُُمُ الْمَّيْتَّةُ وَّالد َّمُ وَّلْخِنِْْيرِ

**Translation:** Forbidden to you are carrion, blood & the flesh of swine.

*Surah Al-Mâ‘idah verse no. 3*

### Its legal implications:

© Copyright Mohammed Shakeel Shamsi May 2016 (All Rights Reserved)  Page 390
The Hadees says that the dead (fish) of the sea are lawful to eat. It says in the Qur’an:

أَجِّلْ لَكُمُ صَيْدُ الْبَحْرِ وَطَّعَّامُهُ مَتَىٰ لِلْمُسْتَرْخَاءِ

Translation: “Made lawful for you are the game of the sea & its food, a provision for you & for the travelers.”

[Surah Mâ’idah verse no. 96]

A good number of Companions, including Abu Bakr , Abu Ayyub  & Ibn Abbas رضي الله عنهما have explained that “the game of the sea” refers to what is acquired by fishing & that “its food” refers to the sea animals that have died in it.

[Tafsîr al-Tabarî (7/63-69) & Sunan al-Bayhaqî (9/253-255)

Scholars, however, have different opinion regarding the dead fish that float belly-up upon the surface of the water when its occurrence is not as a result of a recent event.

The first opinion is that such fish are lawful to eat. This, as we already mentioned, was the opinion of Abu Bakr , Abu Ayyub  & Ibn Abbâs رضي الله عنهما & a number of other Companions. Abu Bakr , for instance, said plainly: “The fish floating upon the surface of the water are lawful, so whoever wants to do so may eat of it.”

[Musannaf `Abd al-Razzâq (4/503) with an authentic chain of transmission]

This opinion was held by a number of successors & jurists, like ‘Atâ’, Abu Rabâh, Mahkûl, Ibrâhîm Al-Nakha’î & Abu Thawr. It is also the view of the Mâlik, Al-Shâfî`î & Ahmad Bin Hanbalî as well as their respective schools of law.

Of course, the proponents of this view cite the Hadees under discussion as evidence. They also cite the Hadees what Prophet  said about the sea: “Its water purifies & its dead are lawful.” It is the generality of both these Hadees, as well as of the verse mentioned above, that makes their case. The wording of these texts is sweepingly general, not allowing for the exception of anything.

They also cite as evidence the Hadees related by Jabir  about the expedition under the leadership of Abu Ubaidah that they faced
starvation. While they were traveling along the coast came across the carcass & a whale was thrown by the sea on the bank, from which they ate & from which they took some of the meat with them as a provision. When they returned to Madinah, they informed Prophet ﷺ of what they did & He ﷺ said to them: “This is a provision that Allah had brought for you. Do you have with you any of the meat to give to us to eat?” They later sent some of the meat to the Prophet ﷺ & He ﷺ ate from it.

This story is evidence that the dead of the sea are lawful to eat. It also shows us that it makes no difference whether the animal died in the sea or after it was cast out upon the land, since neither the Companions nor the Prophet ﷺ concerned themselves with ascertaining how the whale had died. One of the well-known principles of Islamic jurisprudence is that whenever the Prophet ﷺ refrained from inquiring into the details of a situation when various possibilities existed, it indicates that the ruling is general & applies regardless of the circumstances.

The second opinion on this matter is that it is disliked in Islamic Law to eat the dead fish that float upon the surface of the water. This was the opinion of Jâbir Bin Zayd & Tâ`ûs. It is also the view that was held by Abu Hanîfah & his colleagues.

They cite the Hadees related by Jabir ﷺ that states: “From what the sea casts out or leaves behind you may eat, but from what dies at sea & floats to the surface you may not eat.” However, Abu Dâwûd says: “Sufyân Al-Thawrî, Ayyub & Hammâd relate this Hadees from Abu Zubayr as being a statement of Jabir ﷺ. This Hadees has been attributed to the Prophet ﷺ with a weak chain of transmission form Ibn Abî Dhi‘b from Abu Zubayr from Jabir ﷺ.”

Besides the fact that it cannot be authentically attributed to the Prophet ﷺ it has another defect even when it is related merely as a statement of Jabir ﷺ. Abu Zubayr relates it without saying decisively that he heard it from Jabir ﷺ. For a narrator like Abu Zubayr, this is a problem, since he was known for relating things that he had heard indirectly. A good number of scholars have declared this to be weak, including `Abd Al-Haqq Al-Ishbîlî, Ibn Al-Qayyim & more recently Al-Albânî.

Al-Nawawî writes:
As for the Hadees that is related from Jabir Ḥ., scholars of Hadees agree on the fact that it is weak & that it cannot be used as evidence even if no other evidence exists to contradict it. How, then, can it be used when it is contradicted by other evidence?

The strongest opinion on the matter is the opinion held by the majority of scholars, since this is the opinion that is supported by the evidence. & Allah knows best.

Author’s opinion: -

Most of the fishes which we eat come from hunting by fishing & they do not die in water nor do they float; so there is no harm & wrong in eating them.

Science & Hadees regarding Fish & locust: -

According to the book “Insects” by Steve Parker, Locusts are an excellent source of protein & contain a variety of fatty acids & minerals, vary in protein content from about 50 percent of dry weight to almost 60 percent, It contains adequate amounts of iodine, phosphorus, iron, thiamine, riboflavin, niacin, as well as traces of calcium, magnesium & selenium. Carbohydrate levels are very low in locusts, which makes them a good candidate for Atkins & Paleo types of diets. It has 20 grams of protein & just 6 g of fat per 100g.

Fish liver or fish liver oil: -

"The livers of edible fish are a good source of long-chain polyunsaturated fatty acids (LCPUFA), especially those in the omega 3 family, such as eicosapentaenoic acid (EPA) & docosahexaenoic acid (DHA),” José Luis Guil-Guerrero, lead author of the study, said. These fatty acids are used to prevent & treat various complaints, such as some kinds of cancer, depression, Alzheimer’s disease, schizophrenia, behavioural problems & cardiovascular diseases.

The study focused on 12 kinds of fish that are commonly eaten in south eastern Spain, such as hake, shortfin mako & European pilchard. The livers of the great weever (Trachinus draco) & the European anchovy (Engraulis encrasiciolus) were those that showed up the highest levels of LCPUFA (51.4% & 47.9% out of the total fatty acids, respectively). In
addition, all the species had a combination of omega-3/omega-6 acids that is "beneficial for human consumption," especially in the case of the liver of the blue whiting (Micromesistius poutassou).

"Unfortunately, discarding these livers means that all their nutritional properties are missed," says Guil-Guerrero, "and if they were used this would also reduce the environmental pollution caused by throwing innards into the water, which is an inherent problem in the fish product processing industry in coastal areas."

**Fish oil:**

1. Fish oil decreases cholesterol level, protects from heart diseases & brain strokes, Also protects from arterial hypertension, rheumatoid, eczema & cancers, weight loss, formation of the tissues of the brain, the eyes, the ears, the reproductive glands & the other glands’ tissues, formation of the membranes surrounding all the cells of the body & acting to protect the cells, repairing the nervous tissues as in the case of a herniated disk, one of the principal causes of Sciatica, inflammation of nervous tissues, which is the second main cause of Sciatica.

2. Fish oil contains omega-3, omega 6, which contains both docosahexaenoic acid (DHA) & eicosapentaenoic acid (EPA). Omega-3 fatty acids are essential nutrients that are important in preventing & managing heart diseases.

Findings show omega-3 fatty acids may help to Lower blood pressure, reduce triglycerides, slow the development of plaque in the arteries, reduce the chance of abnormal heart rhythm, reduce the likelihood of heart attack & stroke & lessen the chance of sudden cardiac death in people with heart diseases, good for brain, bones, skin, hairs, nails, eyes & etc. Fish is beneficial for hydrocephalus (collection of fluid in the brain in infants), tuberculosis, ulcers, kidney problems & pain in the back & joint & increases libido.

**Conclusion of Hadees:**
Two dead things & two types of blood are allowed (to eat), the two dead things are Fish & Locusts (الجراد) (Jaraad), & two types of blood are Liver & Spleen, sea water is pure (usable) & its products are also permissible.

First food that will be eaten by people of Jannah (Paradise) will be Caudate or extra lobe of fish liver, 300 Sahabah ate sperm whale a large fish for 15 days. Everyone in the universe, in the heavens & on earth, prays for forgiveness for the scholar (Aalims), even the fishes in the sea. Please consider views of scholars regarding dead animals of sea.

Swine meat prohibited:

Pigs have no neck that makes it impossible to be slaughtered in the Islamic way (The Halaal way) & thus getting rid of the blood, which contains an abundance of uric acid, a toxic chemical substance that can be injurious to human health.

Diseases caused by eating pork:

Eating the meat of pig can cause over seventy different types of latent diseases as their body contains many toxins & deadly parasitic worms like tapeworm, roundworm, pinworm, hookworm, etc. If you eat pork you are likely to ingest many of these worms or their eggs into your body! Most dangerous among them is the Tapeworm. These worms can enter the human body through the mouth, anus, nose, or skin, with most species attaching themselves to the intestinal tract. That is why you have to stay away from pigs. Once inside the body, these worms lay eggs & raise a family! The baby worms along with their parents stroll inside your body & can reach any organ easily. If they enter the brain it can cause memory loss. If they enter the heart it can cause heart attack, if they enter the eyes, it can cause blindness & if they enter the liver, it can cause liver damage. Simply, it can damage almost all the organs of the body. One in six people in the US & Canada has trichinosis from eating trichina worms (roundworms), which are found in pork. These worms are found in the flesh of pigs & the diseases caused by eating pork are incurable once it reaches beyond a certain stage.

Pork has very little muscle building material & contains excess fat. This fat gets deposited in the vessels & can cause hypertension (high B.P) & heart attack. Those who consume pork are more prone to obesity because of the high fat content in pork. In this group, blood cholesterol level is frequently higher than normal; pork-eaters are more susceptible to arteriosclerosis (hardening of arteries of heart), which may result in cardiovascular diseases, malfunction of the brain blood-circulation, vascular pathology of the lower limbs, etc.
Influenza or flu is one of the most lethal illnesses that pigs share with humans. This illness is harboured in the lungs of pigs during summer & tends to effect pigs & humans in the cold months. Eating pork also leads to gallstones & noxious diseases. It is one of the filthiest animals on earth. It lives & thrives on muck, faces (shit or poop) or excreta & dirt. Often trash is collected & fed to pigs.

Pigs will scavenge & eat any kind of food, including dead insects, worms, tree bark, rotting carcasses, garbage, small animals & even other pigs. Surprisingly, pigs eat their own babies! They eat anything & everything. Even if pigs are bred in clean & hygienic conditions they are kept together in farms or barns & they simply cannot resist eating filthy substances or shit from other pigs & of their own. They are just filthy by nature.

Another interesting fact is that the pig excretes only 2% of its total uric acid content; the remaining 98% remains an integral part of the body.

**Blood prohibited: -**

The reason why the blood that is “poured forth” is forbidden to us is because of the information that has become well known & well established nowadays among the doctors & those who carry out medical tests & study microscopic creatures, which is that blood is considered to be the optimum environment for the growth of germs. So if a person drinks blood it is as if he has drunk a “farm” for growing germs, in which the germs can multiply & grow, producing lethal poisons which, as is well known, have extremely harmful effects which result in germs invading the human body resulting in the person contracting contagious & lethal diseases. By cooking or boiling at any degree spores & capsule secreting organism do not get killed & there is no question that blood can be cook or boiled & eaten.

**Meat the king of all eatables: -**

Meat proteins are excellent they contain all the amino acids that we need, while most plant proteins have a suboptimal amino acid profile, not surprisingly, consumption of animal protein is associated with increased muscle mass & people who eat an omnivorous diet have more muscle than people eating a vegetarian diet. Studies also show that
vegetarians have much lower testosterone levels than their meat-eating counterparts. Low testosterone is associated with reduced strength, less muscle mass, more fat gain, depression & reduced self-esteem. Another thing that protein is important for is bone health. The studies show that consumption of protein, especially animal protein, is associated with increased bone density in old age & a lower risk of fractures & much more.

Conclusion of Hadees:

1. Meat is at the top of all eatables on earth & Jannah, accept feast of meat, do not eat meat or drink milk of animals that eat dirty stuffs, bite the meat with teeth, perform wazoo after eating camel meat, try to avoid cow meats, fat tail of sheep are cure for sciatica, increase the gravy & give to neighbors, also give meat as charity.

**Donkey & dog meat prohibited:**

Dog’s saliva is a very dangerous substance & that it is the main route for humans to get infected with many diseases such as rabies. In this way, there are varying degrees of filth in creatures & substances with some more infectious than others. We have an obligation to look after our health & to keep away from that which endangers it.

Donkey meat is prohibited for two possible reasons both of which are dependent on circumstances. The first is people needed the donkeys for transportation & in such circumstances they were instructed to not eat the donkeys. This is clearly just a pragmatic temporary ban. The second refers to not eating animals that have been living in effect as part of the family. This means that when we have a domesticated animal living among us, then it would be a violation of our implied agreement with that animal to kill it & eat it.

**Conclusion of Hadees:**

Please avoid all prohibited eatables & drinks, do not eat prohibited meats & also avoid riding on dirty animals.

Lesson no. 58 Ashes (Raakh): -

Names
1. In Hadees it is called as Lail.
2. In English it is called as Ashes.
3. In Urdu & Hindi it is called Raakh.
4. In Arabic it is called as Sakan (سكن) Ramaad.

Introduction: -
Ash are the end remaining thing when any materials are burnt, they are in powder form, mainly grayish silverish coloured, mostly alkaline, can be of animal origin, plants origin, chemical origin, metal origin etc, but to stop bleeding plant origin ashes are used.

Nabi ﷺ’s guidance about Ashes: -

Ash used to stop Bleeding of Nabi ﷺ: -
1. Narrated by Sahl Bin Saad ﷺ that Nabi ﷺ got wounded on the day of Uhud, “His ﷺ molar was broken & His ﷺ helmet was crushed on His ﷺ Head. Fatimah رضي الله عنها was washing the blood & Ali ﷺ was pouring water on Him ﷺ from a shield. When Fatimah رضي الله عنها realized that the water was only making the bleeding worse, she took a piece of a
mat & burnt it & when it had turned to ashes, she applied it to the
wound to stop the bleeding.

[Ibn Majah: 3593; Book. 31; English vol. 4; Book. 31; Hadees. 3464]

2. Abu Hazim said: "While I was listening, Sahl Bin Saad  was asked:
'What were the wounds of Nabi  treated with?' He said: 'None is
alive who is more knowledgeable of it than I. Ali  would come with
water in his shield & Fatimah  would use it to wash His  blood off & a mat was burnt for Him  & His wounds were filled with
it (its ashes)."

[Tirmizi: 2229; Book. 28; English vol. 4; Book. 2, Hadees. 2085]

(Please note fresh ashes were directly applied to Nabi ’s wound).

3. Narrated by Sahl Bin Saa’d As-Sa’idi  that when the helmet broke on
the Head of Nabi  & His  face became covered with blood & His  incisor tooth broke (i.e. during the battle of Uhud), Ali  used to
bring water in his shield while Fatimah  was washing the
blood off His face. When Fatimah  saw that the bleeding
increased because of the water, she took a mat (of palm leaves), burnt
it & stuck it (the burnt ashes) on the wound of Nabi , whereupon
the bleeding stopped.

[Bukhari: 5722; Book. 76; English vol. 7; Book. 71; Hadees. 618]

4. Narrated by Abu Hazim that he heard Sahl Bin Saad  being asked
about the wounds of Nabi  saying: "By Allah, I know who washed
the wounds of Nabi  & who poured water (for washing them) &
with what he was treated." Sahl added, "Fatimah , the
daughter of Nabi  used to wash the wounds & Ali Bin Abi Talib 
used to pour water from a shield. When Fatimah  saw that the
water aggravated the bleeding, she took a piece of a mat, burnt it &
inserted its ashes into the wound so that the blood was concealed
(and bleeding stopped). His  canine tooth got broken on that day &
face was wounded & His  helmet was broken on His head."

[Bukhari: 4075; Book no. 64; English vol. 5; Book. 59; Hadees. 402]
5. Hazrat Kabshah رضي الله عنها (daughter of Abu Bakar ) says that her father forbid his family for Hijamah (الحجامة) on Tuesday & used to assert on the authority of Nabi  that Tuesday is the day of blood & said that on Tuesday a movement is there in which blood do not stops.

[Abu Dawud: 3862; Book. 29; English Book. 28; Hadees. 3853]

Content of Ashes:

Sodium, potassium, calcium, salts, organic & nonorganic substance, carbon, oxides, phosphate, etc (mainly its content depends on the things that are burnt & Ashes formed).

Scientific benefits:

1. All types of ashes have a drying & clearing effects.
2. The ashes of astringent plants or wood stops bleeding.
3. Ashes absorb large amount of plasma thus helps in initial clotting of blood platelets & bleeding stops.
4. Forms a protective covering on wounds thus protects the wound from germs.
5. The surface protein of wound settles.
6. It kills the germs.

Science & Hadees regarding Ashes:

Plants ashes are the powdery residue that remains after plants are burned; chemically the ash is alkaline (pH > 10) & composed primarily of calcium carbonate & secondarily, most often, of potassium chloride (interestingly, alkaline word is derives from the Arabic meaning plant ashes) & these help in blood clotting because it absorbs large amount of plasma, thus helps in initial clotting of blood platelets & bleeding stops & forms a protective covering on wounds thus protects the wound from germs. Many doctors have found that bleeding on Tuesdays is stopped with difficulty.

Conclusion of Hadees:

Palm ash was used to stop bleeding of Nabi . .........This lesson has 5 Hadees.........

Researches on antimicrobial activity of certain bacteria & fungi isolated from soil mixed with human saliva against pathogenic microbes causing dermatological diseases by Huda Mohammed Ahmed Shaikh at Open Access funded by King Saud University.

Soil samples *(collected from Al-Madina Al-Monawara, Kingdom Saudi Arabia)* were mixed with human saliva, incubated in media suitable for
bacterial & fungal growth & filtered. Eighteen bacterial & five fungal species were isolated & identified. The bacterial & fungal filtrates as well as the isolated species were evaluated for their antimicrobial activities against some pathogenic microbes causing dermatological diseases (Staphylococcus aureus, methicillin resistant S. aureus (MRSA) & Aspergillus niger). The bacterial filtrate showed significant antagonistic effect against S. aureus & methicillin resistant S. aureus (MRSA), whereas showed non inhibitory action on the pathogenic fungus.

In contrast, the fungal filtrate antagonized the growth of the pathogenic fungus (A. niger) & did not produce any inhibitory effect on the two tested pathogenic bacteria. The isolated bacterial species showed different levels of antagonistic activities against the three tested microbes. Bacillus subtilis was described as potent isolate against the three pathogens, followed by Esherichia coli. However, Bacillus megaterium strongly inhibited the growth of the pathogenic bacteria only. On the other side, all the fungal filtrates of the isolated species, except Cochliobolus lanatusshowed antagonistic activity against the pathogenic fungus (A. niger). The filtrate of Fusarium oxysporum & Emericella nidulans counteracted the growth of S. aureus, whereas, the growth of MRSA was inhibited only by the filtrate of E. nidulans. From the words of our respected Prophet ﷺ if any person complains from a wound or ulcer, the Messenger of Allah put his forefinger on the ground & lift it then recited:

ترْبَّةُ أَرْضِنَّا، وَرْقِقَةُ بَعْضِنَّا، يُشْفَّ سَقِيمُنَّا، بِِذْنِ رَّبِّنَا

(In the Name of Allah, soil of our land, with the saliva of some of us, our sick person will get well after the permission of our Lord).

Conclusion of Hadees: -

Nabi ﷺ used His ﷺ saliva & soil of Madinah to heal wound, lesion along with Dua. ..........This lesson has 3 Hadees........
Introduction of Ruqyah:

For Ruqyah, we can use special verses of Quran, Dua taught & read by Nabi ﷺ, Names of Allah Ta’ala, & some permissible medicines. In India, Pakistan, Bangladesh etc the collection of verses of Quran, called as Manzil, is also a type of Ruqyah.

Ruqyah is commonly translated in English as "Incantation" which carries a negative meaning, since the word incantation is usually associated with magic, spells & witchcraft. However, Ruqyah in Islam is the recitation of Quran, seeking of refuge, remembrance & supplications (Dua) that are used as a means of treating sicknesses & other problems).

Ruqyah was advised by Nabi ﷺ very much to the people, patience & etc, especially for pain, diseases, evil eye (Nazar), black magic (Sehar), mischief of jinns & devil (shaitaan) & prevention.

Many times Nabi ﷺ advised Dua alone or Dua & medicine both, or Ruqyah alone or alone medicine, but advised Ruqyah & Dua mostly. The treatment for black magic (Sehar) & evil eye (nazar) is all most same & it is by Ruqyah.
And We send down of the Quran that which is a healing and a mercy to those who believe… (Quran, Surah Al-Israa, 17:82)

“And if Allah touches you with harm, none can remove it but He, and if He touches you with good, then He is Able to do all things” [Surah Al-AnAam, 6:17]

Rules: -

Ruqyah should be recited with the intention of treatment for Nazar (evil eye), Sehar (Black magic) or for whatever reason, but a Niyat should be there, for what are we doing Ruqyah.
The person himself should recite Ruqyah verses, is the first & general rule, however if a person cannot recite Ruqyah verses himself, due to illness or else, than relatives or anybody else can recite Ruqyah in place of the patient.

It is good to recite the Ruqyah verses little loudly, so that the words should be heard by the ears of the patient, this rule is applicable in both conditions, means if the patient himself recites or anybody else does it.

Also it is permissible, according to scholars that Ruqyah verses can be listened on MP3 players, mobiles or etc.

It should be listened again & again, continuously, daily, in diseases condition, & for precaution it should be recited once or twice a day (early morning before or after Fajar salah & evening after Magrib Salah).

Many times after reciting or undergoing Ruqyah treatment, the patient may feel irritating, uneasy or behave strangely, may vomit, may pass motions or other symptoms, this indicates that the person is affected with black magic (sehar) & do not stop Ruqyah treatment. (Do it till complete relief). Do it continuously & after complete relief, you can do it once or twice a day lifelong.

Types according to Islamic rules: -

Ruqyah are of two types: -

1) Al-Ruqyah Ash-Shar‘iyya (الرقية الشرعية).
2) Al-Ruqyah Ash-Shirkiyah (الرقية الشركية)(this is not allowed to be done).

Al-Ruqyah Ash-Shar‘eeyah: -

It has three conditions. Ibn Hajar (rahimuhullah) said there is a consensus on using of Ruqyah, if three conditions are present: -

1) It must be with the speech of Allah (Qur’an) & his names & attributes.
2) It must be in the Arabic language, or what is known to be its meaning in other languages.
3) To believe that Ruqyah has no benefit by itself, but the benefits are from Allah.
This type of Ruqyah is permissible & is the main subject of this topic.

**Al-Ruqyah Ash-Shirkiyah:**

This contradicts the conditions of Ruqyah Ash Shar'eeyah & has in it Shirk, associating Shaitaanic way. It leads the person to destruction of life & Aakherat (here after) & increases diseases & sicknesses. This type of Ruqyah is prohibited, from the teachings of Nabi  this includes: Magic (whether learning, practicing, or teaching it), Fortune telling, Horoscopes, superstitious belief & Tameemah (charms & amulets).

**Types according to intellectuals:**

1. Ruqyah taught & done by Nabi  & mentioned in Hadees.
2. Ruqyah taught & prepared by Scholars (Buzrugaan-e-deen). (Like Manzil etc).
3. Ruqyah taught & prepared by today’s scholars. (To listen & recite Quran) (This is a modified Ruqyah).

However All above types can be used but Ruqyah taught & mentioned by Nabi  remain at the top & important. Most of the Ruqyah mentioned in these few coming lesson are Ruqyah mentioned & taught by Nabi  & we should emphasis more on it.

**Rules & principles of Quranic treatment:**

1. Hazrat Raza Al-Ghanvi  says that get Shifa from those, in which Allah’s praise are present like (Quranic verses) Alhamdulillah (Surah Faateha) or Kul ho wal-allah ho A-had (Surah Ikhlaas) (or other) & those who does not get Shifa with Quran then understand there is no Shifa in your destiny.

   *Jaame Sagheer: 977 & Fath Al-kabir 1740*

2. Hazrat Abu Hurairah  says that Rasoolullah  guided to get Shifa (cure) from Quran & if anyone does not get with Quran, then understand there is no Shifa in your destiny.

   *Jaame Sagheer: 977*

In regards with above both Hadees we should understand that we are guided to get Shifa from Quran & Names of Allah, or Dua in which there
are praises about Allah & also should follow all guidance’s of Nabi ﷺ, & if anyone did not got Shifa inspite of Quranic treatment than understand that cure is not in your destiny.

**Conditions of a person who treats with Ruqyah (the person who can do it):**

1. One must have the right belief in Allah (Based on Quran, Sunnah & keep away from Shirk, etc).
2. One must have sincerity in worshipping Allah & have a good intention in treating people.
3. One must be firm in his obedience to Allah & keep away from all that is forbidden.
4. One must keep far away from all unlawful places & situations that can lead to what is forbidden for example isolating himself with a female, etc.
5. One must guard the affairs of the patients & protect their secrets.
6. One must propagate the religion of Allah Tala’a. Give the patient advice & admonitions on the rights of Allah with regards to His commandments & prohibitions.
7. One should have knowledge about the affairs of the patient & sicknesses.
8. One should have knowledge about the reality of jinns (so as not to have them harm or threaten him while curing the patient).

Ibn Teen (ra) said: “Treating with Muawwizaat, (Surah An-Naas & Al-Falaq) & other forms, such as the names of Allah are medicine for the soul. So if these forms of treatment are on the tongue of the righteous, cure will be achieved by the will of Allah”.

**Conditions for the person under going Ruqyah:**

1. One must have complete belief that harm & benefit are only from Allah.
2. One must be patience.

**Conditions of Ruqyah Ash Shar’eyah:**

1. It must be with the speech of Allah Tala’a, His names & attributes, or the speech or Dua of Nabi ﷺ.
2. It must be in Arabic, or what is known to be its meaning in other languages.
3. To believe that verily Ruqyah has no benefit by itself, but the cure is from Allah.
4. Not to perform Ruqyah in a state of major impurity (junub) (Napaaki) or in a place that is not permissible to perform Islamic prayers (ibadah) i.e. graveyard, bathroom, etc.
There are many Hadees on Ruqyah.

**Al-Mu’awwadhatain (Surah Naas & Surah Falaq) as Ruqyah:**

1. Hazrat A’isha رضي الله عنها says that, When Nabi ﷺ fell ill, He ﷺ would recite Al-Mu’awwidhatain (Chapter no. 113 Surah Falaq & Chapter no. 114 Surah Naas) over Him ﷺ & spit dryly, when His ﷺ pain grew intense, She recited over Him ﷺ & wiped Him ﷺ with His own hand, seeking its blessing (Barkat”).

[Bukhari: 5735; Book. 76; English vol. 7; Book. 71; Hadees. 631]

**Dua recited by Nabi ﷺ during illness:**

2. Hazrat A’isha رضي الله عنها reported that when any person amongst us fell ill, Nabi ﷺ used to rub him with His Right Hand & then recite:

"أَذْهِبِ الْبَاسَ رَبَّ الْنَّاسِ وَاشْفِ أَنْتَ الشَّافِيِّ لَا شَفَائَةٍ إِلَّا شَفَائِيَّ كَ شِفَاءَ لَّيُغَادِرُ سَقَّمًا"

**Translation:** O Lord of the people, grant him health, heal him, for Thou art a Great Healer. There is no healer, but with Thy healing Power one is healed & illness is removed.

She further added: When Nabi ﷺ fell ill & His ﷺ illness took a serious turn, She took hold of His ﷺ hand to that she could do with it what He ﷺ wants to do with that (i.e. I would rub His ﷺ body with His ﷺ Sacred Hand). But He ﷺ withdrew His ﷺ hand from her hand & then recite,

اللَّهُمَّ اغْفِرْ لي وَاجْعَلْنِي مَعَ الَّذِينَ يَغْفِرُونَ لَّا يُؤَذُّنَّ أَمَامَ الْكَوَارِئِ الأُمَلِيَّ

**Translation:** “O Allah, pardon me & make me join the companionship”.

& she said, I was gazing at him constantly whereas He ﷺ had passed away.

Surah Faateha a best Ruqyah:

5. Narrated by Abu Saeed  that we were set out on a military expedition & traveled until they came near one of the Arab tribes. They asked them for hospitality but they were refused. Then the leader of that tribe was stung, (bitten by a poisonous insect) & his people tried everything to cure him but nothing helped. Then some of them said, “Why don’t you go to those people who are staying (nearby)? Maybe one of them has something (for help)”. So they came to us & said, “O people, our leader has been stung & we have tried everything & nothing helped him. Do you have anything?” One of them said, “Yes, by Allah. I will perform Ruqyah for him, but by Allah we asked you for hospitality & you did not give us anything, so we will not perform Ruqyah for you unless you give us something in return”. So they agreed on a flock of sheep, then he started to blow on him & recite: Al-hamdu Lillahi Rabb il-`Alameen (Surah Faateha). Then he recovered quickly from his complaint & started walking & he was completely cured. After that they took the flock of sheep & some Sahabah said, “Let us share it out”. The one who had
performed Ruqyah said: “Do not do anything until we come to Nabi ﷺ & tell Him ﷺ what happened & we will wait & see what Nabi ﷺ tells us to do”. So they came to the Nabi ﷺ & told what had happened. Nabi ﷺ asked: “How did you know that it is a Ruqyah?” & Nabi ﷺ added: “You did the right thing, share them out & give me a share” & Nabi ﷺ smiled.

[În the name of Allah] ﷺ

[Tirmizi: 2204 & 2205; Book. 28; English vol. 4; Book. 2, Hadees. 2063, 2064]

6. Narrated by Ibn Abbas رضي الله عنه that some of the companions of the Nabi ﷺ passed by some Bedouins whose sheikh, (their leader) was been bitten by a scorpion. They tried everything but they couldn’t do anything better. They said to one of the Sahaba ﷺ: “Is there any raaqi (one who performs Ruqyah) among you?” They said: “Yes”. So one of them recited Surah Al-Faathee over him for a sheep as fee & he immediately got up full of energy as if nothing had happened; Allah healed him of the ill-effects of that scorpion bite & the man brought the sheep to his companions who disliked that & said, “You have taken wages for reciting Allah’s Book. When they arrived at Al-Madina, they said, “O Rasoolullah ﷺ (this person) has taken wages for reciting Allah’s Book.” On that Rasoolullah ﷺ said, “You are most entitled to take wages for doing a Ruqyah with Allah’s Book.”

[Tirmizi: 2201; Book. 28; English vol. 4; Book. 2, Hadees. 2060]

The above Dua can be recited 3 times each early morning & evening daily.

4. Also, one might recite.

أَعْوذُ بِيَدَيُ اللَّهِ الْكَرِيمِ وَبِكُلِّ كُلِّ لَمَّاتِ اللَّهِ لَا يُجَوَّرُهُنَّ بَرْءُ وَلَا فَاحِرُ مِن شَرِّهِ مَا يَنْبُجُ مِن السَّمَاءِ وَشَرِّهِ يَجْحَرُ مِنِّهَا وَمِن مَّا يَصْبُحُ مِن فِي النَّارِ وَشَرِّهِ يَأْفَكُ مِن مَا يَصْبُحُ مِن مِّنْ تِفَاتِ اللَّيْلِ وَالْخَمْرَ وَمِمْ طَوَارِقِ اللَّيْلِ وَالْخَمْرَ إلَّا طَارِقًا لَّبَارُقُ مِنْ يَتْبُرُ بِهِ يَا رَحْمَتُ

Translation: “I seek refuge with the Noble Face of Allah & with the complete words of Allah which neither the good person nor the corrupt can exceed, from the evil of what descends from the sky & the evil of what ascends in it & from the evil of what is created in the earth & the evil of what comes out of it & from the trials of the night & day & from the visitations of the night & day, except for one that knocks with good, O Merciful!

[Muwatta Malik: 1742; Book. 51, English Book. 51, Hadees. 10]

5. In addition, this includes the supplication:

أَعْوذُ بِكُلِّ كُلِّ لَمَّاتِ اللَّهِ لَا يُجَوَّرُهُنَّ بَرْءُ وَلَا فَاحِرُ مِن شَرِّهِ مَا يَنْبُجُ مِن السَّمَاءِ وَشَرِّهِ يَجْحَرُ مِنِّهَا وَمِمْ طَوَارِقِ اللَّيْلِ وَالْخَمْرَ إلَّا طَارِقًا لَّبَارُقُ مِنْ يَتْبُرُ بِهِ يَا رَحْمَتُ

Translation: “I seek refuge with Allah’s Perfect Words from His Anger & torment, from the evil of His slaves & from the whispers of the devils or that they might attend me”.

[Abu Dawud: 3893; Book. 29; English Book. 28; Hadees. 3884]

6. Furthermore, one may also say the following supplication.
Translation: O Allah! Thou removes debt & sin; O Allah! Thy troop's not routed, Thy promise is not broken & the riches of the rich do not avail against Thee. Glory & praise be unto Thee!

[Abu Dawud: 5052; Book. 43; English Book. 42; Hadees. 5034]

7. Furthermore, one might supplicate:

Translation: I seek refuge with the immense Face of Allah - there is nothing greater than it - & with the complete words of Allah which neither the good person nor the corrupt can exceed & with all the most beautiful names of Allah, what I know of them & what I do not know, from the evil of what He has created & originated & multiplied."

[Muatta Malik: 1744; Book. 51, English Book. 51, Hadees. 12]

8. Hazrat Ali  narrated, saying: “Whenever Nabi  would visit an ill person, He  would recite:

Translation: O' Allah! Make the harm go away, Lord of mankind & heal him, You are the Healer, there is no healing except your healing, a healing that does not leave any sickness.
9. **Nabi recited as a Ruqyah:**

"َّهُمَّ رَبَّ الْمَّلَائِمَاتِ ِّمُهَّرَ الْبَنِّيَّاتِ وَأَشْفَى أَنتَ السَّاقِيَّ لَِّلَّذِينَ ِّفَاتَ إِلَّا أَنتَ أَنتَ اِشْفَٰهُ شَفَّافًا لا ُّعَادِرُ سَقِيًّا"

**Translation:** O Allah! Lord of mankind! Remove the harm & heal him, for You are the Healer & there is no healing except Your healing, with a healing which does not leave any disease behind). This may be repeated three times or more.

10. **Ruqyah (Dua) for eye disease:**

Once, wife of Abdullah Bin Masood complained about her eyes, he said to her “If you had done, what Nabi used to do, it would have been better for you & would have brought fast healing to your eyes. Splash water on your eyes & then say,

َّالَّذِينَ ِّفَاتَ إِلَّا أَنتَ أَنتَ أَنتَ اِشْفَٰهُ شَفَّافًا لا ُّعَادِرُ سَقِيًّا

**Translation:** "Cure the ailment, O LORD! of the people, Bring about the cure, for You Alone Bring the cure & there is no cure except that which You Bring about. Bring a type of cure that eradicates every ailment".

Those who try these different types of supplications & Islamic prayer formulas will surely understand their great value & benefit of them & consequently will recognize the great need for them. These supplications will shield one from the effects of the evil eye & will fend off its harm if the evil eye touched them, but according to the degree of Faith, strength of soul, degree of reliance (on Allah) & strength of heart of whoever recites them. These supplications are types of weapons & their effectiveness depends on the skill of whoever uses them.
Lesson no. 63 Question & Answers regarding Ruqyah:

Questions & Answers:

Question no 1: - What are the virtues of a man reciting Ruqyah for himself? What is the evidence for that? What should he say when he recites Ruqyah for our self?

Answer no 1: - There is nothing wrong with the Muslim reciting Ruqyah (protective & healing supplications) for himself. That is permissible; indeed it is a Sunnah, to recite Ruqyah for our self.

Hadees: - 1 Narrated by Abu Saeed  that Nabi  use to seek refuge from Jinn & evil eye of human, until Al-Mu`awwadhatain (Surah Falaq & Surah Naas) were revealed, so Nabi  used them & left other then Al-Mu`awwadhatain.

[Hirmiz: 2198; Book. 28; English vol. 4; Book. 2, Hadees. 2058]

Hadees: - 2 Narrated by A’isha رضي الله عنها that, “When Nabi  got ill, He  would recite Al-Mu`awadhatayn (Surah Falaq & Naas) over Himself & spit dryly. When His  pain grew intense, I recited over Him  & wiped Him with His own Hand, seeking its blessing”.

[Bukhari: 5735; Book no. 76; English vol. 7; Book. 71; Hadees. 631]

Hadees: - 3 Nabi  said that, the seventy thousand, of His Ummah, who will enter Paradise (Jannah) without being brought to account or punished & “They will be those who did not recite Ruqyah or ask for Ruqyah to be done & they did not believe in bad omens & they put their trust in their Lord”. The phrase “They did not recite Ruqyah” is the words of the narrator, not of the Nabi . Hence Bukhari narrated this Hadees & did not mention this phrase.

[Bukhari: 5752; Book. 76; English vol. 7; Book. 71; Hadees. 648]

Ibn Al-Qayyim (ra) said: “This phrase is inserted in the Hadees, but it is a mistake on the part of some of the narrators”. [Hadi al-Arwah, 1/89]

Those people are praised because they did not ask anyone to recite Ruqyah for themselves & Ruqyah are types of Dua or Quranic verses, so they did not ask others to pray for themselves. The phrase
“and they did not recite Ruqyah” which is mentioned in the Hadees is a mistake (on the part of the narrator).

Nabi  recited Ruqyah for Himself & for others. His  reciting Ruqyah for Himself & others was like making Dua’ for Himself & others; this is something that is enjoined. As all the Prophets asked Allah & prayed to Him. (As Allah tells us in the stories of Adam , Ibrahim , Musa  & others”) Ruqyah are one of the greatest remedies that the believer should use regularly. If anyone wants to recite Ruqyah for himself or for someone else, there are many such verse of Quran, the greatest of which are Al-Faateha & Al-Mu`awadhatayn (Surah Falaq & Surah Naas).

Hadees: - 4 A group of the Companions of Nabi  set out on a journey & traveled until they came near one of the Arab tribes. They asked them for hospitality but they were refused.

Then the leader of that tribe was stung & his people tried everything to cure him but nothing helped.

Then some of them said: “Why don’t you go to those people who are staying (nearby)? Maybe one of them has something”. So they went to them & said, “O people, our leader has been stung & we have tried everything & nothing helped him. Do you have anything?” One of them said: “Yes, by Allah. I will perform Ruqyah for him, but by Allah we asked you for hospitality & you did not give us anything, so we will not perform Ruqyah for you unless you give us something in return”. So they agreed on a flock of sheep, then he started to blow on him & recite:

الْمَد لله رب العالمي (Surah Faateha).

Then he recovered quickly from his complaint & started walking & he was completely cured.

After that they took the flock of sheep & some of the companions of Nabi  said, “Let us share it out”. The one who had performed Ruqyah said: “Do not do anything until we come to Nabi  & tell him what happened & we will wait & see what Nabi  tells us to do”. So they came to the Nabi  & told him what had happened. Nabi  said: “How did you know that it is a Ruqyah?” Then Nabi  said: “You did the right thing, share them out & give me a share”. & Nabi  smiled.

Nabi ☪️ said to him, “Put your hand on the part of your body where you feel pain & say ‘Bismillah’ (in the name of Allah) three times, then say seven times, أَعُوذُ بِعِزَّةِ اللَّهِ وَقُوَّتِهِ مِنْ شَرِّ مَا أَحْذَرُّ

**Translation:** (I seek refuge in the glory & power of Allah from the evil of what I feel & worry about).

[Muslim: 2202; Book. 39; English Book. 26; Hadees. 5462]

**Hadees: - 6** Narrated by Hazrat Usman Bin Abu Al-Aa's ☪️ that he complained to Nabi ☪️ about pain in his body that he suffered from ever since he became a Muslim. Nabi ☪️ replied: Place your hand on the painful area of your body & recite: -

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ (In the Name of Allah), thrice, Then say seven times أَعُوذُ بِعِزَّةِ اللَّهِ وَقُوَّتِهِ مِنْ شَرِّ مَا أَحْذَرُ

**Translation:** (“I seek refuge with Allah’s Might & Power from the evil of what I am suffering from & because of which I have become worry”). He said: "So I did it & Allah removed what I had & I never ceased telling my family & others to do it."

[Tirmizi: 2224; Book. 28; English vol. 4; Book. 2, Hadees. 2080]

**Hadees: - 7** Narrated Ibn Abbas رضي الله عنه that, for fever & all kinds of pain, Nabi ☪️ used to teach them to say:

بِسْمِ اللَّهِ الْكَبِيرِ أَعُوذُ بِللهِ الْعَظِيمِ مِنْ شَرِّ عَرْقِ نَّارٍ وَمِنْ شَرِّ حَرِّ النَّارِ

**Translation:** (In the Name of Allah the Great, I seek refuge with Allah the Almighty from the evil of a vein gushing (with blood) & the evil of the heat of the Fire”).

[Ibn Majah: 3655; Book. 31; English vol. 4; Book. 31, Hadees. 3526]
**Hadees: - 8** Hazrat Ibn Abbas ﷺ says that, “Nabi ﷺ used to seek refuge for Hasan & Husain ﷺ & use to say, ‘Your father [meaning Ibrahim ﷺ, peace be upon him] used to seek refuge with Allah for Ismail & Ishaq ﷺ with these words:

أعوذُ بكماتِ اللهِ التام َّةِ،
مِ كُ شيطانٍ وهامٌّةٍ،
ومِ كُ عَيْ لَم َّة

**Translation:** (I seek refuge in the perfect words of Allah, from every devil & every poisonous reptile & from every evil eye)’.

[Bukhari: 3371; Book. 60; English vol. 4; Book. 55; Hadees. 590]

**Hadees: - 9** Kharijah Bin Al-Salt quoted his parental uncle as saying that he passed (some person), He recited Surah Al-Faateha over him for three days morning & evening. Whenever he finished it, he collected some of his saliva & spit it out & he seemed as if he were set free from a bond. They gave him something as payment. He then came to Nabi ﷺ & said about it, & Nabi ﷺ said accept it.

[Abu Dawud: 3420; Book. 24; English Book. 23; Hadees. 3413]

**Question No. 2:** - What is the way to deal with Sehar (black magic / witchcraft)?

**Answer No. 2:** - Whoever is affected by sehar (black magic) should not treat it with sehar, because evil cannot be removed by evil & kufr cannot be removed by Haq (And Quran is Haq).

When Nabi ﷺ was asked about Al-Nushrah (treating black magic (sehar) with black magic (sehar), Nabi ﷺ said: “This is the work of the Devil (Shaitaan)”.

[Abu Dawud: 3868; Book. 29; English Book. 28; Hadees. 3859]

Nushrah means removing black magic from a person who has been affected by it by using more black magic. *(Which is not allowed?)*

But if, treated by means of the Qur’an & permissible medicines or good Ruqyah, there is nothing wrong with that, but treating it with black magic is not permitted, as previously stated, because black magic means worshipping the devil (shaitaan). The magician, practitioner of witchcraft (seharar) does black magic (sehar) or learns it only after worshipping & serving the devils (shaitaan) & drawing close to them by
means of the things that they like. After that, they teach him the means of black magic.

One should seek treatment by means of reciting Qur’an & the prayers for refuge with Allah that are prescribed in Islam & permissible medicines, just as patients with all kinds of sicknesses are treated by doctors.

**Question No. 3:** - Do all the patients recover from Ruqyah?

**Answer No. 3:** - The patients may recover, but some may not recover, due to, if his appointed time of death has arrived or may be near or Allah does not will to give him recovery, or he may not recover & may die from sickness, even though he may be treated by the most skilled physicians & knowledgeable doctors. When the appointed time of death comes, no medicine or treatment will be of any help, because Allah says:

وَلَّنْ يَُّخِرَ الَّذِي جَاءَ جَلُهَا أَّوَّلَنْ يَُّخِرُ اللِّهُ نَفْسًا إِذَا جَاءَ أَجْلُهَا ۚ وَاللَّهُ خَبِيرٌ بِمَا تَعْمَلُونَ

**Interpretation Translation:** “And Allah grants respite to none when his appointed time (death) comes”.

*[Surah Al-Munafiqeen verse no. 11]*

**Please read the following Hadees:** -

1. Narrated by Abu Khizamah that Nabi was asked: Do you think that the medicines with which we treat ourselves, the Ruqyah by which we seek healing & the means of protection that we seek, change the decree of Allah at all?’ Nabi said: “They are part of the decree of Allah”.

*[Ibn Ma-jah: 3563; Book 31; English vol. 4, Book 31, Hadees. 3437]*

2. Narrated by Abdullah that Nabi said: “Allah does not send down any diseases, but He also sends down the cure for it”

*[Ibn Ma-jah: 3564; Book no. 31; English vol. 4; Book 31; Hadees. 3438]*

3. Narrated by Usamah Bin Sharik that, “I saw the Bedouins asking Nabi is there any harm in such & such, is there any harm in such & such?’ Nabi replied to them: ‘O slaves of Allah! Allah has only made harm in that which transgresses the honor of one’s brother. That is what is sinful. They asked Oh! Rasoolullah is there any sin if we do
not seek treatment?’ Nabi  replied: ‘Seek treatment, 0 slaves of Allah! For Allah does not create any diseases but He (SWT) also creates with it the cure, except for old age.’ They asked, Oh! Rasoolullah , what is the best thing that a person may be given?’ He said: ‘Good manners’.

[Ibn Ma-jah: 3562; Book. 31; English vol. 4; Book. 31; Hadees. 3436]

4. Narrated by Abu Darda  that Nabi  said Allah has sent down both the diseases & the cure & He has appointed a cure for every disease, so treat yourselves medically, but use nothing unlawful.

[Abu Dawud: 3874; Book. 29; English Book. 28; Hadees. 3865]

5. Nabi  said Allah has not sent down a disease expect that Allah also sent down its cure; whoever knows it (the cure) knows it, & whoever is unaware of the cure, he is unaware of it; while those who are ignorant of the cure are ignorant.

[Mustadrak Hakim; Al-Tibb: 8266]

6. Hazrat Raza Al-Ghanvi  says that get Shifa from those, in which Allah’s praise are present like (Quranic verses) آه من الله رب العالمين (Surah Faateha) or     (Surah Ikhlaas) (or other) & those who does not get Shifa (cure) with Quran then understand there is no Shifa in your destiny.

[Jaame Sagheer: 977 & Fath Al-Kabir: 1740]

7. Hazrat Abu Hurairah  says that Rasoolullah  guided to get Shifa (cure) from Quran & if anyone does not get Shifa (cure) with Quran, then understand there is no Shifa in your destiny.

[Jaame Sagheer: 977]

In regards with above both Hadees we should understand that we are guided to get Shifa from Quran & Names of Allah, or Dua in which there are praise about Allah & also should follow all guidance of Nabi , & if anyone did not get Shifa in spite of Quranic treatment than understand that cure is not in your destiny.

**Question No. 4:** What is the right treatment for black magic (sehar)?
Answer No. 4: - Among the treatments prescribed in Islam, there are treatments of black magic with recitation of the Quran. The greatest Chapter Surah in the Quran, which is Al-Faateha, should be recited over the person who has been affected by black magic. This should be repeated several times. Also Dua recited by Nabi ﷺ, please read all the question & answers.

Question no 5: - Was Ruqyah done by Companion of Nabi ﷺ (Sahabah) ﷺ? Please explain in detail with references?

Answer No. 5: - Some of the Companion of Nabi ﷺ (Sahabah) ﷺ passed by some Bedouins whose sheikh, (their leader) was been bitten by a snake. They had done everything they could but nothing worked. They said to one of the Companion of Nabi ﷺ (Sahabah) ﷺ, “Is there any raaqi (one who performs Ruqyah) among you?” They said, “Yes”. So one of them recited Surah al-Faatheha over him & he immediately got up full of energy as if nothing had happened; Allah healed him of the ill-effects of that snakebite.

[Tirmizi: 2204, 2205; Book no. 28; English vol. 4 Book. 2, Hadees. 2063, 2064]

Nabi ﷺ said: “There is nothing wrong with Ruqyah as long as it does not involve in shirk” (making companion in Allah’s power or His Qualities). Rasoolullah ﷺ also performed Ruqyah. There are lot of good in Ruqyah & a great deal of benefit. Al-Faateha, Aayat al-Kursi, “قُل هو الله أحد” (Chapter 112), Al-Mu’awwadhatain (Surah Falaq & Surah Naas) & other verses (aayahs) may be recited over the person who has been affected by black magic (sehar), as well as good Dua narrated in the Hadees from Nabi ﷺ & a lot of Hadees are there which shows that Ruqyah was done by Companion of Nabi ﷺ (Sahabah) ﷺ also.

Question No. 6: - Did Jibrail ﷺ do Ruqyah for Nabi ﷺ?

Answer No. 6: - Yes Jibrail ﷺ did Ruqyah for Nabi ﷺ as follows: -

Ruqyah performed by Angel Jibrail ﷺ for Nabi ﷺ:

1. Narrated by Umar ﷺ that he heard Junaid Bin Abu Umayyah say that he heard Ubadaith Bin Samit say that Angel Jibrail ﷺ performed Ruqyah for Nabi ﷺ due to fever as:
Translation: (In the Name of Allah I perform Ruqyah for you, from everything that is harming you; from the envy of the envier & from every evil eye, may Allah heal you).

[Ibn Ma-jah: 3657; Book 31; English vol. 4; Book 31, Hadees. 3527]

This is a great Ruqyah which was narrated in a Saheeh (authentic) Hadees from Nabi .

The best Ruqyah done by Angel Jibrail (a.s) for Nabi : -

2. Narrated by A’isha رضي الله عنها that when Nabi  fell ill, Angel Jibrail  use to recite this for Nabi .

Translation: (In the Name of Allah, may He cure you from all kinds of illnesses & safeguard you from the evil of a jealous one when he feels jealous & from the evil influence of eye”).

[Muslim: 2185; Book no. 39; English Book. 26; Hadees. 5424]

3. Narrated Abu Hurairah  that Nabi  came to visit me (when I was sick) & said to me: ‘Shall I not recite for you a Ruqyah that Angel Jibrail  brought to Me?’ I said: My father & mother may be ransomed for you! Yes, O Rasoolullah !’ He  recited 3 times:

Translation: (In the Name of Allah I perform Ruqyah for you, from every disease that is in you & from the evil of those who (practice witchcraft when they) blow in the knots & from the evil of the envier when he envies).”

[Ibn Ma-jah: 3653; Book 31; English vol. 4; Book 31, Hadees. 3524]

4. Narrated from Abu Saeeed  that Angel Jibrail  came to Nabi  & said, ‘O Muhammad , you are ill. He  said: 'Yes.' He recited: -
Translation: (In the Name of Allah I perform Ruqyah for you, from everything that is harming you, from the evil of every soul or envious eye & may Allah heal you. In the Name of Allah I perform Ruqyah for you).

[Ibn Ma-jah: 3652; Book. 31; In English vol. 4; Book. 31; Hadees. 3523]

Question No. 7: - Is Ruqyah in Islam, done for snake bite or else?

Answer No. 7: - It is prescribed to perform Ruqyah for the one, who has been bitten or stung & the one who has been affected by black magic (sehar) & the one who is sick. There is nothing wrong with performing Ruqyah for one who is sick or has been affected by black magic or bitten or stung or by reciting good Dua, even if they were not transmitted from Nabi ﷺ so long as they do not contain anything that is haram or Shirk (making companion of Allah’s power & Qualities) in it, because of the general meaning of the Hadees of Nabi ﷺ, “There is nothing wrong with Ruqyah so long as it does not involve shirk”.

Allah can heal the sick, affected by black magic (sehar) & any other problem, without any Ruqyah & without any action on the part of other people, because He is Able to do all things & He is Wise in that entire, He does. Allah says in His Holy Book:

Translation: “Verily, His Command, when He intends a thing, is only that He says to it, ‘Be!’ & it is!”

[Surah Yaa-seen verse no. 82]

To Him be praise & thanks for all that He wills & decrees, for He is wise in all that He does.

The sick person may not be healed if his appointed time (death) has come & it is decreed that he should die from this disease. Among the things that may be used in Ruqyah are the verses which speak of black
magic (sehar), which may be recited & blown on water. These are the verses about black magic as follows:

**Verses about black magic:**

1. Chapter 7 (Surah) Al-A’raaf, verse no. 117 to 119.

وَأَوْحَيْنَا إِلَىٰ مُوسَىٰ أَنْ أَلْقِ عَصَاكَ فَإِذَا هُمْ تَلْقَفُ مَا يَأْفِكُونَ. فَوَقَعَ الْعَصَّةَ وَبَطَّلَ مَا كَانَوا يَعْمَلُونَ. فَغُلِبُوا هُمْتَالَهِ وَانْقَلَّبُوا صَاغِرِينَ

**Translation:** “And we revealed to Moosa (saying): ‘Throw your stick,’ & behold! It swallowed up straight away all the falsehood which they showed. Thus truth was confirmed & all that they did was made of no effect. So they were defeated there & returned disgraced.

2. Chapter 10 Surah Yunus, verse no. 80 to 82.

فَلَّمَ جَاءَ السَّحْرُۤةُ قَالَ لَّهُمْ مُوسَىٰ لْقُوا مَا نَتُمْ مُلْقُونَ. فَلَّمَ جَاءَ لْقُوا لَّهُمْ مُوسَىٰ مَا جِئْتُمْ بِهِ السَّحْرُۤةَ ۚ إِنَّ اللَّهَ سَيُبْطِلُهُ إِنَّ اللَّهَ لَا يُضِلْ عَمَّالَ الْمُفْسِدِينَ. وَيُبْلِقُ اللَّهَ الْحَقَّ يُكْبِرَهُ إِنَّ الْمُجْرِمُونَ

**Translation:** & when the sorcerers came, Moosa said to them: ‘Cast down what you want to cast!’ Then when they had cast down, Moosa said: ‘What you have brought is sorcery; Allah will surely make it of no effect. Verily, Allah does not set right the work of Al-Mufsidoon. & Allah will establish & make apparent the truth by His Words, however much the Mujrimoon may hate (it).”

3. Chapter 20 Surah Ta-ha verse (ayah) no. 65 to 69.
Translation: “They said: ‘O Moosa! (ﷺ) Either you throw first or we are the first to throw?’ Moosa (ﷺ) said: ‘Nay, throw you (first)!’ Then behold! Their ropes & their sticks, by their magic, appeared to him as though they moved fast. So Moosa (ﷺ) conceived fear in himself Allah said, ‘Fear not! Surely, you will have the upper hand. And throw that which is in your right hand! It will swallow up that which they have made. That which they have made is only a magician’s trick & the magician will never be successful, to whatever amount (of skill) he may attain.’”

These verses are among the things by which Allah made the Ruqyah against black magic (sehar), to be beneficial. If the qaari’ (reader) recites these verses & blow in water & also reads Surah al-Faateha, Aayat al-Kursiy, “قل هو الله احد” & Muawwadhatain (Surah Naas & Surah Falaq) & blow in the water, then pours it over the person who he thinks has been affected by black magic (sehar) or is being prevented by magic from having intercourse with his wife, then he will be healed by Allah’s Leave. If seven lotus leaves are ground up & added to the water as well, this is appropriate, as was mentioned by Sheikh ‘Abd Al-Rahmaan Ibn Hasan (ﷺ) in Fath al-Majeed, quoting from some of the scholars in the chapter entitled Ma jaa’a fi’l-Nushrah.

It is Mustahaab (unobligatory Sunnah) to recite the three Surah, namely قل هو الله احد (Chapter 112), قل أأعوذ برب الفلق (Chapter 113) & قل أأعوذ برب الفلق (Chapter 114). The point is that these & similar treatments which are used to treat this problem of black magic (sehar), may also be used to treat the one who is prevented by magic from having intercourse with
his wife. This has been tried a great deal & Allah caused it to yield results. A person may be treated with Al-Faathea (Chapter 1) alone & be healed, or with قل هو الله احد (Chapter 112) & Al-Mu’awwadhatain (Surah Naas Chapter 114 & Surah Falaq Chapter 113) on their own & be healed.

**Rules:**

It is very important that the person performing this treatment & the person who is being treated should both have sincere faith & trust on Allah they should know that He has control over all things & when He Wills a thing to happen, it happens & when He does not Wills a thing it does not happen. The matter is in His hands, whatever He Wills happens & whatever He does not will does not happen. When both, the reader & the one for whom Ruqyah is done have faith & are sincere towards Allah, the sickness will disappear quickly by Allah’s Will & both physical & spiritual medicine will be beneficial. We ask Allah to help us all, to please Him, for He is All-Hearing & is Ever Near.

**Question No. 8:** In the Book Fath Al-Bary, it is mentioned that Ruqyah (recitation for healing or protection) has very good effects. Please explain Ruqyah & it’s good effects?

**Answer No. 8:** Ruqyah means reciting Quran & saying supplications (Dua) reported from Nabi  over the sick seeking to be cured; in addition to other good & lawful supplications.

It has very good curing effects. Nabi  used to recite over the sick & so did the Sahaba (Companions of the Prophet ).

1. For Example Nabi  recited as a Ruqyah:

\[
\text{اللَّهُمَّ رَبَّ النَّاسِ مُذْهِبَ الْبَالِسِ اشْفِ نْتَ أَّنَّ الْشَّافِيَ أَنَّ التَّشَافِيَ إِلَّا أَنَّ أَنَّ}
\]

**Translation:** (O Allah Lord of mankind, remove the harm & heal him, for You are the Healer & there is no healing except Your healing, with a healing which does not leave any disease behind)”. This may be repeated three times or more.

[Abu Dawud: 3890; Book. 29; English Book. 28; Hadees. 3881]
2. Hazrat Ali ﷺ narrated, saying: “Whenever Nabi ﷺ would visit an ill person, He ﷺ would recite:

اللهُمَّ أَعْفِيَ الْبَأَسَ رَبَّ النَّاسِ وَأَشْفِقَاتِ النَّاسِ، لَا شَفَاءَ إِلَّا شَفَاءَاللَّهُمَّ شَفَاءً لَّيُغَادِرُ سَقَمًا

**Translation:** O’ Allah! Make the harm go away, Lord of mankind & heal him, You are the Healer, there is no healing except your healing, a healing that does not leave any sickness.

[Tirmizi: 3565; Book. 48, English vol. 6; Book. 46, Hadees. 3565]

Masaru Emoto a Japanese researcher & scientist & his team said: "My Muslim colleague offered to recite Quranic verses over the water. He brought a tape-recorder & played some Quranic verses & we got the most perfectly-shaped crystals. Then he played the 99 names of Allah. Each name produced a uniquely-shaped crystal. Then he began cursing the water. We said: Water, you are impure. You are not suited for consumption. The water, in this case, did not freeze, or produced an extremely ugly crystal." When they uttered bad words like "war" or "fighting," the water did not freeze, or else produced an ugly shape. When the man completed these experiments, which lasted 15 years, he published a five-volume book called Messages from Water. He wrote: "I have proven that water, that peculiar liquid, is capable of thinking, fathoming, feeling, getting excited & expressing itself."

He also found out that if someone recites the Quran on regular water, it gets the ability for the treatment of different diseases.

This scientist Masaru Emoto & his team also found out that, the Muslims recite **BISMILLAH** before eating / drinking. He says that after saying BISMILLAH on regular water, there are some strange changes happened in the quality of regular water. That make it best water.

Masaru Emoto is a Japanese author known for his claim that if human speech or thoughts are directed at water droplets before they are frozen, images of the resulting water crystals will be beautiful or ugly depending upon whether the words or thoughts were positive or negative. Emoto
claims this can be achieved through prayer, music or by attaching written words to a container of water.

**Question No. 9:** What are the rules for performing Ruqyah (recitation for healing or protection)? Is it permissible to make Ruqyah for more than one person? What do you advise to the patients?

**Answer No. 9:** Ruqyah has to be done using Quran & good supplications (Dua) with the hope that Allah accepts & makes it beneficial.

The person performing Ruqyah should blow breath & recite over the sick, Surah Al-Faateha or some verse (Quranic verses), or Ayat Al-Kursi Chapter 2 Surah Al-Baqarah, verse 255, Chapter 112 Surah Al-Ikhlaas or Al-Mu’awwidhatayn (Chapter 113 Surah Al-Falaq & Chapter 114 Surah Al-Naas). However, whole Quran is healing. & Quran Himself says, “It is for those who believe a guide & a healing”.

1. Ruqyah should be performed by reciting Qur’an & lawful supplications on the area of pain along with blowing breath over it, whether the aching area is the chest, head or leg. Faateha is to be recited along with as much verse as one can. Then to supplicate to Allah saying:

Or to supplicate saying, “In the Name of Allah, I perform Ruqyah (reciting Qur’an & saying supplications over the sick seeking healing) for you, from everything that may harm you; from the evil of any soul or envious eye. May Allah heal you. In the Name of Allah I perform Ruqyah for you”.

[Ibn Majah: 3652; Book. 31; English vol. 4; Book. 31, Hadees. 3523]

**Ruqyah for two or more people at one time:**

The person may recite & then blow breath over the aching area, whether it is their chest, hand, or head, according to the sickness. There is nothing wrong to do Ruqyah for more than one person at one time, if more than one person needs to have Ruqyah performed for them, I think there is nothing wrong to recite it over more than one patient at same time.
Question No. 10: - Which verses did Nabi use in performing Ruqyah for patients? How should they be recited? Should they be recited as Ruqyah just at the beginning of sickness or continue to be recited until the sickness is gone? What is your advice to the person performing Ruqyah?

Answer No. 10: - Whole Glorious Quran is blessed & can be recited as Ruqyah. Surah Al-Faateha (Opening Chapter 1 of the Quran), Ayat Al-Kursi, Surah Al-Ikhlaas & Al-Mu`awwidhatayn can be recited as Ruqyah. Nabi is reported to have used all these verses & urged His followers to use them, especially Al-Faateha because it is the Mother of the Quran & is the best Chapter Surah also, Ayat- Al-Kursi is the best verses.

Nabi guided us to recite Ayat Al-Kursi after every Salah (Prayer) & before sleeping & also used to recite Surah Al-Ikhlaas & Al-Mu`awwidhatayn (Surah Falaq & Surah Naas) three times before going to sleep.

Nabi use to recite & blow on His Hands & pass His Hands on His Head, face & the front part of His Body & said, “Anyone who recites these three Chapters (Surah Al-Ikhlaas, Al-Falaq & Al-Naas) at the beginning of the night or day, nothing harmful will touch or befall them”. All this is Mashru` (Islamically permissible). It is also authentically reported that the Sahabah (Companions of Nabi) used only Al-Faateha for Ruqyah & Allah granted healing.

1. Narrated by Abu Saeed Khudri that Nabi sent us, thirty horsemen, on a military campaign. We camped near some people & asked them for hospitality but they refused. Then their leader was stung by a scorpion & they said: 'Is there anyone among you who can recite Ruqyah for a scorpion sting?' I said: 'Yes, I can, but I will not recite Ruqyah for him until you give us some sheep.' They said: 'We will give you thirty sheep.' So we accepted them & I recited Al-Hamd (i.e. Chapter Faateha) over him seven times. Then he recovered & I took the sheep. Then some doubts occurred within us. Then we said: 'Let us not hasten (to make a decision concerning the sheep) until we come to Nabi.' So when we came back: 'I told Him what I had done. He said: 'How did you know that it is a Ruqyah? Divide them up & give me a share as well.'
2. Narrated by 'A'isha رضي الله عنها that when Nabi ﷺ used to go to bed, He ﷺ used to recite Surah Ikhlaas, Falaq & Naas & blew on palms & passed them over His Face & those parts of Body to which His Hands reached & if fell ill He ﷺ use to order me to do the same for Him ﷺ.

[Bukhari: 5748; Book. 76; English vol. 7; Book. 71; Hadees. 644]

3. A long Hadees narrated by Abu Hurairah  that: "When you go to bed, recite Ayat Al-Kursi (Chapter 2 verse no. 255) for there will be a guardian appointed over you by Allah & devil (shaitaan) will not be able to approach you till morning" & Nabi ﷺ confirmed that it is right.

[Riyadh As-Salihin: 1020; Book. 9, English Book. 9, Hadees. 30]

4. Narrated by Abu Hurairah  that Nabi ﷺ said: "Whoever recites Ha Mim Al-Mu’min - up to - To Him is the return (Chapter 40 verse no. 1 to 3) & Ayat Al-Kursi when he reaches (gets up) in the morning, he will be protected, till the evening. & whoever recites them when he reaches the evening, he will be protected till the morning."

[Tirmizi: 3120; Book. 45, English vol. 5; Book. 42, Hadees. 2879]

5. Kharijah Bin Al-Salt quoted his parental uncle as saying that he passed (some person), He recited Surah Al-Faateha over him for three days morning & evening. Whenever he finished it, he collected some of his saliva & spit it out & he seemed as if he were set free from a bond. They gave him something as payment. He then came to Nabi ﷺ & said about it, & Nabi ﷺ said accept it.

[Abu Dawud: 3420; Book. 24; English Book. 23; Hadees. 3413]

6. Abdullah Bin Khubaib  reported that Nabi ﷺ said to me, "Recite Surah Al-Ikhlaas (Chapter 112) & Al-Mu’awwadhatain (Chapter 113 Surah Al-Falaq & Chapter 114 Surah An-Naas) three times at dawn & dusk. This will protect you in all respects."

[Riyadh As-Salihin: 1456; Book. 16, English Book. 16, Hadees. 49]

7. Narrated Saad  that Nabi ﷺ said: "Whoever takes seven 'Ajwah dates in the morning will not be effected by magic or poison on that day."

[Bukhari: 5779; Book. 76; English vol. 7; Book. 71; Hadees. 671]
Question no. 11: - Is it permissible when performing Ruqyah for a Muslim to recite passages of the Quran & some Prophetic supplications (Dua) on water or some olive oil or dates or etc so that the patient drinks the water or bathes with it? If it is not permissible, what is the rule of Ruqyah & its conditions?

Answer No. 11: - There is nothing wrong with reciting Ruqyah over water which the patient drinks or washes themselves with. All this is permissible. Ruqyah should be performed for a patient by reciting & blowing over them; it can also be made over water which the patient then drinks or washes with. All this is permissible.

It is authentically reported Nabi ﷺ performed Ruqyah for Thabit ibn Qays ibn Shamas by reciting over water & then pouring it on him. If one performs Ruqyah for his brother on water, then makes him drink it or pours it on him, it is hoped that Allah will heal him & he will recover thereby. Also, if a patient performs Ruqyah for themselves by reciting over the sick part of the body, whether their hand, leg or chest, then blows over it & supplicates to Allah to heal them, this is all good. & It is good to add Dua of Nabi ﷺ. & to use olive oil or Sunnah medicine is also allowed to use. One can also use 7 dates also.

Please refer the following Hadees: -

1. Narrated by Sabit Ibn Qays Ibn Shammas ﷺ that Nabi ﷺ entered upon Sabit Ibn Qays (The version of Ahmad Ibn Salih) when he was ill, He ﷺ recited: ﴿اكْشِفِ الْبَّاسَ رَّبَّ الْنَّاسِ﴾

Translation: Remove the harm, O Lord of men,

He then took some dust of Bathan & put it in a bowel & then mixed it with water & blew in it & poured it on him. :

[Abu Dawud: 3885; Book. 29; English Book. 28; Hadees. 3876]

Question No.12: - My wife began visiting one of her neighbors as a kind of cordiality & keeping the social ties of neighbourhood. After two visits, her neighbour suddenly asked my wife to perform Wazoo (ablution) so she could use the water of my wife’s Wazoo water to wash her leg with, which became swollen, as she thinks she has been afflicted by an evil eye (nazar). My wife performed Wazoo at once as she did not understand
what was going on. My wife came home weeping as it was the first time she had been subjected to this. I went to my neighbour & inquired about the matter, he said that his wife had been attacked by an evil eye (nazr) & she took Wazoo water from everyone who visited her. Please guide me whether this was right to do?

**Answer No.12:** The evil eye (nazr) is real, as Nabiﷺ told. (Hadees is given below).

A man or woman can cast an envious eye. A woman may see something that belongs to her neighbour or other females that she likes & envy occurs. Similarly, a man may cast an envious look at his brother or neighbour or others. There is nothing wrong if a man or a woman is asked to perform Wazoo for some person to wash with – all praise is for Allah. Moreover, one may unintentionally envy another, so one should not be upset. The evil eye (nazr) is real & may be cast on some person without intending to. One may look admiringly at another & envy occurs. They may like a person’s manner of walking, face etc. & so cast an envious eye (nazr) which may result in harm to the person’s leg, head, or in a seizure, etc.

Therefore, there is no blame if a woman or a man asks another to perform Wazoo or to wash their face or hands in order to use the water hoping that Allah will grant healing by it.

This occurred with Salh Ibn Hunayf Sahl Ibn Hunayf & `Amir Ibn Rabi`ah during the time of Nabi ﷺ. Amir ﷺ was asked by Nabi ﷺ to perform Wazoo for Sahl & then the water was poured over him, thus, Allah healed him. The evil eye is real & there is no blame if one asks his or her sister to wash their hands, face or perform Wazoo to pour the water over the area one thinks was affected by an evil eye. (Hadees is given below).

**Please go through these Hadees:**

1. Narrated by Abu Hurairah ﷺ that Nabi ﷺ said that the evil eye is real & Aisha رضي الله عنها narrates that Nabi ﷺ said Seek refuge with Allah for the evil eye is real.

   ![Fathul Haqq Al-Mubeen, As-Sahih: 747](image)
3. Hazrat Ibn Abbas رضي الله عنهما says that Nabi ﷺ said: “The evil eye is true & if there is anything that would precede pre-destiny, it would be the evil eye & when you are asked to take bath (as a cure) from the influence of an evil eye, you should take bath”.

[Muslim: 2188; Book. 39; English Book. 26; Hadees. 5427]

4. Narrated by Hazrat Abu Hurairah  says that Nabi ﷺ said: "The evil eye is true & He ﷺ prohibited tattooing”.

[Bukhari: 5740; Book. 76; English vol. 7; Book. 71; Hadees. 636]

5. Hazrat A’isha  said: "The person who touches others with the evil eye was commanded to perform ablution (Wazoo) & the person whom he touched by the evil eye would wash himself with that water.

[Abu Dawud: 3880; Book. 29; English Book. 28; Hadees. 3871]

6. Hazrat A’isha  say that Nabi ﷺ commanded me, or commanded somebody else to do Ruqyah (Islamic prayer formulas) for the evil eye (Nazar).

[Bukhari: 5738; Book. 76; English vol. 7; Book. 71; Hadees. 634]

7. Hazrat Asma Bint Umays  said: "O Nabi ﷺ the children of Jafar  are usually touched by the evil eye. Should I perform Ruqyah (Islamic prayer formula) for them”? He ﷺ said: "Yes. If there is anything that precedes Pre- destiny, it would be the evil eye.

[Tirmizi: 2199; Book. 28; English vol. 4; Book. 2, Hadees. 2059]

8. Abu Umamah Bin Sahl Bin Hunaif narrated that Amir Bin Rabee’ah  once saw Sahl Bin Hunaif  take a bath & said: "By Allah! I have never observed the skin of a person that is softer than what I have just seen”. Sahl fell on the ground. Nabi ﷺ then came to Amir  with anger & said to him, "Why would one of you kill his own brother? Why have you not said Tabarak Allah, (may Allah bless it)? Take a bath for it”. Amir  then washed his face, hands, elbows, knees, feet & a part of his garment in a pot for what he had done & then poured the used water on Sahl .

[Ibn Majah: 3638; Book. 31; English vol. 4; Book. 31, Hadees. 3509]

9. Narrated by Ibn Abbas رضي الله عنهما that Nabi ﷺ said: If there is anything that precedes Pre-destiny, it would be the evil eye. When one is touched by the evil eye, he should take a bath (or a wash) for it”.

[Tirmizi: 2203; Book. 28; English vol.4; Book. 2, Hadees. 2062]
Lesson no. 64 Quranic verses (Ruqyah):

Introduction
Islam is a complete way of life & addresses all aspects of the needs of the creation. Here we will deal specifically with matters relating to spiritual healing or Ruqyah.

Note:
Ruqyah is commonly translated in English as "incantation" which has a negative meaning, since the word incantation is usually associated with magic, spells & witchcraft. However, Ruqyah in Islam is the recitation of Qur'an, seeking of refuge, remembrance & supplications that are used as a means of treating sicknesses & other problems.

Quranic verses as Ruqyah:

"(All) praise is (only) Allah’s, the Lord of the Worlds. The Beneficent, The Merciful. Master of the Day of Judgement. Thee (alone) do we worship &
of Thee (only) do we seek help. Guide us (O' Lord) on the Straight Path. The path of those upon whom Thou hast bestowed Thy bounties, not (the path) of those inflicted with Thy wrath, nor (of those) gone astray."

Surah Al-Baqarah: 1 to 5
"Alif 'A', Lam 'L', Mim 'M'. This is the (True) Book wherein is no doubt, a guidance to the pious ones, Who believe in the Unseen & keep up prayer & spend (in charity) of what We have provided them. & who believe in what has been revealed to you (Muhammad) & what has been sent down (to other apostles) before you; & of the Hereafter they are certain. They are on (true) guidance from their Lord; & they are the ones who are the successful."

Surah Al-Baqarah: 102
وَاتَبَعُوا مَا تَتَّلَوُّ الشَّيَاطِينُ عَلَى مَلَكِ سُلَيْمَّنِ وَمَا كَفَرَ سُلَيْمَنُ وَلَكِنَّ الشَّيَاطِينُ كَفَرُوا بِعِلَاءِ النَّاسِ السَّيِّدَبَ وَمَا أُنْزِلَ عَلَى الْمَلَكِينَ بِبَابِلَ هَارُوتَ وَمَارُوتَ وَمَا يُعَلِّمُونَ مِنِّمَا أَخَاهُ كَنِّيَّةٍ يَقُولُونَ إِنّا نِيْسُانٌ فَلَا تَكُفُّونَ فَيَتَّعُّلُونَ مِنْهُ ما يُفَرِّقُونَ يِهْيَءُ الْمُرْجَعَ وَرَؤُوهُ وَمَا هُمْ يَضَارِّعُونَهُ بِمِنْ أَهْلِهِ إِلَّا بِاللَّهِ وَيَتَّعِلُّونَ مَا يَضُرُّهُمْ وَلَا يَنفَعُهُمْ وَلَقَدْ عَلَيْهِمْ لَكُمّ
And they followed what the Shaitans chanted of sorcery in the reign of Solomon; & Solomon disbelieved not, but the Shaitans disbelieved by teaching people sorcery; & that which was sent down to the two angels, Harut & Marut, in Babylon. Even though they (the two) never taught anyone without saying: 'We are only a trial for you, therefore do not disbelieve'. So they learned from these two (magic spells) by which they might cause separation between a man & his wife, though they cannot hurt anyone (thereby) but by Allah’s leave. They learn what harms them & profits them not; & they surely knew that the buyers of it would have no share of happiness in the Hereafter. & vile was the price for which they sold their own selves, had they but known (this)

"And your God is the One God: there is no deity save Him, the Most Gracious, the Dispenser of Grace. Verily, in the creation of the heavens & of the earth & the succession of night & day: & in the ships that speed through the sea with what is useful to man: & in the waters which God sends down from the sky, giving life thereby to the earth after it had been lifeless & causing all manner of living creatures to multiply thereon: & in the change of the winds & the clouds that run their appointed courses between sky & earth: [in all this] there are messages indeed for people who use their reason".

“GOD - there is no deity save Him, the Ever-Living, the Self-Subsistent Fount of All Being. Neither slumber overtakes Him, nor sleep. His is all that is in the heavens & all that is on earth. Who is there that could intercede with Him, unless it be by His leave? He knows all that lies open before men & all that is hidden from them, whereas they cannot attain to aught of His knowledge save that which He wills [them to attain]. His eternal power overspreads the heavens & the earth & their upholding wearies Him not. & He alone is truly exalted, tremendous. There shall be no coercion in matters of faith. Distinct has now become the right way from [the way of] error: hence, he who rejects the powers of evil & believes in God has indeed taken hold of a support most unfailing, which shall never give way: for God is all-hearing, all-knowing“.

آمن الرسول يمنا أنزل إلّيهم من ربيه والمؤمنون كلّ آمن بالله وملائكيه وكتبه ورسِلله لا تفرق بين أهلي من رسلِه وقُالوا توعتنا
"The Apostle & the believers with him, believe in what has been bestowed upon him from on high by his Sustainer: they all believe in God & His angels & His revelations & His apostles, making no distinction between any of His apostles; & they say: "We have heard & we pay heed. Grant us Thy forgiveness, O' our Sustainer, for with Thee is all journeys' end! God does not burden any human being with more than he is well able to bear: in his favour shall be whatever good he does & against him whatever evil he does. "O' our Sustainer! Take us not to task if we forget or unwittingly do wrong! "O' our Sustainer! Lay not upon us a burden such as Thou didst lay upon those who lived before us! O our Sustainer! Make us not bear burdens which we have no strength to bear! "And efface Thou our sins & grant us forgiveness & bestow Thy mercy upon us! Thou art our Lord Supreme: succour us, then, against people who deny the truth!"

Surah Aal-Imran: 1-10

سورة أآل عمران: ١ إِلَى ١٠
Alif Lam M'im. Allah! There is no god but Him; the Living, the Eternal. He has revealed to you this Book with the Truth, confirming the scripture which preceded it, as He revealed the Taurat (Torah) & Injeel (Gospel), before this, as a guidance for mankind & also revealed this Al-Furqan (criterion for judgment between right & wrong). Surely those who reject Allah’s revelations will be sternly punished; Allah is Mighty, capable of retribution. For sure nothing in the Earth or in the Heavens is hidden from Allah. It is He Who shapes your bodies in the wombs of your mothers as He pleases. There is no god but Him; the Mighty, the Wise. He is the One Who has revealed to you the Book. Some of its verses are decisive - they are the foundation of the Book - while others are allegorical. Those whose hearts are infected with disbelief follow the allegorical part to mislead others & to give it their own interpretation, seeking for its hidden meanings, but no one knows its hidden meanings except Allah. Those who are well grounded in knowledge say: "We believe in it; it is all from our Rabb." None will take heed except the people of understanding. They say: "Our Rabb, Do not cause our hearts to deviate now after you have guided us. Grant us Your own mercy; You are the Grantor of bounties without measure. Our Rabb! You will surely gather all mankind before You on the Day about which there is no doubt; surly Allah does not break His promise. Surely neither
their wealth nor their children will save the unbelievers from the wrath of Allah: they are the ones who will become the fuel for Hell fire.”

“Certainly they have disbelieved who say: "Allah is Christ the son of Maryam (Mary)." While Christ himself said: "O children of Israel! Worship Allah, my Rabb & your Rabb." Whoever commits shirk (joins partners with Allah), Allah will deny him the paradise & the hellfire will be his home. There will be no helper for the wrongdoers. Certainly they are unbelievers who say: "Allah is one of three in a Trinity. There is no god except One Allah. If they do not stop saying what they say, a painful punishment will befall the disbelievers among them."

Surah Al-Maaidah: 72-73

Certainly they have disbelieved who say: "Allah is Christ the son of Maryam (Mary)." While Christ himself said: "O children of Israel! Worship Allah, my Rabb & your Rabb." Whoever commits shirk (joins partners with Allah), Allah will deny him the paradise & the hellfire will be his home. There will be no helper for the wrongdoers. Certainly they are unbelievers who say: "Allah is one of three in a Trinity. There is no god except One Allah. If they do not stop saying what they say, a painful punishment will befall the disbelievers among them."
"Surely your Rabb is Allah Who created the heavens & the earth in six Yome (time periods) & is firmly established on the throne of authority. He makes the night cover the day & the day follow the night automatically. He created the sun, the moon & the stars; & made them subservient to His will. Take note: His is the creation & His is the command. Blessed is Allah, the Rabb of the worlds! Call on your Rabb with humility & in private; for He does not love the transgressors. Do not create mischief in the land after it has been set in order. Pray to Him with fear & hope. Surely the mercy of Allah is always close to those who do good to others."

“...When the magicians came, Musa said to them: "Throw what you wish to throw! So when they had thrown, Musa said: "The magic that you have brought, Allah will surely prove it wrong: for Allah does not promote the work of mischief makers. By His Words Allah vindicates the truth, much as the criminals may dislike it!"
“When you entered your garden why did you not say: `It is as Allah pleased, no one has power except Allah!’ Though you see me poorer than yourself in wealth & children.”

**Surah Maryam: 68-70**

> فَّوَّرَّبِ كَّلَّنَّحْشَُّنْ َُّمْ وَّالشَّيَّاطِيَّ ثُمَّ لَّنُحْضرَِّنْ َُّمْ حَّوْل جَّهَّنَّمََّ (`Surah Maryam: 68-70`)

“By your Rabb, We will call them to account in the company of all their shaitans & set them on their knees around the Fire of Hell; then from every sect We will certainly drag out its stoutest rebels against the Compassionate (Allah). Certainly We know best who deserves most to be burned therein.”

**Surah Taha: 65-70**

> قَّالُوا يَّ مُوسَّى إِنَّا أَنْ تَلْقَِّ أٰلْقُوا قَالَ بَّلْ لْقِ وَّأَمَّا من أَلْقَايٰ وَٰعِصِيْ ٰيَلِهِ مِسحِْرِهِْ أَمَّا صَّنَّعُوا كَّيْدُ سَّاحِر ۚ وَلَّ يُفْلِحُ السَّاحِرُ حَيْثُ تَّى أَنَّهَا لَّنْتَ لَْنِعََّمِ ِّا ۚ أَمَّا يِبْرَ بِهِ مُوَسَّى وَمُوَسَّى (`Surah Taha: 65-70`)

“The magicians said: "O Musa! Will you throw down first or shall we? Musa replied: "Go ahead, throw down first". Suddenly it appeared to Musa as if their cords & staffs were moving about because of their magic & Musa
conceived fear within himself. We said: "Do not be afraid! You will surely come out on top. Throw that which is in your right hand. It will swallow up everything they have produced. What they have produced is nothing but a magician’s trick & a magician can never succeed against a miracle no matter how skillful he may be. When the magicians saw the serpent of Musa swallowing all their display, being professionals they knew that it was not magic, so the magicians humbled themselves by prostrating & said: "We believe in the Rabb of Haroon & Musa."

"Did you, then, think that We created you in mere idle play & that you would not have to return to Us? KNOW, then [that] God is sublimely exalted. the Ultimate Sovereign, the Ultimate Truth: there is no deity save Him, the Sustainer, in bountiful almightiness enthroned! Hence, he who invokes, side by side with God, any other deity [-a deity] for whose existence he has no evidence - shall but find his reckoning with his Sustainer: [and,] verily, such deniers of the truth will never attain to a happy state! Hence, [O believer,] say: "O my Sustainer! Grant [me] forgiveness & bestow Thy mercy [upon me]: for Thou art the truest bestower of mercy!"
Then Musa threw down his staff & lo! It swallowed their false devices!
At this, all the magicians prostrated themselves, saying: "We believe in
the Rabb of the Worlds, the Rabb of Musa (Moses) & Haroon (Aaron)."

It is from Sulaiman & it begins with the name of Allah, the
Compassionate & the Merciful. It reads: Do not be arrogant against me
& come to me in complete submission (as a Muslim)."

I swear by those who range themselves in ranks & by those who cast out
demons & by those who proclaim the message of Allah that surely your God is
One, the Rabb of the heavens & of the earth & all that lies between them & the Rabb of the east (every point & place at the rising of the sun). We have indeed decked the worldly heaven with beautiful stars & have secured it against all obstinate rebellious shaitans. They cannot even hear the words of the exalted assembly of angels & they are darted at from every side if they try to get closer, they are repulsed & are under a constant chastisement. Eavesdroppers are persuaded by a flaming fire of piercing brightness.”

"Surely the Zaqqum tree shall be the food of the sinners, it will be like the drags of oil. Which shall boil in the belly like the boiling of scalding water. A voice will be heard: "Seize him & drag him into the depth of the hell, then pour scalding water over his head, then the voice will say: "Taste it; you were such a powerful noble! This is the punishment which you use to doubt. As for the righteous, they will be in a secure place; among gardens & springs, dressed in fine silk & rich brocade, sitting face
to face. Such shall be their place! & We shall wed them to Hourin-Ayn (damsels with beautiful big & lustrous eyes). There, in full peace, they shall call for every kind of fruit; & after having prior death in the world, they shall taste death no more; & He (Allah) will protect them from the torment of hell as a grace from your Rabb & that will be the supreme achievement. Surely We have made this Qur'an easy by revealing in your own language so that they may take heed. If they do not accept the admonition then wait; surely they too are waiting.”

"Tell them how We brought to you a group of jinns, who when they reached the place where you were reciting & listened to the Qur'an, said to each other: "Be silent." When the recitation was over, they returned to their people as warners. They said "O our people! We have just listened to a Book that has been revealed after Musa which is confirming that what came before it & it guides to the truth & to the Right Way. O our people! Answer the one who is calling you towards Allah & believe in him! Allah will forgive you your sins & save you from a painful punishment. He that does not answer the one who is calling towards Allah, shall neither escape in the earth, nor shall have any to protect from Him. Surely such people are in manifest error."

Some who are foolish among us have been uttering atrocious lies about Allah & we had presumed that no man or jinn could tell a lie concerning Allah. Indeed, some individuals among mankind used to seek protection with some individuals among the jinns, so they caused such jinns to become more arrogant, as a result, they presumed as you presumed that Allah would not appoint anyone as a Rasool. We searched the heaven & found it filled with stern guards & shooting stars. Before this we used to find a seat in heaven for eavesdropping, but now eavesdroppers find shooting stars lying in ambush for them. We did not know whether an evil was intended for the dwellers of the earth or whether their Rabb intended to guide them.”

"Say: I seek refuge in the Rabb of the mankind, the King of mankind, the real God of mankind, from the mischief of the slinking whisperers (Shaitaan & his workers) who whisper into the hearts of people, whether he be from among the jinn or from the mankind."
Lesson no. 65 Black Magic (Sehar): -

The Reality of Magic & definition of magic: -

Please note treatment of Sehar (black magic) & Nazar (evil eye) is with Ruqyah.

1) Magic is a knot or spell (words) that affects the heart & body; it causes the heart or body to become sick, it can kill a person; it separates a man & his wife & destroys family ties.

2) It is an incantation, knot, spell & statement that are used in speeches, written or in actions that have can affect the body, heart or intellect of a person without having direct contact with that person. It is a reality that kills, causes sickness, or prevents relationships (sexual) between a man & his wife, causes separation between them, or between families, places anger between families or friends & causes a person to love those whom he hates in order to have a relationship & to be a source of spreading destruction.

Magic & its existence are confirmed by the Qur’an & Sunnah & are accepted by the scholars. It is a reality & a truth & it affects a person only by Allah’s will. There is a consensus among the scholars of Tafseer that Surah Al-Falaq was revealed because of Habeeb Bin Asum who did magic on Nabi ﷺ.

Magic is an art that requires skill & proficiency from the one who performs it. It is a type of knowledge that has a foundation, methodology & principles. However, learning it is not permissible & it is kufr (disbelief) because it cannot be learned or practiced without requesting the help of shaitaan, worshipping him & using forbidden & unlawful things. So it is kufr to learn or practice it.

Hadees: -

1. Narrated by Abu Hurairah ﷺ that Nabi ﷺ said: 'Whoever ties a knot & blows on it, he has practiced magic; & whoever practices magic, he has committed Shirk; & whoever hangs up something (as an amulet) will be entrusted to it.'
2. Narrated by Abdullah Ibn Abbas رضي الله عنهما that Nabi ﷺ said: If anyone acquires any knowledge of astrology, he acquires a branch of magic of which he gets more as long as he continues to do so.

[Abu Dawud: 3905; Book. 30; English Book. 29; Hadees. 3896]

3. Narrated by Ibn Abbas رضي الله عنهما that Nabi ﷺ said: "Whoever learns about the stars, he learns a branch of magic; the more he learns (of the former) the more he learns (of the latter)."

[Ibn Ma-jah: 3726; Book. 33; English vol. 5; Book. 33, Hadees. 3726]

4. Narrated by Abu Hurairah ﷺ that Nabi ﷺ said: Refrain from seven (characteristics) which cause destruction. He was asked: What are they, Rasoolullah ﷺ? He replied:

- (الجَزَكَةُ) To assign partner to Allah,
- (الْبَيْغْرُ) magic,
- (قَتْلُ النَّفْسِ) to kill a soul (man) which is prohibited by Allah except for which is due,
- (وَأَّلَّا الْوُيَّدُ) to take usury,
- (وَأَّلَّا مَالِ الْيَّتِيمِ) to consume the property of an orphan,
- (وَتَوَّلَّى الْزَّكَّف) to retreat on the day of the battle,
- (وَقَّذْفُ الْمُحْصَّنَاتِ الْغَافِلَّاتِ الْمُؤْمِنَّاتِ) & to slander chaste women, indiscreet but believing.

[Abu Dawud: 2874; Book. 18; English Book. 17; Hadees. 2868]

5. Ibn Umar رضي الله عنهما narrated that, two men arrived during the time Nabi ﷺ & delivering an address. The people were amazed by their speech, so Nabi ﷺ turned to us & said: "Indeed there is magic in eloquence'-or-'Indeed some eloquence is magic."

[Tirmizi: 2028; Book. 27, In English vol. 4; Book. 1, Hadees. 2028]

Imam Ibn Hajar (ra) said: "Magic is disbelief & learning it is kufr".

[Fath ul Bari 10/195]

Imam An-Nawawi (ra) said: “The knowledge of magic is forbidden & it is among the major sins”.

[Fatawa Ibn Baz 2/384]
Nabi ﷺ included it among the major sins that destroy mankind & needs to be away from it. Ibn Qudaamah said: “Teaching & learning magic is forbidden & there is no difference on the issue by the scholars”.

**The Punishment for Magicians:**

The punishment for magicians is beheading. Nabi ﷺ said that” The punishment for a magician is beheading”.

**[Al-Mughnee 8/151]**

6. Umar Ibn Khattab ﷺ in his letter ordered all magicians to be killed.

**[Abu Dawud: 3043; Book. 20; English Book. 19; Hadees. 3037]**

This proves the severity of magic. So it is compulsory on us to keep away from magic & anything that is connected to it.

**Treatment for Magic:**

Please recite lesson no. 64 Quranic verses Ruqyah (Quranic Text) morning & evening daily for black magic, evil eye, mischief of jinn, psychological problems, cancers & other diseases or else.

**Treatment has two divisions:**

**First division:**

1. For prevention from magic before it occurs (Means to prevent ourselves from Black Magic & etc).

**Second division:**

2. Treatment of Magic after it has occurred (Means affected with black magic).

**Measures to take for first division (means for precaution & prevention):**

a) Be mindful (Imaan) & perform all compulsory acts (Farz) & leave off all that is unlawful (gunah) & seek repentance form all evil deeds.

b) Constantly recite the preventive Dua taught by Nabi ﷺ & act & recite glorious Qur'an in the way it becomes a daily routine.

c) Seek protection with supplications (Dua), seeking refuge & remembrances that are legislated by Allah & Rasoolullah ﷺ.
Following are the supplications (Dua):

7. Narrated by Usman Ibn Affan  that Nabi  said, If anyone recites this 3 times Morning & evening, sudden Afflictions will not occur:

بِسْمِ الله َِّ ذِي الَّلَّي يَّضُرُ مَّعَ اسمِْهِ شََّْء فِ الرْضِ الأَّ وَلاَ فِ السَّمَّاءِ وَهُوَ السَّمِيعُ الْعَلِيمُ

Translation: “In the name of Allah, with whose name nothing is harmed on the Earth nor in the Heavens & He is the All-hearing, All-Knowing”.

[Ibn Ma-jah: 3869; Book. 34; English vol. 5; Book. 34, Hadees. 3869]

8. Narrated by Abu Hurairah  that Nabi  said: "Whoever recites Ha Mim Al-Mu'min - up to - To Him is the return (40:1-3) & Ayat Al-Kursi when he reaches (gets up in) the morning, he will be protected by them until the evening, & whoever recites them when he reaches the evening, he will be protected by them until the morning."

[Tirmizi: 3120; Book. 45, English vol. 5; Book. 42, Hadees. 2879]

9. Kharijah Bin Al-Salt quoted his parental uncle as saying that he passed (some person), He recited Surah Al-Faatheh over him for three days morning & evening. Whenever he finished it, he collected some of his saliva & spat it out & he seemed as if he were set free from a bond. They gave him something as payment. He then came to Nabi  & said about it, & Nabi  said accept it, for by my life, some accept it, for a worthless charm, but you have done so far a genuine one.

[Abu Dawud: 3420; Book. 24; English Book 23; Hadees. 3413]

10. Narrated by A’isha رضي الله عنها that whenever Nabi  went to bed would recite Al-Mu’awwadhatain (Surah Falaq & Naas) than would blow into his hands, then wipe his hands over his body.

[Ibn Ma-jah: 3875; Book. 34; English vol. 5; Book. 34; Hadees. 3875]

11. Abdullah Bin Khubaib  reported that Nabi  said to me, "Recite Surah Al-Ikhlaas & Al-Mu’awwidhatain (Surah Al-Falaq & Surah An-Naas) three times at dawn & dusk. It will suffice you in all respects."

[Riyad As-Salihin: 1456; Book. 16, English Book 16; Hadees. 49]

**The Second Division: -**

Treatment of Magic after it has occurred (Means black magic is done on anyone).

**There are 2 types of treatment of it: -**

A) (First Type) Extract & destroy the magic-

If the Magic is known, extracting & destroying it with permissible methods from the Qur'an & Sunnah, is the best & most suitable way of curing it.

B) (Second type) Ruqyah Ash-Shar'eeyah- it is of following: -

1) Grind seven green Lote (sidr) leaves, then pour water over it (enough to take a shower) & recite the following over it.

Lote leaves are sidr leaves, in Urdu & Hindi they are called as Ber. Refer Lesson no. 12 Sidr. I seek refuge in Allah from Satan the accursed (اعوذ بِالله من الشیطان الرجیم)

Please recite QURANIC verses mentioned in lesson no. 64 of part-1 as a treatment for it.
Lesson no. 66 Nazar (evil eye):

The Reality of the Evil Eye (Nazar):

The reason for the evil eye is mostly because of envy. The reality of envy is the result of hatred & malice, which is the result of anger.

[Fath Al-Haq Al-Mubeen: 219]

The evil eye is like an arrow or spear that leaves the soul of the envier & goes to the person that is envied. It afflicts the person envied & sometimes it doesn't. When it doesn't afflict the person, it is because of the protective methods used (whether supplications, seeking refuge, etc). Also, when it doesn't afflict the person, the evil eye can return to the envier.

What is an important fact to know is that the evil eye has no effect except by Allah’s will. A man can give himself the evil eye (Nazar) & he can also give it to others. It can afflict someone without even being seen by the envier. For example, a blind man cannot see a person, but he can still cast the evil eye, or perhaps if the person is not around & they are described to the envier without being seen by him, it can afflict that person. It can also be afflicted by one being amazed without being envious to him or others. The evil eye (Nazar) can be infected by anyone, even a loved one or a righteous person. So, it is incumbent on each & every one of us to take the necessary precautions & try to prevent being affected by the evil eye & to say the supplications & remembrance upon seeing something amazing & good.

[Fath Al-Haq Al-Mubeen: 198]

The evil eye is a terrible affliction that afflicts mankind; it is the most widespread affliction in the world. Most people of this nation (Muslims) will die due to it, after, what Allah has decreed.

And if we praise about Allah Ta’ala while seeing anything that makes us to amaze that thing than Inshaallah evil eye (nazar) do not afflicted. Praise Allah Ta’ala means to say Mashaallah, Tabarakallah or Alhamdulillah or etc with the intending that everything are created by Allah Ta’ala & it is Allah Ta’ala who has created beautiful things. By praising Allah Ta’ala devil (shaitaan) does not gets the chance to afflict the evil eye (nazar).

Evil mentioned in Quran:

وَإِنْ يَكَادُ الَّذِينَ كَفَّارُواْ لَيَبْلُغُوْنَكَ بِأَبْصَارِهِمْ لَيْبَّالَا سُحُبُوْا الْدُّكَرْ
Translation: & verily, those who disbelieve would almost make you slip with their eyes (through hatred) when they bear the Reminder.

[Surah Qalam: 51]

Furthermore, Allah Says: -

قُلْ أَعُوذُ بِرَبِّ الْفَلَّقِ مِنْ شَيْءٍ مَا خَلَقْنَآ إِلَّا وَقَبْلاً وَمِنْ شَيْءٍ عَلِيمِيٍّ إِذَا وَقَبَّ وَمِنْ شَيْءٍ النَّفَقَاتِ فِي الْعُقَّدِ وَمِنْ شَيْءٍ حَاسِدٍ إِذَا حَسَدَ

Translation: I seek refuge with (Allah); the Lord of the daybreak, from the evil of what He Has Created & from the evil of the darkening (night) as it comes with its darkness; (or the moon as it sets or goes away) & from the evil of those who practice witchcraft when they blow in the knots & from the evil of the envier when he envies.

[Surah Falaq]

Types of Evil eye (Nazar): - The evil eye is from two sources:

1) The evil eye from mankind (human).
2) The evil eye from Jinn.

Nabi then came to Amir in anger & said to him, "Why would one of you kill his own brother? Why have you not said Tabarakallah, (may Allah bless it)? Take a bath for it". Amir then washed his face, hands, elbows, knees, feet & a part of his garment in a pot for what he had done & then poured the used water on Sahl.

9. Narrated by Ibn Abbas that Nabi said: If there is anything that precedes pre-destiny, it would be the evil eye. When one is touched by the evil eye, he should take a bath (or a wash) for it".

10. Narrated by Jabir Bin Abdullah, "The Evil Eye can take a person into grave (can cause death), & takes the camel into the cooking pot (meaning death)".

Many scholars mentioned scorpion bite in place of fever.

15. Hazrat Umme Salma رضي الله عنها says that Nabi saw in our house a slave girl & on her face (sign of Nazar) was Assa-faa’ah (black spots). Upon which the Nabi said, "Seek Ruqyah for her, for verily she is afflicted with a look (evil eye)".

[Tirmizi: 2201; English vol. 4; Book. 2, Hadees. 2060]

(This Hadees is regarding evil eye of Sahl Bin Huniaf) (Means whenever we see a good thing we should praise Allah & give Dua of Barkat by this evil eye will get occur).
Lesson no. 67 Treatment of the Evil Eye (Nazar):

Please note that treatment of Sehar (black magic) & Nazar (evil eye) is Ruqyah. There are categories of treatment for those afflicted with the evil eye.

Rules & principles of Quranic treatment: -

1. Hazrat Raza Al-Ghanvi  says that get Shifa from those, in which Allah’s praise are present like (Quranic verses) Alhamdulillah (Surah Faateha) or Kul ho wal-allah ho A-had (Surah Ikhlaas) (or other) & those who does not get Shifa (cure) with Quran then understand there is no Shifa in your destiny.

   [Jaa-me Sa-gheer: 977 & Fath Al-kabir: 1740]

2. Hazrat Abu Hurairah  says that Rasoolullah  guided to get Shifa (cure) from Quran & if anyone does not get Shifa (cure) with Quran, then understand there is no Shifa in your destiny.

   [Jaa-me Sa-gheer: 977]

In regards with above both Hadees we should understand that we are guided to get Shifa from Quran & Names of Allah, or Dua in which there are praise about Allah & also should follow all guidance of Nabi , & if anyone did not got Shifa in spite of Quranic treatment than understand that cure is not in your destiny.

A research report on uses of Allah’s Names & Quranic verses: -

The scientist Masaru Emoto & his team of Japan found out that, the Muslims recites BISMILLAH before eating/drinking. He says that after saying BISMILLAH on regular water, there are some strange changes happened in the quality of regular water. That make it best water.

Masaru Emoto said: "My Muslim colleague offered to recite Quranic verses over the water. He brought a tape-recorder & played some Quranic verses & we got the most perfectly-shaped crystals. Then he played the 99 names of Allah. Each name produced a uniquely-shaped crystal.
He also found out that if someone recites the Quran on regular water, it gets the ability for the treatment of different diseases.

Refer lesson no. 37 in part-1 Zamzam (science & Hadees column).

**The first category: Treatments before the evil eye occurs: There are of many types as follows: -**

Protect yourself & those whom you fear for from getting affected with evil eye, with remembrances, supplications (Dua) & seeking refuge that is in accordance with the Qur’an & Sunnah, as is mentioned in the first category for the treatment of black magic (saher) refer the lesson no. 65.

Supplicate (Dua) for whom you fear might be afflicted with it (if you see something within yourself, your wealth, your son, your brother or anything that amazes you) with blessing (say *Mashaallah, Tabarakallah* or give Dua of Barkat) as follows:

**Give Dua of Barkat & praise Allah when you see anything amazing: -**

1. Nabi ﷺ said: "Why would anyone of you kill his brother? If he sees something that he likes, then let him pray for blessing for him.

   *Ibn Majah: 3638; Book. 31; English vol. 4; Book. 31, Hadees. 3509*

   *(This Hadees is regarding evil eye of Sahl Bin Huniaf) (Means whenever we see a good thing we should praise Allah & give Dua of Barkat by this evil eye will get cured).*

Guard anything or anyone that is attractive & may be a recipient of the evil eye. This means:

When a person has a beautiful family he should guard them by seeking protection from Allah for them, teaching & commanding them to do so & also by dressing them properly not to expose their bodies or beauty so as not to be envied & affected by the evil eye.

3. Hazrat Ibn Abbas  says that, "Nabi ﷺ used to seek refuge for Hasan & Husain  & use to say, 'Your father [meaning Ibrahim ], used to seek refuge with Allah for Ismail & Ishaq  with these words:
Translation: (I seek refuge for the two of you in the Perfect Words of Allah, from every devil & every poisonous pest & from every harmful eye).

[Tirmizi: 2201; Book. 28; English vol. 4; Book. 2, Hadees. 2060]

If someone has wealth, he should guard it by asking Allah to bless & protect it & being thankful to Allah. If someone has good news & he knows people will envy him because of it, he should guard it by keeping it secret.

NOTE: If you know a person is famous for being envious & is known to affect people with the evil eye, it is important to keep away from him. (Go for the Second Category: Treatments after the affliction of the evil eye).

3. Hazrat A’isha رضي الله عنها said: The person who touches others with the evil eye was commanded to perform ablution & the person whom he touched by the evil eye would wash himself with that water.

[Abu Dawud: 3880; Book. 29; Eng. 28; Hadees. 3871]

4. Hazrat A’isha رضي الله عنها say that Nabi  commanded me, or commanded somebody else to do Ruqyah (Islamic prayer formulas) for the evil eye.

[Bukhari: 5738; Book. 76; English vol. 7; Book. 71; Hadees. 634]

5. In Hadees, it is mentioned that the person whose evil eye (Nazar) have affected anyone, make the person, to wash his face, hands, elbow, knees, feet & dip a part of cloth of him (whose evil eye has affected the other person) & the water should fall in the bucket & not outside than make the patient take bath with the water or pour on the body.

[Ibn Majah: 3638; Book. 31; English vol. 4; Book. 31, Hadees. 3509]

6. However in Hadees of Hazrat A’isha رضي الله عنها from Abu Dawud, which I have given below in it is said the evil eyed person whose evil eye affects other, should perform Wazoo.

[Abu Dawud: 3880; Book. 29; English Book. 28; Hadees. 3871]
And remember, the Wazoo water should fall & should be collected in a bucket & with that collected water the patient should bath or pour on his body.

**Please read the below Hadees proper**

7. Abu Umamah Bin Sahl Bin Hunaif said that Amir Bin Rabee’ah  once saw Sahl Bin Hunaif  taking bath & said: "By Allah! I have never observed the skin of a person that is softer than what I have just seen". Sahl  fell to the ground. Nabi  then came to Amir  & in anger & said to him: "Why would one of you kill his own brother? Why have you not said Tabarakallah, (may Allah bless it)? & Amir  was asked to wash his face, hands, elbows, knees, feet & a part of his garment in a pot for what he had done & then poured the used water on Sahl .

*Ibn Majah: 3638; Book. 31; English vol. 4; Book. 31, Hadees. 3509*

**Zuhri (ra) said:** The person who touches others with the evil eye should be commended to submerge his hand in a pot of water & then wash his mouth, then spit the water back into the pot. He should then wash his face in the pot, then submerges his left hand in it & pour some water on the right knee above the pot & then submerge his right hand & pour water on his left knee. He should then wash his garment inside the pot & the water should not be spilled on the ground. Rather, it should be poured on top of the person whom he touched by the evil eye from behind all at once.

*[Healing with Medicine of Prophet  by: Imam Ibn Qayyim Al-Jauziyah]*

**Recite as much as possible:**

*Healing with Medicine of Prophet  by: Imam Ibn Qayyim Al-Jauziyah*

Recite Quranic Ruqyah text given in lesson no 64 full morning & evening for treatment or prevention from evil eye (nazar) sehar (black magic), cancers, psychological disorders & other diseases.

Recite the above verses, along with all the authentic supplications that have been mentioned previously. Then blow in the right hand & wipe over the place of pain, as has been stated in the second type of treatment for magic.
Recite over water & blow into it. It is better if the recitation is done over ZamZam or rain water. Then, the sick person should drink from it & pour the remaining over him, or recite over olive oil & anoint his entire body with it.

The Third Category: implementing the necessary steps that keep away the evil eye from the envier’s.

They are as follows:

1) Seek refuge in Allah from all evil.
2) Fear Allah & implement all of his commands & keep away from all that He prohibited.

Ibn Abbas narrated that Nabi  said: “Be mindful of Allah & He will protect you”.

[Tirmizi: 2706; Book. 37, English vol. 4; Book. 11, Hadees. 2516]

Advise your patient to forgive the envier, pardon him, do not fight with him or complain about him & do not possess any evil inner feelings to harm him. Have complete trust in Allah for whoever places his trust in Allah, Allah will be enough for him. Have no fear of the envier & do not keep pondering or thinking about him, this is a very beneficial treatment. Turn to Allah in sincerity & seek His pleasure in all things. Seek repentance from all sins because they humiliate mankind.

Allah says: & whatever calamities befall you, it is because of what your own hands have earned & He pardons much. [Surah Shu'araa: 30]

Give optional charity & do as much good as possible. Because verily that has a great & amazing effect in combating evil form the envier. Keep away from the fire of the envier, the oppressor & those who afflict others, by being good to them. For every moment they increase in evil, oppression & envy, you increase in being good to them. Give them advice, be merciful & pardon them. This cannot be achieved easily except for one who has a great fortune from Allah.

Have complete sincerity & belief in the unity of Allah, The Wise & The Judge. He is harmed by nothing & nothing benefits Him. Glory is to Him & He is above all things. [Ibn Qayyim 2/238-245]

(Refer lesson no. 62 Dua of Nabi  use as Ruqyah (For evil eye & Black magic).

Benefits of Sleeping According to Sunnah in the Light of Medical Science: -

Today science tells us the best sleeping position, medical science tells us that it’s healthy to sleep on your back or on your right side which we (Muslims) were told more than 1400 years ago by our beloved Prophet Muhammad :
Sleeping on the right side does not let the weight of stomach & intestine to suppress heart, hence blood circulation is not affected. By sleeping on the right side, heart remains on the topside, one will not have a deep sleep. A little noise can prepare someone to face any contingency. It also develops the habit of early morning rise.

Sitting & rubbing the eyes for a while after awaking adjusts the heartbeat according to the new posture, hence it has positive impact on the heart.

Napping after lunch helps to prevent burden on coronary artery. According to cardiologists, having a nap after lunch produces positive effects on heart.

**Imam Shaafa’ee states that there are 4 types of sleep: -**

To lie on the back-this is the sleep of the Prophet ﷺ’s. To sleep on the right side-this is the sleep of the Worshippers. To sleep on the left side-this is the sleep of the rulers. To sleep on the stomach-this is the sleep of the devil.

**Mattress of Nabi ﷺ: -**

Narrated by A’isha رضي الله عنها that the bed mattress of Nabi ﷺ was made of a leather case stuffed with palm fibres.

[Bukhari: 6456; Book. 81; English vol. 8; Book. 76; Hadees. 463]

**Benefits of Avoiding Soft Bed in the Light of Medical Science: -**

Backache is often caused by regular use of soft bed as the muscles of back are loosened. The pain gets aggravated on continuous use. Extremely soft & comfortable bed can lead to the inflammation of ureters; hence kidney diseases can be prevented by not using soft bed. The use of soft bed can reduce the gap between the vertebrae. The
experts don’t recommend it. Infants using soft bed can suffer from deformity of bones, which may lead to disability.

Sleeping on the floor:

Doctor Nixon says, "When a healthy person sleeps his muscles become relaxed. A comfortable bed is bad for the spinal cord & in my eyes I have met such patients that have been affected with a bad back. Children's bones are weak & if they sleep on soft beds it affects their bones & this will affect them throughout their lives. Soft beds results in back pain as the muscles & back become slack & if soft beds are used regularly then this becomes a regular accordance."

It is Sunnah to dust off the bed before sleeping:

Narrated by Abu Hurairah ﷺ that Nabi ﷺ said, "When anyone of you go to bed, should shake out the bed with the inside of the waist sheet, for you does not know what has come on to it after & then should recite:

َّبِِسمِْكِرَّبِوَّضَّعْتُجَّنْبِ،وَّبِيكَرْفَّعُهُ،أأَّنْمسَّكْتَ،وَّأَنْفْسِفَّارْحمَّهُا،وَّآأَّنْرْسَّلْتَََّّأَفَّاحْفَّظْهَّا،بَِِّاَنْتَفَّظُبِهِعِبَّادَكَّالصَّ الِِْيَّ

Translation: (In Your name, my Lord, I lie down & in Your name I rise. If you should take my soul then have mercy on it & if You should return my soul then protect it as You protect Your righteous slaves)."

[Bukhari: 6320; Book. 80; English vol. 8; Book. 75; Hadees. 332]

Dusting the bed:

No religion mentions the practice of cleaning the bed before sleeping. Once a person did not wash his hands before sleeping, being cold that day, a snake rested in the bed & bit the person killing him. One may ask there are no snakes that roam around freely, however bedbugs that live in the bed may harm you. SUNNAH; Look at the method taught by the Holy Prophet ﷺ more than 1400 years ago. It is Sunnah to dust the bed 3 times before sleeping on it. Ensuring that there are no bedbugs or of the sort resting in the bed! SubhanAllah!

It's forbidden & not recommended to sleep on Stomach:

In the present day science tells us that it’s best to sleep on the right side or back & not lying on the left side & stomach. Our beloved Prophet Muhammad ﷺ was aware of these principles.

\textit{Prophet ﷺ slept for a part of the night: -}

Modern Studies have shown that this may be the best advice for many people: -

SLEEP STUDIES for 6 years of more than a million Americans showed that a good night’s sleep is 7 hours. It also showed that people who sleep for 8 hours or more tend to die prematurely. Study leader, Daniel F. Kripke, says, "You really don’t have to sleep for 8 hours & you don’t have to worry about it. It is evidently very safe to sleep only 7, 6 or even 5 hours a night."

STATISTICS...In the study the death risk for people with excess sleep was 34% compared to only 12% for those who slept 8 hours & only 22% for those who had too little sleep!

\textit{Sleep early & offer Tahajjud: -}

Narrated by Al-Aswad that A’isha رضي الله عنها replied to his question, that Nabi ﷺ used to sleep in the early part of the night & would woke up at the latter part & used to pray (Tahajjud) & then return to His ﷺ bed till Mu’azzin called Azaan, He ﷺ use to get for Fajar Salah.

\[Bukhari: 1146; Book. 19; English vol. 2; Book. 21; Hadees. 247\]

Treatment for depression up to 60% of depressed people shows 30% improvement after just one night awake.

Sleep inhibits the thyroid stimulating hormone (TSH) that helps control our metabolism & indirectly our levels of energy. 25 to 30% of depressed patients have low TSH levels. Recent research shows that staying awake at the last part of night & the early morning hours boost it.

\textit{Sleeping after Asr salah (mid evening before sunset) disliked: -}

A gas exits from the earth at the time of Asr salah which is heavy & can affect a person’s mind & heart. If a person sleeps before Isha Salah (night Prayer), the body cannot fight this gas hence causing illnesses.

\textit{Kailula sleeping after Zohr Salah (evening nap): -}
Sahl Bin Saad narrated that "We would not have lunch during the time of Nabi nor would we have a siesta (Kailula) (evening Nap), until after the Friday prayer.

[Tirmizi: 525; Book. 4, English vol. 1; Book. 4; Hadees. 525]

Doctor Geolick Oston, who has written many books, writes in his book that "If it was in my control I would close schools, factories etc & make everyone rest at this time as if this is observed then we would have less ill patients & people would be saved from many illnesses." The psychologist suggests that sleeping at this time refreshes the body, strengthening it & it is saved from many physical & mental illnesses. But this is best after eating in the afternoon & for no longer than an hour.

**Sleeping with wazoo:**

A similar ritual is also encouraged by many experts who say that washing body parts such as the hands, arms, eyes, legs, mouth & genitals before sleep using cool water relaxes the body preparing it for a deep sleep.

**Conclusion of Hadees:**

Nabi’s sleeping habit is the best & very beneficial for the body & its organs. Nabi did not oversleep or deprive His body of necessary sleep; He used to sleep when sleep is warranted & would lay on His right side & remember Allah in supplication (Dua) until sleep overwhelmed His eyes. In addition, His body would not be burdened with overeating or overdrinking. He neither slept on the bare floor, or on high beds. Rather, He had mats made of leaves, used to lean on a pillow & would sometimes place His hand under His cheek.

This text was kept by his brother, Yahya Ibn Seereen, because Muhammed Ibn Seereen in later days did not like to keep books.

[Tareekh, vol 2 p 14b by Yaqoob al Fasawee]

**NOTE:** The below narrations are about dreams of Prophets, Sahabah. But we should be careful to realize that in many of the explanations above the reference is to 'may', that is, seeing such a thing in a dream 'MAY' indicate that 'such & such' was seen. Thus as none of us have the fortune of being a Prophet, nor do we have the fortune of being in the
company of Prophet Yusuf  - who excelled in dream interpretation - we should consider the matters above with caution.

Dreaming of oneself eating ripe dates, acquiring them, etc. may signify Allah’s granting of provision, or a reminder to pay charity, or a reminder to avoid extravagance.

[Bukhari, vol. 9 p 133-4 no 164]

**Science & dreams:** -

All scientific efforts to unravel the mysteries of dreams have failed. There is no answer to how the mind is able to construct the images it does in dreams; In Scientific studies, using electrodes attached to the head, recording firings (conduction) of neurons by several parts of the brain have yielded nothing. What the mind actually sees or the imaginations it creates, have not been recorded by any electronic gadget.

**Conclusion of Hadees:** -

1. Dreams are of 3 types, true dreams are from Allah; do not tell about the dreams to everybody; take interpretation by an Aalim about your true dreams; true dreams are part of prophecy.
2. When you see a bad dream it is from devil (shaitaan) & spit to the left side & recite: لاحول ولاقوة إلا بالله العليم & do not tell to anybody.

16. Narrated by Abu Saeed Khudri ﷺ, A man said to Nabi ﷺ, I have a slave-girl & I withdraw the penis from her (while having intercourse) & I dislike that she becomes pregnant. If Allah intends to create it, you cannot turn it away.

[Abu Dawud: 2171; Book. 12; English Book. 11; Hadees. 2166]

Means that if a man ejaculates outside the virgina so that pregnancy does not take place, on this Nabi ﷺ said that if Allah wants & will, the pregnancy will take place even if the semen is ejaculated outside. Science & Hadees regarding intercourse:

Intercourse prohibit during menses:

Dr. Muhiy Al-Deen Al-'Alabi says that: “It is essential to refrain (prohibit) from having intercourse with a menstruating wife because doing so leads to an increase in the flow of menstrual blood, because the veins of the uterus are congested & prone to rupture & get damaged easily; & the wall of the vagina is also susceptible to injury, so the likelihood of inflammation is increased, which leads to inflammation in the uterus & in the man’s penis, because of the irritation that occurs during intercourse. Having intercourse with a menstruating wife may also be off-putting to both the man & his wife, because of the presence & smell of blood, which may make the man impotent.

Dr. Muhammad Al-Baar said, speaking of the harm that may be caused to the menstruating wife: The lining of the uterus is shed during menstruation & the uterus is scarred as a result, just like when the skin is flayed. So it is vulnerable to bacteria & the introduction of the bacteria that are to be found at the tip of the penis poses a great danger to the uterus, because the opening of both OS (mouth of uterus) are opened during menstrual cycle thus the bacteria can easily reach up to the uterus & fallopian tubes. Hence the penetration of the penis into the vagina at the time of menstruation is no more than the introduction of germs at a time when the body is unable to fight them.
Dr. Al-Baar thinks that the harm is not limited to what he describes of the introduction of germs into the uterus & vagina which is difficult to treat; rather it also extends to other things:

1. The spread of infection to the fallopian tubes, which may then become blocked, which in turn may lead to infertility or ectopic pregnancy, which is the most dangerous kind of pregnancy.

2. The spread of infection to the urethra, bladder & kidneys; diseases of the urinary tract are usually serious & chronic.

3. Increase of germs in the menstrual blood, especially gonorrhea germs.

The menstruating wife is also in a physical & psychological state that is not conducive to have intercourse, so if it takes place it will harm her a great deal & cause pains during her period, as Dr. Al-Baar said:

1. Menstruation is accompanied by pains, the severity of which varies from one woman to another. Most women experience pains in the back & lower abdomen. For some women the pain is unbearable & has to be treated with medication & painkillers.

2. Many women suffer depression & stress during their periods, especially at the beginning & their mental & intellectual state are at the lowest level during menstruation.

3. Some women suffer migraines just before their period starts & the pain is severe & causes visual disturbances & vomiting.

4. Women sexual desire decreases & many women have no interest at all in sex during their periods. The entire reproductive system is in a state that is prone to sickness, so intercourse at this time is not natural & serves no purpose, rather it can cause a great deal of harm.

5. A woman’s temperature drops during menstruation, as does her pulse & blood pressure, which makes her feel dizzy, exhausted & lethargic.

Dr. Al-Baar also mentions that the harm is not only caused to the woman by having intercourse with her, rather the man is also affected by this action, which may cause infection in his reproductive system which may lead to sterility as a result. The severe pains suffered as a result of this infection may be even worse than the sterility it causes.

**Anal intercourse prohibited:**
Anal sex can expose its participants to two principal dangers: infections due to the high number of bacterias, fungus & infectious microorganisms which are not found elsewhere on the body & physical damage to the anus & rectum due to their fragility, & there is a higher risk of passing on sexually transmitted infections & diseases, because the anal sphincter are delicate & can easily torn that can provide an entry for pathogens. The high concentration of white blood cells around the rectum, together with the risk of tearing & the colon’s function to absorb fluid, are what place those who engage in anal sex at high risk of STIs (sexually transmitted infections).

People say we use condom, the condom can break or otherwise come off during anal sex & this is more likely to happen with anal sex than with other sex acts because of the tightness of the anal sphincters during friction. Unprotected receptive anal sex (with an HIV positive partner) is the sex act most likely to result in HIV transmission. Other infections & problems that can be transmitted or caused by anal sex are piles, fissures, fistula, anal abscess, perforations, anal incontinence, warts, HIV, AIDS, human papillomavirus (HPV) which can increase risk of anal cancer; typhoid fever, diarrhea, parasitic infection.

Fever; amoebiasis; Chlamydia cryptosporidiosis; E-coli infections; giardiasis; gonorrhea; hepatitis A; hepatitis B; hepatitis C; herpes simplex; Kaposi’s sarcoma-associated herpes simplex virus; lymphogranuloma venereum; Mycoplasma hominis; Mycoplasma genitalium; pubic lice salmonellosis; shigella; syphilis; tuberculosis; & Ureaplasma urealyticum & etc.

Conclusion of Hadees: -

**Rules in general who has more than one wife: -**

1. If a person has more than one wife it is obligation (Wajib) upon him to treat each one equally. Whatever he gives to one wife, the other wife also has the right to claim something equal to that in value. This rule of equality applies to all types of wives, i.e. whether both were virgins at the time of marriage, both were previously married or one was a virgin at the time of marriage while the other had been previously married. If he spends one night with one wife, he will have to spend one night with the other wife as well. If he spends two or three nights with one wife, he will have to do the same with the other wife as well. Whatever wealth, jewellery, clothes, etc. he gives to one wife, the other wife also has the right to claim something equal to that in value.

2. If a person marries a second woman, the rights of this new wife & the rights of the old wife are the same. There is no difference in rights between the two.

3. Equality is based on spending the nights & it is not necessary to spend an equal time with them during the day. If a person spends more time with one wife during the day & less time with the other, there is no harm in this. However, it is obligation (Wajib) to spend an equal time with them at night. If a person goes to one wife immediately after *Maghrib Salah* & the following day he goes to the other wife after *Isha Salah*, he will be sinning. However, if a person’s occupation is such that he works at night & remains at home during the day; for him, the basis of equality will be the day. For example, a night watchman or guard will have to base his equality with his wives according to the day & not the night.

4. There is no equality in engaging in sexual intercourse in the sense that if a person engages in sexual intercourse with one wife, it is not necessary for him to engage in sexual intercourse with the other wife as well.
5. The man has to maintain equality in allocating nights to his wives irrespective of whether he is ill or not.

6. There is no sin in loving one wife more than the other because these matters are connected to the heart & one does not have any control over one's heart.

7. Equality is not obligation (Wajib) when embarking on a journey. The husband can take whichever wife he wishes. However, it is preferable to cast a (draw) lot & to take the wife in whose favour the lot was drawn. In this way there will be no unhappiness or disgruntlement.

**Persons with whom marriage (nikah) is Haram:**

1. Marriage with one's children, grand-children, great grand-children etc is not permissible. Nor is marriage with one's parents, grand-parents, maternal grand-parents etc permissible.

2. Marriage with one's brothers, uncles & nephews is not permissible. According to the Islam (Shari'ah), a brother is one whose mother & father are the same, or they have one father but two mothers, or one mother but different fathers. They are all brothers. But if the father is different & the mother is also different; that person will not be a brother. Marriage (Nikah) between them is allowed & will be valid.

3. Marriage with one's son-in-law is not permissible. This is irrespective of whether the daughter is already living with him or not. In all cases, marriage (Nikah) with him is haram.

4. If a girl's father passes away & her mother marries another person. & however, before the mother could even live with her new husband & did not have intercourse, she passes away or he divorced her. In such a case, the girl can marry this step-father of hers because the marriage did not have valid yet. However, if the mother lived with him, it will not be permissible for this girl to marry him.

5. Marriage with one's step-children is not valid. In other words, if a man has several wives, then one of the wives cannot marry the children of the co-wives. This is irrespective of whether she had lived with her husband or not. Marriage with these children is prohibited under all circumstances.
6. It is not permissible for a woman to marry her father-in-law or even the father or grand-father of her father-in-law.

7. As long as a sister is married to her husband, it is not permissible for another sister to marry this brother-in-law of hers. However, if her sister passes away or he divorces her & she completes her iddah period, it will be permissible for the other sister to marry her brother-in-law. In the case where the brother-in-law divorces the first sister, it is not permissible for the second sister to marry her brother-in-law until her sister completes her iddah period.

Similarly, if a man happens to be one’s paternal (father’s side) uncle or nephew through some distant relationship, marriage (Nikah) with him is permissible. Marriage (Nikah) with one’s cousins is also valid irrespective of whether they are paternal (father’s side) or maternal (mother’s side) cousins.
14. Two women who are not blood sisters but are maternal or paternal cousins are permitted to marry one man at the same time. In the presence of such a cousin, another cousin can also marry the same man. The same rule applies to a very distant maternal or paternal aunt. That is, the niece & this distant maternal or paternal aunt can marry the same man at one time.

15. All the relations which become haram on account of lineage also become haram on account of breast-feeding. In other words, if a girl is breast-fed by a particular woman, then this girl cannot marry the latter’s husband because he will now be regarded as her father. A girl who has been breast-fed by a particular woman cannot marry a boy who has been breast-fed by the same woman. Nor can this girl marry the children of this woman because she is also regarded as a child of this woman. All the maternal & paternal uncles & maternal & paternal nephews who become related due to this breast-feeding also become haram on this girl.

16. If two girls have been breast-fed by one woman, they cannot marry the same man at one time. In other words, whatever has been explained previously, will also apply to relations based on breast-feeding.

17. A man committed adultery with a certain woman. Now it will not be permissible for her mother or her children to marry this man.

18. Due to the passions of youth, a woman touched a man with evil intentions. It will now not be permissible for her mother or her children to marry this man. Similarly, if a man touches a woman with evil intentions, her mother & her children will be haram on him.

19. In the middle of the night, a man decided to awaken his wife. However, he mistakenly touched his daughter or his mother-in-law. Thinking them to be his wife, he touched them with the passions of youth. Now, this man will become haram on his wife forever. There is no way in which she can become permissible for him. It will be necessary for him to divorce his wife.

20. If a boy touches his step-mother with an evil intention, she will become haram on her husband. There is no way in which she can be halal for him. If the step-mother touches her step-son with an evil intention, the same rule will apply.
21. A Muslim woman cannot marry a man who belongs to any other religion. She can only marry a Muslim man.

22. A woman's husband divorced her or he passed away. As long as she does not complete her iddah, she cannot marry anyone else.

23. Once a woman marries a man, she cannot marry another person unless & until she is divorced by this person & also completes her iddah.

24. If a woman is not married & she falls pregnant due to adultery, it will be permissible to marry her. However, it will not be permissible to have intercourse with her until she delivers the child. But if the woman marries the same person who had committed adultery with her, it will be permissible for the person to have intercourse with her.

25. If a person has four wives, he cannot marry a fifth woman. If he happens to divorce one of his four wives, another woman cannot marry him until the one who is divorced completes her iddah.

**Scientific benefits of Marriage:**

1. Consistent research has shown that being married is actually good for your heart. In one recent study out of New York University's Lagone Medical Center, researchers found that married men & women had a five percent lower chance of cardiovascular disease compared to single people.

2. According to Robin Simon, a professor of sociology at Wake Forest University, marriage has for a long time been associated with better mental health. At this point, hundreds of studies document a robust relationship between marriage & improved mental health: Married people report significantly fewer symptoms of depression & are significantly less likely to abuse substances than their non-married counterparts.

3. Getting married is a good way to live longer - at least that's what research says. Having a family & living with a spouse gives individuals something to live for, compared to their single counterparts who may have been used to living a self-centered life. Researchers have also found that men, in particular, are benefit from
marriage. They’re less likely to commit suicide than their single counterparts & they’re more likely to do things like go to the doctor, get their check-ups, stop drinking alcohol & take their medication because their wives stay on top of them. Likewise, one study found that married people recovered much quicker from surgery than single people, because they had someone to take care of them.

4. Researchers from the University of Chicago found that marriages lower the stress hormones by dampening the cortisol hormone responses to psychological stress, also lowers testosterone levels.

5. Marriage facilitates sex & it acts as a pain reliever. The hormone oxytocin (a nine amino acid peptide that is synthesized in hypothalamic neurons & transported down axons of the posterior pituitary for secretion into blood) secretes within your body whenever you engage in sexual activity. Because of this secretion, endorphins (hormone-like chemicals that bear a close functional resemblance to morphine) are released & pain reliefs. & after an orgasm, an intense wave of calm & relaxation overcomes humans (that’s why men usually fall asleep) & it’s a time when people can truly liberate themselves & let go. Plenty of people who enjoy a regular dose of sex convey that they sleep much better during the night & feel alive & refreshed throughout the day. So, one of the health benefits of sex is a better night’s sleep, which allows you to handle day-to-day stress much more efficiently. Our blood starts to pump at a quicker rate & thus, blood flow to our brain & other organs increases. Both an increased heart rate & more blood pumping through the brain result in better performance (in & out of the bedroom).

6. The fresh supply of blood pumping through your body provides the organs with a healthy dose of oxygen & rids the body of old & wasteful products. & there are many more benefits.

**Conclusion of Hadees:**

*Refer above Rules in general who has more than one wife.*
Sexual interaction between the husband & his wife should always be done privately. Intercourse should be performed away from others’ observation, including one’s children who live in the same house.

Nabi ﷺ also prohibited men & women from talking to others about the details of what happens in their bedrooms. One is only allowed to reveal what is necessary when there are good reasons, such as medical issues.

Nabi ﷺ recommended the husband to be kind to his bride & to comfort her by offering her something to drink when they meet the first time after the wedding.

Narrated Imam Ahmad from the Hadees of Asmaa Bint Yazeed Ibn Al-Sakin ﷺ who said: I prepared & beautified A’isha رضي الله عنها for Nabi ﷺ. Then He ﷺ came & I called Him to see her in all her beauty. He ﷺ came & sat next to her. He ﷺ was brought a large cup that contained milk. He ﷺ drank & then handed it to her. She lowered her head & was shy. Asmaa رضي الله عنها then says: I rebuked her & told her to take it from the Hand of Nabi ﷺ. She took it & drank some.”

Nabi ﷺ recommended the couple to start every intercourse by saying: Bismillahir Rahmanir Rahim (In the Name of Allah) & by praying to Allah (making a Dua) to protect them from Shaitaan & to protect the child from devil (shaitaan) if a child comes from that intercourse.

In Tirmizi it is mentioned to recite this Dua:

پیسِمِ اللَّهِ السَّبِیْتَانِ، وَجَبَّیبِ الشِّیطَانَ، مَا رَزَّقْتَنَّا

[Tirmizi: 1092; Book. 11, English vol. 2; Book. 6, Hadees. 1092]

Nabi ﷺ said: “If any one of you marries a woman, he should take her by the forelock, mention Allah’s name (saying: “In the Name of Allah”) & pray blessings by saying, O’ Allah! I ask you for her good & the good of what you have dispositioned her toward & I seek refuge from her evil & the evil you have dispositioned her toward’ ”

[Bukhari in Khalaq Afaal al-Ibaad, page 22]

He should place his hand upon the front part of her head at the time when he first starts to approach her or after that. He should mention the name of Allah Almighty & then pray for blessings & then say the
supplication that was taught to us by Nabi ﷺ: “O Allah! I ask of you the good of her & the good of what you have placed in her nature & I seek refuge with you from the bad in her & the bad that you have placed in her nature”.

The groom & the bride are also recommended to pray two Raka`ats together when they meet on the first day of marriage.

It was narrated that Abu Saeed ﺃ, the freed slave of Abu Usayd, said: I got married when I was a slave & I invited some of the Companions Nabi ﷺ, among who were Ibn Masood, Abu Dharr & Huzaifa ﺃ. & they taught me & said: When your wife enters upon you, pray two rakahs, then ask Allah, may He be exalted, for the good of what has entered upon you & seek refuge with Him from its evil, then go ahead & approach your wife.

It is highly recommended that the wedding should take place at night. The Hadees says, “Take the bride to her new home during the night.”

When the bride enters the room, the groom is recommended to take off her shoes & wash her feet (in a washbowl) & then sprinkle the water around the room. Then he should perform wazoo & pray two rak'at sunnat prayers & then recite the following dua:

َّاَّلل هُم ِّرْزُقْنِْ ِّاْفَّهَّا وَّ وُدَّهَّا وَّ وُدِّهَّا وَّ وُدِّهَّا وَّ وُدِّهَّا وَّ وُدِّهَّا وَّ وُدِّهَّا وَّ وُدِّهَّا

Translation: O Allah! Bless me with her affection, love & her acceptance of me; & make me pleased with her & bring us together in the best form of a union & in absolute harmony; surely You like lawful things & dislike unlawful things.

Then he should ask the bride to do wazoo & pray two rak’at sunnat prayers. When they are ready to go to bed, the groom should put his hand on the bride’s forehead & pray the following du’a while facing the qiblah.
Translation: O Allah! I have taken her as Your trust & have made her lawful for myself by Your words. Therefore, if You have decreed for me a child from her, then make him/her blessed & pious from among the followers of the Family of Muhammad (peace be upon him & them); & do not let Satan have any part in him/her.

Revealing of veiling (Hijab) verses of Quran:

1. Narrated by Anas  that I know (about) the Hijab (the order of veiling of women) more than anybody else. Ubai Bin Ka`b  used to ask me about it. Nabi  became the bridegroom of Zainab Bint Jahsh رضي الله عنها whom He  married in Madinah. After the sun had raised high in the sky, Nabi  invited the people to a meal. Nabi  remained sitting & some people remained sitting with Him after the other guests had left. Then Nabi  got up & went away & I too, followed Him till He  reached the door of A'isha’s  room. Then He  thought that the people must have left the place by then, so He  returned & I also returned with Him. Behold, the people were still sitting at their places. So He  went back again for the second time & I went along with Him too. When we reached the door of A’isha’s  room, He  returned & I also returned with Him to see that the people had left. Thereupon Nabi   hung a curtain between me & Him & the Verse regarding the order for (veiling of women) Hijab was revealed.

[Bukhari: 5466; Book. 70; English vol. 7; Book. 65; Hadees. 375]

2. Anas Bin Malik  said that Zainab Bint Jahsh  used to boast to other wives of Nabi  saying: Allah married me to Him  from above the Heavens. & the Verse of Hijab was revealed concerning her.

[Nasa’i: 3252; Book 26; English vol. 4; Book. 26, Hadees: 3254]

3. Narrated by Anas Bin Malik  that, the verse of Al-Hijab (veiling of women) was revealed in connection with Zainab Bint Jahsh . (On the day of her marriage with Him) Nabi  gave a marriage banquet with bread & meat; & she used to boast before other wives of Nabi  & used to say, "Allah married me (to Nabi )").
[Chapter 33, Surah Ahzab verse no. 53]

Translation: 'O you who believe! Enter not the Prophet's houses until leave is given to you for a meal, (and then) not (so early as) to wait for its preparation, ask them from behind a screen.' (33.53) So the screen was set up & the people went away.

[Umar advised for veils: -]

4. Narrated by Umar that I said: Oh! Rasoolullah good & bad persons enter upon you, so I suggest that you order the mothers of the Believers (i.e. your wives) to observe veils. Then Allah revealed the verse of Al-Hijab.

[Book. 97; English vol. 9; Book. 93; Hadees. 517]

Veils (Hijab) not required for uncle:

5. Narrated by A’isha that Aflah, the brother of Abul Quais, asked permission to visit me after the order of Al-Hijab was revealed. I said: I will not permit him unless I take permission of Nabi about him for it was not the brother of Abul Quais but the wife of Abul Quais that nursed me. Nabi entered upon me & I said to Him: O Rasoolullah! Aflah, the brother of Abul Quais asked permission to visit me but I refused to permit him unless I took your permission. Nabi said: What stopped you from permitting him? He is your uncle.

[Bukhari: 4796; Book. 65; English vol. 6; Book. 60; Hadees. 319]

Veils (Hijab) necessary to be done for every woman infront of mehram (by whom marriage is allowed):

6. Abu Abdullah Salim Sabalan said that A’isha liked my honesty & hired me & she showed me how Nabi used to perform ablution (Wazoo). She rinsed her mouth, sniffed water into her nose & blew it out three times & washed her face three times. Then she washed her right hand three times & her left hand three times. Then she put her hand on the front of her head & wiped her head once, front to back. Then she rubbed her ears with her hands & then she passed her hands over her cheeks. Salim said: I came to her as a slave with a contract of manumission & she did not hide herself from me. She
would sit before me & talk to me, until I came to her one day & said: Pray for blessing for me, O Mother of Believers. She said: Why is that? I said: Allah has set me free. She said: May Allah bless you. Then she lowered the Hijab before me & I never saw her again after that day.

[Nasa’i: 100; Book 1; English vol 1; Book 1, Hadees: 100]

**Veils (Hijab) are for both male & female:**

7. Umme Salma رضي الله عنها said that I was with Nabi  along with Maimunah رضي الله عنها when Ibn Umme Maktoom  (who was blind) came to visit him. (This incident took place after the order of Hijab). Nabi  told us to hide ourselves from him (i.e., observe Hijab). We said: "O Rasoolullah , he is blind & is unable to see us, nor does he know us." He  replied: "Are you also blind & unable to see him?"

[Riyadh As-Salihin: 1626 Book. 18; English Book. 18; Hadees. 116]

8. Narrated by A’isha رضي الله عنها that may Allah have mercy on the early immigrant women. When the verse "That they should draw their veils over their bosoms" was revealed, they tore their thick outer garments & made veils from them.

[Abu Dawud: 4102; Book 34; English Book. 33; Hadees. 4091]

9. It was narrated from Urwah that A’isha رضي الله عنها said that Nabi  used to pray Fajr & the believing women would attend (the prayer) with Him, wrapped in their aprons, then they would go back to their houses & no one would recognize them.

[Muslim: 645 A; Book 5; English Book. 4; Hadees. 1345]

10. It was narrated that A’isha رضي الله عنها said: “The riders used to pass by us when we were with Nabi  in Ihraam & when they drew near to us we would lower our jilbabs from our heads over our faces, then when they had passed we would uncover them again.

[Abu Dawud: 1833; Book. 11; English Book. 10; Hadees. 1829]

11. It was narrated that Asma Bint Abi Bakr رضي الله عنها said: We used to cover our faces in front of men.

[Ibn Khuzaimah, 4/203; Haakim: 1/624]

12. It was narrated that Aasim Al Ahwaal said: We used to enter upon Hafsah Bint Sireen who had put her jilbab thus & covered her face with it & we would say to her: May Allah have mercy on you. Allah says (means): & as for women past childbearing who do not expect
wedlock, it is no sin on them if they discard their (outer) clothing in such a way as not to show their adornment (Noor: 60). & she would say: What comes after that? We would say: But to refrain (i.e. not to discard their outer clothing) is better for them. & she would say: That is confirming the idea of hijab.

[Al-Bayhaqi: 7/93]

13. Narrated by A’isha رضي الله عنها that she used to say: “When (the Verse): “They should draw their veils over their necks & bosoms, was revealed, (ladies) cut their waist sheets at the edges & covered their faces with the cut pieces.”

[Bukhari: 4759; Book. 65; English vol. 6; Book. 60; Hadees. 282]

**Questions & Answers:**

**Question:** It is permissible for a female doctor to take off her hijab when visiting patients, even if the laws governing her work require doing that?

**Answer:** Wearing hijab in front of non-mahram men is a definite obligation as is indicated by the Quran, Sunnah & scholarly consensus. Hence it is not permissible for anyone to instruct a woman to do the contrary or to prevent a woman who wants to comply with that. It is not permissible for a woman to take this obligation lightly or to uncover any part of her body, unless she is compelled to do that by a case of necessity which makes that which is ordinarily prohibited permissible.

**Question:** I am a girl who does not wear hijab. Does that mean that my fasting in Ramzaan is invalid?

**Answer:** If a woman does not wear hijab, then she is disobeying her Lord thereby, but her fast is still valid, because sins, including not wearing hijab, do not invalidate the fast, but they detract from its reward & may cause it to be lost altogether.

**Scientific Benefits of Wearing Hijab:**

The Hijab is a religious head covering that is worn by Muslim women. It generally conceals the neck & hair & has a veil for covering the face. Most Muslim women wear the Hijab, while refraining from wearing tight clothing. Donning the Hijab & also generally observing a modest Muslim style of dressing offers these benefits.

1. Represents Purity
The Hijab is regarded like an indication of dignity & purity. It highlights Muslim women as chaste & pure women. It also sets the wearer apart from immoral behaviors linked to women who wear immodestly. Actually, the Hijab acts like a screen between chaste Muslim women & the world’s evil.

**2. Protects From Male Harassment**
Most men do not make lewd gestures or whistle when a woman wearing a Hijab passes by. In fact, men view the Hijab like a sign that says off limits & thus do not approach such women. Muslim women by & large have a low chance of being exploited for their femininity & beauty in contrast with other women.

**3. Places Focus On Intellect**
The Hijab also benefits Muslim women by forcing people, particularly men, to go past the outer appearances & focus on the women’s intellect. Rather than assessing woman for her mind, the society usually assesses her based on physical traits. Many people are truly surprised when they discover that a Muslim who wears a Hijab is articulate, intelligent & educated.

**4. Eliminates Competition Amongst Women**
People in western nations are known for sacrificing health & financial savings so as to have expensive plastic surgery with an aim of meeting unrealistic standards of beauty. However, with Hijab, Muslim women can go for their normal duties without worrying about impressing other people.

**5. Hygienic Purposes**
All public should wear Hijab or head-covering workers serving society to ensure cleanliness & purity. Workers in a number of professions wear "veils" - nurses, fast food workers & daily Counter workers, restaurant workers & servers, doctors, health care providers & many more.

**6. Female Psychological Balance**
Covering the hair can also have a beneficial effect on the female psyche as well. Studies of women being interviewed for jobs show that there is a high correlation between what they wear & their perceptions of how successful they will be in their interviews. There are many more examples of how what we wear can influence how we act.
Wearing a Hijab does not have demerits & those who wear it have more strength & confidence as women become less mindful of their physique & appearance.

The moral duty of wearing Hijab in Islam is a frequently discussed topic among Muslim women. Nevertheless, little been written on its scientific advantage but there are, in fact, a number of health benefits that wearing Hijab provides, as well as many behavioural science studies that suggest that Hijab is the best cloth for women. It is very important to protect the head, as medical test show that 40-60% of body heat is lost through the head, so persons wearing head coverings during cold months are protected about 50% more than those who do not. In the traditional Islamic medical texts of Al- Jawziyya, there are evidence that the body is affected by the "4 Elements" of life in undesirable ways hence, we are advised to protect our heads against wind, breezes, drafts & cold weather.

Science & Islamic Hijab: -

*In these verses, Allah commands following:* -

1) For both believing men & women: Cast down their looks & guard their private parts
2) For believing women:
   A) Not to display their ornaments (with exceptions).
   B) Not strike their feet unless their ornaments become known

‘Casting down their looks’ is one of the common commands for both men & women & in addition women shouldn’t ‘display’ their ornaments. What this has to do with the command of hijab? What could be possible implications of ‘keeping down’ one’s look while living in society where everyone doesn’t observe a modest dress code? Let us look at it from scientific angle.

Human nervous system is the divinely made computer with over 100 billion neurons. These neurons are like highly sophisticated microchips & scientists have failed so far to calculate exact storage capacity & processing speed of even a single neuron.

Brain receives its inputs via sensory modalities, such as eyes, ears, smell, taste, touch etc. This information is then stored, processed in different areas of brain that are connected together & form the basis of further thought processes, development of new ideas, decision making & the
physical actions, or outputs. Thus input to the brain usually matches with its output. The most striking point is that over 80% of all the sensory information that goes into the human brain comes from eyes only.

Thus, controlling the input of sensory stimuli from eyes can significantly affect the overall functioning & subsequent tasks such as memory, analysis of stored information, thought processing, learning, emotional & social aspects related to received information, carried out by the nervous system.

A major task of neurons is to store & process all the information in appropriate areas of brain & make it ready for accurate & timely retrieval in future. Finally, the output which is seen in the form of words, behavior & physical actions, is dependent on the previous step. Thus, if wrong or incorrect sensory stimuli enter into brain, the neurons will be storing & processing that information, leading to bad ideas, thoughts & finally bad words & actions.

**A simple model of it is presented in figure below:**

![A simplified Model of Brain Function](image)

Thus, when an environment has abundance of provocative stimuli, especially from the visual system, *i.e.* eyes, this leads to relevant aggressive & provocative words, behaviors & actions. Vulnerable individuals & young & immature minds that lack appropriate training & self-control & cannot handle the sensory information going into their brains, are automatically prone to give similar output in the form words, behavior & actions that correlate with sensory input.

For example, kids or adolescents who watch movies with violence or play video games with similar themes, indulge in to similar type of aggressive & uncontrolled behavior.

In today’s world, the sensory information mostly enter eyes via special environmental scenes at parties, in universities, at gatherings,
interaction of males & females at work place & in other situations & exposure to media, cinema etc, pictures, magazines, TV & computer screen, IPod & mobile phone screen & other such gadgets.

Unless a person blocks the unwanted information from going into the brain by controlling his eyes & where it is looked, or selectively deciding not to expose oneself to a specific environment, the information cannot be prevented from entering brain.

This is much more difficult in a society where no modest dress code exists or where liberal culture prevails, leading to a bombardment of sensory stimuli to brain every day. In this situation, the only way for the males & females to protect their thoughts from getting corrupted is to control their gaze.

Additionally, the females can block provocative sensory stimuli entering into a male’s brain by wearing an unprovocative, loose & simple dress that perfectly hides body contour & spots of beauty, adopting a modest & decent behavior & minimum social interaction that wouldn’t lead to unwanted emotional or social consequences.

Scientific data on aggression & sexual violence against girls & women in Western societies is a common norm & it is accepted as such to be a part of the Western culture. By the age of 21, almost 98% of women suffer from some form of sexual aggression in US, Europe & other liberal societies.

These societies have adapted themselves to this injustice & degradation against women which is considered to be a part of their lives. There are special centers to deal with sexual violence & treat those who suffer on day to day basis & there are emergency phone numbers available to deal with immediate situations, if the victim needs medical & emotional support. Assistance is also provided to the girls who have suffered from sexual violence by NGOs or various governmental organizations.

However, these societies have failed to deal with the basic issue outlined earlier in this article which is controlling the environmental stimuli that lead to these crimes against women in the form of output. Islamic dress code for women & Islamic teachings about controlling one’s gaze act as powerful filters to protect brain from being exposed to provocative stimuli & keep it protected from getting corrupted by blocking all
subsequent steps mentioned earlier. Thus, the brain doesn’t store bad & provocative stimuli in the form of memory, doesn’t process bad thoughts & ideas & doesn’t develop any unwanted emotional & social attachments. Accordingly, the output is seen in the form of controlled, logical & good words, behaviors & actions.

Perhaps, this is the reason that Quranic verses dealing with hijab or Islamic dress code mention the consequences of such actions [looking down & protecting one-self] lead to purity for believing men. & for believing women [by not displaying their ornaments, observing prescribed dress code & thus protecting themselves] & men, it is eternal success because most of the provocative stimuli come from the females. Truly a society can become eternally successful, safe for women & pure for both men & women if Islamic dress code & Islamic teachings for decent behavior are observed.

Imam Ja’far said: ‘Whenever the eye looks at something forbidden, a knot of desire is tied in the person’s heart & that knot will only be untied by one of two conditions: either by weeping out of grief or regret in true repentance, or by taking possession of what one desired & looked at.’

Certainly several crimes & illegal actions against women can be prevented if eyes don’t look at what is unlawfully exposed in the name of liberalism, modernity & fashion to be seen, provoking lust among males & if women realize that observing Islamic modest dress is in their own interest & for their protection.

**Conclusion of Hadees:**

Male should not see purposely to female, females should cover their body & ornament as mentioned in Quran & Hadees using Hijab & Naqab.

**Science & Hadees about male circumcision:**

*Circumcision is obligatory for males & that it is one of the symbols of Islam.*
Circumcision is the surgical removal of the foreskin, the tissue covering the head (glans) of the penis. It is an ancient practice that has its origin in
religious rites. Today, many parents have their sons circumcised for religious or other reasons. Circumcision does not decrease the sensitivity of the penis, nor harm sexual function or reduce sexual satisfaction. Circumcision does not appear to adversely affect sexual desire, pain with intercourse, premature ejaculation & time of ejaculation, erectile dysfunction or difficulties with orgasm.

The health benefits of circumcision:

Dr. Muhammad Ali Al-Baar (a member of the Royal College of Surgeons in the UK & a consultant to the Islamic Medicine department of the King Fahd Centre for Medical Research in the King Abdul Aziz University in Jeddah) says in his book Al-Khitaan (Circumcision):

“Circumcision of newborn boys (i.e. within the first month of life) brings numerous health benefits, including:

1. Protection against local infection in the penis:
Which may result from the presence of the foreskin, causing tightening of the foreskin, which may lead to retention of urine or infections of the glans (tip) of the penis, which require circumcision in order to treat these problems. In chronic cases, the child may be exposed to numerous diseases in the future, the most serious of which is cancer of the penis.

2. Infections of the urethra:
Many studies have proven that uncircumcised boys are more exposed to infection of the urethra. In some studies the rate was 39 times more among uncircumcised boys. In other studies the rate was ten times more. Other studies showed that 95% of children who suffered from infections of the urethra were uncircumcised, whereas the rate among circumcised children did not exceed 5%.

In children, infection of the urethra is serious in some cases. In the study by Wise well on 88 children who suffered infections of the urethra, in 36% of them, the same bacteria were found in the blood also. Three of them contracted meningitis & two suffered renal failure. Two others died as a result of the spread of the micro-organisms throughout the body.

3. Protection against cancer of the penis:
The studies agree that cancer of the penis is almost non-existent among circumcised men, whereas the rate among uncircumcised men is not insignificant. In the US the rate of penile cancer among circumcised men...
is zero, while among uncircumcised men it is 2.2 in every 100,000 of the uncircumcised population. As most of the inhabitants of the US are circumcised, the cases of this cancer there are between 750 & 1000 per year. If the population were not circumcised, the number of cases would reach 3000. In countries where boys are not circumcised, such as China, Uganda & Puerto Rico, penile cancer represents between 12-22 % of all cancers found in men; this is a very high percentage.

4. **Sexually transmitted diseases (STDs):**

Researchers found that the STDs which are transmitted via sexual contact (usually because of fornication/adultery & homosexuality) spread more among those who are not circumcised, especially herpes, soft chancre, syphilis, candida, gonorrhea & genital warts.

There are numerous modern studies which confirm that circumcision reduces the possibility of contracting AIDS when compared to their uncircumcised counterparts. But that does not rule out the possibility of a circumcised man contracting AIDS as the result of sexual contact with a person who has AIDS. Circumcision is not a protection against it & there is no real way of protecting oneself against the many sexually transmitted diseases apart from avoiding fornication / adultery, promiscuity, homosexuality & other repugnant practices. (From this we can see the wisdom of Islamic sharee’ah in forbidding fornication/adultery & homosexuality).

5. **Protection of wives against cervical cancer:**

Researchers have noted that the wives of circumcised men have less risk of getting cervical cancer than the wives of uncircumcised men.

* [Al-Khitaan, p. 76, by Dr. Muhammad Al-Baar]

**Science & Hadees about female circumcision:**

Female circumcision is done by cutting a small part of the skin of clitoris that looks like a rooster’s comb, above the exit of the urethra. The Sunnah is not to cut all of it, but rather a part of it.

* [Al-Mawsoo’ah Al-Fiqhiyyah: 19/28]

According to the Shaafais & the Hanbalis & others that circumcising women is obligatory. Many scholars are of the view that it is not obligatory in the case of women; rather it is Sunnah & is an honour for them.

Circumcision is obligatory for males & that it is one of the symbols of Islam & that circumcision of women is mustahabb but not obligatory.

Female circumcision has not been prescribed for any reason, rather there is wisdom behind it & it brings many benefits.

*Mentioning some of these benefits, Dr. Haamid Al-Ghawaabi says:*

© Copyright Mohammed Shakeel Shamsi May 2016 (All Rights Reserved)  Page 567
The secretions of the labia minora accumulate in uncircumcised women & turn rancid, so they develop an unpleasant odour which may lead to infections of the vagina or urethra. It has been seen in many cases of sickness that are caused by the lack of circumcision.

Circumcision reduces excessive sensitivity of the clitoris which may cause it to increase in size to 3 centimeters when aroused, which is very annoying to the husband, especially at the time of intercourse.

Another benefit of circumcision is that it prevents stimulation of the clitoris which makes it grow large in such a manner that it causes pain. Circumcision prevents spasms of the clitoris which are a kind of inflammation & reduces excessive sexual desire.

Dr Al-Ghawaabi refutes those who claim that female circumcision leads to frigidity by noting:

Frigidity has many causes & this claim is not based on any sound statistics comparing circumcised women with uncircumcised women, except in the case of Pharaonic circumcision which is where the clitoris is excised completely. This does in fact lead to frigidity but it is contrary to the kind of circumcision enjoined by the Prophet ﷺ when He ﷺ said: “Do not destroy” i.e. do not uproot or excise. This alone is evidence that speaks for itself, because medicine at that time knew very little about this sensitive organ (the clitoris) & its nerves.

Liwa’ al-Islam magazine, issue 8 & 10; article entitled Khitaan al-Banaat (circumcision of girls).

The female gynaecologist Sitt al-Banaat Khaalid says in an article entitled Khitaan al-Banaat Ru’yah Sihhiyyah (Female circumcision from a health point of view): - Some of the health benefits of female circumcision: -

It takes away excessive libido from women; it prevents unpleasant odours which result from foul secretions beneath the prepuce. It reduces the incidence of urinary tract infections & it reduces the incidence of infections of the reproductive system.

In the book on Traditions that affect the health of women & children, which was published by the World Health Organization in 1979 it, says:

With regard to the type of female circumcision which involves removal of the prepuce of the clitoris, which is similar to male circumcision, no harmful health effects have been noted.

Conclusion of Hadees: -

Circumcision is obligation in males but not in female, a new Muslim brother should undergo it even if he is too old..........This lesson has 6 Hadees.........
Lesson no. 74 Women:

Nabi ﷺ’s guidance about women:

Treat women nicely:
1. Narrated by Abu Hurairah ﷺ that Nabi ﷺ said: Treat women nicely, for a woman is created from a rib & the most curved portion of the rib is its upper portion, so, if you should try to straighten it, it will break, but if you leave it as it is, it will remain crooked. So treat women nicely.

[Bukhari: 3331; Book. 60; English vol. 4; Book. 55; Hadiths. 548]

Tattoos disliked & prohibited:
2. Narrated by Abdullah ﷺ that Nabi ﷺ cursed the women who do tattoos & the women who have them done, Al-Mutanamhisat & the women who have their teeth separated for the sake of beauty, those who change (the creation of Allah)”

[Nasa'i: 5099; Book. 48; English vol. 6; Book. 48, Hadiths. 5102]

Male should not imitate female & female should not imitate male:
3. Narrated by Ibn Abbas ﷺ that Nabi ﷺ cursed the women who imitate men & the men who imitate women"

[Tirmizi: 3013; Book. 43, English vol. 5; Book. 41, Hadiths. 2784]

Women not allowed visiting graves:
4. Abu Hurairah ﷺ narrated that, "Indeed Nabi ﷺ cursed the women who visit the graves”.

[Tirmizi: 1056; Book. 10, English vol. 2; Book. 5, Hadiths. 1056]

Women prohibited shaving their hairs:
5. Narrated by Ali ﷺ that Nabi ﷺ forbade women to shave their heads".

[Nasa'i: 5049; Book. 48; English vol. 6; Book. 48, Hadiths. 5052]
(Means should not get bald).

Women can be bad luck or evil omen:
6. Sahl Ibn Saad ﷺ says that Nabi ﷺ said: "If there is bad luck in anything, it is in houses, women & horses".

[Al-Adab Al-Mufrad: 917; Book. 39, Eng; Book. 39, Hadiths. 917]
7. Narrated by Abdullah Bin Umar رضي الله عنهما that Nabi ﷺ said: "Evil omen is in the women, the house & the horse'.
[Bukhari: 5093; Book. 67; English vol. 7; Book. 62; Hadees. 30]

About Chapter 24 An-Noor verse 31 & 60:
8. Narrated by Ibn Abbas رضي الله عنه that the verse:

وَقُلْ لِلْمُؤْمِنَّاتِ يَّغْضُضْنَّ مِّبصَّارِهِنَّ

Translation: & say to the believing women that they should lower gaze was partly abrogated by the verse:

وَالْقَوَاعِدُ مِنَ الْبَيْضَاءِ الْلَّاتِي لا يَزَجُّونَ نَجَّاحًا

Translation: Such elderly women as are past the prospect of marriage.
[Abu Dawud: 4111; Book. 34; English Book. 33; Hadees. 4099]
Means women also should not see other men.

Mariyam عليها السلام & Khadija رضي الله عنها, the best women of their time:
9. Narrated by Ali ﷺ that Nabi ﷺ said: "The best of the world's women is Mary (Mariyam) عليها السلام (at her lifetime) & the best of the world's women is Khadija رضي الله عنها (at her lifetime).
[Bukhari: 3815; Book. 63; English vol. 5; Book. 58; Hadees. 162]
Hazrat Khadija رضي الله عنها was Nabi ﷺ's first wife.

A'isha رضي الله عنها, the superior:
10. Narrated by Anas ﷺ that Nabi ﷺ said: Superiority of A'isha رضي الله عنها to other women is like the superiority of Sareed to other kinds of food.
[Bukhari: 5419; Book. 70; English vol. 7; Book. 65; Hadees. 330]

Sareed is a dish which Nabi ﷺ liked very much.
How to make Sareed: - Take some meat of goat or lamb; cut the meat into small pieces than boil it, as we do while preparing soups. Smash the boiled meat into small fibers (especially of lamb or goat). Add required amount of water & put the smashed meat in it along with the soup obtained while boiling the meat & prepare soup in routine way. When the soup is ready put small pieces of barley chapatti or barley bread in it & cover the vessel with a plate for 5 minutes. Than serve it.
Contract or temporary marriage prohibited:

11. Ali Bin Abi Talib narrated that Nabi prohibited the Mut’ah (temporary or contract marriage) with women & the meat of domestic donkeys during (the campaign of) Khaibar".

[Tirmizi: 1121; Book. 11, English vol. 2; Book. 6, Hadees. 1121]

Do not entry from doors reserved for women:

12. Nafi said: Umar Bin Al-Khattab used to prohibit (men) to enter through the doors reserved for women.

[Abu Dawud: 464; Book. 2; English Book. 2; Hadees. 464]

Man will take care of 40 women:

13. Narrated by Abu Musa that Nabi said: A time will come upon the people when a person will wander about with gold as Zakat & will not find anybody to accept it & one man will be seen followed by forty women to be their guardian because of scarcity of men & great number of women.

[Bukhari: 1414; Book. 24; English vol. 2; Book. 24; Hadees. 495]

Eid Salah:

14. Narrated by Umme Atiyyah that Nabi said: Bring out the women who have attained puberty & those who are in seclusion so that they may attend the Eid prayer & (join in) the supplication of the Muslims. But let the women who are menstruating avoid the prayer place.

[Ibn Majah: 1368; Book. 5; English vol. 1; Book. 5, Hadees. 1308]

Do not disdain neighbours:

15. Abu Hurairah reported Nabi, said: "Muslim women! Muslim women! A woman should not disdain her female neighbour's gift, even if it is only a sheep's hoof".

[Al-Adab Al-Mufrad: 123; Book. 6, Eng; Book. 6, Hadees. 123]

Disdain means a feeling that someone or something is unworthy of one’s consideration or respect.

Author’s notes: Dear men I would like to draw your attention at the following points regarding women:

1. Women are amongst the best & beautiful creations of Allah Ta’ala; they are poorly understood by male, they are different from male in many aspects like anatomy, physiology & psychology.

2. They have stage-wise changes in their life, anatomically, physiologically & socially. Means they have more physical changes than male for example growth
of secondary sex characters like breast growth, hair growth, complexion changes & etc, there also psychological changes which are poorly understood by male.

3. Male & female are bond in many types of relations, female take more part than male takes, female are more in social life than male, they built a house & family, they have more bonding power, more uniting power, more love, more attraction, more emotion, more talking power, more caring, more determination & etc.

4. It is said that none woman left Islam after the passing of Nabi ﷺ though many male left Islam after passing of Nabi ﷺ, because women are more loyal & determined. Though some women may lack for what I have mentioned above.

5. They have all types of physical changes, mainly from the age of 10 years to 50 years. For example they get matured before boys, they speedily change in to a lady from a girl & they start with menstrual cycles, have genital discharge & bodily growth & get older soon.

6. The menstrual cycles are every month; they bear the pain & changes, better than male, than very soon they get married than became a mother & a huge responsibility lays on their shoulders lifelong.

7. They leave their houses become a wife, daughter in law & etc. My dear men please imagine, leaving a home in which she grew up with her family is not an easy thing though female adopt it easily.

8. She takes the house hold responsibilities sooner than a boy takes responsibility of his job or business. A boy enjoins with his friends after marriage also, but a woman leaves all her friends & company.

9. They have hormonal changes every month & get ups & downs in the mood, body functions, physical health, in hunger, weight etc, which, for a husband is important to understand, these ups & downs are due to their hormonal monthly cycle.

10. During their menses they have mood swings & we male should understand & support them rather scolding them or beating etc.

11. They get pregnant, due to the love, husband & wife share with each other, they pay the price of that love & relation for the 9 month caring a baby inside her womb, than bear the pain of delivery than nurse the baby & look after the baby throughout, also looking after the husband & family at the same time throughout.

12. Do male have these changes?

A most common problem between a married couple: -
1. During new days after marriage or on the first night, the bride has to face the pain of hymen membrane rupture & remember the shyness she feels & the frightening, the bleeding she has due to rupture of hymen membrane & pain she has due to the first intercourse by forcing the penetration of penis into the narrow virgina.

2. Many times it is not possible to have a successful intercourse neither on the first night nor on the first week, means it may take a few days to open up the virginal canal & have a successful intercourse; dear men please understand the pain & the narrowness of virgina & the bleeding etc are the signs of virginity of a female. She proof her virginity by above, but how can men proof their virginity?

3. Wives get more infected with urinary tract infection & white discharge due to cross infection from their husbands during intercourse.

4. Also women physics changes after the delivery.

5. Dear men she does bear much more than what I have written, now you should be supportive to your wife.

**Role of men towards their wives: -**

1. Men should be supportive to his wife in all means, as said, Narrated by Abu Hurairah  that Nabi  said: "Treat women nicely, for a women is created from a rib & the most curved portion of the rib is its upper portion, so, if you should try to straighten it, it will break, but if you leave it as it is, it will remain crooked. So treat women nicely".

   [Bukhari: 3331; Book. 60; English vol. 4; Book. 55; Hadees. 548]

2. He should understand the monthly cyclic hormonal changes & understand his wife’s mood swings, changes that she has before & during her menses, pregnancy, menopause etc. Be kind humble to them, as our Nabi  were always kind, humble & respectful to His  wives & taught us the same.

3. Remember Allah Ta’ala has given women the concession not to pray Salah & not to fast during their menses by which we should understand that THE AL-MIGHTY gives concession during menses, how physically & psychologically a woman gets disturbed.

4. The Female hormones are very powerful & bring all types of changes in body & due to this husband finds his wife little stubborn sometime, getting disturbed by small matters, may argue with her husband sometime, may be bold in speech & much more, please understand if these above are sometime, than these are due to hormonal changes, if these are all time than it may be the habit of your wife. Inspite of all you will find her loving & caring you & your family.
5. Be humble with her, do not argue with her, do not discuss matter with her when she is disturbed, do not try to be bold when she is bold, (some time become a bowler & some time become a batsmen or a fielder or a wicket keeper or an empire).

6. Talk to her, explain your problems in a better way, make her silence by loving & caring her, she needs your care & love more when she is in hormonal changes.

7. Remember females are more interested in companionship, love & care; they like fore play more rather than real intercourse & kiss them with modesty, have modesty while intercourse, do not tell them to do anything disgusting like taking sex organs in mouth etc by this they get a negative feeling, that male wants this only from females.

8. One of the big problem is, male are interested more in sex & intercourse rather than love, care & fore play, but female like these more. These lacks of understanding in males breaks or hurts the relationship very badly & deeply.

9. She needs a special care during pregnancy days & after delivery. She needs loyalty of her husband the more, than money & luxury; she needs your honesty & modesty more than outing & outside feast. Remember it was you who proposed her to marry you; it is she who left her home & family, to be yours & only yours.

10. Remember! It will take some time to your newlywed wife to adjust with you & your family, to adopt the entire new atmosphere of your home & family, even in many cases the bride has to go another city or country this makes more difficult to adopt the new way of life. The family of the groom should realize this.

11. & again one big problem with couples is that always, the wife complains that her husband does not talk to her much & gets irritated when she talks to him, when he comes home from his work at evening. This is due to that female can speak more than 20000 to 25000 words a day, this is due to they have a big size talking centre in their brain comparing to males who have a small speaking centre in the brain & males can hardly speak 3000 to 5000 words a day & that quota he completes at his work & when he comes at home he is left out with no speaking quota left for his wife & due to it he does not like to talk & gets irritated when she talks to him at that time. So he should keep a little quota so that he can talk a little with her.

12. Lastly after menopause she gets more hormonal imbalance due to withdrawal of many female hormones thus gets into a final & most difficult stage of changes.

15. Anas  reported: A time limit has been prescribed for us for clipping the moustache, cutting the nails, plucking hair under the armpits, shaving pubes; it should not be neglected far more than forty nights.

16. Narrated by Umm Salma رضي الله عنها that Nabi  would coat (with hair removing cream) & remove the pubic hairs with His Hand.

**Personal cleanliness is Fitra:**

Cleanliness & purification is one of the great privileges of Islam. It has evolved a wonderful system that encompasses Muslim life on individual & social levels. Islam places great emphasis on cleanliness, in both physical & spiritual terms. The attention to hygiene is the aspect which is an unknown concern in any other religion or philosophy before Islam. While people generally consider cleanliness a desirable attribute, Islam insists on it, making it an indispensable fundamental of faith. Cleanliness is an essential part of Islamic life & in fact the meaning & spirit behind the concept of cleanliness is much beyond the superficial concept of the conventional cleanliness.

In the Holy Quran, there are a number of verses which shed light at the importance of cleanliness: Truly, Allah loves those who turn to Him constantly & He loves those who keep themselves pure & clean. (Al Baqarah: 222) At another place Allah says: “In it (mosque) are men who love to clean & to purify themselves. & Allah loves those who make themselves clean & pure. (9:108) Cleanliness & purity has been emphasized by various means in hundreds of Hadees of the Prophet . In a Hadith He  said: Cleanliness is half of faith.

© Copyright Mohammed Shakeel Shamsi May 2016 (All Rights Reserved) Page 577
The importance of cleanliness can be estimated from the fact that the books of Hadees as well as the Fiqh (Islamic jurisprudence) start with a chapter on cleanliness. There are two terms used in Islamic literature: taharah & nazafah. Taharah (Cleanliness from physical impurities) is required by Islam to be observed by each & every Muslim in his & her daily life while nazafah (neatness) is a desirable attribute.

There are two kinds of cleanliness; physical & spiritual. As far as physical cleanliness is concerned, it is of two types. One which is related to human body & the other is related to environment, water, house, road & public places. Muslims are required to observe cleanliness from the excretions of the penis, vagina or anus. Semen, sperm, urine, menstruation, vaginal fluid, stool & blood are impure & require compulsory modes of cleanliness.

Muslims wash their genitals after passing urine & secretion & take bath every time they have intercourse with their mates. Muslims also enjoined to use water after eliminating body wastes. They are categorically prohibited to have sex with their wives during menses.

A Muslim is obliged to make ablution (wazoo) if exposed to minor impurities. This means they must wash off those parts of the body (like hand, feet, face, nostrils etc) which are commonly exposed to dust, dirt & environmental pollution. Before every prayer (at least five times a day) & before recital of the Quran, Muslims are asked to perform this ablution (wazoo). Likewise, Muslims are enjoined to have a Ghusl (bathe) after ejaculation, sexual intercourse, menstruation & lochia (virginal discharge after delivery). While at many other occasions, bathing is recommended as for Friday prayer, festival days, in Hajj etc.

Muslims are duty bound to keep the nails clipped, to remove hair from the armpit & from the pubic area as a matter of routine practice. Muslim males are required to get circumcised to avoid even faint traces of urine entrapped in the foreskin of the genitals. They are also instructed to trim their moustaches in order to avert oral intakes. Islam has directed towards taking care of mouth using any purifying agent like miswaak. Brushing teeth (once/twice daily) is very recent development of near past, but Muslims are accustomed this herbal brush for the past 1400 years, five times a day prior to each ablution. There are a number of Hadees that lay special stress on cleaning teeth, hands & hair.

Apart from body, Islam requires to keep clothes, houses & streets clean. In fact a Muslim cannot offer his prayers with unclean body, clothes or on dirty premises. They are asked to use clean water & keep it safe from impurities & pollution. The particular chapter of taharah starts with the classification of water & goes on to describe how water gets impure or polluted.
Moreover, Islam instructs Muslims to maintain the cleanliness of the roads & streets. This is considered a charity to ridding the streets of impurities & filth. Prophet ﷺ strictly warned against it & considered it one of the reasons to provoke Allah’s curse & the people’s curse, saying: Beware of the three acts that cause others to curse you: relieving yourselves in a watering place, on foot paths or shaded places.

Apart from physical cleanliness, Islam emphasizes on spiritual cleanliness. This means that one is free from polytheism, hypocrisy & ill manners, love of wealth, love of fame & other carnal desires. The emphasis in Islam is more on the cleanliness of the inner-self that is heart, mind & soul. The external cleaning process & rituals in reality are the preparatory ground work to obtain the more important task & that is cleanliness of the inner-self, which is the ultimate goal of the religion. Islam requires the sincere believer to sanitize & purify his entire way of life. The directives of Zakah (alms) & fasting are nothing but to purify ones wealth & soul.

Cleanliness is the pathway to health & strength. Islam wants a healthy & strong Muslim society which is immune against infectious diseases & is capable of understanding & applying Allah’s message & carrying it away to the whole world. The Holy Quran says: You are the best community that has been raised up for mankind, enjoining what is right, forbidding what is wrong & believing In Allah.

[Aal-Imran: 110]

In view of the significance of cleanliness in Islam, Muslims should have the highest standard of cleanliness & personal hygiene of all the people in the world. But, it is highly regrettable that the heap of garbage has become an identity of Muslim homes & localities. The Muslim majority areas are marked with unhygienic & unhealthy conditions.

**Keeping our surrounding, environment & neighbourhood clean:**
Islam has emphasis very much on keeping the surrounding, environment & neighbourhood clean & it is said that it is a good deed (Sawaab) to keep our surrounding etc clean & if our unclean things or methods harm or matters our neighbours than is it said that this is a sin (gunah).

Also it is mentioned in Hadees that if anyone removes any harmful thing from the road or surrounding, this is a good deed (Sadqah) & one should not worry their neighbours with their waste garbage or etc & keep their personal hygiene, keep their houses clean & surroundings clean.
Lesson no. 76 Health benefits of Ablution (Wazoo) & Salah (Namaz):

Wazoo:

Wazoo (ablution) is washing of various parts of the body before Islamic prayers (Salah/Namaz). It is called as Ablution in English. It is an obligation before each Islamic prayer. Here I am only mentioning health benefits of performing Wazoo.

Wazoo (Ablution) with water where one washes his hands, face & feet region leads to preventing germs from the body thus promotes good health. It stimulates biological active spots similar to Chinese Reflexo-Therapy, which has beneficial therapeutic effects on the hands, face & feet region. It also helps to relax the nervous system & eases tension, stress & anxiety.

Washing hands for five times a day (excluding washing before & after dietary intake) before Islamic prayer is an effective way to keep germs away from the body specially hand washing is an efficient way to prevent spread of germs. Also gargling during ablution (Wazoo) is very important as it helps to remove germs, allergens & dust particles, doing gargle with plain water reduces the chances of common cold to a greater extent thereby contribute to health & hygiene & also reduces viral respiratory infections thus results in reduction of bad breath too.

Nose cleansing during Wazoo removes dusts, allergens & contaminated matter. Nose cleaning with plain water helps to minimize the infections such as flu, sinusitis, cold & chest infections & overcomes nasal congestion & clear sticky matter in the nose thus helps to treat allergic rhinitis, good for nasal dryness & improves breathing.

Face washing during ablution is very beneficial for refreshing as well as improving the facial complexion, reduces the impact of oily skin & retards the growth of acne, pimples, wrinkles & other facial spots.

Ears cleaning during ablution are quite effective to prevent wax accumulation. Cleaning ear with wet fingers five times a day is also good to remove dust & germs from the outer region of the ears.

Washing the feet & hands during ablution (wazoo) helps to cleaning dirt, fungus. It also acts like as acupressure while fingers are passing through...
the bottom area of the toes. Rubbing the toes with fingers is also good in case of diabetes & removing pain from the body. As lots of acupressure points are present in the upper & lower parts of toe regions & pressing these during ablution is helpful in curing of pain like back pain, arthritis, joints pain, etc.

Drink the remaining Ablution (wazoo) water:

Narrated by Sa'ib Bin Yazid : My maternal aunt took me to Nabi ﷺ & said: 'O Rasoolullah ﷺ! Indeed my nephew is in pain. So He ﷺ wiped over my head & supplicated for blessings for me. & He ﷺ performed Wazoo & I drank from the water of His Wazoo. Then I stood behind His back & I looked at the seal between His two shoulder blades & it resembled the egg of a partridge.

[Tirmizi: 4004; Book. 49; English vol. 1, Book. 46, Hadees. 3643]

Islamic prayer (Salah/Namaz):

There are 5 obligatory (farz) Islamic prayers in a day, if offered according to Sunnah & on correct time gives outstanding health benefits. It is said in Hadees that the account of Islamic prayers will be taken first in hereafter (Qiyamah) who will be perfect in Islamic prayers accounting on the day of hereafter, will be perfect in all other accounts.

It is also said in Hadees that the Islamic prayer curses the person who do not offer the Islamic prayers properly, also the Islamic prayer supplicates the person who offers the Islamic prayers properly on time & according to Sunnah.

So we should offer Islamic prayer properly & according to Sunnah so that we get benefitted by it in this world & hereafter also.

Offering Islamic prayers (Salah) has many benefits such as spiritual, religious, physical, mental, social, economical etc. It is one of the five fundamental requirements that a Muslim is obligated to perform. & it is given the highest priority in the Holy Quran. There are many benefits of Salah described in Quran. It says, ان الصلوة تنهي عن الفحشاء, Surely Prayer restrains one from indecency.

[Surah Ankaboot: 45]
In chapter Luqman, We read that when Hazrat Luqman  was giving advice to his son, the first & foremost on his mind was to remind his son, يَّ بُنِ َّ اَّقِِ الص َّلوىُّ ﯾَبَيِّنَّ آتِمَ الصلوتنَّ O my dear son! Observe Prayer."

[Surah Luqman: 17]

According to a Hadees the Nabi  said that, إنَّ فِ الصَّلُوَّةِ شِفَّاءُ, verily there is cure in Salah. According to a Muslim scholar, as reported in monthly Urdu magazine, Tahazibul Akhlaq, Aligarh, India, a Muslim who offers Salah regularly has very little chance of getting arthritis as we exercise our bones & joints while we offer Salah.

1. Nabi  said: “The first thing that Allah made obligatory upon my Ummah was the five prayers; & the first thing from their acts of worship that shall be taken up will be the five prayers; & the first thing that they will be questioned about will be the five prayers.”

[Kanzul Ummal, vol. 7, Hadees. 18859]

2. Nabi  said: “The prayer of a person is (in reality) a light in heart, so whoever desires, can illuminate the heart (by means of prayers).”

[Kanzul Ummal, vol. 7, Hadees. 18973]

3. Nabi  said: “Whenever the time of each prayer arrives, an Angel announces to the people: O’ People stand up & extinguish, with prayers, the fire which you have set alight for yourselves.”

[Biharul Anwar, vol. 82, Page: 209]

4. Nabi  said: “The example of the five (daily) prayers is like that of a clear-water river flowing in front of your houses in which a person washes himself five times a day – cleansing him from all dirt.”

[Kanzul Ummal, vol. 7, Hadees: 18931]

5. Nabi  states that Allah, The Exalted has said: “I have made the five prayers obligatory upon your Ummah & have made a covenant with Myself that one who maintains their prayers with respect to their timings, I shall place him in Paradise. As for the one, who does not maintain the timings, I have no covenant (with them).”

[Kanzul Ummal, vol. 7, Hadees. 18872]
6. Nabi ﷺ said: “The most beloved of deeds in the eyes of Allah are: offering prayers at the stipulated times; (then) goodness & kindness towards parents; (and then) Jihad in the way of Allah.”

[Kanzul Ummal, vol: 7, Hadees. 18897]

7. Nabi ﷺ said: Do not destroy your prayers for verily one who destroys his prayers shall be resurrected in the company of Qarun, Haman & Firawn.

[Biharul Anwar, vol. 82, Page: 202]

Different positions of Islamic prayers (Namaz/salah): -

In the light of Hadees we shall endeavor to describe some orthopedic benefits of Salah in this short note.

Regular exercise reduces cholesterol in the body. Cholesterol causes heart failures, strokes, coronary artery disease, diabetes & many other ailments. It is a known fact that people in professions where exercise is required have less amount of cholesterol in their bodies.

Islamic prayer Salah is an excellent form of exercise to prevent indigestion. In the morning when stomach is empty, a Muslim is required to offer fewer number of Rak’aat whereas in the evening after the dinner we offer an extra number of Rak’aat. By offering Takbir at the beginning of Salah, we move hand & shoulder muscles thereby increasing the flow of blood towards torso. Akamat performs a similar function.

The most important function in Islamic prayer Salah is sajda where we touch the ground with our forehead. This posture increases fresh supply
of blood to our brain. Needless to say in certain forms of yoga some adherents stand on their heads (shirsh asan) for the same purpose.

In *tashah’hud* position (see the pic above) our hip, elbow, knee joints, backbone, wrist joints move in a way that it provides a form of relaxation to our entire body. Pressure is applied on the body parts as if it was a kind of massage which releases tension.

Heart is the most important organ of the body. It supplies fresh blood to all body tissues. These body movements performed during Islamic prayer Salah are an excellent source of exercise for our heart as well. According to a Hadees, Holy Prophet ﷺ said: There is an organ in the body, when it is healthy, the whole body is healthy & when this is sick, the entire body becomes sick”. It is the heart.

Narrated by An-Nu'man Bin Bashir ﷺ that he heard from Nabi ﷺ say, Beware! There is a piece of flesh in the body if it becomes good (reformed) the whole body becomes good but if it gets spoilt the whole body gets spoilt & that is the heart (*الْقَّلْبُ*).

[Bukhari: 52; Book. 2; English vol. 1; Book. 2; Hadees. 50]

*(This is a part of a long Hadees).*

Remarkable tissues in our body are cartilages. They are unique living tissues with no direct blood supply. The only way it receives nutrients & oxygen is by movements of the joints. The pumping effect forces blood into the joint area which would otherwise be bypassed. Those who sit at the terminals are in greater danger of ending up with dead cartilage tissues that will subsequently wear away. This will leave us with arthritis, painful joints & paralysis. Bacteria & viruses find safe place in joints for this reason as no blood cell can get at them & in most cases neither can antibodies. Islamic prayer Salah therefore, has many orthopedic benefits for all Muslims. Next time you offer Salah, thank Almighty Allah that He made you a Muslim. *Indeed, there is cure in Salah.*

**Islamic prayer (Salah/Namaz) & Yoga:**

There is great correlation between Islamic prayer (Salah/Namaz) & Yoga. Yoga rejuvenates the mechanism of body & mind. Yoga therapy is a refreshing process as well as a cost-effective solution; try to find out the very root cause of diseases. It helps to restore harmony among various
components of lifestyle - physical, social, emotional, spiritual, mental & psychological. The basic concept of Yoga is to relish & cherish the life with exhilarating excitement. The system provides psychological & emotional well-being. Being drugless therapies, it enhances sustainable & functional ability of the body. The same case is also with Islamic prayer (Salah/Namaz). Islamic prayer (Salah/Namaz) is certainly a substitute of stress & diseases free personality.

**Namaz is the finest form of meditation:**

Islamic prayer (Salah/Namaz) is one of the best forms of meditation or Dhyan from Yogic point of view where the person unilaterally surrenders to Allah Ta’ala. Meditation is defined as the uninterrupted flow of mind towards a particular object. It is one of the best stress & tension reliever. & is the perfect example of meditation where the performer thinks only & only about Allah Ta’ala. Thus, It provides the ultimate satisfaction & peace to the mind thus save you from many diseases & disorders.

Islamic prayer (Salah/Namaz) is one of the important means for health, happiness & harmony. It offers regular fitness & health by burning extra calories resulting in losing of weight thus controls obesity. The muscles get stretched & help to provide tone of muscles & also the stretching helps in eliminating the toxin stored in the muscles tissues thus improving their functions & movements. Also the metabolism of the body increases, it is also good for arthritis & enhances flexibility of the joints & reduces stiffness. It is a good source to balance anabolic &
catabolic bio-chemical process of the body & good for heart, brain & the entire body.

Painful joints can be cured by means of it (Salah). When we stand the body becomes weak, however when we lift our hands naturally we gain strength. Everybody knows for the body to be in a healthy state the backbone needs to be in good condition. Islamic prayer Salah gives all the parts of the body strength & it cures the pains in the joints.

Many cardiologists, after research, have come up with the conclusion the illnesses of the heart are reduced when Islamic prayer Salah is offered.

**Health benefits of Qiya’ım: -**

The prayer begins with one stands & this has many benefits; one being that the body gains peace as the Quran is being recited. The recitation has a healing effect on the body. It has been suggested by research that the healing is due to the effect of the Arabic sounds.

"And we have sent the Quran that which is a healing & a mercy to the believers; & it adds loss only to the unjust."

* [Chapter 17 verse no. 82]

Muslim researchers have shown that when Muslims recite the Quran; old thoughts, feelings, fears & guilt are released or healed. Virtually all of the sounds of the Arabic language are uttered while reciting Quran, creating a balance in all affected areas of the body. Standing posture in Islamic prayer (Salah/Namaz) (Qiya’ım) ensures proper blood flow to the lower portion of the body. It is also good in strengthening the leg muscles.

The Takbir (Allahu Akbar) & Qiya’ım (standing) together are found to improve posture, balance & self-awareness. This position also normalizes blood pressure & breathing, thus providing many benefits to asthma & heart patients due to peace physically & mentally.

**Health benefits of Ruk’u: -**
The forward bending position of Islamic prayer (Salah/Namaz) (Ruk'u) is good for your lower vertebral column. It helps to ease your back pain as per Yogic philosophy. Doing Ruk'u properly helps to control backache & vertebral column related diseases. Ruk'u is effective in developing flexibility to shoulder, elbow & wrist, knees & ankle regions. Ruk'u exerts abdominal pressure thereby eases constipation & peristaltic movements. During Ruk'u, the kidney experiences a sort of massage thus helpful to kidney problems.

The principal of a medical college, Doctor Muhammed Nawaz said, a surgeon came to me with his wife saying that she has pain in her back & knees, has taken much medication, but no cure.

Doctor Nawaz asked, "Do you offer Islamic prayers?" He replied, "Yes, 5 times a day." Doctor Nawaz said, "You do not perform Ruk'u & Sajdah properly." He showed him the Sunnah method. Sometime after observing the Sunnah correctly his wife got healed.

We all know that back problems are painful & restrict the daily activity of an individual. Ruk'u saves a person from getting a kidney stone & if one has stones, they will come out shortly. In Ruk'u the circulation of blood works well, benefitting the eyes & mind.

Ruk'u stretches the muscles of the lower back, thighs, legs & calves & allows blood to be pumped in the upper torso. It tones the muscles of the stomach, abdomen & kidneys. Forming a right angle allows the stomach muscles to develop.

This position also promotes a greater flow of blood into the upper regions of body particularly to the head, eyes, ears, nose brain & lungs to be released. Over time this improves brain function & ones personality & is an excellent stance to maintain the proper position of the feotus in pregnant women.

When coming up from Ruk'u we place the hands on the thighs which strengthen the spinal cord & create flexibility.

**Health benefits of Sajdah (prostration): -**
During Sajdah, one is in Vajrasana, a very important yoga pose from health point of view. It strengthens the thigh & calf muscles. It is good for digestion & keeps your spine firm & erect. Sajdah is very beneficial in the proper functioning of brain, lungs, body muscles, joints & entire vertebral column.

By performing Sajdah blood reaches the upper body with less pressure on the heart as a person is stood up the heart has to try & pump the blood to the brain, however, when in prostration the blood reaches the brain without much effort.

Sajdah helps in blood supply to increase in the brain region & also stimulates the master gland pituitary gland as well as the pineal gland. Sajdah reduces the chances of brain hemorrhage & headache due to smooth blood flow to the head region. While performing Sajdah, the toes are experiencing acupressure which is good for better health of the body, especially for body pains.

Offering Sajdah (prostration) in a relaxed pace is beneficial for internal organs. Prostration in the Sunnah way benefits the stomach making it muscular. The Sunnah way will relieve any problems with liver, kidney, back or stomach. When in the position of prostration the blood reaches the head effortlessly. In no other position in Salah does the blood reach the head sooner than in prostration. The blood goes to the eyes, brain & other parts of the head & nerves with which the intellect & the eyes become sharp.

Also the head gets earthing in Sajdah because the forehead is placed on the earth & the residue electricity of the brain gets out of the brain (our brain creates its own electricity) to the earth, likewise the electrical appliances like iron, machines etc. get earthing due to a wire system which collects the residue electricity & gives the electricity to the earth.

Shaikh Naqshbandi states; "A person who offers Salah will have an illuminous face due to the fact that in prostration blood flows to the face." This is why in the tradition it states "those who pray Salah, their face will enlighten as the pious." Shaikh Naqshbandi also states that once he met a doctor who said, "If women found out the fact that to go into
prostration creates beauty in the face, they would not lift their heads from prostration."

Lengthy prostrations with humbleness & sincerity are beneficial to cure illnesses of the brain as the blood reaches the brain without effort. As the blood reaches the upper part of the body, such as the eyes, face & teeth-making the wrinkles disappear from the cheeks. A person does not look old & gets such ability making the muscles strong. If the prostration is done according to the Sunnah then one will not suffer from problems with block nose, hearing & headaches.

**Sitting position (Qaida):**

The position of Qaida (or juloos) is similar to the thunderbolt position in yoga, which firms the toes, knees, thighs & legs. It is said to be good for those prone to excessive sleep & those who like to keep long hours. Furthermore, this position helps in speedy digestion, aids in detoxification of the liver & stimulates peristaltic action in the small intestine.

**Health benefits of Sala’m (Neck Yoga):**

To complete the Islamic prayer (Salah) one will turn the head to the right & then left. The throat is activated by turning the head towards the right & then to the left shoulder to end the Islamic prayer. The nerve path linked to the throat, neck, arms, hands, bronchial (lung area), hearing, creativity & communication improves much. Another benefit is that the chest gets strengthen & the collar bone is tightened. One should remember this can only benefit when we offer the Islamic prayer Salah correctly with sincerity. It is believed that a person who activates all nerve pathways at least once a day can remain well-balanced emotionally, physically & spiritually. Since this is the goal of all sincere Muslims we should all strive to attain the perfection of stance, recitation & breathing recommended in a Hadees while performing our prayers.
Salam is the excellent form of neck & upper vertebra exercise. It is the Griva-sakti-vikasaka (Strengthening the Neck) of Yogic Sukshma Vyayama, which is helpful in loosening the neck joints & also helps to relax the shoulder & upper back muscles. Salam helps to refresh all the nerves passes through the neck, thus good in case of headache & contend migraine.

**Supplication (Dua): -**

When the hands are held open near the heart region for supplication (Dua), this activates the heart, which is the centre (region) of feelings, harmony & peace. It also governs the health of the heart, lungs, thymus, immune system & circulatory system.

**About 5 obligatory (farz) Islamic prayers: -**

**FAJR**

Fajr is the first Islamic prayer of the day, it is at early morning. Benefit of the first prayer (Fajr) of the day. If a person wakes up without washing the face & has his breakfast then the bacteria gathered in the mouth throughout the night will go down the stomach & produce diseases, stomach bloating, inflammation & ulcers.

**ZUHR**

Zuhr is the second Islamic prayer of the day. It is called to be prayed in afternoon. A person works at home or goes to work due to which pressure & stress starts building up, but the Zuhr prayer calms us down, relieving stress.

**ASR**

Asr is the third Islamic prayer of the day, It is to be offered at evening before sunset. At the time of Asr the speed of the rotation of the earth, reduces, having an effect on the 5 senses. At this time a person begins to consider the affairs of the evening & hurries to complete his work of the day, meaning at this time the stress is building up which has an effect on the body. Offering the Asr prayer gives more energy to the individual.

**MAGHRIB**
Maghrib is the fourth Islamic prayer of the day; it is to be prayed just after sunset. A person thanks his creator through actions for the sustenance, He, the exalter, provides. The work carried out through the day has supported him with his family & children. When one has an urge to thank Allah Ta’ala, one will sit with his partner with them with peace & affection. Children by nature copy the actions of the parents promptly. Basically if the prayer is offered at its prescribed time then the children will be inclined to be obedient towards their parents as it is the prayer that makes a person humble. The prayer will become a habit for the child to listen to the parents. However, if a child has been given nothing except things that morally corrupt his mind then he will naturally disobey his parents.

**ESHA**

Esha is the fifth & the last obligatory Islamic prayer; it is to be prayed at night. A person by nature desires at all times. When one comes home from work, they will eat to their full to quench their desire. Now when that person lies down on a full stomach there is a fear of many illnesses & the mind will not be at peace. But to offer Esha prayer before sleeping, the person will find peace & the tiredness will disappear, they will sleep better because during prayer they have exercised & hence, the food will be better digested.

_Taraweeh prayers: -_

During the month of Ramzaan additional prayers are performed after Salahtul Isha called Taraweeh prayers; 20 units (Rak’aat) with a few minutes break after every 4 units for extolling the majesty Allah.

After breaking the fast the blood glucose level continues to rise from the food ingested. During fasting the blood glucose & insulin levels are at their lowest level especially at the end of fasting. After an hour or so after the Iftaar meal (breaking the fast), the blood glucose begins to rise & also plasma insulin. Liver & the muscles take up the circulating glucose. The blood sugar reaches high levels in an hour or two & the benefits of Taraweeh prayer comes into effect. The circulating glucose is metabolized into carbon dioxide & water during the Taraweeh prayers. Hence the Taraweeh prayers help in expending the extra calories &
improve flexibility, coordination, reduce stress-related autonomic responses in healthy persons & relieve anxiety & depression.

**Tahajjud prayer (Salah).**

Tahajjud (تُجد), also known as the “Night Prayer” is a voluntary prayer, performed by followers of Islam. It is not one of the five obligatory prayers required of all Muslims, yet still, the Islamic prophet, Muhammad ﷺ has been recorded as performing the tahajjud prayer regularly & encouraging his companions to offer it to Allah for its many rewards & benefits & a way to purify the soul, enabling it to approach the Realm of Allah. Tahajjud may be performed in the early part of the night, the middle part of the night, or the later part of the night, but after the obligatory Isha Prayer (night Prayer).

**Commenting on this subject, Ibn Hajar says:**

There was no specific time in which the Prophet ﷺ would perform his late night Prayer; but he used to do whatever was easiest for him.

Tahajjud Prayer does not entail a specific number of rak`ahs that must be performed, nor is there any maximum limit that may be performed. It would be fulfilled even if one prayed just one rak`ah of Witr after `Isha`; however, it is traditionally prayed with at least two rak`at which is known as shif’a followed by witr as this is what Muhammad ﷺ did.

Abdullah Ibn Umar narrated that Muhammad ﷺ said: *Salatul Layl* (Night Prayer, *i.e.* Tahajjud) is offered as two rak`at followed by two rak`at & (so on) & if anyone is afraid of the approaching dawn (Fajr prayer) he should pray one rak`at & this will be a Witr for all the rak`at which he has prayed before.

*[Bukhari: 990; Book. 14; English vol. 2; Book 16; Hadees. 105]*

**Evidence in the Qur'an for Tahajjud prayer (Tahajjud Salah): -**

Allah Ta’ala ordered Nabi  ﷺ to perform Tahajjud in Quran:

وَهُمُ اللَّهُ يَقِبِّجُ يَقِبِّجُكُمْ لِكَ عَضُنِي أَنْ يُبَعِّثَكَ رَبُّكَ مَقَامًا مُّبَارَكًا

**Translation:** “And from [part of] the night, pray with it as additional (worship) for you; it is expected that your Lord will resurrect you to a praised station.”

*[Surah Bani Israaeel: 79]*
This order, although it was specifically directed to Muhammad ﷺ, also refers to all Muslims, since Muhammad ﷺ is to be the perfect example & guide for them in all matters.

Moreover, performing Tahajjud prayers regularly qualifies one as one of the righteous & helps one earn Allah’s bounty & mercy. In praising those who perform the late night prayers, Allah says what means:

َّذِيَّبِيتُونَّ لِرَّبِِ مْسُدًا َّوَقِيَّامًا ﴿٤٦﴾

Translation: “And those who spend [part of] the night to their Lord prostrating & standing (in prayer).”

[Surah Furqan verse no. 64]

Nabi ﷺ guidance about Tahajjud prayer:

1. Narrated by A’isha رضي الله عنها that Nabi ﷺ used to offer thirteen rak`at of the night prayer & that included the witr & two Rakat (Sunnah) of the Fajr prayer.

[Tahajjud prayer is called as shalatullai or night prayer. That is the Sunnah prayer offered at night after awaking from sleep. Lail Prayer is Muakad Sunna or Sunnah prayers which are highly recommended because the Sunnah is rewarded. Tahajjud prayer is also called as Muakad because it is a direct command from Allah in Quran. In particular this means, Allah commanded that the prayer is the secret behind the secret, there is a tremendous benefit for people who are strong to do it.

The people who wake up at nights & perform ablution (wazoo) & offer tahajjud prayer & do Sajda (prostration) by which the blood smoothly flows to the brain. This blood is fresh or blood & very useful for brain health.

It is clear to us is that every command of Allah in the Holy Quran or the Hadees of Nabi are full of benefits & wisdom in it.

The Dua made at tahajjud is like an arrow that does not miss its target. Imaam Shaafa’ee (ra) says that it is the way of getting your Dua’s accepted, a way of getting your sins forgiven, by performing it, it will bring light to your face & soul, it helps you fight your desires thus makes you closer to Allah. It builds the love of the Hereafter in your heart. Also softens the heart & humbles you in front of Allah. It strengthens the Qur’an that you have memorized.
Please understand properly that the diseases & the treatments are sent down by Allah alone. & the medicines acts by Allah’s will only.

We should do treatment with permissible medicines & method, we will get SAWAAB for treating ourselves & if we don't do so Allah can questions for not seeking the treatment.

Diseases & treatment according to Nabi’s teachings.

Dear respected Muslims! We should make the Sunnah of treatment alive as they very well deserve to be.

These Sunnah are forgotten & neglected ones, to which we need to bring awareness.

The reward of for this will be unimaginable.

Sahabah learnt these Sunnah very well & did people coming after Sahabah & so on but in between we forgot these Sunnah & today we & our generation is very far from them.

Please join the mission to make these Sunnah alive so that we all will be benefitted as Sahabah use to get.

Nabi & Sahabah used these Sunnah of treatment & the patients use to get well immediately or sooner than what we do in today's era.

Lesson no. 1 Fever (الْمُى):

TREAT FEVER WITH WATER:

1. Narrated by A’isha رضي الله عنها that Nabi  said: "Fever is from the heat of the (Hell) Fire, so cool it with water."

   [Bukhari: 3263; Book. 59; English vol. 4; Book. 54; Hadees. 485]

2. Narrated from Abu Hurairah  that Nabi  said: “Fever is one of the bellows of Hell, so avert it from yourselves with cold water.”

   [Ibn Majah: 3604; Book. 31; English vol. 4; Book. 31, Hadees. 3475]

3. Hazrat Anas  says that Nabi  said: “If any of you suffer from fever, let him sprinkle cold water on himself for three consecutive nights before the day breaks.”

   [Majmauz Zawaaid: 834]

INTRODUCTION

Fever is not a disease but is a sign & symptom of diseases & it is a sign of immunity, it is a body language, it is an abnormally high body temperature, usually accompanied by shivering, headache & in severe instances, delirium. When the body suffers from an infection we get fever, also by it we come to know about the severity of diseases. Nabi  said do not curse fever.

Science & Hadees regarding Fever:

Nabi ♂️ taught us to cool the fever with water. The same is still applied today putting cold pads on a patient’s forehead; it is still used in a lot of hospitals & by doctors even though fever reducing medicines are abundant, like paracetamole (acetaminophen) & others.
Using water to reduce fevers is not limited till using cold pads. Drinking a lot of fluids is also helpful. This is also understood from the wordings of Nabi ﷺ cool it (fever) with water.” Water is either what the patient drinks, what is given intravenously or what the patient puts on his face or body to cool the fever.

We have seen a lot of patients where fever reducing medicines (anti-pyretic) were not effective with their rising fever. At the same time, cold water had an immediate effect. That’s why pediatricians advise parents to take a child’s clothes off & give a lot of fluids if fever occurs. An antipyretic medicine can also be give like paracetamole to the patient.

What is fever?

Fever occurs when the body temperature rises above normal (37 C). There is an area in the brain (an area that lies over the pituitary gland in the front of the head) which is a temperature regulator.

When germs enter the body, they start secreting toxins. Toxins affect the temperature regulator causing its temperature to rise. The substances that cause this rise in temperature are called pyrogens. Pyrogens are caused not only by germs but also by the ruined tissues in the body after being affected with germs.

When the temperature rises, the rest of the body has to comply. It increases its temperature in response. Soon, the whole body feels feverish & the patient’s temperature rises. This explains the saying of the Nabi ﷺ when He ﷺ described the believers in their kindness & affections like the body. If a part of it suffers from a germ or a virus, like inflammation in the respiratory pathways or inflammation of the urinary tracts & others, all of the body suffers from fever & restlessness.

The whole body suffers. The whole body has a rise in temperature & not only where it is affected. When the inflammation worsens, the germs increases & consequently ruin the tissues. The germs & the pyrogens will find the body’s defense system ready to attack & eat the by-products of the germs & get rid of them. While doing this, it releases a substance called leucocytes pyrogens or endogenous. Therefore the fever remains while the body is cleansing itself from the by-products.
Didn’t Nabi ﷺ taught us, when a man cursed the fever: “Don’t curse it because it abolishes sins like fire abolishes dirt from iron.”

It is cleansing for our sins, also cleansing of dead substances such as dead tissue & the by-products of the germs, like fire cleans the dirt from iron.

The famous book of physiology by Guyton, 1992 edition, stated that an amount equal to one over 10 billionths gram of endogenous are enough for a fever to occur. Such a small amount of a substance secreted in the body due to a very small germ or a virus is enough to transfer a person form being healthy, to becoming sick, feverish & bed ridden.

Recent scientific studies have shown that these leucocytes pyrogens cause fever by making a substance called prostaglandin in the local glands in the area of the hypothalamus. When the growth of this kind of prostaglandin is inhibited, by using medicines, the fever is reduced. This explains how medicines reduce fever. It inhibits the growth of prostaglandin & prevents its making.

Prostaglandin are number of hormone-like substances that participate in a wide range of body functions such as the contraction & relaxation of smooth muscle, the dilation & constriction of blood vessels, control of blood pressure & modulation of inflammation. Prostaglandins are derived from a chemical called arachidonic acid.

How do chills occur & why?

The temperature level rises suddenly from its normal level to a higher level, due to damage in the tissues, due to the release of temperature generating substances or due to dehydration. When this happens, the body temperature rises within a few hours to attain the new temperature. During this period, the patient shivers & feels cold, even though the body temperature is high, because blood vessels in the skin contracts. The chills remain until the body temperature reaches the new level set by the temperature regulator.

When the body temperature reaches that level, the chills stop & the patient feels neither warm nor cold. As long as the infection continues & the reason for the rise in temperature continues, the body temperature remains at this new level until Allah permits recovery.
Lesson no. 2 Cold & Cough

INTRODUCTION
The common cold is an infection of your upper respiratory tract or nose & throat. A common cold is usually harmless, although it may not feel that way at the time. It may be runny nose, sore throat & cough, watery eyes, sneezing & congestion.

Nabi ﷺ’s guidance about cold & cough:

*Miswaak removes phlegm & etc:* -

(Refer Lesson no. 34. Miswaak in part-1)

1. Hazrat Abdullah Bin Abbas ﷺ says that Rasoolullah ﷺ said that the ten benefits of Siwak (السواك) (Miswaak) are:

- Brings good smell in mouth
- Makes gums stronger
- Makes eye sight stronger
- Reliefs inflammation
- Removes phlegm
- It is Sunnah
- Pleases Farishtaas (Angles)
- Pleases Allah Ta’ala
- Is Neki (Sawaab)
- Cleans the bowel

[Kanz al-Ummal: 26185]

[Kanz al-Ummal: 17345 & Abu Nu’aim: 286]
**Raisins (dried Grapes) reduce phlegm:**
*(Refer Lesson no. 7 Grapes & dried Grapes in part-1).*

3. Hazrat Tamim Al-Daariﷺ says once he gifted some raisins (الزبيب) (Munakka) to Nabiﷺ, Nabiﷺ took them in His (respected) Hands & said eat this, it is a healthy meal, removes tiredness, cools the anger, gives strength, makes food sweet smelling, reduces phlegm (البلغم), brightens the face.

   *[Abu Nu-aim: 371]*

4. Hazrat Aliﷺ says that Nabiﷺ said that for your beneficial there are raisins (dried grapes) (الزبيب) (munnaka), these improves the complexion, reduces phlegm (البلغم), strengthens the organs, removes tiredness, improves mood, increases good smell in breath & removes sorrow (grief).

   *[Abu Nu-aim: 319]*

**Cough during Salah (namaz):**

Quranic verse for Cold & Flu:

```

نزَّل 
عَََّّ عَّبْدِهِ 
الْكِتَّابَّ

Science & Hadees regarding cold & cough:

1. Uses of Marzanjosh (Marjoram) in Asthma & etc:

Early research shows that taking 2 drops of marjoram oil daily along with asthma medication for 3 months might improve lung function in people with asthma better than taking asthma medication alone. Its oil is also used for coughs, gall bladder complaints, stomach cramps & digestive disorders, depression, dizziness, migraine, nervous headaches, nerve pain, paralysis, coughs, running nose; & as a water pill.

Marjoram Tea made from its leaves or flowers is used for running nose & colds in infants & toddlers, also for dry & irritating coughs, swollen nose & throat & ear pain. Its tea is also used for various digestion problems including poor appetite, liver disease, gallstones, intestinal gas & stomach cramps. Some women use marjoram tea for relieving symptoms of menopause, treating mood swings related to menstrual periods, starting menstruation & promoting the flow of breast milk. Other uses
include treating diabetes, sleep problems, muscle spasms, headaches, sprains, bruises & back pain. It is also used as a nerve tonic & a heart tonic & to promote better blood circulation.

2. About Miswaak:

In the August 2008 issue of the Journal of Periodontology, there appeared a study conducted by Swedish researchers on the Miswaak. The study apparently found that suspended Miswaak pieces in a petridish, the medium for culturing bacteria, were able to kill bacteria that cause periodontal disease without being in physical contact with the bacteria. Researchers, however, suggested that the Miswaak pieces may have been sprayed with antibiotic gases, in their attempt to explain the phenomenon.

Yet another study in 2003, comparing the use of the toothbrush & the use of the Miswaak can be reviewed currently online at the website for the U.S. National Library of Medicine & National Institutes of Health.

The study concluded that Miswaak was more effective than tooth brushing in reducing plaques & gingivitis provided it was used correctly. Similar studies found on the same website & elsewhere vouch for the effectiveness of Miswaak over toothbrush. It appeared to be more effective than tooth brushing for removing plaque from the embrasures, thus enhancing interproximal health, stated by researchers.

There have been plenty of published studies on the Miswaak & infact the entire books published on it.

With its strong anti-bacterial properties & perpendicular bristles, the Miswaak is a natural toothbrush, toothpaste & floss combined.

3. Uses of Raisins in cold & cough:

Raisins are one of the most effective home remedies for the treatment of a cough. It tones up the lungs & act as an expectorant, it also relieves cold & cough in a couple of days. A cup of grape juice mixed with a teaspoon of honey is advised for cough relieving. Grind up 3 ounces of raisins, adding water to make a paste. Add 3 ounces of white sugar & heat the mixture until it forms a sauce. Allow to cool. Take half an ounce of the mixture every night at bedtime.
Lesson no. 3 Throat infection (Azrah) (العذرة) & Headache:

INTRODUCTION

Throat infection is an infection of the oral pharynx & tonsils mostly by streptococcus resulting in septic sore throat, strep throat, streptococcal sore throat, tonsillitis pharyngitis, raw throat & inflammation of the fauces & pharynx.

In Hadees a type of throat infection is called as Azrah (العذرة) & in Nabiﷺ’s time people use to press their children throat as a part of treatment, but the child use to get serious many times & Nabiﷺ prohibited to press throat of their children & advised to use the following: -

Note: For headache there is a separate lesson.

Nabiﷺ’s guidance about throat infection:

Costus (Oust), a treatment for Azrah (throat infection): -

(Also refer Lesson no. 24 Qust in part-1).
1. Hazrat Anas Bin Malik  says that Rasoolullah ﷺ said: “To your children during Azrah (العذرة) (their throat infection), do not press their throat & do not give them Azaab (Pain) you have Costus (Qust) (القسط) (use it).

3. Hazrat Jabir Bin Abdullah  says that Rasoolullah ﷺ said: “Do not Burn the throat of your children, you have dark Costus (Qust Al Hindi) (قسط هندي) & Warss (Memecylon) make your children lick them.

[Mustadrak Al Hakim: 8239]

4. Narrated by Umme Qais Bint Minsaan رضي الله عنها that she took her son to Nabi ﷺ who was suffering from Azrah (throat infection) & she had press his throat part, Nabi ﷺ saw the child & said: “Why do you press
your children & you should use Al-Ud hind (Aloes wood) for it, there are 7 cures, it should be inhaled for Azrah & taken by mouth for Zaatul Janb (pleurisy).

[Ibn Majah: 3590; Book. 31; English vol. 4; Book. 31, Hadees. 3462]

Ladies that you use to kill your children like this, In future, any children gets Azrah (العذرة) (infection in throat) or headache rub dark costus (Qust Al Hindi) & make the child lick. Hazrat A’isha  did as said, & the child became healthy.

Science & Hadees regarding throat infection:

Read lesson no. 24 Qust (costus) in part-1.
Qust (costus) is an anti-bacterial herb with a very good effect & olive oil increases in medicinal actions & both enhances action of each other.

**A research on Qust for pleurisy (Zaatul Janb) & other lungs disease:** -

Anti-bacterial effect of Indian costus (Qust ul Hind) & sea-Qust & their water extracts on some pathogenic bacteria of the human respiratory system. AL-Kattan, Manal Othman Faculty of Science (Girls), Department of Microbiology, King Abdul Aziz University, Jeddah, Saudi Arabia (Accepted on 4 May, 2012).

The pathogenic bacteria of the human respiratory system are characterized by resistance to most anti-biotics. Staphylococcus aureus & Klebsiella pneumonia are some of the pathogenic bacteria of the human respiratory system which often cause pneumonia, pleurisy & meningitis. Moreover, they are the most prominent strains of bacteria in most hospitals.

Bacterial resistance to anti-biotics occurs as a result of excessive usage of anti-biotics in the treatment of diseases. For that reason, it is necessary to seek for medical alternatives that are safer for the treatment of these bacteria. Alternative medicine, especially, has revealed many plants & herbs that are used in the treatment for some diseases including respiratory diseases.

The purpose of this study is to determine the effect of the Indian Costus & sea-Qust on the pathogenic bacteria; Escherichia-coli, Pseudomonas aeruginosa, Staphylococcus aureus & Klebsiella pneumonia. In addition, the effect of the water extracts of the Indian costus & sea-Qust on S. aureus & K. pneumonia was also determined.

**Result of the research:** -

The results showed anti-bacterial effect of two types of dried Costus roots on all tested bacteria, especially in high concentrations. Also, the cold or hot water extract of Indian Costus was highly effective against tested bacteria at 20 to 25% concentration, while the hot extract of sea-Qust was more effective against tested bacteria than its cold extract in all the concentrations used.
Lesson no. 4. Mouth (Oral cavity): -

INTRODUCTION

Medical definition of oral cavity is the cavity of the mouth; especially the part of the mouth behind the gums & teeth that is bounded above by the hard & soft palates & below by the tongue & by the mucous membrane connecting it with the inner part of the mandible.

Bacteria & viruses usually cause oral infections. They can affect the teeth, gums, palate, tongue, lips & inside of the cheeks. Simple oral infections are limited to the mouth & are different from oral lesions, which are non-infectious & may be a sign of an illness that involves other parts of the body. Oral infections are very common. Tooth decay is the second most common infectious condition after the common cold.

Read lesson no. 34 miswaak in part-1.

**Scientific Studies on Miswaak:**

The Wrigley Company conducted a study on the Miswaak which was published in the Journal of Agricultural & Food Chemistry in 2007. Wrigley’s research concluded that mints laced with Miswaak extract were 20 times more effective in killing bacteria than ordinary mints. A small testimony to this fact is that, after half an hour, the mints laced with Miswaak extract killed about 60% of the bacteria where as the ordinary mints managed only 3.6%. (Please remember the ratio mentioned in Hadees, about Salah offered after using Siwak (Miswaak) is 70 times better than Salah offered without doing Miswaak).

In August 2008 issue of the Journal of Periodontology, there appeared a study conducted by Swedish researchers on the Miswaak, as well. The study apparently found that suspended Miswaak pieces in a petridish, the medium for culturing bacteria, were able to kill bacteria that cause periodontal disease without being in physical contact with bacteria. The researchers, however, suggested that Miswaak pieces may have been sprayed with anti-biotic gases, in their attempt to explain phenomenon.

Yet another study, one comparing the use of the toothbrush & the use of the Miswaak (2003) can be reviewed currently online at the website for the U.S. National Library of Medicine & National Institutes of Health (PubMed).

The study concluded that Miswaak was more effective than tooth brushing in reducing plaque & gingivitis (inflammation of gums) provided it was used correctly. Similar studies found on the same website & elsewhere vouch for the effectiveness of Miswaak over toothbrush. “The miswaak appeared to be more effective than tooth brushing for removing plaque from the embrasures, thus enhancing interproximal health,” stated the researchers.

There have been plenty of published studies on the Miswaak & in fact, entire books published which study its oral & systemic benefits.

With its strong anti-bacterial properties & perpendicular bristles, the Miswaak is a natural toothbrush, toothpaste & floss combined.
**Lesson no. 5 Nasal Therapy. (Taking medicines through nose):**

**INTRODUCTION**

Medication or line of treatment through nasal cavities is called as Nasal therapy.

There are many Hadees in which it is advised to put medicine in nose; it is among the best therapy or treatments. (It is called as Saut (السعوط) in Hadees).

It is called as Nasal therapy in modern science & Nasya in Ayurveda. There is a lot of research going on Nasal therapy.

Science & Hadees regarding Nasal therapy:

Nasal administration (administration through the nose) may allow certain drugs & other molecules to bypass the blood–brain barrier via diffusion through the olfactory epithelium & the perineural sheath or via retrograde axonal transport along olfactory & trigeminal nerves. This latter process probably implies endocytosis of the molecules. Using this route to the brain allows high concentrations of products in the olfactory bulb shortly after exposition & by diffusion to the entire brain. Therefore using this pathway allows a better bioavailability, assuming that the molecule has the right physic-chemical characteristics to get through the nose & the epithelial defenses.

The nasal cavity is covered by a thin mucosa which is well vascularised (has many blood vessels). Therefore, a drug molecule can be transferred quickly across the single epithelial cell layer directly to the systemic blood circulation without first-pass hepatic & intestinal metabolism. The effect is often reached within 5 minute for smaller drug molecules. Nasal administration can therefore be used as an alternative to oral administration, for example tablets & capsules if a fast effect is desired or if the drug is extensively degraded in the gut or liver. Drugs which have poor absorption can be given by this route.
Question & Answer regarding uses of inhalers in Ramzaan / Fasting:

**Question:** Is it permissible to use a nasal spray that contains a percentage of alcohol? Does it break the fast for one who is fasting? I have an allergy to dust that causes me to sneeze continually (as much as 60 sneezes in succession). The doctor has prescribed for me medicine in a spray that contains 0.25% of alcohol. I only use this medicine in urgent cases, but I do not know whether it is permissible for me to use this medicine or not. & what is the ruling on using it in Ramzaan in particular?

**Answer:** We inform you that there is nothing wrong with using this medicine that contains that percentage of alcohol, which is very low & is dissolved in the medicine & there is no apparent trace of it, so it does not come under the ruling prohibiting alcohol. We have quoted the fatwas of the scholars concerning that. Using sprays for allergies does not invalidate the fast according to the correct opinion, whether they are administered through the nose or through the mouth, as they are in the form of vapour & do not contain any solid matter that enters the stomach.

**Question:** I have an allergy that affects my nose & I use a nasal spray to treat it. If I do not use it, it causes me great difficulty in breathing & I cannot do without the medicine for more than three hours. If I do not use it, it will make breathing very difficult. The problem is that the month of Ramzaan is coming & I use this medicine & am afraid it will affect my fast, but if I stop using it I cannot cope. Please note that on some days in Ramzaan, I did use it but I am very careful to prevent it from reaching my throat. What is the ruling on that? & what is the ruling on using it?

**Answer:** The spray that you are using is like a kind of gas because it is dispersed in the air & does not reach the stomach. As that is the case, we say that there is nothing wrong with using this spray when you are fasting & you are not breaking the fast by doing that because – as we have said – no part of it reaches the stomach because it is something that is dispersed in the air & disappears & no particle of it reaches the
stomach such that we could say that it is something that breaks the fast. So it is permissible for you to use it when you are fasting.

How to Use Nose Drops or medication properly according to medical:

Having someone else give you the nose drops may make this procedure easier.

1. Blow your nose gently.

2. Wash your hands thoroughly with soap & water.

3. Check the dropper tip to make sure that it is not chipped or cracked.

4. Avoid touching the dropper tip against your clean nose.

5. Tilt your head as far back as possible, or lie down on your back on a flat surface (such as a bed) & hang your head over the edge.

6. Place the correct number of drops into your nose.

7. Bend your head forward toward your knees & gently move it left & right.
8. Remain in this position for a few minutes.

9. Clean the dropper tip with warm water. Cap the bottle right away.

10. Wash your hands to remove any medication.

**Saline Nasal Spray:**

Allergies cause nasal obstruction & inflammation. When the normal clearance of mucus from the nasal passage toward the throat becomes obstructed, it leads to retention of mucus within the sinus cavities. Saline nasal sprays may help liquefy these secretions & decrease the risk of crusting in the sinus cavities, according to the American Academy of Allergy Asthma & Immunology. Some studies support the use of saline solution (salt water) to restore moisture to dry nasal passages & sinuses & to lessen the inflammation of mucous membranes. Findings show that if saline irrigation is used regularly, it can help to thin mucus, decrease postnasal drip & cleanse your nasal passages of bacteria. The two main ways to use saline irrigation are with a Neti pot or small squirt bottle. Saline sprays also help keep the cilia in your nose healthy. Cilia are small hair-like structures in your nose that help humidify air to your lungs, trap bacteria to prevent them from entering the cells & aid your sense of smell. By keeping cilia healthy, studies show that saline sprays may help treat rhinitis & sinusitis.

**Science & Hadees regarding collyrium (Antimony):**

Antimony strengthens the optic nerve & is considered the best collyrium (kohl) (surma) when mixed with musk powder for elderly people with poor vision weakened by old age & also helps to reduce skin flap growing on the eyelid, mange of the eyelids & it relaxes eyestrain.

It helps detoxify eye moisture & eases congestion in tear ducts. It helps natural cleansing of the eyes & helps to protect the eyes from dust particles floating in the air & brightens one’s sight. When Ismid is mixed with honey diluted in water & applied on the edge of the eyelid, it helps to reduce headaches.

Mange means a skin disease of mammals caused by parasitic mites & occasionally communicable to humans. It is characterized by severe itching, hair loss & the formation of scabs & lesions.

**Science & Hadees regarding Truffles & mushrooms:**

*(Pictures are given at the start of this lesson)*
**Truffles are an important source of protein among the desert plants. The compositions are as follows:**

It has 77% water & 23% other substances. These substances include 60% hydrocarbons, 7% fats, 4% fibers, 18% proteins & the remaining 11% are in the form of ashes that remain after its burning. Seventeen amino acids have already been recognized in the proteins present in the truffles.

When Prophet describes the truffles as manna, this actually implies that they grow by the Will & Grace of Allah as they are not cultivated by man. Moreover, they require neither seeds nor water to grow. The only interference by man in this process is to exert effort in their gathering. As for the other description given by Prophet that “Their water is healing to the eye”, Ibn Sina mentioned that Muslims, in response to this Hadees used to boil its water, cool it & then use it as eye drops. Dr. Al-Mu'taz al-Marzuqi, an Egyptian Ophthalmologist, tried to study this Hadees in the light of modern science & reached very important results.

He found that the water of truffles prevents the occurrence of fibrosis in cases of eye trachoma. Truffles stop the formation of the fibrous tissues in the infected area. Experiments have proven that the application of the water of truffles in the treatment of trachoma has led to an enormous drop in the formation of lymphatic cells resulting from inflammation, which may lead to opacity of the cornea. Trachoma is a chronic contagious inflammation from which most inhabitants of the Arab world, the Mediterranean region & others all over the world suffer. The complications resulting from this disease may lead to total blindness.

Trachoma with its various complications is found to be completely responsible for more than 25% of the cases of blindness in areas where the disease is widespread. Very often, trachoma is also accompanied by spring ophthalmia, which increases fibrosis in the infected area. Experiments carried by Dr. Al-Mu’taz Al-Marzuqi have proven that the water of truffles remarkably reduces the occurrence of fibrosis in the eye cornea, through stopping the growth of the cells which form the fibers, equalizing the chemical effect of the trachoma poisons & inhibiting the unnatural growth of the cells of the conjunctiva, because most of the
complications of trachoma occur because of fibrosis of the cornea that are cured by the water of truffles (By Dr. Zaghoul El-Naggar).

**For eye disease:**

It is a natural anti biotic, anti fungal, anti bacterial, anti viral with no side effects (dryness of eyes) as caused by modern antibiotic eye drops. It is effective in all eye elements.

**Hijamah for eyes:**

An Egyptian Physician Dr Sahbaa has written that cupping exerts marked improvement on the clinical condition of patients especially visual analogue, scale of pain, it significantly reduces the laboratory markers of disease activity and it modulates the immune cellular conditions particularly of innate immune response NK (natural killers) cell % & adaptive cellular immune response SIL-2R.
Lesson no. 7 Heart, Qalb, cardiac problems, strengthening heart:

INTRODUCTION

There are many heart diseases & disorders ranging from minor to major, caused by bacteria or viral infection, or dysfunctioning of heart or disease in its arteries & etc.

Nabi’s guidance about Heart:

Qalb (heart) a piece of muscle, if it is good whole body remains good:

1. Narrated by An-Nu’man Bin Bashir that he heard from Nabi say, Beware! There is a piece of flesh in the body if it becomes good (reformed) the whole body becomes good but if it gets spoilt the whole body gets spoilt & that is the heart (الْقَلْبُ).

   [Bukhari: 52; Book. 2; English vol. 1; Book. 2; Hadees. 50]

   (This is a part of a long Hadees).

By sins black spots occurs on heart:

2. Abu Hurairah narrated that Nabi said: “Verily, when the slave (of Allah) commits a sin, a black spot appears on his heart (الْقَلْبُ). When he refrains from it, seeks forgiveness & repents, his heart is polished clean. But if he returns, it increases until it covers his entire heart. & that is the ‘Ran’ (الرَّانُ) which Allah mentioned: Nay, but on their hearts is the Ran which they used to earn.

A Dua for healthy heart:

3. Abdullah Bin Abi Awfa  narrated that Nabi  use to pray:

"اللهُمَّ بُرِّدْ قَلْبِي بِالْثلَّجِ وَالْبَرَّّدِ وَالْمَاءِ الْبَارِدِ اللَّهُمَّ تَقَيَّ مِنَ الْقُطْرِيَّاتِ َّ كَمَا تَقَيَّتَ القَوَّاتِ الأَبْيَضِ مِنَ الدَّنَّيسِ"

Translation: “O Allah, cool my heart with snow & hail & cold water. O Allah, cleanse my heart of sins as You cleanse a white garment of filth.

Benefits of Safarjal (Quince) on Qalb, breathe, Chest & Heart:

4. Hazrat Talha  says that he went to Nabi  & Nabi  had Safarjal (السفرجل) in His Hand & said

Take it, oh! Talha for it soothes the heart.

5. Hazrat Jabir Bin Abdullah  says that Nabi  said: "Eat Safarjal (السفرجل) (Quince) because it heals cardiac problems & removes heaviness from chest.

6. Hazrat Anas Bin Malik  says that Nabi  said: "By eating Safarjal (السفرجل) (Quince), heaviness in Qalb (heart) reduces.

7. Hazrat Auif Bin Malik  says that Nabi  said: "Eat Safarjal (Quince) because it prevents Cardiac Problems & strengthens the heart.

Science & Hadees regarding Heart problems: -

In Hadees, Quince is said to eaten on empty stomach, it is good for the soul, تَم الفؤاد means that Quince pleases / strengthens the heart, & opens the coagulation (if clots are there). والطخاء للقلب is meant for darkness, like clouds or a sand storm cover the clear sky which is then un-seen, so Quince will do the same job for the heart, it will remove the blockage & the heart will be clear & healthy Inshaallah.

Dates are also rich in natural fibers & natural vitamins & other necessary elements, thus prevent cholesterol & triglycerides from increasing & prevent cardiac diseases.

Oranges & citrus fruits have vitamin C, which is famous for its powerful antioxidant properties (meaning that it disarms powerful oxygen molecules in the body that contribute to cancer & heart disease).

Barely as an Anti-hypertensive (high blood pressure): -

Barley contains more fermentable carbohydrate than other cereals such as rice. Fermentation of undigested carbohydrate produces short chain fatty acids, some which may reduce hepatic glucose production & affect postprandial glycemia (glucose after meals). Because of viscous
properties of beta-glucans, boiled flours appear to produce higher glucose & insulin responses when compared with milled kernels. According to a controlled study in 18 lean, healthy men ingesting barley beta-glucan given with high carbohydrate food & high carbohydrate drinks, beta-glucan significantly decreased glycemic & insulinemic responses on the food (p<0.05) but not on the drink (p>0.05) treatments, compared to controls.

In another study comparing crackers & cookies made of whole wheat or barley, the barley crackers & cookies had glycemic indices of 49 & 34, respectively, whereas whole wheat crackers & cookies had 78 & 81, respectively.

**Pumpkins have Magnesium which is good for heart:** - It helps in ATP (adenosine triphosphate) formation (the energy molecules of our body) & it increases pumping action of our heart, proper bone & tooth formation, relaxes the blood vessels & brings proper bowel function. Magnesium has been shown to benefit your blood pressure & helps to prevent sudden cardiac arrest, heart attack & stroke. Pumpkin seeds are an excellent source of dietary fiber & mono-unsaturated fatty acids, which are good for heart health.
Lesson no. 8 Pleurisy & other chest problems: -

INTRODUCTION

Pleurisy is an inflammatory condition of the pleura (covering layers of the lungs), which impairs their lubricating function & causes pain when breathing. It is caused by pneumonia & other diseases of the chest or abdomen.

Nabi ﷺ’s guidance about pleurisy: -

Benefits of Safarjal (Quince) on Qalb, breathe, Chest & Heart: -

1. Hazrat Talha ﷺ says that he went to Nabi ﷺ & Nabi ﷺ had Safarjal (السفرجل) in His Hand & said, take it, Oh! Talha for it soothes the heart.

[Ibn Majah: 3494: Book 29; English vol. 4; Book 29, Hadees. 3369]

2. Hazrat Jabir Bin Abdullah ﷺ says that Nabi ﷺ said: "Eat Safarjal (السفرجل) (Quince) because it heals cardiac problems & removes heaviness from chest.

[Kanz al-Ummal: 28258]

Treatment of Zaatul Janb (pleurisy): -

3. Narrated by Umme Qais Bint Minsaan رضي الله عنها that she took her son to Nabi ﷺ who was suffering from throat infection & she had press his throat part, Nabi ﷺ saw the child & said: "Why do you press your children & you should use
Aloes wood (الْعُودِ الْهِنْدِيَّ) (Al-Ud Al-Hindi), there are 7 cures in it, it should be inhaled for throat infection (Azrah) & taken by mouth for pleurisy (Zaatul-Janb).

[Ibn Majah: 3590; Book 31; English vol. 4; Book 31, Hadees. 3462]

**To take medicine at one side of mouth:**

4. Hazrat Zaid Bin Arqam  says that Rasoolullah  advised, as a treatment for pleurisy (ذات الجنب) (zaatul-janb), Memecylon (ورس) (Warss), Costus (قسط) (Qust), & Olive oil (زيت) (Zait) & take at one side of mouth (يَلِدُ).

[Ibn Majah: 3596; Book 31; English vol. 4; Book 31, Hadees. 3467]

Means the preparation should be taken at the side of the mouth to which side the problem in the body is, means if the problem is the right side of the body than take the preparation in the right side of the mouth.

Qustul Bahri means White Costus (White Saussurea lappa in Latin); a whole lesson is present in my Tibb-e-Nabawi . (Refer Lesson no. 24 Qust in part-1)

5. Qatadah narrated from Abu Abdullah that Zaid Bin Arqam  said that Nabi  would acclaim olive oil (الْوَرْس) & Memecylon (Warss) for
(the treatment of) pleurisy." Qatadah said: "And it is put in the mouth on the side which he is suffering.

[Tirmizi: 2222; Book. 28, English vol. 4; Book. 2, Hadees. 2078]

(Means it is to be taken at one side of mouth).

This shows that taking medicine in to the mouth should be in one side of the mouth means if we have problem in the left side of the body than take medicine in the left side of the mouth. Please read more Hadees on this topic so that you will come to known the concept properly.

6. Hazrat Suhaib reports that his right eye was paining & he was eating Tamar (Dates), looking to this; Rasoolullah said that, you are eating Tamar (Dates) in spite of eye pain, On this Hazrat Suhaib said that I am eating from left side & my right eye is paining.

Olive medicinal uses:

Nabi  recommended the use of olive oil in pleurisy. Keeping this in view olive oil was administered in various diseases of respiratory tract & it was observed that the regular use of olive oil was affected in common cold & coryzha & pneumonia.

Costus (Qust) & Olive oil (Zait) use together:

(Pictures are given above).

Costus (Qust) is an anti-bacterial herb with a very good effect & olive oil increases its medicinal actions & both enhances act of each other.

A research on Costus (Qust) for pleurisy & other lungs disease:

Anti-bacterial effect of Indian costus (Qust ul Hind) & sea-Qust & their water extracts on some pathogenic bacteria of the human respiratory system. AL-Kattan, Manal Othman Faculty of Science (Girls), Department of Microbiology, King Abdul Aziz University, Jeddah, Saudi Arabia (Accepted on 4 May, 2012).

The pathogenic bacteria of the human respiratory system are characterized by resistance (medicines do not work) to most anti-biotics. Staphylococcus aureus & Klebsiella pneumonia are some of the pathogenic bacteria of the human respiratory system which often cause pneumonia, pleurisy & meningitis. Moreover, they are the most prominent strains of bacteria in most hospitals.

Bacterial resistance to anti-biotics occurs as a result of excessive usage of anti-biotics in the treatment of diseases. For that reason, it is necessary
to seek for medical alternatives that are safer for the treatment of these bacteria. Alternative medicine, especially, has revealed many plants & herbs that are used in the treatment for some diseases including respiratory diseases.

The purpose of this study is to determine the effect of the Indian costus & sea-costus on the pathogenic bacteria; Escherichia coli, Pseudomonas aeruginosa, Staphylococcus aureus & Klebsiella pneumonia. In addition, the effect of the water extracts of the Indian costus & sea-costus on Staphylococcus aureus & Klebsiella pneumonia was also determined.

**Result of the research:**

The results showed anti-bacterial effect of two types of dried Costus roots on all tested bacteria, especially in high concentrations. Also, the cold or hot water extract of Indian Costus was highly effective against tested bacteria at 20 to 25% concentration, while the hot extract of sea-Qust was more effective against tested bacteria than its cold extract in all the concentrations used.

Olive is blessed tree, has Barkat in it, eat its oil & apply on body, it cures leprosy, Basoor, best for pleurisy & shaitaan (evil) run away when we use it, can be used in combination of Warss (Memecylon), Qust (costus) etc, should be taken in one side of mouth or put in

**Studies on warss (Memecylon) shows:**

- **Anti-bacterial:** Results showed the ethyl acetate & chloroform extracts of the plant with moderate anti-bacterial activity. Maximum activity was shown by the chloroform extract against Bacillus subtilis.

- **Radical Scavenging / Anti-Inflammatory / Analgesic:** The ethyl acetate extract showed the highest stimulation for interleukin-10 production; it also caused significant inhibition of the writhing response. The methanol fraction exhibited radical scavenging activity.

- **Anti-microbial:** Study of methanol extracts showed significant activity against gram-positive, gram-negative bacteria & fungus.

- **Apoptogenic / Human Gastric Carcinoma:** Study evaluated the anti-proliferative & apoptogenic activity of an ethyl acetate extract of leaves of Memecylon edule in various cancer cell lines. Results showed the extract inhibited the gastric cancer cell growth in a dose-dependent manner, inducing apoptosis by mitochondrial dependent pathway.

(It is a part of a long Hadees).

Science & Hadees regarding gastro-intestinal diseases: -

1. The whole abdomen is explain as pond in the Hadees; actually whatever we eat get digested in the intestines, & whole intestine has portal vein, called as portal system, through these veins the digested material is carried to liver, where the material is metabolized. If these veins carry healthy digested material to liver than health result else disease occurs.

Honey: -

Honey offers incredible antiseptic, antioxidant & immune boosting properties for our body & health. It not only fights infection & helps tissue healing but also helps reduce inflammation & is often used for treating digestive problems such as Indigestion, stomach ulcers & gastroenteritis.
Researchers around the world are discovering new & exciting medical benefits of honey & other healing items produced in the hive such as propolis, royal jelly & bee pollen.

Honey is abluent & an aperient. It contains detergent & tonic properties that cleanse the arteries & bowels from impurities. It opens obstructions of the liver, kidney & bladder. It is also a general preservative & it helps to preserve the potency of other natural medicinal remedies. Honey also helps to break up excess moisture in the bowels, such as in diarrhea. Honey is superior to sugar in many respects & it is less sweet but stronger & if taken excessively it can be harmful to the bile, unless it is mixed with vinegar. Honey is good for the aged; it is a cough suppressant & is used in medicine to treat phlegm in the stomach & to soften the general constitution of the body. Honey is also a curative for a depraved appetite & when taken as a drink mixed with hot water & a pomace made from sweet roses, it helps the treatment of rabies & is a safeguard from further infections.

Hazrat Abu Hurairah  says that Rasoolullah ﷺ said that any person who licks Honey (عسل) (Asal) in morning at least for 3 (ثلاث) days every month will not suffer from any Balah (البلاء) (illness) in that month (in which honey is taken).

[Ibn Majah: 3576; Book. 31; English vol. 4; Book. 31, Hadees. 3450]

Honey is also used as detoxicant for drug users & as an antitoxin to treat accidental eating of poisonous plants of the nightshade family (Hyoscymus Niger), or wild fungus, among others. When taken as a drink mixed with hot water only, it helps as a remedy for dog bites. As a preservative, honey can be used to preserve meat for up to three months & is used in pickling cucumbers, squash, eggplant & various kinds of fruits for up to six months. Known as "the trustworthy preservative", honey was also used as a principle ingredient in embalming the dead.

The study on pollens & spores in raw honey (melissopalynology) can determine floral sources of honey. Because bees carry an electrostatic charge & can attract other particles from nature.

Modern medicine has only recently discovered the fact that honey is a remedy to many diseases. Traditional uses of honey have included honey
mixed with lemon for sore throats. Honey coats the throat & reduces throat irritation. Research shows that honey blocks growth of oral bacteria.

Honey has also been used for stomach pains & problems. Modern research shows that honey is effective when used in the treatment of gastric or peptic (stomach) ulcers. Research has also revealed that honey is effective in the treatment of various wounds & infections because of its antimicrobial (anti-bacterial, antiviral & antifungal) properties.

Researchers are not absolutely sure why honey heals but they are learning new things about honey every day. As mentioned in the beginning, honey contains a variety of sugars & minerals. Honey is also considered an antioxidant. This means it allows the blood to circulate better & provide more oxygen to areas of the body such as the brain.

Honey can also be used externally to promote healing when applied to wounds, even post-operative wounds. Honey has also been effective in its use to treat burns. It has even been shown to be low in calories & useful as a sweetener for diabetics, people with heart disease or those overweight.

*In Hadees it is mentioned that Barley cleans the digestive system, strengthens the Qalb (heart) & etc.*

Scientists have found the following items during the chemical synthesis of barley- albuminoids, starch, fat, fiber, ash & water. Chemical composition shows that it contains the fat in the form of Leucosine Gluten Albumen, the compound of Nitrogen as palmatic Acid, Salicylic Acid & Phosphoric Acid. Besides, it contains Hypoxanthens. British Pharmacopoeia recommends Malt extract for internal use. It contains 4 % of protein, the enzymes for digestion of carbohydrates & vitamins. Some scientists say that Arsenic is present in barley grain.

*Mechanism of Action Pharmacology:*

**Gastrointestinal effects:** Germinated Barley Foodstuff (GBF) is derived from the aleurone & scutellum fractions of germinated barley. GBF appears to induce proliferation of intestinal epithelial cells & facilitate defecation through bacterial production of short chain fatty acids, especially butyrate. GBF is believed to facilitate epithelial repair & suppress epithelial NFkB-DNA binding activity through butyrate (by the
micro flora bifid bacterium & eubacterium). GBF has been associated with increased growth of these micro floras in the intestinal tract & varying amounts of total tocopherols & tocotrienols (49.9-67.6mg/kg) & vitamin E content (vitamin E equivalent; 15.7-20.1mg/kg). Barley products compose of different amylose-amylopectin ratios (7-44% amylose) have been reported to lower metabolic responses.

**Article by Dr. Ahlaam on camel’s milk & urine:**

Camel’s urine is efficacious in the treatment of skin diseases such as ringworm, tinea & abscesses, sores that may appear on the body & hair & dry & wet ulcers. Camel’s urine brings the secondary benefits of making the hair lustrous & thick & removing dandruff from the scalp. Camel’s milk is also beneficial in treating hepatitis, even if it has reached an advanced stage where medicine is unable to treat it. End quote.

In the Al-Jazeera Al-Sa’odiyah newspaper (issue no. 10132, Rabee’ Al-Awwal 1421 AH) there is a quotation from the book Al-Ibn Asraar wa i’jaaz (The camel: secrets & wonders) by Darmaan Ibn ‘Abd Al-‘Azeez Aal Darmaan & Sanad Ibn Mutlaq Al-Subay’i:

As for camel’s urine, the book suggests that it has numerous uses which are beneficial for man. This is indicated by the Prophetic texts & confirmed by modern science. Scientific experiments have proven that camel's urine has a lethal effect on the germs that cause many diseases.

Among the uses of camel’s urine, many women use it to wash their hair, to make it longer & to make it lighter & more lustrous. Camel’s urine is also efficacious in the treatment of swelling of the liver & other diseases such as abscesses, sores that appear on the body & toothache & for washing eyes. End quote.

Prof. Dr. ‘Abd Al-Fattaah Mahmoud Idrees says: With regard to the benefits of camel’s urine in treating disease, Ibn Seena said in his book “Qanoon”, The most beneficial of urine is the urine of the Bedouin camels known as Najeeb. Camel’s urine is beneficial in treating Al-Hazaaz & it was said that Al-Hazaaz is a pain in the heart caused by anger & so on. Camel’s urine, especially the urine of a young she-camel – is used as a cleansing substance to wash wounds & sores, to make the hair grow, to strengthen & thicken them & to prevent falling out & it is used to treat
diseases of the scalp & dandruff. In a Master’s thesis by an engineer in applied chemistry, Muhammad Awhaaj Muhammad, that was submitted to the faculty of applied chemistry in the Al-Jazeerah university in Sudan & approved by the Dean of science & postgraduate studies in the university in November 1998 CE, entitled A Study of the Chemical Composition & Some Medical Uses of the Urine of Arabian Camels, Muhammad Awhaaj says:

Laboratory tests indicate that camel’s urine contains high levels of potassium, albuminous proteins & small amounts of uric acid, sodium & creatine.

In this study, he explained that what prompted him to study the medicinal properties of camel’s urine was what he had seen of some tribesmen drinking this urine whenever they suffered digestion problems. He sought the help of some doctors in studying camel’s urine. They brought a number of patients & prescribed this urine for them, for a period of two months. Their bodies recovered from what they had been suffering from, which proves the efficacy of camel’s urine in treating some diseases of the digestive system.

Camel’s urine acts as a slow-acting diuretic, but it does not deplete potassium & other salts as other diuretics do, because camel’s urine contains a high level of potassium & proteins. It has also been proven to be effective against some types of bacteria & viruses. It gave improvement in the condition of twenty-five patients who used camel’s urine for dropsy, without disrupting their potassium levels. Two of them were cured of liver pain & their liver function was restored to normal levels, as well as the tissue of the liver being improved. One of the medicines used to treat blood clots is a compound called Fibrinolitics which works by changing a substance in the body from its inactive form, Plasminogen, to its active form, Plasmin, in order to dissolve the substance that causes clotting, Fibrin. One of the components of this compound is called Urokinase, which is produced by the kidneys or from the urine, as indicated by the name “uro”.

The dean of the Faculty of Medical Science in the Sudanese Al-Jazeerah university, Professor Ahmad ‘Abd-Allaah Ahmadaani, has discovered a practical way of using camel’s urine to treat dropsy & swelling in the
liver. Its success has been proven in treating those who are affected by these diseases. He said in a seminar organized by Al-Jazeerah University:

The experiment began by giving each patient a daily dose of camel’s urine mixed with camel’s milk to make it palatable. Fifteen days after the beginning of the experiment, the patients’ stomachs grew smaller & went back to their normal size.

He said that he examined the patients’ livers with ultrasound before the study began & he found out that the livers of fifteen out of the twenty-five were in a cirrhotic state & some of them had developed cirrhosis of the liver as the result of bilharzia (a chronic disease, endemic in parts of Africa & South America, caused by infestation with blood flukes (schistosomes). All of the patients responded to treatment with camel’s urine & some of them continued, by their own choice, to drink a dose of camel's urine every day for a further two months. At the end of that time, they were all found to be cured of cirrhosis of the liver. He said: Camel’s urine contains a large amount of potassium, as well as albumen & magnesium, because the camel only drinks four times during the summer & once during the winter, which makes it retain water in its body so as to preserve the sodium & the sodium causes it not to urinate a great deal, because it keeps the water in the body.

He explained that dropsy (swelling of soft tissue with fluid collection) results from a deficiency of albumen or potassium & the urine of camels in rich in both of these.

He suggested that the best types of camels for using the urine as a remedy are young camels.

Dr. Ahlaam Al-'Awadi, a specialist in microbiology in the Kingdom of Saudi Arabia, supervised some scientific papers that dealt with her discoveries in the usage of camel’s urine for medical treatment, such as the papers by ‘Awaatif Al-Jadeedi & Manaal Al-Qattaan. During her supervision of the paper by Manaal Al-Qattaan, she succeeded in confirming the effectiveness of using a preparation made from camel’s urine which was the first antibiotic produced in this manner anywhere in the world. Concerning the features of this new product, Dr. Ahlaam said:

*It is not costly & it is easy to manufacture. It can be used to treat skin diseases such as eczema, allergies, sores, burns, acne, nail infections,*
cancer, hepatitis & dropsy (swelling of soft tissue with fluid collection) with no harmful side effects.

And she said: Camel’s urine contains a number of healing factors & kills bacteria that are present in it, salts & urea. The camel possesses an immune system that is highly equipped to combat funguses, bacteria & viruses, because it contains anti-bodies. It may also be used to treat blood clots & fibrinolytics may be derived from it & it may be used to treat dropsy (swelling of soft tissue with fluid collection) (which is caused by a deficiency in albumen & potassium, as camel’s urine is rich in both). Camel’s urine may also provide a remedy for abdominal complaints, especially those of the stomach & intestines, as well as asthma & shortness of breath. It brought a noticeable reduction in patients’ sugar levels. It is a remedy for low libido & it aids in bone growth in children & in strengthening the heart muscles. It may be used as a cleansing agent for cleaning wounds & sores, especially the urine of young she-camels. It also helps the hair to grow & become strong & thick & it helps to prevent hair loss & baldness & can be used to treat dandruff. Camel’s urine may also be used to combat disease by using bacteria extracted from it. It was used to treat a girl who was suffering from an infection behind the ear that was accompanied by pus weeping from it & painful cracks & sores. It was also used to treat a girl who was unable to extend the fingers of her hands because of the presence of so many cracks & sores & whose face was almost black with pimples. Dr. Ahlaam said: Camel’s urine may also be used to treat the digestive system & to treat some cases of cancer. She stated that the research that she had undertaken on camel’s urine proved that it was effective in destroying micro-organisms such as fungus, yeast & bacteria.

Dr. Rahmah Al-Ulyaani, who is also from Saudi Arabia, carried out tests on rabbits infected with bacteria in the colon. She treated each group of rabbits with a different kind of medicine, including camel’s urine. There was a noticeable regression in the rabbits that were treated with other medicines, except for camel’s urine, which brought about a clear improvement.

Majallat Al-Jundi Al-Muslim, issue no. 118, 20 Dhu'l-Qa’dah 1425 AH; 1 January 2005 CE.
Allaah calls upon us to ponder the creation of the camel, as He says, (meaning): “Do they not look at the camels, how they are created?”

[Al-Ghaashiyah 88:17]

This pondering is not limited to the outward form of the camel, or even to the inner workings of its body, rather it also includes that which we have discussed here, which is the benefits of the urine & milk of the camel. Modern scientific research is still discovering for us many of the wonders of this creature.
Lesson 10: Wet dreams, Pregnancy, Menstrual & other related problems:

INTRODUCTION

Wet dream is an erotic dream causes by involuntary ejaculation of semen in sleeps. A nocturnal emission or wet dream is a spontaneous orgasm during sleep that includes ejaculation for a male or vaginal wetness or an orgasm (or both) for a female. Nocturnal emissions are most common during adolescence & early young adult years, but they may happen any time after puberty. It is possible for men to wake up during a wet dream or simply to sleep through it, but for women, some researchers have added the requirement that she should also awaken during the orgasm & perceive that the orgasm happened before it counts as a wet dream. Vaginal lubrication alone does not mean that the female had an orgasm.

Pregnancy is the state of carrying a developing embryo or fetus within the female body. This condition can be indicated by positive results on an over-the-counter urine test & confirmed through a blood test, ultrasound, detection of fetal heartbeat, or an X-ray. Pregnancy lasts for about nine months, measured from the date of the woman’s last menstrual period (LMP). It is conventionally divided into three trimesters, each roughly three months long.

Menstrual cycle is the monthly flow of blood & cellular debris from uterus through virgina in women; it begins at puberty & lasts till menopause in women.
About Wet dreams:

1. Narrated by A’isha رضي الله عنها that Nabi ﷺ said: "If anyone wakes up & sees some wetness, but he does not think that he had an erotic dream, let him have a bath. But if he thinks that he had an erotic dream but he does not see any wetness, then he does not have to take a bath."

[Ibn Ma-jah: 655; Book 1; English vol. 1; Book 1, Hadees 612]

2. Abu Saeed Al-Khudri  narrated that Nabi ﷺ said: Three things do not break the fasting person: Cupping, vomiting & wet dream.

[Tirmizi: 719; Book 8, English vol.2; Book 3, Hadees 719]

3. Narrated by Umme Salma رضي الله عنها that a woman said: O! Rasoolullah ﷺ, Allah is not shy to tell the truth. Do women have to perform Ghusl if she has a wet dream?” He ﷺ said: "Yes, if she sees water." (Umme Salma laughed) & said: "Do women really have wet dreams?” Nabi ﷺ said: "How else would her child resemble her?" (That is, if she has an emission of the fluid of an orgasm).

[Nasa’i: 198; Book 1; English vol. 1; Book 1, Hadees 197]

4. Narrated by Khawlah Bin Hakim  that "I asked Nabi ﷺ about a woman who has a wet dream & He ﷺ said: 'If she sees water, let her perform Ghusl.'"

[Nasa’i: 199; Book 1; English vol. 1; Book 1, Hadees 198]

Safarjal (Quince) in Pregnancy:

1. Narrated by Abdullah Ibn Masood  that Nabi ﷺ said: "Give your pregnant to eat Safarjal (السفرجل) (Quince) because it prevents Cardiac Problems (يَمالفؤاد) & makes the baby son beautiful (الولد وَيَسن)."

[Al-Aasaar: 70, & Jamia ul Ahadees: 15779]

Why does a child resemble its father & why does it resemble its mother:

2. Narrated by Anas  that Abdullah Bin Salam heard the arrival of Nabi ﷺ at Madinah, he came to Nabi ﷺ & said: I am going to ask you about
three things which nobody knows except a Prophet: What is the first portent of the Hour? What will be the first meal taken (eaten) by the people of Paradise? Why does a child resemble its father & why does it resemble its maternal uncle? Nabi ﷺ replied: "Jibrail has just now told me of their answers. The first portent of the Hour will be a fire that will bring together the people from the east to the west; the first meal of the people of Paradise will be Extra-lobe (caudate lobe) of fish-liver. As for the resemblance of the child to its parents: If a man has sexual intercourse with his wife & gets discharge first, the child will resemble the father & if the woman gets discharge first, the child will resemble her.

[Bukhari: 3329; Book. 60; English vol. 4; Book. 55; Hadees. 546]
(It is a part of a long Hadees).

**Science & Hadees regarding Quince:**

In Hadees, Quince is said to eaten on empty stomach it is good for the soul, تَمُّ الفؤاد means that Quince pleases / strengthens the heart, & opens the coagulation (if clots are there). والطخاء للقلب is meant for darkness, like clouds or a sand storm cover the clear sky which is then un-seen so Quince will do the same job for the heart, it will remove the blockage & the heart will be clear & healthy Insha'Allah.

Quince is astringent to the stomach & it checks excessive menstrual flow. A few seeds placed in water will, after a few minutes, will turn mucilage (thick sticky) which is an excellent remedy for cough & sore throat, especially in the young. Quince is also excellent for pregnant woman, gladdening their heart. The holy Prophet ﷺ said: "Eat Quince, for it sweetens the heart.

The best way to eat the quince is boiled or cooked in honey. The seeds of Quince (Safarjal) help against dryness in the throat, the windpipe & several other ailments. Its oil stops sweating & strengthens the stomach. Quince (Safarjal) jam strengthens the stomach & the liver & relieves the heart & the soul.

[Nasa’i: 289; Book 1; English vol. 1; Book 1, Hadees 288]

Science & Hadees regarding intercourse: -

**Intercourse prohibit during mens: -**

Dr. Muhiy Al-Deen Al-'Alabi says that: “It is essential to refrain (prohibit) from having intercourse with a menstruating wife because doing this leads to an increase in the flow of menstrual blood, because the veins of the uterus are congested & prone to rupture & get damaged easily; & the wall of the vagina is also susceptible to injury, so the chances of inflammation are increased, which leads to inflammation in the uterus & in the man’s penis, because of the irritation that occurs during intercourse. Having intercourse with a menstruating wife may also be off-putting to both the man & his wife, because of the smell of blood, which may make the man impotent.

Dr. Muhammad Al-Baar said, speaking of the harm that may cause to the menstruating wife if intercourse is done while menses: The lining of the uterus is shed off during menstruation & the uterus is scarred as a result, just like when the skin is flayed. So it is vulnerable to bacteria & the introduction of the bacteria that are to be found at the tip of the penis poses a great danger to the uterus. Hence the penetration of the penis into the vagina at the time of menstruation is no more than the introduction of germs at a time when the body is unable to fight them.

Dr. Al-Baar thinks that the harm is not limited to what he describes of the introduction of germs into the uterus & vagina which is difficult to treat; rather it also extends to other things, like :

1. **The spread of infection to the fallopian tubes, which may then become blocked, which in turn may lead to infertility or ectopic pregnancy, which is the most dangerous kind of pregnancy.**
2. The spread of infection to the urethra, bladder & kidneys; diseases of the urinary tract are usually serious & chronic. 3. Increase of germs in the menstrual blood, especially gonorrhea germs.

The menstruating wife is also in a physical & psychological state that is not conducive to intercourse, so if it takes place it will harm her a great deal & cause her pains during her period, as Dr. Al-Baar said:

1. Menstruation is accompanied by pains, the severity of which varies from women to women. Most women experience pains in the back & lower abdomen. For some women the pain is unbearable & has to be treated with medication & painkillers.

2. Many women suffer depression & stress during their periods, especially at the beginning & their mental & intellectual state are at the lowest level during menstruation.

3. Some women suffer migraines just before their period starts & the pain is severe & causes visual disturbances & vomiting.

4. Women sexual desire decreases & many women have no interest at all in sex during their periods. The entire reproductive system is in a state that is prone to sickness, so intercourse at this time is not natural & serves no purpose, rather it can cause a great deal of harm.

5. A woman’s temperature drops during menstruation, as does her pulse & blood pressure, which makes her feel dizzy, exhausted & lethargic.

Dr. Al-Baar also mentions that the harm is not only caused to the woman by having intercourse with her, rather men are also affected by this action, which may cause infection in his reproductive system which may lead to sterility as a result. The severe pains which are suffered as a result of this infection may be even worse than sterility it causes.

Science & Hadees regarding Warss (Memecylon tinctorium):

(Please lesson no. 32 Memecylon (Warss) in part-1)

Studies shows:
• **Anti-bacterial:** Results showed the ethyl acetate & chloroform extracts of the plant with moderate anti-bacterial activity. Maximum activity was shown by the chloroform extract against Bacillus subtilis.

• **Radical Scavenging / Anti-Inflammatory / Analgesic:** The ethyl acetate extract showed the highest stimulation for interleukin-10 production; it also caused significant inhibition of the writhing response. The methanol fraction exhibited radical scavenging activity.

• **Anti-microbial:** Study of methanol extracts showed significant activity against gram-positive, gram-negative bacteria & fungus.

• **Apoptogenic / Human Gastric Carcinoma:** Study evaluated the anti-proliferative & apoptogenic activity of an ethyl acetate extract of leaves of Memecylon edule in various cancer cell lines. Results showed the extract inhibited the gastric cancer cell growth in a dose-dependent manner, inducing apoptosis by mitochondrial dependent pathway.

**Dates:**

Dates are rich in fibers, it contains oil, calcium, sulphur, iron, potassium, phosphorous, manganese, copper & magnesium. In other words, one date is the equivalent of a balanced & healthy diet. So in excessive menstrual it prevents anaemia & replaces the body losses.

2. Hazrat Asma Bint Abu Bakr رضي الله عنها gave birth to a son (in Quba), this birth was the first birth in Muslim society, Means, that time the Yahudis of Madinah had challenged the Muslims, that due to their Black magic none Muslim lady will give birth to any child, on the birth of her son (Abdullah Bin Zubair ﷺ) all Muslims gathered & sang slogans of Takbir loudly. Hazrat Asma Bint Abu Bakr رضي الله عنها took the infant to Rasoolullah ﷺ, Rasoolullah ﷺ took the infant in His respected Laps & called for Tamar (تمر) (dates) & chewed the dates & put His respected saliva in the mouth of the child so that the first thing entered the child stomach was saliva of Nabi ﷺ. He ﷺ than pat the chewed date into the infant’s mouth & rubbed it on the upper palate of the infant & prayed for Barkat.

**Science & Tahneek:**

*Please refer lesson no. 10 Dates in part -1.*

Nabi use to do Tahneek, this is a Sunnah, which we should do it. Nowadays, new born suffer from juvillian diabetes & lack of glucose, which
causes brain damage of new born, by this Sunnah we can solve many problems of new born.

**Weaning:**
The Weaning means to start with feeding habit to an infant, who was on breast feeding only, means it is advised that at 6th month of age we should start with liquid, semi solid than soft diet followed by normal diet.

**We can start our infant weanling with Sunnah items like:** (Weanling is not mentioned is Tibb-e-Nabawi ℹ️, the below are all time Sunnah for all ages so this is advised by the author that we can try weanling with below).

- Nabiz
- Honey water
- Raisin water
- Barley water
- Barley Sattu water
- Goats milk with water
- Giving the infant to chew dates
- Lentils (Masoor Dal) water
- Fruits or fruit juices or dip fruit in water & make them to drink this water
- Beet root water

**The details given below are according to Ulama & Islamic Scholars & not from Hadees.**

**To wean a child:**

Write down the above Chapter 85 (Surah) Buruj verse no. 1 & prepare a Tahveez & make the child to wear it.

[Cure of our worries from Holy Quran, by Maulana Muhammad Shafique page. 85]

**About Nabiz:**
According to many references & scholars, Nabi ﷺ liked Nabiz very much. Nabiz is syrup prepared by dates or raisins soaked overnight in water & this syrup (sharbat) should be drunk & this is called as Nabiz. But do not soak two types of dates together nor dates with raisins.

*Please refer lesson no. 7 Grapes & dried grapes & lesson no. 10 Dates in part -1 to know more about Nabiz.*

**For weak looking structure (body):**

لا يَلَوَّكَ مَكْتُوبًا لِيُوسُفَ فِي الأَرْضِ يَنْتَبُؤُ وَيَنْتَبُؤُ يَحْبُسُ فِي نَهَاءٍ يُصِيبُ يَرْحَمُنَا مِنْ نَهَاءٍ وَلَا نُضِيعُ جَرْجِيَّةَ أَيْجُرُّ الْمَحْسُونِينَ

If a child is weak or having prominence of bones or weak recite the above Chapter 12 (Surah) Yusuf verse no. 56 for 41 times for 21 days with Durood Shareef in beginning & end.

**For science & Hadees regarding grapes & dates refer their lesson no. 7 & 10.**

**Nazar (evil eye) in pediatrics:**

Nazar (evil eye) in pediatrics are very common. Please refer lesson no. 66 Nazar (evil eye) & lesson no. 67 Treatment of Nazar (evil eye) in part-1.

The reason for the evil eye is mostly because of envy. The reality of envy is the result of hatred & malice, which is the result of anger.

[Fath Al-Haq Al-Mubeen: 219]

The evil eye is like an arrow or spear that leaves the soul of the envier & goes to the person that is envied. It afflicts the person envied & sometimes it doesn't.
When it doesn’t afflict the person, it is because of the protective methods used (whether supplications, seeking refuge, etc). Also, when it doesn’t afflict the person, evil eye can return to the envier.

What is an important fact to know is that the evil eye has no effect except by Allah’s will. A man can give himself the evil eye (Nazar) & he can also give it to others. It can afflict someone without even being seen by the envier. For example, a blind man cannot see a person, but he can still cast the evil eye, or perhaps if the person is not around & they are described to the envier without being seen by him, it can afflict that person. It can also be afflicted by one being amazed without being envious to himself or others. The evil eye (Nazar) can be infected by anyone, even a loved one or a righteous person. So, it is incumbent on each & every one of us to take the necessary precautions & try to prevent being affected by the evil eye & to say the supplications & remembrance upon seeing something amazing & good.

[Fatih Al-Haq Al-Mubeen: 198]

The evil eye is a terrible affliction that afflicts mankind; it is the most widespread affliction in the world. Most people of this nation (Muslims) will die due to it, after, what Allah has decreed.

And if we praise about Allah Ta’ala while seeing anything that makes us to amaze that thing than Inshaallah evil eye (nazar) do not afflicted. Praise Allah Ta’ala means to say: انى بارك لى انى أطيب ولى أتهى or or etc with the intending that everything are created by Allah Ta’ala & it is Allah Ta’ala who has created beautiful things. By praising Allah Ta’ala devil (shaitaan) does not gets the chance to afflict the evil eye (nazar).

**Evil mentioned in Quran: -**

وَإِنْ يَكَادُ الَّذِينَ كُفَّرُواْ يَلْهَجُواْ بِكِرَّ الَّذِينَ يَتَّبِعُونَ الْجُهَالَةَ

**Translation:** & verily, those who disbelieve would almost make you slip with their eyes (through hatred) when they bear the Reminder (Quran).

[Surah 69: 51]

**Furthermore, Allah Says: -**

قُلْ أَعُوذُ بِرَبِّ الْقُلُوبِ مِنْ شَرِّ مَا خَلَقْتُ وَمِنْ شَرِّ غَلِيقِ إِذَا وَقَبَ وَمِنْ شَرِّ الْكَفَّارَاتِ في الْعُقَّدِ وَمِنْ شَرِّ حَاسِدِ إِذَا حَسَّدَ

**Translation:** I seek refuge with (Allah); The Lord of the daybreak, from the evil of what He Has Created & from the evil of the darkening (night) as it comes with
its darkness; *(or the moon as it sets or goes away)* & from the evil of those who practice witchcraft when they blow in the knots & from the evil of the envious when he envies.  

*Surah Falaq*

**Types of Evil eye (Nazar):**

**The evil eye is from two sources:**

1. The evil eye from mankind (human).
2. The evil eye from Jinn.

**Hadees on evil eye (Nazar):**

1. Narrated by Abu Hurairah  that Nabi  said that the evil eye is real & Aisha رضي الله عنها narrates that Nabi  said: Seek refuge with Allah, for the evil eye is real.

3. Hazrat Ibn Abbas رضي الله عنهما says that Nabi  said: “The evil eye is true & if there is anything that would precedes pre-destiny, it would be the evil eye & when you are asked to take bath (as a cure) from the influence of an evil eye, you should take bath”.

*Muslim: 2188; Book. 39; English Book. 26; Hadees. 5427*

**Treatment of Nazar (evil eye):**

4. Hazrat A’isha رضي الله عنها said: "The person who touches others with the evil eye was commanded to perform ablution (Wazoo) & the person whom he touched by the evil eye would wash himself with that water.

*Abu Dawud: 3880; Book. 29; English Book. 28; Hadees. 3871*

5. Hazrat A’isha رضي الله عنها say that Nabi  commanded me, or commanded somebody else to Ruqyah (Islamic prayer formulas) for the evil eye (Nazar).

*Bukhari: 5738; Book. 76; English vol. 7; Book. 71; Hadees. 634*

6. Hazrat Asma Bint Umays رضي الله عنها said: O Nabi  the children of Jafar  are usually touched by the evil eye, should I perform Ruqyah.
(Islamic prayer formula) for them? He ﷺ said: Yes. If there is anything that precedes pre-destiny, it would be the evil eye.

[Tirmizi: 2199; Book. 28; English vol.4; Book. 2, Hadees. 2059]

7. Abu Umamah Bin Sahl Bin Hunaif narrated that Amir Bin Rabee'ah ﷺ once saw Sahl Bin Hunaif ﷺ taking a bath & said: By Allah! I have never observed the skin of a person that is softer than what I have just seen. Sahl ﷺ fell to the ground. Nabi ﷺ then came to Amir ﷺ in anger & said to him: Why would one of you kill his own brother? Why have you not said Tabarakallah, (may Allah bless it)? Take a bath for it. Amir ﷺ then washed his face, hands, elbows, knees, feet & a part of his garment in a pot for what he had done & then poured the used water on Sahl ﷺ.

[Ibn Ma-jah: 3638; Book. 31; English vol. 4; Book. 31, Hadees. 3509]

8. Narrated by Ibn Abbas ﷺ that Nabi ﷺ said: If there is anything that precedes pre-destiny, it would be the evil eye. When one is touched by the evil eye, he should take a bath (or a wash) for it.

[Tirmizi: 2203; Book. 28; English vol. 4; Book. 2, Hadees. 2062]

9. Narrated by Jabir Bin Abdullah ﷺ that The Evil Eye can take a person into grave (can cause death), & takes the camel into the cooking pot (meaning death).

[Healing with Medicine of Prophet ﷺ by: Imam Ibn Qayyim Al-Jauziyah]

10. Umm Salma ﷺ said that Nabi ﷺ once saw a young girl, who had a certain expression (black spot) on her face & said: Seek Ruqyah (Islamic prayer formula) for her, because she is touched by evil eye.

[Bukhari: 5739; Book. 76; English vol. 7; Book. 71; Hadees. 635]

11. Hazrat Abu Saeed ﷺ narrated that Nabi ﷺ used to seek refuge from the Jinn & the evil eye of mankind; when mu'awidhatain (Surah Falaq & Surah Naas) were revealed, Nabi ﷺ recited them & stopped recited anything else.

[Ibn Majah: 3640; Book. 31; English vol. 4; Book. 31, Hadees. 3511]

12. Hazrat Anas ﷺ narrated that Nabi ﷺ said: Made it easy to do Ruqyah for fever, evil eye (Nazar) & Sores (Namlah).
Many scholars mentioned scorpion bite in place of fever.

13. Hazrat Umme Salma رضى الله عنها says that Nabi  saw in our house a slave girl & on her face (sign of Nazar) was As-sa-faa’ah (black spots). Upon which the Nabi  said: Seek Ruqyah for her, for verily she is afflicted with a look (evil eye).

The scholars have said "As-sa-faa’ah" is the evil eye of jinn’s.

14. Hazrat Ibn Abbas رضى الله عنهما says that, Nabi  used to seek refuge for Hasan & Husain  & use to say: Your father (means Ibrahim ) used to seek refuge with Allah for Ismail & Ishaq  with these words:

Translation: (I seek refuge for the two of you in the Perfect Words of Allah, from every devil & every poisonous pest & from every harmful eye).

15. Hazrat Raza Al-Ghanvi  says that get Shifa from those, in which Allah’s praise are present like (Quranic verses) Alhamdulillah (Surah Faateha) or Kul ho wal-allah ho A-had (Surah Ikhlaa) (or other) & those who does not get Shifa (cure) with Quran then understand there is no Shifa in your destiny.

16. Hazrat Abu Hurairah  says that Rasoolullah  guided to get Shifa (cure) from Quran & if anyone does not get Shifa (cure) with Quran, then understand there is no Shifa in your destiny.

17. Nabi  said: Why would anyone of you kill his brother? If he sees something that he likes, then let him pray for blessing for him.

(This Hadees is regarding evil eye of Sahl Bin Huniaf) (Means whenever we see a good thing we should praise Allah & give Dua of Barkat by this evil eye will not afflict).

Please refer my lesson no. 66 Nazar (evil eye) &lesson no. 67 Treatment of Nazar (evil eye) in part-1.

Translation: Mothers shall suckle their children for two whole years; (that is) for those who wish to complete the suckling. The duty of feeding & clothing nursing mothers in a seemly manner is upon the father of the child. No one should be charged beyond his capacity. A mother should not be made to suffer because of her child, nor should he to whom the child is born (be made to suffer) because of his child. & on the (father’s) heir is incumbent the like of that (which was incumbent on the father). If they desire to wean the child by mutual consent & (after) consultation, it is no sin for them; & if ye wish to give your children out to nurse, it is no sin for you, provided that ye pay what is due from you in kindness. Observe your duty to Allah & know that Allah is Seer of what ye do.

Malik was asked whether someone in ihram who had an ear-complaint could use medicinal oil which was not perfumed for dropping into his ears & he said: I do not see any harm in that & even if he were to put it into his mouth I still would not see any harm in it. Malik said that there was no harm in some one in ihram lancing (cut) an abscess that he had, or a boil, or cutting a vein, if he needed to do.

Research on antimicrobial activity of certain bacteria & fungi isolated from soil mixed with human saliva against pathogenic microbes causing dermatological diseases by Huda Mohammed Ahmed Shaikh at Open Access funded by King Saud University.

Soil samples (collected from Al-Madina Al-Monawara, Kingdom Saudi Arabia) were mixed with human saliva, incubated in media suitable for bacterial & fungal growth & filtered. Eighteen bacterial & five fungal species were isolated & identified. The bacterial & fungal filtrates as well as the isolated species were evaluated for their antimicrobial activities against some pathogenic microbes causing dermatological diseases (Staphylococcus aureus, methicillin resistant S. aureus (MRSA) & Aspergillus Niger). The bacterial filtrate showed significant antagonistic effect against S. aureus & methicillin resistant S. aureus (MRSA), whereas showed non inhibitory action on the pathogenic fungus. In contrast, the fungal filtrate antagonized the growth of the pathogenic fungus (A. Niger) & did not produce any inhibitory effect on the two tested pathogenic bacteria. The isolated bacterial species showed different levels of antagonistic activities against the three tested microbes. Bacillus subtilis was described as potent isolate against the three pathogens, followed by Escherichia-coli. However, Bacillus megaterium strongly inhibited the growth of the pathogenic bacteria only. On the other side, all the fungal filtrates of the isolated species, except Cochliobolus lanatus showed antagonistic activity against the pathogenic fungus (A. Niger). The filtrate of Fusarium oxysporum & Emericella nidulans counteracted the growth of S. aureus, whereas, the growth of MRSA was inhibited only by the filtrate of E. nidulans. From
the passage of our respected Prophet ﷺ if any person complains from a wound or ulcer, the messenger of Allah ﷺ put His Forefinger on the ground & lift it then recited: *(In the Name of Allah, soil of our land, with the saliva of some of us, our sick person will get well after the permission of our Lord).*

**Blisters:**

**Zarirah (sweet flag) to be applied on Blisters & do Dua:**

   [Mustadrak Al Hakim: 7463]

2. One of the Wife of Nabi ﷺ says that, Nabi ﷺ asked: Do you have any Zarirah (ذريرة) (sweet flag) she replied: Yes & (the respected) Nabi ﷺ applied it on a blister between His Toes & made Dua "Oh! Allah, who extinguishes that, is big & makes big that which is smaller, Extinguish it for me" & the blister got extinguished.
   
   [Majma Al-Zawa’id: 8350]

**Tasbih (chanting) for blisters & etc:**

3. Ali ﷺ said: Fatimah رضي الله عنها went to Nabi ﷺ complaining of her hands blistering, so He ﷺ ordered her to say At-Tasbîh, At-Takbîr & At-Taḥmîd. *(بِِالتَّسْبِيحِ وَّالتَّكْبِيرِ وَّالتَّحْمِيدِ)*
   
   [Tirmizi: 3409; Book. 48, English vol. 6; Book. 45, Hadees. 3409]
4. Ali ﷺ said: Fatimah رضي الله عنها complained to me about her hands blistering from grinding flour. So I said: If you were to approach your Father ﷺ & ask Him for a servant? So Nabi ﷺ said: ‘Should I not direct the two of you, to that which is better for you than a servant? When the two of you lay down to sleep, say (recite) thirty-three, thirty-three, thirty-four, of At-Taḥmīd, At-Tasbīḥ & At-Takbīr.

(Means recite Subhannullah 33 times, Alhamdulillah 33 times & Allahu-Akbar 34 times).

Science & Hadees regarding Zarirah (sweet flag):

According to researches on sweet flag (ذريرة) (Zarirah), it can be used externally the tea is used for sores, burns, scrofula (a disease with glandular swellings, probably a form of tuberculosis.), wounds & ulcers. & also can be used as antispasmodic, aromatic, carminative, decongestant, diaphoretic, emetic, emmenagogue, expectorant, febrifuge, nervine, sedative, stimulant, stomach ache, tonic vulnerary. It is particularly known for the beneficial effects on the stomach, especially heartburn (acidity) with sour eructations. A few small pieces of it can be chewed & the juice swallowed, gives prompt relief. The roots may be chewed several times a day for chronic conditions, until the stomach gets healthy. It also stimulates the appetite & helps to relieve acute & chronic colicky pain, gastritis, fevers, colds, sinus headaches, sinusitis, coughs, hyperacidity, deafness, arthritis, hysteria, neuralgia, epilepsy, shock.

Chewing the root is said to stop pyrosis, the discharge of an acid (burning & bitter) liquid from the stomach into the throat. For smokers, however, chewing the dried root tends to cause mild nausea, a property that makes sweet flag useful for breaking the smoking habit. A decoction (tea) of the rootstock makes a good bath additive for insomnia, malaria, cholera, typhus, flu, bronchitis, ague, diarrhea, dysentery, asthma, a general tonic & tense nerves; it has also been used in baths for children with scrofula or rickets.
Freckles are small patch of light brown colour on the skin, often becoming more pronounced through exposure to the sun.

Skin rashes, lice & scabies:

Skin rashes & scabies caused by mites & Allergy:

etc. This has not yet been proven, or disproven, by science, thus until it is proven or disproven, it cannot be accepted as a scientific fact. Some are of the opinion that wearing gold & silk are feminine in nature; & Islam does not allow men to look like or emulate women, or women to look like or emulate men.

Recite the above verse of Chapter 23 (Surah) Mu’minun verse no 14 for 21 times for 41 days & blow on water & drink daily twice.

[Cures from the Quran, by Muhammad Elahi page. 111]
Blood is a constantly circulating fluid providing the body with nutrition, oxygen & waste removal. Blood is mostly liquid, with numerous cells & proteins suspended in it, making blood "thicker." Liquid of blood is called as Plasma which makes up about half of the content of blood. Plasma contains proteins that help blood to clot, transport substances through the blood & perform other functions. Blood plasma also contains glucose & other dissolved nutrients. About half of blood volume is composed of blood cells: Red blood cells, which carry oxygen to the tissues, White blood cells, which fight infections, Platelets, smaller cells that help blood to clot & etc.

Tuesdays a day of blood:

1. Hazrat Kabshah (daughter of Abu Bakr ) says that her father forbid his family for Wet cupping (Hijamah) on Tuesday & used to assert on the authority of Nabi  that Tuesday is the day of blood & said that on Tuesday a movement is there in which blood do not stops.

   [Abu Dawud: 3862; Book. 29; English Book. 28; Hadees. 3853]

Ash used to stop Bleeding of Nabi :

2. Narrated Sahal Bin Saad  that Nabi  got wounded on the day of Uhud: “His molar was broken & His Helmet was crushed on His  Head. Fatimah  was washing the blood from Him & Ali was pouring water on Him from a shield. When Fatimah realized that the water was only making the bleeding worse, she took a piece of a mat & burnt it & when it had turned to ashes, she applied it to the wound to stop bleeding.

   [Ibn Majah: 3593; Book. 31; English vol. 4; Book. 31, Hadees. 3464]

3. Abu Hazim said: While I was listening, Sahl Bin Saad  was asked: What were the wounds of Nabi  treated with? He said: None is alive who is more knowledgeable of it than I. Ali  would come with water in his shield & Fatimah  would use it to wash His  blood off & a mat was burnt for Him & His  wounds were filled with it.
(Please note fresh ashes were directly applied to Nabi ﷺ’s wound).

4. Narrated Sahl Bin Saud As-Saidi ﷺ that When the helmet broke on the head of Nabi ﷺ & His face became covered with blood & His incisor tooth broke (i.e. during the battle of Uhud), Ali ﷺ used to bring water in his shield while Fatimah رضي الله عنها was washing the blood off His face. When Fatimah رضي الله عنها saw that the bleeding increased because of the water, she took a mat (of palm leaves), burnt it & stuck it (the burnt ashes) on the wound of Allah’s Apostle ﷺ, whereupon the bleeding stopped.

5. Narrated Abu Hazim that he heard Sahl bin Saad ﷺ being asked about the wounds of Nabi ﷺ saying: By Allah, I know who washed the wounds of Nabi ﷺ & who poured water (for washing them) & with what he was treated. Sahl added: Fatimah رضي الله عنها, the daughter of Nabi ﷺ used to wash the wounds & Ali Bin Aabi Talib ﷺ used to pour water from a shield. When Fatimah رضي الله عنها saw that the water aggravated the bleeding, she took a piece of a mat, burnt it & inserted its ashes into the wound so that the blood was congealed (and bleeding stopped). His ﷺ Canine Tooth got broken on that day & Face was wounded & His Helmet was broken on His Head.

Blood clotting, or coagulation, is an important process that prevents excessive bleeding when a blood vessel is injured. The platelets (type of blood cell) & proteins in your blood plasma (liquid part of blood) both work together to stop the bleeding by forming a clot over the injury.

Science & Hadees regarding Ashes:

Plant ash is the powdery residue that remains after plants are burned; chemically the ash is alkaline (pH > 10) & composed primarily of calcium carbonate & secondarily, most often, of potassium chloride (interestingly, alkaline derives from the Arabic word meaning plant ashes) & these help in blood clotting because it absorbs large amount of plasma, thus helps in initial clotting of blood platelets & bleeding stops & forms a protective covering on wounds thus protects the wound from germs. Many doctors have found that bleeding on Tuesdays is stopped with difficulty.
Boiled water & Honey for kidney problems:

1. Hazrat A’isha رضي الله عنها says that Rasoolullah ﷺ said that “There is an important part of kidney (called as) khasaura (الخاصرة), when this part gets swelled up, the person gets great pain & problems, treat this with excessively boiled water (الماء المحرق) & Honey (عسل).”

   [Mustadrak Al Hakim: 8237; Al-Tibb]

Guggul for weak memory & urinary problems:

2. Hazrat Abdullah Bin Abbas رضي الله عنهما says that Nabi ﷺ drank Kandar (الكندر) (Guggul) water mixed with sugar (السكر) at morning empty stomach & said that it removes urinary problems & it is best for Nisyaan (النسى) (weak or lack of memory).

   [Al-Tibb Al-Nabawi (Al-Jawzi) vol. 1, page. 294]

Science & Hadees regarding Guggul:

Guggul it is a bark-gum, it has anti bacterial activity so helpful in urinary problems & it is mostly lipid soluble & helpful in weak memory. Refer lesson no. 46 Guggul in part-1.

Lesson no. 18 Epilepsy: -

INTRODUCTION

Epilepsy is a group of neurological disorder marked by sudden recurrent episodes of sensory disturbance, loss of consciousness, or convulsions, associated with abnormal electrical activity in the brain.

According to Islamic point of view epilepsy is of two types; one is due to evil spirits (mainly mischief of Jinns) & second is due to physical body damage (mainly in brain).

Nabi ﷺ’s guidance about epilepsy: -

An epileptic woman amongst Paradise (Jannah): -

1. Hazrat Ata Bin Rabab ﷺ says that, Hazrat Abdullah Ibn Abbas ﷺ once said to me, Should I tell you about a woman, who is among the people of Jannah (Paradise)? I said yes, & He said: That black woman, who came to Nabi ﷺ & complained, I suffer epileptic fits during which I unknowingly take off my clothes, So Pray to Allah on my behalf, Nabi ﷺ replied: If you wish, to be patient, you will get Jannah (Paradise); or if you wish, I will Pray to Allah to cure you.
She said: Rather, I shall like to be a patient. She then said: I keep taking off my clothes during these fits, so pray to Allah for me, that I do not do so. Nabi ﷺ prayed for her.

[Bukhari: 5652; Book. 75; English vol. 7; Book. 70; Hadees. 555]

**Epilepsy as a punishment:**

2. Narrated by Abu Hurairah ﷺ that Nabi ﷺ said: The Prophet Ibrahim ﷺ migrated with his wife Sarah upon the peace till He ﷺ reached a town where there was a king or a tyrant who sent a message to Ibrahim ﷺ, ordering Him to send Sarah to him. So when Ibrahim ﷺ had sent Sarah ﷺ, the tyrant got up, intending to do evil with her, but she got up & performed ablution & prayed & said:

اللهِ إن كَنْتُ أَمُنتُ يَّاكُ وَرَسُولِكَ فَلْتُسْلِطَ عَلَى الْكَافِرِ

**Translation:** O Allah! If I have believed in You & in Your Apostle, then do not empower this oppressor over me. And he (the king) had an epileptic fit & started moving his legs violently.

[Bukhari: 6950; Book. 89; English vol. 9; Book. 85; Hadees. 82]

*Please read all lesson no. 60 to 76 on Ruqyah, evil eye, black magic in part-1.*

**Epilepsy:**

It is a group of neurological diseases characterized by epileptic seizures. Epileptic seizures are episodes that can vary from brief & nearly
undetectable to long periods of vigorous shaking. In epilepsy, seizures tend to recur & have no immediate underlying cause while seizures that occur due to a specific cause are not deemed to represent epilepsy.

The cause of most cases of epilepsy is unknown, although some people develop epilepsy as the result of brain injury, stroke, and brain tumor or due to other disorders. Genetic mutations are linked to a small proportion of the disease.

Epileptic seizures are the result of excessive & abnormal cortical nerve cell activity in the brain. The diagnosis typically involves ruling out other conditions that might cause similar symptoms such as fainting. Additionally, making the diagnosis involves determining if any other cause of seizures is present as alcohol withdrawal or electrolyte problems. This may be done by imaging the brain & performing blood tests. Epilepsy can often be confirmed by electroencephalogram (EEG) but a normal test does not rule out the condition.

**Science & Hadees about epilepsy: -**

*In most of cases the cause of it remains unknown & if it is due to mischief of jinn than all investigations appears to be normal*

**Jinns: -**

The Jinns are real creation of Allah, outlined by Him in Holy Qur’an & acknowledged by His Prophets, Holy people & wise physicians. They have been created from smokeless fire & cannot be seen by the human eye because they are the descendants of devil (iblees) (shaitaan). Allah allows them to take the form of another living object (usually a snake, dog, donkey, human being or a scorpion) or appear as apparitions, speak to humans & invade the human body & possess it. They are confused by non Muslims for ‘ghosts’ if they appear to be seen by them or whisper to them. In reality, ‘ghostly apparitions’ which are the souls of deceased people do not exist as Allah has forbidden those who have left this World to return to it for any reason.

Some Jinn are good & decent, while others are innately evil. Possession is always caused by evil Jinn who are usually drawn to children, women who dress immodestly & vulnerable, depressed people. Even healthy people can also be possessed by them, most times as a result of sorcery, but sometimes for no apparent reason. Epileptic fits & seizures can commonly be some of the many symptoms of such possession.

Lesson no. 20 Sleep & Insomnia:

INTRODUCTION

Insomnia is a sleep disorder that is characterized by difficulty in sleep or staying asleep. People with insomnia have one or more of the following symptoms: Difficulty falling asleep, waking up often during the night & having trouble going back to sleep, waking up too early in the morning, feeling tired upon waking.

Please read lesson no. 68 Sleeping Habits of Nabi to so that you know & learn about sleeping habits of our Prophet , it is very important to read lesson 68 first.

Nabi ’s sleeping habits are the best & most beneficial for the body & its organs. Nabi did not oversleep or deprive His Body of necessary sleep; He used to sleep when sleep is warranted & would lie on His Right Side & remember Allah in supplication (Dua) until sleep overwhelmed His Eyes. In addition, His Body would not be burdened with overeating or overdrinking. He neither slept on the bare floor, or on high beds. Rather, He had mats made of leaves, used to lean on a pillow & would sometimes place His Hand under His Cheek.

[Healing with Medicine of Prophet by: Imam Ibn Qayyim Al-Jauziyah]

Insomnia means habitual sleeplessness or inability to sleep. It can be a disease or sign symptom of an underlying disease.

Nabi ’s guidance about insomnia:

Insomnia (sleeplessness): -

1. Sulaiman Bin Buraidah narrated that his father said that Khalid Bin Waleed complained to Nabi: ‘O Rasoolullah! I do not sleep at night due to insomnia.’ So Nabi replied: When you go to your bed, recite:

اللهُمَّ رَبَّ السَّمَوَاتِ السَّبْعِ وَمَا أَضْلَّلَتْ وَرَبَّ الْشَّيَاطِينِ وَمَا أَضْلَّلَتْ وَرَبَّ الْأَرْضِينَ وَمَا أَضْلَّلَتْ وَرَبَّ نَارِ الْجَحِيمِ وَمَا أَضْلَّلَتْ وَرَبَّ الْجَهَّلَاءِ كَلِمَاتَكَ لَغَيْرِكَ وَلَا إِلَهَ إِلَّا أَنتَ أَنْتَ

O Allah, Lord of the Seven Heavens & what they have shaded, Lord of the earths & what they carry, Lord of the Shayaateen & those they have misguided, be for me a
Protector against the evil of Your creation, all of them together, so that none of them should transgress against me, or oppress me, mighty is the one who seeks protection in You & glorified is Your praise & there is none worthy of worship other than You & there is none worthy of worship except You.

[Tirmizi: 3523; Book 48, English vol. 6; Book 45, Hadees. 3523]

2. One should not sleep immediately after eating & do some zikr or offer Salah is best.

[Shamail-e-Kubra; vol. 1; page. 94]

For Sleeplessness: -

Recite the above verse of Chapter 33 (Surah) A’zaab verse no. 56 for 11 times before going to sleep.

[Cures from the Quran a pocket Book by Muhammad Elahi page. 78]

Details given below are according to the Ulama & Islamic Scholars & not from Hadees.

Science & Hadees regarding sleeping Habits of Nabi : -

For night mares (bad dreams): -

Recite the above Chapter 94 Surah Sharh for 9 times before going to bed.

Lesson no. 21 Narcolepsy & Stupor (الخدران) KHADRAN: -

INTRODUCTION

The term **KHADRAN** (الخدران) is translated as Narcolepsy which is a sleep disorder, but a better translation for KHADR is Narcosis or STUPOR.

Narcolepsy is a condition characterized by an extreme tendency to fall asleep whenever in relaxing surroundings.

Stupor is the lack of critical cognitive function & level of consciousness where in a sufferer is almost entirely unresponsive & only responds to base stimuli such as pain. Being characterized by impairments of reactions to external stimuli, it usually appears in infectious diseases, complicated toxic states, severe hypothermia, mental illnesses (e.g. schizophrenia, severe clinical depression), vascular illnesses (e.g. hypertensive encephalopathy), neoplasms (e.g. brain tumors) & vitamin D deficiency & so on.

Prophet’s guidance on treating narcolepsy or stupor: -

1. Abu Ubaid said in his Book "Gharib Al Hadees" that some people passed by a tree, & they ate from the tree & they soon got immobilized, just as if a wind had swept through by them & froze them. Nabi ﷺ said: "Cool some water in water skins & then pour the water on them between the two Azaanain (the Fajar call to the Salah & the Iqamah)".

   *Musannaf Ibn Shaiba: 12/154 & Baihaqi: 4/224*

Nabi ﷺ mentioned water skins because water gets cooler in skin water bags (Mashak) than clay containers. That time water was stored in skin water bags (mashak).
Lesson no. 22 Sciatica (Irqun Nisa):

INTRODUCTION

Sciatic is large & thick pair (right & left) of nerve descending from lumber & sacral spine.

Sciatica means pain affecting the back, hip & outer side of the leg, caused by compression of a spinal nerve root in the lower back, often owing to degeneration of an intervertebral disc.

Nabi’s guidance about sciatica:

Cure for Irqun Nisa (sciatica):

1. Hazrat Anas Bin Malik Ḥ says that Nabi ﷺ said: “The cure for Irqun-Nisa (عرق النساء) (lower back pain) is in fat-tail of Bedouin sheep, its fats should be melted & divided into 3 parts & each part (should) be taken each day on empty stomach.

   [Ibn Majah: 3592; Book. 31; English vol. 4; Book. 31, Hadees. 3463]

2. Hazrat Anas Ḥ says that he prescribed Al-Kabash Arabi for Irqun-Nisa (lower back pain) to 300 people & Allah Ta’ala healed to all.

   [Islamic medicine page. 166; book by Yusuf Al-Hajj Ahmad]

Science & Hadees regarding fat-tailed Sheep:

1. The role of fats in the treatment of this illness:
Nabi ﷺ mentioned that the treatment of Irqun-Nisa (lower back pain), in some cases, is the Fat-tail of sheep, which is in fact right.

**Modern science says:**

Prostaglandin is a large group of natural enzyme which acts as hormones & whole body is related with them. There are lots of functions which they act in the body.

Lipid metabolism has three branches, each is related to the type of fat consumed in a big quantity leading therefore to the formation of three different chemical compounds (prostaglandin 1, 2 & 3) that have opposite effects from each other. These compounds, called the prostaglandins, resemble the hormones & have different effects on pains & inflammations in the body.

Prostaglandins type 1 prevent pain & come from the fatty acid called gamma linoleic acid (GLA) that belongs to the omega 6 fat group found on a limited basis in some wild plant. These products help to convert linoleic acid to gamma linoleic acid & then to prostaglandins type 3.

Prostaglandins type 2 on the other hand, augments the pains. These are formed from omega 6 fat group as well & mainly from linoleic acid found in margarines & cakes, as well as vegetable oils.

Prostaglandins type 3 is known for their calming action on the pains & inflammations. Those are formed from Alpha Linoleic Acid (ALA), which is converted to the two compounds EPA & DHA. Alpha Linoleic Acid is found in the oils of natural leaves & herbs & so this is an advantage of the natural vegetal food eaten by humans & animals like the sheep living in a desert (oasis) especially fat-tailed sheeps. Oils that contain alpha linoleic acid are cheap. Those belong to the omega-3 group known for its large benefits & are liquid in room temperature.

**Some of the benefits of fats of omega-3:**

1. They reduce cholesterol level, protection from heart diseases & brain strokes, protection from arterial hypertension, rheumatoid, eczema & cancers. Also weight loss, formation of the tissues of the brain, the eye, the ear, the reproductive glands & the other glands tissues, formation of the membranes surrounding all the cells of the body &
acting to protect the cells, repairing the nervous tissues as in the case of a herniated disk, one of the principal causes of Sciatica, inflammation of nervous tissues, which is the second main cause of Sciatica.

2. The desert sheep live on natural herbs, rich in the omega 3 fats & from it 700 medicines are prepared. The beneficial oils the sheep obtains from these herbs are stored in its tail.

3. Nabi ﷺ said that the tail should be melted first & so the harmful bacteria & germs are killed by the heat.

4. It should also be taken in three days, not more, to avoid fat oxidation & rancidity.

5. It should be taken on empty stomach, so that no other lipids compete with the lipids of the tail for absorption in the digestive tract at the vesicles & pancreas level, in addition to the cellular level where the enzymes acting at the membrane convert those lipids of the omega 3 group to the beneficial type 3 prostaglandin that reduce the inflammations & the pain caused by Sciatica.
Lesson no. 23 Arthritis (Al-Naqras): -

**INTRODUCTION**

Arthritis is a group of diseases which causes painful inflammation & stiffness of the joints. It means joint inflammation; the term is used to many types of joint diseases & conditions that affect joints, the tissues that surround the joint & other connective tissue.

**Nabi’s guidance about arthritis:** -

1. Hazrat Abu Darda ﷺ says that a dish full of Fig (Anjeer) was presented to Nabi ﷺ once & Nabi ﷺ said us, to eat it & further said, if anyone asks me, that any fruit has been sent from Paradise (الجنة), so I will say, this is the fruit, (teen) & yes it is from Paradise (الجنة) & is amongst the dry fruit of Jannah & also said, eat it, & it is a cure for piles (يرالبواس) & arthritis (النقرس).

   *[Ibn Abu Bakr Al Jauzi / At-Tibb-e-Nabawi Harfutaa]*

2. Hazrat Abu Zar ﷺ also narrates the same above, with difference in some words.

   *[Kanz al-Ummal: 28280]*

3. Ibn Abbas ﷺ said: "There are 360 joints & each of them owes sadaqa (charity) every single day. Every good word is sadaqa..."
(charity). A man’s helping his brother is sadaqa (charity). A drink of water, which he gives, is sadaqa (charity). Removing something harmful (thing) from the road is sadaqa (charity)"

[Al-Adab Al-Mufrad: 422; Book. 24, English Book. 24, Hadees. 422]

4. Narrated by Abu Hurairah  Nabi  said: "There is a (compulsory) Sadaqa (charity) to be given for every joint of the human body (as a sign of gratitude to Allah) every day the sun raises. To judge justly between two persons is regarded as Sadaqa & to help a man concerning his riding animal by helping him to ride it or by lifting his luggage on to it, is also regarded as Sadaqa & (saying) a good word is also Sadaqa & every step taken on one’s way to offer the compulsory prayer (in the mosque) is also Sadaqa & to remove a harmful thing from the way is also Sadaqa".

[Bukhari: 2989; Book. 56; English vol. 4; Book. 52; Hadees. 232]

*Please read lesson no. 5 Anjeer (fig) to learn more about it.*
Lesson no. 24 Poisoning:

**INTRODUCTION**
Poisoning means administering poison or poisons substance to (a person or animal), either deliberately or accidentally. It is taking a substance that is injurious to health or can cause death.

**Nabi ﷺ’s guidance about poisoning:**

**Punishment to poisoning owns self:**

1. Abu Hurairah ﷺ reported that Nabi ﷺ said: If anyone drinks poison, the poison will be in his hand (on the Day of Judgement) & he will drink it in Hell-fire & he will live in it eternally.

   [Abu Dawud: 3872; Book. 29; English Book. 28; Hadees. 3863]

2. Narrated by Abu Hurairah ﷺ that Nabi ﷺ said: Whoever drinks poison & kills himself, will be sipping it in the fire of Hell forever & ever.

   [Ibn Majah: 3588; Book. 31; English vol. 4; Book. 31, Hadees. 3460]

**7 Tamar dates prevent poisoning & black magic:**

3. Hazrat Aamir Bin Saad Abu Waqqas ﷺ heard from his father that Nabi ﷺ said that anyone who eats 7 Tamar ( ثمار ) daily, which grow between these two lava plains (two Madinah (المدينة) mountains) empty stomach, early morning, than till evening, will not be affected with poisoning ( سم ) & black magic ( سحر ) & If eats at evening will be safe from poison ( سم ) & black magic ( سحر ) till morning.

   [Muslim: 2047 A; Book. 36; English Book. 23; Hadees. 5080]
**Ajwah prevents poisoning:**

4. Hazrat A’isha رضي الله عنها says that Rasoolullah ﷺ guided that, The Ajwah dates of ‘Aliya’ contain healing effects & these are antidote (for poisoning) if eaten early morning.

[Muslim: 2048; Book. 36; English Book. 23; Hadees. 5083]

**7 Ajwah prevents poisoning & black magic:**

5. Hazrat Saad  says that Rasoolullah ﷺ guided that eat 7 Ajwah (عجوة) (dates) early morning empty stomach, that day, the person will be saved from poisoning (سم) & black Magic (سحر) (witch craft).

[Bukhari: 5769; Book. 76; English vol. 7; Book. 71; Hadees. 664]

**Wet cupping for poisoning:**

6. Hazrat Ibn Abbas رضي الله عنه says that Nabi ﷺ underwent Hijamah (الجمامة) (Wet Cupping) because of pain due to poisoned meat.

[Hasan Ahmed 1/305]

7. It is mentioned in Abdul Razzaq that In Qazawah khabyre, Nabi ﷺ was poisoned by a Jewish woman in roasted meat of sheep, He ﷺ underwent Hijamah at 3 point on the kahil, (upper part of back) (It is believed that 1st cup was applied on Kahil (upper back), 2nd behind the heart (at the left of kahil), & the 3rd was either a little bit lower to this point or on the right side of the kahil, Allah knows the best).

[Musannaf Abdul Razzaq]

8. Narrated by Abu Hurairah : A Jewish presented a poisoned sheep to Nabi ﷺ but He ﷺ did not interfere with her. Abu Dawud said: The Jewish who poisoned was sister of Marhab.

[Abu Dawud: 4509; Book. 41; English Book. 40; Hadees. 4494]

9. Narrated by Anas Bin Malik : A Jewish brought a poisoned (cooked) sheep for Nabi ﷺ who ate from it. She was brought to Nabi ﷺ & He ﷺ was asked: "Shall we kill her?" He ﷺ said: "No." I continued to see the effect of the poison on the palate of the mouth of Nabi ﷺ.
Dua for prevention evils, poisoning & etc: -

10. Abu Hurairah narrated that Nabi said: “Whoever recites three times when reaches the evening:

أَعُوذُ بِكَِّمَّاتِ اللَّهِ التَّامَاتِ وَشَّيْءٍ مَّا خَلَقَ

Translation: “I seek refuge in Allah’s Perfect Words from the evil of what he created; no poisonous sting shall harm him that night.”

Dua for safety: -

11. Narrated by Abul Yusr that Nabi used to supplicate: (for safety)

اللَّهُمَّ إِنِّى أَعُوذُ بِيَكَ مِنَ الْهَدْمِ وَأَعُوذُ بِيَكَ مِنَ الْجَرَّةِ وَأَعُوذُ بِيَكَ مِنَ الْعُرْقِ وَالْعُرْقِيِّ وَالْهَرَّمِ وَأَعُوذُ بِيَكَ أنَّ أَقْبَضَتْهُ السَّيْطَانُ عِندَ الْمَوْتِ وَأَعُوذُ بِيَكَ أنْ أُمُوتَ فِي سَبِيلِكَ مُمِّتِرًا وَأَعُوذُ بِيَكَ أنْ أَمَوتَ لَدِيًا

Translation: "O Allah, I seek refuge in Thee from my house falling on me, I seek refuge in Thee from drowning burning & decrepitude. I seek refuge in Thee from the devil harming me at the time of my death, I seek refuge in Thee from dying in Thy path while retreating & I seek refuge in Thee from dying of the sting of a poisonous creature."

[Abu Dawud: 1552; Book. 8; English Book. 8; Hadees. 1547]
Lesson no. 25 Libido (Jimaa’a):

**INTRODUCTION**

Libido means sexual desire, sex drive, sexual urge & passion.

**Nabi ’s guidance about libido:**

**Benefits of Heena:**

1. Hazrat Waslah  says that Nabi  said: “You have Heena (الْناء), it makes your hair bright (نُر), purifies you (طهر قلوب), increase libido (الجماع), evidence in grave” (Qabr) (شاهد فى القبر).

[Kanz al-Ummal: 28282]

Lesson no. 26 Piles (Bawaseer):

**INTRODUCTION**

Piles, also known as haemorrhoids, are swollen veins & muscle around your anus or in your anal canal. The anal canal is a short, muscular tube with blood vessels that connects your rectum (back passage) with your anus. Piles can develop when this tissue becomes swollen, possibly as a result of straining while passing the toilet. Sometimes, piles can be painful & bleed if the rectal veins get ruptured or become damaged.
Olive oil cures piles: -

1. Hazrat Alqama Bin Aamir  says that Nabi  said: “For you Olive oil (زيت الزيتون) is present, use it, in eating & massage because it is beneficial in Bawaseer (البواسير) (piles).

[Kanz al-Ummal: 28295]

Olive oil cure for piles (Basoor): -

2. Hazrat Uqba Bin Aamir  says that Nabi  said: For you Zaitoon blessed tree oil is present, treat by it so that it cures Basoor (الباسور).

[Abu Nu-aim/Al-Tibb Al-Nabawi: 463] (Basoor is piles).

Fig cures piles: -

3. Hazrat Abu Darda  says that a dish full of Teen (التي، Anjeer) was presented to Nabi  once & Nabi  said us, to eat it & further said: If anyone asks me, that any fruit has been sent from Jannah (الجنة), so I will say, this is the fruit, (teen) & yes it is from Jannah (الجنة) & is amongst the dry fruit of Jannah & also said, eat it, & it is a cure for piles (البواسير) & arthritis (النقرس).

[Bukhari: 1117; Book. 18; English vol. 2; Book. 20; Hadees. 218]

The detail given below is according to Ulama & Islamic Scholars & not from Hadees.

Cure for piles: -
Anyone suffering from piles should recite full Chapter 94 (Surah) Sharh in first Rakaat of Sunnah of Fajar Salah (Namaz) & should recite full Chapter 105 (Surah) Feel in the second Rakaat in the same Salah.

Lesson no. 27 Neutralization of acidic things with alkali things:

**INTRODUCTION**

In chemistry, *neutralization* (US spelling) or *neutralization* (UK spelling), is a chemical reaction in which an acid & a base react quantitatively with each other. In a reaction in water, *neutralization* results in there being no excess of hydrogen or hydroxide ions present in solution.

It is a reaction between an acid & a base, usually yielding a salt & water. Neutralization Reaction is a type of chemical reaction in which a strong acid & strong base react with each other to form water & salt.

Heartburn, as well as an acidic stomach due to eating too much spicy food, can be relieved by taking an antacid. The antacid is alkaline / basic & helps neutralize the stomach’s acidic environment. You may have used medicine to ease your heartburn via the process of neutralization.

Neutralization reaction: - For example, hydrochloric acid & sodium hydroxide solution react together to form water & sodium chloride solution. The acid contains H⁺ ions & Cl⁻ ions & the alkali contains Na⁺ ions & OH⁻ ions.

A neutralization reaction is when an acid & a base react to form water & a salt & involves the combination of H⁺ ions & OH⁻ ions to generate water. The neutralization of a strong acid & strong base has a pH equal to 7.

In the reaction, H⁺ & OH⁻ combine to form HOH or H₂O or water molecules. Neutralization is a type of double replacement reaction. A salt is the product of an acid-base reaction & is a much broader term than common table salt as shown in the first reaction.

If we were to evaporate the water from the solution after the neutralization reaction, the remaining will be sodium chloride, commonly known as table salt. In general, the term salt refers to any ionic compound that could be produced by a neutralization reaction.

**Nabi ﷺ’s guidance about neutralization:**

*Neutralizing Hot Potency with cold potency:* -

*Bathikh (watermelon) & Rutab dates:* -
1. Hazrat A’isha رضي الله عنها narrates that Nabi  used to eat watermelon (البطيخ) with fresh ripen dates (الرطب) with fresh ripen dates.

[†Tirmizi: 1843: Book. 25; English vol. 3; Book 23; Hadees. 1843]

2. Hazrat A’isha رضي الله عنها narrated that Nabi  use to eat watermelon (Bathikh) with fresh ripen dates (Rutab) & use to say, heat of the one is broken by the coolness of the other & the coolness of the one by the heat of the other.

[†Abu Dawud: 3836; Book. 28; English Book. 27; Hadees. 3827]

Please refer lesson no. 4 watermelon & mashmelon & lesson no. 10 dates for detail study.

Musk-melon & fresh ripen dates: -

3. Hazrat Anas  narrated that Nabi  ate Musk-melon (الخِْرْبِِ) & fresh ripen dates (الر ُطَّبِ) together.

[†Shama’il: 199; Book. 30; English Book. 29, Hadees. 190]

Tamar & Zubd (dried ripen dates & Butter): -

4. Narrated by 2 sons of Busar that Nabi  visited Hazrat Busar’s home, they presented Tamar (تمر) (dried ripen dates) & Zubd (زبد) (butter) in honor of Nabi  because both were liked (together) by Nabi .

[†Ibn Majah: 3459; Book. 29; English vol. 4; Book. 29, Hadees. 3334]

Qissa’a & Rutab (Fresh ripen dates & cucumber): -

5. Hazrat Abdullah Bin Jafar  says that Rasoolullah  use to eat Qissa’a (القثاء) (cucumber) with Rutab (dates) (الرطب) (fresh ripen dates).

[†Tirmizi: 1844; Book. 25; English vol. 3; Book. 23, Hadees. 1844]
6. Hazrat A’isha رضي الله عنها ate Qissa’a (القثاء) (cucumber) & Rutab (الرطب) (dates) (fresh ripen dates) together to gain weight & she successfully gained weight.  

[Ibn Majah: 3449; Book. 29; English vol. 4; Book. 29, Hadees. 3324]

**Scientific benefits of Prophet ﷺ eating habits:**

1. The food becomes neutralized when acidic food substances are mix with alkali food substances. Acidic food substances mean hot potency food substances & alkali food substances are cold potency food substances (mostly). The food becomes neutralized means nor hot nor cold. These types of food do not disturb the acid base balance of the body. The food becomes light to digest, easily distributed in body & reaches the cells of the body, easily metabolized in the body.

2. The simplest food we eat (the more) we will be disease free (as per the Sunnah of Prophet ﷺ). Nowadays there are various diseases like diabetes, thyroidism, cancers, auto immune diseases, asthma, allergies, kidney failures, vitiligo & etc are also caused by faulty habits of eating, means against the Sunnah of Prophet ﷺ.

3. We people eat fried, cooked, boiled, fermented (etc) foods together; this causes free radicals in our body & leads to deadly diseases like cancers, diabetes & etc.

4. We Muslims break our fast (iftaar) with a mixture of food substance like fried, cooked, boiled etc food substances, also mix a lot of varieties of fruits together, What will be the result we all know?

**Cucumber & dates together:**

Cucumber & dates: cucumber has a cold effect & dates have a hot one. By combining the two it becomes neutralized. From this Hadees we gather that it is recommended that the effect (hot or cold) of things eaten should be taken into consideration. Cucumber is insipid & tasteless & dates are sweet which results in the cucumber also tasting sweet. Both are opposite to each other & cucumber are rich in water contains.

Please match the nutritional facts of both cucumber & dates & see what a combination both are both makes a perfect nutrition & are opposite to each other. This is miracle of Sunnah of Prophet ﷺ eating both together.

**Scientific benefits of taking medicine on empty stomach early morning:**

Some medicines need to be taken 'before food' or 'on an empty stomach'. This is because food can affect the way these medicines work.

For example, taking some medicines at the same time as eating may prevent your stomach & intestines absorbing the medicine, making it less effective. Alternatively, some foods can interact with your medicine, either by increasing or decreasing the amount of medicine in your blood to potentially dangerous levels or levels that are too low to be effective. Some foods can neutralize the effect of certain medicines. Some examples of foods or drinks which can interact with medicines include: grapefruit juice, cranberry juice, foods high in vitamin K such as leafy green vegetables, salt substitutes or food supplements high in potassium such as bananas.

As a general rule, medicines that are supposed to be taken on an empty stomach should be taken about an hour before a meal, or two hours after a meal.
Forgetting these instructions on rare occasions is unlikely to do any harm, but taking these medicines with food regularly may not work.

**Questions & answered about taking medicines:** -

**Question:** I’ve been taking the same prescription medicine for years. Even though I’m careful to take the same amount as always, the medicine is not working like it did in the past. What is happening?

**Answer:** As you get older, normal changes happen in the body. You lose water & muscle tone. Also, our kidney & liver may not pass the drugs as quickly through our system as when we were younger. This means that many medicines act differently in older people. Medicine may take longer to leave your system. Talk to your doctor if you think the medicine is not working as it should.

**Question:** Why should I talk to my doctor about the remedies, vitamins & OTC (over-the-counter) medicines I take, along with my regular prescriptions?

**Answer:** It is very important to tell your doctor about all the medicines you take. Taking some OTC medicines with your prescription drugs can be downright dangerous. For example, you should not take aspirin if you are on warfarin.

Some OTC drugs can lead to serious problems if used too often or with certain other drugs. Combining drugs without talking to your doctor could make you sick.

Over-the-counter (OTC) drugs are medicines sold directly to a consumer without a prescription, from a healthcare professional.

**Question:** I’m feeling sick & irritation in my stomach a lot, since I started my new pills. Some days I feel so sick I think about not taking the medicine. What should I do?

**Answer:** Talk to your doctor about any side effects you feel before you stop taking the medicines. Your doctor may have tips that can help, such as eating a light snack with your pills. You may talk to your doctor about switching to a new medicine.

**Question:** What does it means, to take medicines on an empty stomach?

**Answer:** Taking medicines on an empty stomach means that you should take your pills 2 hours before you eat or 2 hours after you eat.
Lesson no. 30 Contagious Diseases & enforcing Quarantine: -

INTRODUCTION

A contagious diseases are a subset category of transmissible diseases (can transmit from person to another), usually infections or some non-infection diseases, which are transmitted to other persons, either by physical contact (hence the name-origin) with the person suffering the disease, or by casual contact with their secretions or objects touched by them or airborne route among other routes.

Islamic point of view is that contagious diseases are spread with Allah Ta’ala's Will only. As mentioned in Hadees no. 2 please read it below.

Contagious diseases can be spread mostly in 3 ways. 1) Direct physical contact with an infected person. 2) Direct physical contact with objects & other surfaces that an infected person has touched. 3) Coming in contact with airborne bacteria (through sneezing & coughing).

Quarantine is used to separate & restrict the movement of persons; it is a 'state of enforced isolation'. This is often used in connection to disease & illness, such as those who may possibly have been exposed to a communicable disease.

Communicable diseases spread from one person to another or from an animal to a person. The spread often happens via airborne viruses or bacteria, but also through blood or other bodily fluid. The terms infectious & contagious are also used to describe communicable disease.

What is the difference between infectious & contagious diseases?

Infectious diseases: are caused by microscopic germs (such as bacteria or viruses) that get into the body & cause problems. Some - but not all - infectious diseases spread directly from one person to another. Infectious diseases that spread from person to person are said to be contagious. Some infections spread to people from an animal or
insect, but are not contagious from another human. Lyme disease is an example: You can’t catch it from someone you’re hanging out with or pass in the street. It comes from the bite of an infected tick.

**Contagious diseases:** (such as the flu, colds, or strep throat) spread from person to person in several ways. One way is through direct physical contact, like touching or kissing a person who has the infection. Another way is when an infectious microbe travels through the air after someone nearby sneezes or coughs. Sometimes people get contagious diseases by touching or using something an infected person has touched or used - like sharing a straw with someone who has mono or stepping into the shower after someone who has athlete's foot. & sexually transmitted diseases (STDs) are spread through all types of sex - oral, anal, or vaginal. We can help protect yourself against contagious diseases by washing your hands well & often, staying away from those who are sick, making sure you're up to date on all vaccinations & always using condoms during any type of sex.

**Nabi ﷺ’s guidance about contagious disease & quarantine:**

**About leprosy patient:**

1. Narrated from a man from Al Ash-Sharid, who was called Amr that his father said: "Among the delegation of Thaqif there was a man who suffered from leprosy. Nabi ﷺ sent word to him saying: 'Go back, for I have accepted your pledge.'"

[Nasa'i: 4182; Book. 39; English vol. 5; Book. 39, Hadees. 4187]

**There is no contagious disease expects Allah’s will:**

2. Narrated by Abdullah Bin Umar ﷺ that Nabi ﷺ said: "There is neither A’dwa (لا عدوى) (no contagious disease is conveyed to others without Allah’s permission) nor Tiyara, but an evil omen may be in three, a woman, a house or an animal."

[Bukhari: 5753; Book. 76; English vol. 7; Book. 71; Hadees. 649]

3. Narrated by Abu Hurairah ﷺ that Nabi ﷺ said: (There is) no 'Adwa (no contagious disease is conveyed without Allah’s
permission) nor is there any bad omen (from birds), nor is there any Hamah, nor is there any bad omen in the month of Safar & one should run away from the leper (a person suffering from leprosy) as one runs away from a lion.

[Bukhari: 5707; Book. 76; English vol. 7; Book. 71; Hadees. 608]

**List of contagious diseases:**

The list below is of contagious diseases, they may range from highly contagious to only mildly. & the duration varies as well. INTRODUCTION

Diseases are disorder of structure or function in human, animal, or plant, especially one that produces specific symptoms or that affects a specific location & not due to direct physical injury. It is a pathological condition of a body part, an organ, or a body system resulting from various causes, such as infection, genetic defect, or environmental stress & characterized by an identifiable group of signs & symptoms resulting to disordered or incorrectly functioning organ, part, structure, or system of the body resulting from the effect of genetic or developmental errors, infection, poisons, nutritional deficiency or imbalance, toxicity, or unfavorable environmental factors; illness; sickness; ailment.

Choose no-salt or low-salt version of these foods

**Diabetes Mellitus:** Insulin is secreted by the pancreas; in a diabetic patient it is inadequate to utilize the glucose in the blood. The glucose cannot be converted to energy & this leads to excessive blood sugar levels. This is dangerous as it can lead to serious complications. The first prescription a diabetologist gives is a food prescription. If it is strictly adhered to, in the early stages, there's no need to pop a pill.

**Diabetes patients must:**
- *Eat measured quantities of cereal foods.*
- *Eat at smaller intervals.*
- *Eat less carbohydrate & fatty foods.*
- *Avoid pure sugar forms like crystallised sugar, sweets & confectionery.*
- *Eat plenty of high-fibre foods like vegetables & sprouted legumes.*
- *Eat moderate amounts of citrus fruits & other low sweet fruits like papaya, guava, melon, pear & apple.*

**Hypertension (High blood pressure):** Hypertension merely means high blood pressure. The diet below is for the primary hypertension patients, whose high blood pressure is caused by unknown or hereditary causes. (Secondary hypertension patients must follow the diet as per their actual disease.) As a general rule, all hypertension patients must keep their blood pressure under control with proper medicines & follow right diet.
A hypertensive individual must:

- Reduce salt in the usual foods
- Avoid high sodium foods like pickles, pappads, chips, fried items & processed foods containing Mono Sodium Glutamate
- Never reach out for the salt sprinkler
- Never put on excessive weight
- Eat plenty of fruits & vegetables
- Exercise mildly but regularly

**Ulcer:** This is a tummy trouble. The inner walls of the stomach (as in gastric ulcer) or the duodenum (as in duodenal ulcer) are broken resulting in inflammation. This painful condition requires careful monitoring of the food ingested. Intake of the wrong food can cause serious aggravation of the problem.

**Ulcer patients must:**

- Eat high protein food as protein helps in faster healing of the ulcer.
- Eat food in small quantities & at small intervals. A heavy stomach can be very uncomfortable.
- Eat food that is soft in texture & taste. Plenty of milk, eggs, soft boiled cereals, porridges, mashed potatoes can be taken with little sugar or salt.
- Avoid green chillies, red chillies & pepper. Keep all types of spices & condiments at bay until complete cure.

**Kidney Diseases:** They can be classified into 3 types.

1. **Acute Renal Failure:** In this condition, the kidneys are unable to excrete the protein (breakdown products). Hence the diet has to be low in protein, of high biological value with adequate calories to prevent energy utilization from tissue proteins. The fluid & electrolytes like sodium & potassium must be taken in measured amounts, according to the guidance of the dietician.

2. **Chronic Renal Failure:** This condition too requires diet to be advised to individual needs. The intake has to be periodically adjusted depending on the biochemical test readings.

**A patient must follow these rules regarding diet:**
• Take adequate quantities of energy foods.
• Do not take excessive quantities of water, sodium & potassium that are excreted through kidneys.
• Monitor the ability of the kidneys to excrete the nitrogenous wastes & salts. Take a low protein diet depending on that.
• A dose of multivitamin is helpful.

3. Nephrotic Syndrome: The principal features of this condition are loss of albumin in urine, decrease in plasma albumin & marked oedema.

A patient must: -

• Compensate the urinary loss of albumin through a high protein diet.
• Counteract the oedema through restricted sodium intake.

Heart Diseases: In disorders of the heart & circulatory system, prepare the diet with the following rules in mind: -

• Reduce the energy value of the diet, if the patient is overweight.
• Restrict the sodium intake if oedema is present.
• When serum lipids are raised, reduce intake of saturated fats & cholesterol

High blood cholesterol is usually associated with increased incidence of coronary diseases. Cholesterol is found only in fats obtained from animal sources such as egg yolks, milk, cheese, cream, butter, shell fish, brain, kidneys etc.

To control dietary cholesterol: -

• Limit egg yolk intake. However, you can eat egg white.
• Substitute skimmed milk for whole milk.
• Substitute vegetable fats for animal fats.

Obesity: Are you obese? Sneak a peek at the height-weight table. If you are 110 - 120 percent of the ideal body weight or more, then oops, you are obese! & you have problems piling at your doorstep. You are liable to develop diabetes, cardiovascular disorders, gall stones, varicose veins, abdominal hernia, flat feet, osteoarthritis of the spine, hips & knees (Phew! Isn’t it enough?)

Thousands of books have been written on the subject of slimming. But let’s take basics one: -
• Do not change your diet in a dramatic way. Conform to the basic food you are used to.
• Reduce the energy value of the diet.
• Eat sufficient quantities of protein, vitamins & minerals.
• Eat more of bulky, non starchy foods.
• Do not eat much of sugar, jam, sweets, chocolates, cakes, soft drinks, ice creams, fried foods, canned food, dried fruits & alcohol.
• Help yourself to low calorie foods - non thickened soups, skimmed milk, china grass jelly, roasted pappads etc.
• Exercise regularly. It must go hand in hand with dieting. There is no substitute for it.

Anaemia (low haemoglobin): If you have anaemia. Millions in the world suffer from it. Anaemia is caused when the normal synthesis of red blood corpuscles are disturbed, the common reasons are deficiency of either iron, Vitamin B12, folic acid or ascorbic acid (Vitamin C) all or any two or anyone of them.

Add on the following foods to overcome the deficiency:

• Iron can be derived from green & leafy vegetables (spinach / paalak), lentils, dates, figs, raisins, whole wheat, jaggery, egg yolk & red meat.
• Vitamin B12 is found in muscle meat, fish, cheese, eggs & milk.
• Folic acid is found largely in green leafy vegetables.
• Ascorbic also known as Vitamin C is principally found in fresh fruits & vegetables. All citrus fruits are a rich source, but our locally found Amla (Nellikkai) is said to be the the best source of vitamin C.
Liver Disorders: - Liver is the largest organ with complex functions like protein metabolism, carbohydrate storage & detoxification of some poisons, alcohol metabolism & production of bile. Liver injury is caused by infective agents like acute infective hepatitis or toxic substances like carbon tetrachloride, chloroform & certain drugs. The condition is marked by increased concentration of bile pigment - bilirubin - in blood. This is observed as yellow pigmentation (jaundice). Vomiting, nausea & loss of appetite are significant features of this condition.

Diet: - You can take carbohydrates in the form of fruit juices apart from intravenous glucose, if fluids are tolerated. Food can be later altered to suit your taste. Avoid heavy, spicy food, milk products, oily, fats, stored food, canned food, packed food stuffs, however protein rich food like gram, soy beans, glucose (because it helps & to improve the liver functions) can be eaten.

Hepatic Cirrhosis: - This is the chronic condition resulting from various forms of liver damage, especially in association with alcoholism.

Diet: -

- *Eat a balanced diet adequate in all nutrients.*
- *Take sufficient quantity of protein.*
- *Appetite is fickle. Monitor diet on daily basis, to maintain a high-protein, high-energy intake.*
- *Cirrhosis may be associated with accumulation of fluid in peritoneal cavity. In such an event, restrict the salt intake.*
**Porto-Systemic Encephalopathy:** Some patients develop signs of impaired functions of the nervous system. It is found that nitrogen-containing material in the intestine plays an important part in precipitating the condition. Hence high energy & a reduced protein diet are recommended.

**Cholecystitis:** This is the inflammation of gall bladder, mostly associated with gallstones & accompanied by obesity. It is more common among women than men.

**Acute Cholecystitis:** If you are suffering from acute cholecystitis, remember to:

- **Drink plenty of water, glucose & fruit drinks.**
- **Take a low fat diet.** (The presence of fat in the duodenum stimulates gall bladder contraction. A low fat diet is appropriate to keep contraction of gall bladder to the minimum, during the period of acute inflammation).

**Chronic Cholecystitis:** In this case, if surgery is not advised, a suitable long-term regimen is required. For chronic cholecystitis, we must have a normal fat intake. This helps to counteract stones of the gall bladder, promotes drainage of the biliary system & helps to prevent formation of gallstones. Fats of milk, butter & eggs are usually well tolerated. Avoid vegetables & fruits causing flatulence (the accumulation of gas in the alimentary canal).
Lesson no. 33 Constipation:

INTRODUCTION

Constipation is a condition in which there is difficulty in emptying the bowels (intestines), usually associated with hardened faeces. It is a (Pathology) infrequent or difficult evacuation of the bowels, with hard faeces, caused by functional or organic disorders or improper diet. Common causes are insufficient dietary fiber intake, inadequate fluid intake & decreased physical activity, side effects of medications, hypothyroidism & obstruction by colorectal cancer.

Nabi ’s guidance about constipation:

Sanna a best laxative:

1. Hazrat Asma Bint Umair رضي الله عنها says that Rasoolullah  asked her: “What do you use as a laxative (تستمشي, she replied "Shabram" (الشبرم) (spruge). Rasoolullah  said it is hot & powerful. (حار, حار), she said: Then I used Sanna (senna) (السنا) as a laxative (تستمشي). & she said that Rasoolullah  said: "If there would be cure (شفاء) for death (الموت) it would be Sanna (Senna).

[Tirmizi: 2225; Book. 28; English vol. 4; Book. 2, Hadees. 2081]

Best treatment:

2. Hazrat Ibn Abbas رضي الله عنهما says that Rasoolullah  said: "Amongst the treatment you do, the best is:

a) to put medicine (دواء) in nose (السعوط).
b) to put medicine (دواء) in one side of mouth (اللدود).
c) Hijamah (wet cupping)
d) Walking (laxatives).

[Tirmizi: 2184; Book. 28, English vol. 4; Book. 2, Hadees. 2047]
Walking here is considered as movement of intestines by Imam Qayyim (ra) & senna increases the movement of intestines & best for constipation. (Movement of intestines is called as Peristalsis movement in medical terms).

Please read lesson no. 25 Sanna in part -1 so that you will learn all about it & its benefits.

**Diet Plan for Constipated Person:**

The most effective way to treat constipation is by following diet for constipation. This is usually a high fiber diet. Normal stool patterns are different for different people, but if you have not been able to pass stools for several days & have been experiencing pain & discomfort, it means you have constipation. Normal stools should not be painful & should definitely not be difficult to pass. While there are medical treatments available for constipation, most doctors recommend consuming a healthy diet, rich in foods to combat constipation. Some of the best foods for constipation include raw fruits & vegetables that are high in both soluble & insoluble fibers.

Insoluble fiber adds bulk to the food so that stools are relatively easier to pass. Usually the harder a vegetable is, the more fiber it tends to have. Green leafy vegetables have the most rough-age & are very healthy. In addition to considering the foods that you consume, also consider the amount of fluids you consume throughout the day. Drink plenty of water & other beverages such as juices. This will help soften the stools so that they are easier to pass through the intestines.

**Foods to Eat:**

Coconut: - It is considered an excellent remedy for constipation. Coconut milk & coconut water are also considered great food for constipation. Adding butter to your diet may also help soften the stools but avoid consuming too much of fats as that can only worsen the condition. Avoid refined foods when constipated.

**Cottage Cheese:** It can also be used as a natural stool softener, but avoid any other milk & dairy products as these can cause other digestion problems.
Breakfast: Start the day with a bowl of fruits or salads. You can also have a sandwich with salads in them. A corn & spinach sandwich with cream cheese is ideal for a healthy & fibrous breakfast. Have a pineapple or an apple along with some orange juice. You can also choose to consume a bowl of high fiber cereal instead of the sandwich.

Mid-day Meal: Have a glass of prune juice along with an orange or any other fibrous fruit. Prune juice can soften your stools & help relieve constipation. The fibers from the fruits add bulk to your stools & allow your body to excrete them easily.

Lunch: Whole grain breads with mashed potatoes, a chicken breast & a bowl of salad & vegetables is a healthy & fiber rich meal. Include a portion of cottage cheese. You can also have a turkey sandwich with whole wheat bread & cottage cheese with a bowl of salad.

Dinner: Have a large bowl of tossed salad with lots of lettuce, croutons, apples, prunes, carrots, peas & beans. You can also add celery or asparagus in the mix as that can help add to the fiber content of the salad. You can have a slice of whole grain or multi-grain bread along with your salad. Avoid gravies.
INTRODUCTION

The head lice are tiny, wingless parasitic insect that lives among human hairs & feeds on tiny amounts of blood drawn from the scalp. Lice (the plural of louse) are a very common problem, especially for kids. They’re contagious, annoying & sometimes tough to get rid of. Lice aren't dangerous. They don't spread disease, although their bites can make a child’s scalp itchy & irritated & scratching can lead to infection. It’s best to treat head lice quickly once they’re found because they can spread easily from person to person.

**Signs of Head Lice: -**

Although they’re very small, lice can be seen by the naked eye. Here are things to look for. *Lice eggs (called nits).* These look like tiny yellow, tan, or brown dots before they hatch. Lice lay nits on hair shafts close to the scalp, where the temperature is perfect for keeping warm until they
hatch. Nits look sort of like dandruff, only they can’t be removed by
brushing or shaking them off.

Unless the infestation is heavy, it’s more common to see nits in a child’s
hair than it is to see live lice crawling on the scalp. Lice eggs hatch within
1 to 2 weeks after they’re laid. After hatching, the remaining shell looks
white or clear & stays firmly attached to the hair shaft. This is when it’s
easiest to spot them, as the hair is growing longer & the egg shell is
moving away from the scalp.

**Adult lice & nymphs (baby lice):** The adult louse (singular of lice) is no
bigger than a sesame seed & is grayish-white or tan. Nymphs (baby lice)
are smaller & become adult lice about 1 to 2 weeks after they hatch. If
head lice are not treated, this process repeats itself about every 3 weeks.
Most lice feed on blood several times a day & they can survive up to 2
days off the scalp.

**Scratching:** Due to lice bites can cause itching. This is actually due to a
reaction to the saliva of lice. However, the itching may not always start
right away - that depends on how sensitive a child’s skin is to the lice. It
can sometimes take weeks for kids with lice to start scratching. They
may complain of things moving around on or tickling their heads & small
red bumps or sores from scratching results.

For some kids, the irritation is mild; for others, a more bothersome rash
may develop. Excessive scratching can lead to bacterial infection (this
can cause swollen lymph glands & red, tender skin that might have
crusting & oozing). This should be treated with antibiotics.

You may be able to see the lice or nits by parting the hairs into small
sections & checking for lice & nits with a fine-tooth comb on the scalp,
behind the ears & around the nape of the neck (it’s rare for them to be
found on eyelashes or eyebrows).

A magnifying glass & bright light may help. But it can be tough to find a
nymph or adult louse - often, there aren’t many of them & they move fast.
See your doctor if your child is constantly scratching his or her head or
complains of an itchy scalp that won’t go away. The doctor should be able
to tell you if your child is infested with lice & needs to be treated. Not all kids
have the classic symptoms of head lice & some can be symptom-free.
Also be sure to check with your child’s school nurse or childcare center
director to see if other kids have recently been treated for lice. If you
discover that your child does, indeed, have lice or nits, contact the staff at the school & childcare center to let them know. Find out what their return policy is. Most usually allow kids to return after one topical treatment has been completed.

Lice are highly contagious & can spread quickly from person to person, especially in group settings (like schools, childcare centers, slumber parties, sports activities & camps).

**Nabi’s guidance about lice problem:** -

**Suffering from lice problem:** -

1. Narrated by Kaab Bin Umra (he was in Ihram) that Nabi stood beside me at Al-Hudaibiya & the lice were falling from my head in great number. He asked me: "Have your lice troubled you?" I replied in the affirmative. He ordered me to get my head shaved. Kaab added: "This Holy Verse: 'And if any of you is ill, or has ailment in his scalp (2:196), etc. was revealed regarding me. Than Nabi ordered me either to fast three days, or to feed six poor persons with one Faraq (three Sas) (of dates), or to slaughter a sheep, etc. (sacrifice) whatever was available.

[Bukhari: 1815, 4191; Book. 27, 64; English vol. 3, 5; Book. 28, 59; Hadees. 42, 504]

**Permission to wear silk during lice problem:** -

2. Narrated by Anas that Abdur Rahman Bin Auf & Zubair complained to Nabi about the lice (that caused itching) so He allowed them to wear silken clothes. I saw them wearing such clothes in a holy battle.

[Bukhari: 2920; Book. 56; English vol. 4; Book. 52; Hadees. 169]

**Treatment & prevention:** -

Wet combing, ketoconazole shampoo or soap, permethrin soap, tea tree oil, jujube oil, baby oil, olive oil, salt, garlic, white vinegar, coconut oil, petroleum jelly, sesame oil, mayonnaise etc.
Introduction

Plague is caused by the bacteria Yersinia pestis. Rodents, such as rats, carry the disease. It is spread by their fleas. People can get the plague when they are bitten by a flea that carries the plague bacteria from an infected rodent. In rare cases, you may get the disease when handling an infected animal.

A plague lung infection called as pneumonic plague can spread from human to human. When someone with pneumonic plague coughs, tiny droplets carrying the bacteria move through the air. Anyone who breathes in these particles may catch the disease. An epidemic may be started this way.

The three most common forms of plague are: Bubonic plague - an infection of the lymph nodes, pneumonic plague is infection of the lungs; Septicemic plague is an infection of the blood

The time between being infected & developing symptoms is typically 2 to 7 days, but may be as short as 1 day for pneumonic plague.
Risk factors for plague include a recent flea bite & exposure to rodents, especially rabbits, squirrels, or prairie dogs, or scratches or bites from infected domestic cats.

The plague is mentioned in Hadees as Ta’aoon (الطاعون) & it is a type of disease in animals, it is widely spread contagious diseases.

It is caused by Yersinia pestis, it is a small gram negative organism, which infects the rodents (large rats) & fleas, & by them it spreads among human, in an endemic form. It is also called as Black Death.

It mostly affects the lymph nodes, & called as Bubonic plague (lymph nodes are present throughout the body, but lymph nodes of groin get infected the most & called Bubonic plague, also axilla (under arm) has no other glands than lymph nodes (glands).

**Nabi ﷺ’s guidance about Plague:**

*Avoid entering in a place where plague is spread but if it is spread where you live do not leave the place:* -

1. Narrated by Saud ﷺ that Nabi ﷺ said: "If you hear of an outbreak of plague in a land, do not enter it; but if the plague breaks out in a place while you are in it, do not leave that place."

[Bukhari: 5728; Book. 76; English vol. 7; Book. 71; Hadees. 624]

**Plague a punishment:** -

2. Narrated by Amir Bin Saad Bin Abi Waqqas ﷺ that he heard Usama Bin Zaid speaking to Saad, saying: That Nabi ﷺ mentioned the plague & said: It is a means of punishment with which some nations were punished & some of it has remained & it appears now & then. So, whoever hears that there is an outbreak of plague in some land, he should not go to that land & if the plague breaks out in the land where one is already present, one should not run away from that land, escaping from the plague.

[Bukhari: 6974; Book. 90; English vol. 9; Book. 86; Hadees no. 104]

**Plague a punishment to a group of Israelis:** -
3. Narrated by Usama Bin Zaid that Nabi said: Plague was a means of torture sent on a group of Israelis (or on some people before you). So if you hear of its spread in a land, don't approach it & if a plague should appear in a land where you are present, then don't leave that land in order to run away from it (i.e. plague).

[Bukhari: 3473; Book. 60; English vol. 4; Book. 55; Hadees. 679]

4. Narrated by A’isha that she asked Nabi about plague & Nabi informed her saying: Plague was a punishment which Allah used to send on whom He wished, but Allah made it a blessing for the believers. None (among the believers) remains patience in a land in which plague has broken out & considers that nothing will befall him except what Allah has ordained for him, but that Allah will grant him a reward similar to that of a martyr.

[Bukhari: 5734; Book. 76; English vol. 7; Book. 71; Hadees. 630]

**If died due to plague is martyrdom (Shaheed): -**

5. Narrated by Anas Bin Malik that Nabi said: Plague is the cause of martyrdom for Muslim (الطاعون شهادة لِمُسْلِم) (who dies because of it).

[Bukhari: 2830; Book. 56; English vol. 4; Book. 52; Hadees. 83]

6. Narrated by Abu Hurairah that Nabi said: He (a Muslim) who dies of an abdominal disease is a martyr & he who dies of plague is a martyr.

[Bukhari: 5733; Book. 76; English vol. 7; Book. 71; Hadees. 629]

7. Abu Hurairah narrated that Nabi said: The martyrs are five: Those who die of the plague, stomach illness, drowning, being crushed & the martyr in the cause of Allah.

[Tirmizi: 1063; Book. 10, English vol. 2; Book. 5, Hadees. 1063]

8. Narrated by Safwan Bin Umayyah said: The plagues, abdominal illness, drowning & dying in childbirth are martyrdom. (One of the narrators) said: Abu Usman narrated this to us several times & on one occasion he attributed it to Nabi.

[Nasa’i: 2054; Book. 21; English vol. 3; Book. 21, Hadees. 2056]

**Plague will occur in Madinah: -**
9. Narrated by Abu Hurairah that Nabi ﷺ said: Neither Messiah (Dajjal) nor plague will enter Madinah.  
[Bukhari: 5731; Book. 76; English vol. 7; Book. 71; Hadees. 627]

**Lymph nodes swelling in plague:**

10. Hazrat A’isha رضي الله عنها narrates that she asked Nabi ﷺ about the plague & Nabi ﷺ said: "A gland that is similar to the camel’s gland & which appears in the tender parts of the abdomen & under the arms".  

**About plague & stars (Najm):**

11. It was reported in Hadees:  
[إذا كَلَّعَ النَّجْمُ ارْنَفَتْ الْعَاهَةُ عَن كُلِّ بَلْدٍ]  
When the Najm (literally: star) appears, every epidemic is removed from every land. (Najm is said to mean the star or the plants that appear in spring).  
[Musnad Ahmed: 9027, & Tabrani: 1305]

**Treatment:**

People with the plague need immediate treatment. If treatment is not received within 24 hours of when the first symptoms occur, death may occur. Antibiotics such as streptomycin, gentamicin, doxycycline, or ciprofloxacin are used to treat plague. Oxygen, intravenous fluids & respiratory support usually are also needed.

Patients with pneumonic plague should be strictly isolated from caregivers & other patients. People who are in contact with anyone infected by pneumonic plague should be watched carefully & given antibiotics as a preventive measure.
Lesson no. 36 Treating Lesions with surgery: -

INTRODUCTION

Surgery is an ancient medical specialty that uses operative manual & instrumental techniques on a patient to investigate or to treat a pathological condition.

The term “lesion” in a broad meaning word in medical field, here it can be taken as abscess, boils, furunculosis, carbuncles, tumors & etc which get infected with pus collection or putrefaction.

Prophet ﷺ’s Guidance in treating tumors & abscesses with surgery: -

1. Hazrat Abu Hurairah ﷺ says that Nabi ﷺ ordered a doctor to incise an abscess on the abdomen of a man. Nabi ﷺ was asked, "Does medicine help, Oh! Nabi ﷺ, Nabi ﷺ replied: “He (SWT) Who Has Sent down the disease, Has also sent down whatever He Wills of the Cure”.

[Al-Jaamus Sagir: 1688]
Lesson no. 37 Cauterization:

INTRODUCTION

The medical practice or technique of cauterization (cautery) is the burning of part of a body to remove or close off a part of it, which destroys some tissue in an attempt to mitigate bleeding & damage, remove an undesired growth, or minimize other potential medical harm, such as infections when antibiotics are unavailable. The practice was once widespread for treatment of wounds. Its utility before the advent of antibiotics was said to be effective at more than one level: To stop severe blood-loss & to prevent exsanguinations & to close amputations.

Cautery was historically believed to prevent infection, but current research shows that cautery actually increases the risk for infection by causing more tissue damage & providing a more hospitable environment for bacterial growth. Actual cautery refers to the metal device, generally heated to a dull red glow that a physician applies to produce blisters, to stop bleeding of a blood vessel & for other similar purposes. The main forms of cauterization used today in the world are electrocautery & chemical cautery - both are, for example, prevalent in the removal of unsightly warts. Cautery can also mean the branding of a human, either recreational or forced.

Prophet ﷺ's guidance regarding cauterization & puncturing of the veins:

Cauterization not liked by Nabi ﷺ:

1. Narrated by Jabir ﷺ that Nabi ﷺ said: "If there is any healing in your medicines then it is wet cupping (hijamah), or branding (cauterization), but I do not like to be (cauterized) branded."

[Bukhari: 5704; Book. 76; English vol. 7; Book. 71; Hadees. 605]
Cauterization forbidden:

2. Narrated by Ibn Abbas  that Nabi  said: Healing is in three things: A gulp of honey, cupping & branding with fire (cauterizing). But I forbid my followers to use (cauterization) branding with fire.

[Bukhari: 5680; Book. 76; English vol. 7; Book. 71; Hadees. 584]

Cauterization done:

3. Hazrat Jabir  says that “Ubayy Bin Kaab fell sick & Nabi  sent a doctor to him who cauterized him on his medical arm vein.”

[Ibn Majah: 3622; Book. 31; English vol. 4; Book. 31, Hadees. 3493]

4. Narrated by Jabir Bin Abdullah  that Nabi  cauterized Saad Bin Mu’adh  on his medial arm vein, twice.

5. Jabir  said that Nabi  cauterized Saad Bin Mu’adh  from the wound of an arrow.

[Abu Dawud: 3866; Book. 29; English Book. 28; Hadees. 3857]

6. Hazrat Anas Bin Malik  says that he was once cauterized because he was complaining from pleurisy while Nabi  was still alive. Abu Talha, Anas Bin An-Nadr & Zaid Bin Thabit witnessed that & it was Abu Talha who branded (cauterized) me.

[Bukhari: 5719, 5720, 5721; Book. 76; English vol. 7; Book. 71; Hadees. 617]

7. Hazrat Anas  says that "Our beloved Nabi  cauterized Asad Bin Zurarah  when he suffered from a septic finger.

[Tirmizi: 2188; Book. 28; English vol. 4; Book 2, Hadees. 2050]

No advantage received in cauterization:

8. Narrated by Imran Bin Husain  that Nabi  has disallowed cauterizing, but we were tested (i.e. with various ailments) & we did had cauterization, so we neither were successful nor did we acquire an advantage.

[Tirmizi: 2186; Book. 28; English vol. 4; Book 2, Hadees. 2049]
**Avoid doing cauterization:**

9. There is a Hadith narrated in Sahihain about the seventy thousand Muslims who will enter Paradise without (hisaab kitaab) reckoning, describing them as: "There are those who will not seek formulas (Ruqyah); nor cauterization, neither are they superstitious & they depend on their Lord for each & everything".

[Bukhari: 5752; Book. 76; English vol. 7; Book. 71; Hadith. 648]

**Conclusion:**

Cauterization should be only done in worst & very much needed cases, such as when a hand or leg is amputated. As for prohibiting cauterizing, it might be specifically directed at whoever was seeking a cure with it (not to close an open wound). In early times, people used to superstitiously believe that whoever did not have cauterization would certainly die & that is why our beloved Nabi ☪ disallowed.

Ibn Qutaybah says that cauterizing is of two types. The first type entails a healthy person using cauterization to fend off illness & it is this type that is referred to by the statement. Whoever reverts to cauterizing would not have practiced Tawakkul (depending on Allah); as such people seek to fend off whatever is destiny for them in the future. The second type entails cauterizing infected wounds & amputated limbs & cauterization is effective in such a condition. As for the type of cauterization that might or might not work, it is apparently disliked.

In short, the subject of cauterization fall under four categories, practicing it, disliking it, praising those who do not revert to it & disallowing it. There is no contradiction between these categories. When Nabi ☪ had himself cauterized someone, it indicates that practicing it is allowed. Furthermore, our beloved Nabi ☪ disliking cauterization for his Ummah does not indicate that it is prohibited. Nabi ☪ praising those who avoid cauterization, tells that avoiding it is better. Finally, disallowing cauterization can be explained in general as "either cauterization is disliked, or that it is directed at those who revert to fend off a dangerous illness (as the last option left)". Allah knows the best.
Lesson no. 38 Disasters & Calamities:

INTRODUCTION

A natural disaster is a major adverse event resulting from natural processes of the Earth; examples include floods, volcanic eruptions, earthquakes, tsunamis & other geologic processes. A natural disaster can cause loss of life or property damages & typically leaves some economic damages in its wake, the severity of which depends on the affected population’s resilience, or ability to recover. An adverse event will not rise to the level of a disaster if it occurs in an area without vulnerable population.

Allah Ta’ala says:

وَبَّأَشَّرِ الصَّابِرِينَ الْذِّينَ إِذَا أُصِبَّتْهُمْ مُصِيبَةً قَالُوا إِنَّا لِللهِ وَإِنَّا إِلَيْهِ رَاجِعُونَ

وَأَلْبَىٰ الْمُهْتَدِينَ صَلَاتَ رَبِّكَ عَلَيْهِمْ صَلَواتٌ مِّنْ رَبِّهِمْ

وَرَحْمَةٌ وَأَلْبَىٰ هُمُ الْمُهْتَدِينَ

Translation: But give glad tidings to Sabireen (the patient). Who, when afflicted with calamity, say: Truly, to Allah we belong & truly, to Him we shall return. INTRODUCTION

Burns are an injury caused by exposure to heat or flame. A burn is a type of injury to skin, or other tissues, caused by heat, electricity, chemicals, friction, or radiation. Burns that affect only the superficial skin layers are known as superficial or first-degree burns. When the injury extends into some of the underlying layers, it is described as a partial-thickness or second-degree burn. In a full-thickness or third-degree burn, the injury extends to all layers of the skin. A fourth-degree burn additionally involves injury to deeper tissues, such as muscle, tendons, or bone.

Burnt person should recite this Dua:

أَكِيَّبِ الْبَأْسَ رَبَّ الْقَآئِس ائْشَفَ أَنتَ الْشَّافِي لَا شَافِي إِلَّا أَنتَ

Translation: O Lord of all mankind, remove the difficulty & grant relief (for) there is no One but You who grants relief (cure).
